=====
INFORMATION
=====

Master Fighter II is one of the few one-on-one fighting games for the Nintendo Entertainment System. Few people know of its existence, and indeed I was not aware of it until I found myself browsing through the Nintendo Entertainment System titles on GameFAQs one night. Intrigued by the only review then present I sought out this game (more or less) and, since there was no FAQ/Move List for it, I decided to make one for it.

Master Fighter II is a port of the original Street Fighter II. Allegedly it is an official release from Capcom. It exists in english, having been released in Europe, but I cannot say for certain if it was ever released in Japan. (I would assume it was if it is indeed an official release.) The game plays vaguely similar to the original arcade game, while the graphics are understandably reduced. It thus becomes something similar to Teenage Mutant Ninja Turtles: Tournament Fighters for the Nintendo Entertainment System.

=====
CHARACTERS
=====

The game only has five characters, and only four of them are playable. Logically this also means there are five stages to fight in, all of which are similar to their arcade counterparts (but with less movement in the background). The characters also have endings (except M. Bison of course, since he is unplayable). They are listed here alphabetically, excepting the final, unplayable boss who is listed at the end.

Assume facing right for all moves. "P" stands for punch and "K" stands for kick.

Chun-Li

Notes: Chun-Li is the only female character in the game.

Country: People's Republic of China

Stage: Chinese Village Square (day)

Biography:

At one point in Chun-Li's life Vega (Bison) killed her father. Since that day she has devoted her life to training in the martial arts. After searching for the man named Vega for several months (years?) she ran into Charlie Nash. When they realized that they were searching for the same man, they decided to help each other find Vega (Bison). Together they caught up with Vega in Brazil. They battled and appeared to defeat him, but at the last minute Vega (Bison) escaped in his private jet. They seperated and continued the search.

Some time later she recieved word from Nash and was preparing to head for Shadowloo HQ. However Guile arrived to question her. They battled and Chun-Li was defeated. Guile then left after Nash. When he came back, Nash was dead and Vega (Bison) had escaped (in the body of Rose). Three years passed.

The Second Street Fighter Tournament was set to begin. Chun-Li immeadiately signed up. She made it to the finals and prepared to face Vega (Bison). But first she fought Guile, and this time she won. Next she was to finally fight Vega (Bison), but before the battle could begin Gouki appeared at Shadowloo Headquarters and killed him (destroying his soul this time).

Five more years pass. A mysterious organization announces the Third Street Fighter Tournament. At this same time, someone kidnaps a gifted Chinese girl. Chun-Li joins the fights to find this missing girl. She gets a lead from Sir Urien. He agrees to tell her where the girl is if she can beat him (seems he wishes to take on the one who beat Shadowloo). Chun Li emerges victorious and, true to his word, Urien gives the girl to Chun Li. She returns to China and makes the decision to train the children of China in self-defense.

Guile, William

Notes: Guile's stage varies the most from any other characters's counterpart stage in the arcade game.

Country: United States of America

Stage: Air Force Base (night)

Biography:

The "original" American hero in the Street Fighter universe. Guile was always proud to call himself a friend of Charlie Nash. However when Nash went AWOL, Guile had no choice but to track down his and detain his renegade friend. Along the way, he ran into Chun Li who tried to stop him. Guile emerged victorious and continued on to the Shadowloo base. There he fought Nash and then decided to help him find Vega. Guile ordered the base bombed in an attempt to flush out Vega. Vega came out and battled both of them. In the fight, Nash and Guile were seperated. It was later found out that Vega killed Nash. Three years passed.

Vega announced the Second Street Fighter Tournament and Guile was one of the first to enter. In the end, both Guile and Chun Li made it to the final round. Vega was, of course, there too. This time, Chun Li took down Guile and faced Vega (Bison). However Gouki burst in and killed Vega (Bison) before Chun-Li could fight him. Guile then vanishes from the story. As a side note, Guile and Ken are brothers-in-law (their wives are sisters).

Ryu

Notes: This is the only Street Fighter game without Ken, who was an exact clone of Ryu when this game was made.

Country: Japan

Stage: Suzaku Castle (afternoon)

Biography:

Ryu is the perpetual wanderer and hero of the Street Fighter franchise, appearing in every incarnation of the series (except Rival Schools and Final Fight). His name is synonymous with the franchise itself.

Ryu began as a student training under Gouken, master of Shotokan. He was an orphan and thus spent his entire life in training. In these days he befriended Ken Masters. After much training together they decided to enter the First Street Fighter Tournament being held by Victor Sagat, the Muay Thai Champion. They battled through the matches together, but in the end it was Ryu who faced the mighty Sagat. Sagat had the upperhand, but for a brief moment Ryu gave into the Dark Hadou and defeated him with a Dragon Uppercut, scarring Sagat's chest. Shocked by his weakness he left Sagat and returned to Japan to see his master. While he was gone, however, Gouki, the brother of Gouken, had returned and murdered his master and the entire Shotokan school. Unsure what to do, but wishing to avenge his fallen master, he set out to travel the world and increase his strength so he could one day face Gouki.

