This guide contains an enemy list for the NES version of Final Fantasy III. Enemies are ordered by official bestiary number instead of alphabetized; because of this, enemies are ordered by strength. Bosses are listed at the end, as per the bestiary ordering.

**#** = The bestiary number entry.

**Name** = The name of the enemy.

**HP** = The enemy's health points.

**Lvl** = The enemy's level.

**EXP** = How many experience points you receive for defeating it.

**Gil** = How much money you get for defeating it.

**Weakness** = The elements that the enemy is weak to.

**Drops** = What the enemy drops after it is defeated.

**Steal** = What you can potential steal from the enemy.

**Location** = Where the enemy can be encountered in the game.