He met many famous warriors on his journey, but none could prepare him for "that man" who sought after him everywhere he went. From the shadows Vega had been watching Ryu, waiting for the opportunity to recruit him into his ranks. Finally that day came in Thailand at Shadowloo Headquarters. Vega offered Ryu a place in his organization, but Ryu refused. Unconcerned, Vega engaged Ryu and defeated him. At this moment, unsure of how to survive, Ryu gave in to the Dark Hadou again. In his evil state he was an easy target for Vega who brought the now dark warrior into his fold with ease. As Vega was gloating, however, Ken, Sagat, and Sakura arrived and attacked the leader of Shadowloo. As the battle raged they called to Ryu and eventually brought him out of his trance. Ryu, returned to normal, attacked Vega as well. They fought for some time, but in the end he was repulsed and forced to flee. Shortly later Vega was killed and the world seemed at peace.

It was not to last though, for Vega, resurrected in Rose's body,

reappeared and put on the Second Street Fighter Tournament. Ryu entered the tournament and worked his way up, eventually facing Sagat again. Together they dropped out of the tournament and had a fair fight ending with Ryu's victory. At this point Gouki appeared and attacked Ryu. Having learned from his travels Ryu fought Gouki long and hard, defeating the dark warrior and sending him packing. Ryu then continued his travels.

When Gill announced the Third Street Fighter Tournament Ryu entered, but not for glory. Instead he wished to see the fighting styles of the new generation. In battle he faced many of these faces, including Yun, Alex, and Remy. Where he's gone now is not known, but he most likely is continuing his journey to become the greatest warrior.

Zangief

Notes: Zangief has the least number of moves out of any character in the game.

Country: Union of Soviet Socialist Republics

Stage: Construction Site (unknown time)

Biography:

A Russian wrestler known as the Red Cyclone. Zangief has fought for the Soviet Union ever since he saw some old footage of Mayor Haggar in action. He trained to fight so he could help bolster the Union's image. An example, Zangief was once picked up by a cyclone while training and was inspired to make a new move, the cyclone spin.

To prove his loyalty to the Soviet Union, he faced many fighters from around the world. He even wrestled bears to show the world the strength of Mother Russia. When he heard about the evil organization Shadowloo, Zangief went hunting for Vega. He ran into a sumo named Edmund Honda and they travelled to Thailand together. They even managed to find, and trash, Shadowloo HQ.

Later, he joined the Second Street Fighter Tournament to further prove his loyalty. The representative of Russia fared well, but didn't win the title.

Moves:

M. Bison (Vega)

Notes: M. Bison (Vega) is not playable.

Country: Thailand (Shadowloo)

Stage: Palace (day)

Biography:

Vega was the mysterious leader of Shadowloo before it's destruction. When he was young, he trained with two other students under an evil master. Vega learned to harness the mysterious psycho power. Using this power, Vega thought he could rule the world. At about this time he met a woman named Rose. Their exact relationship though remains a mystery.

Vega left his master and formed Shadowloo. He then set out to recruit warriors into his organization. First he found the scientist Senoh, then the Muay Thai champ Adon, Birdie the English thug followed, then boxing's bad boy Mike Bison, and lastly Balrog the conquistador. Vega then heard about a man named Ryu. This man had bested Sagat, the great Muay Thai warrior. He inquired about Ryu. This led him to Sagat. Sagat refused to join a group of criminals, but did agree to help find Ryu.

To further extend his influence, Vega captured twelve girls from around the world. He had them all trained to be killers. At this time Senoh perfected the psycho drive. Ready to strike, Vega suddenly made a strange request. He needed a clone of sorts. Senoh pulled this off and created Cammy. She soon broke loose though. Vega sent Balrog to find her. As this was going on, Chun-Li, Charlie Nash, and Rose were searching for him. Vega met all three in turn and quickly defeated them.

Vega then set his sights back on Ryu. He lured Ryu to Shadowloo HQ in Thailand. As Ryu arrived, so did Ken Masters, Sakura Kasugano, and Victor Sagat. To make matters worse, T. Hawk, E. Honda, Zangief, Blanka, and Dan came seperately too. Ken was first to see Vega. Vega captured him and waited for Ryu. T. Hawk came next, but Vega couldn't be bothered. He sent one of his dolls after him. Ryu finally came after that. Vega fought him and managed to release the dark hadou in Ryu. Ryu went berserk. As Vega gloated, Sagat, Sakura, and Ken cornered him. Vega sent Ryu at them. Together they repulsed him and knock him back to his senses. Vega then attacked, but was repulsed.

Vega fled into his base. Inside, Birdie attacked him. He was dispatched. Next Rose came Vega almost killed her, but Guy managed to pull her out of the base. Lastly Guile and Charlie Nash arrived. Nash attacked and was killed. Guile ordered the base bombed. Vega (now in the body of Rose) was carried away by Guy as the place went up in flames.

Three years passed. Vega was only able to find Mike Bison and Balrog of his former henchmen. Still after Ryu, he announced that the Second Street Fighter Tournament would be held. From all over warriors came. Among them were Guile, Chun-Li, Cammy, Sagat, Ken, and Ryu. As the fights raged on, Ryu and Sagat disappeared. In the end, Chun-Li and Guile faced off in the finals. Chun-Li was victorious and was to take on Vega, but as the final round was to begin Gouki suddenly appeared and killed Vega, destroying his soul.

Moves:

Double Knee Press

-Bison shots forward, kicking his foe as he does

Psycho Crusher

-Bison shots forward in a blaze of fire, burning everything in his path

Stomp

-Like Chun-Li's move of the same name
