Island City is the home of the evil alien Dr. Killehoff.

Across the river is Tromaville--home of the Toxic Crusaders.

The Tromaville Dump: Toxie has invited everyone for dinner.

"Yvonne should be here already. Where are the Crusaders?"

Toxie's mom arrives upset-"Toxie my son! Yvonne is missing!!"

Killehoff Appears!!!: "You toxic trash! I have captured Yvonne and the rest of the Toxic Crusaders! Find em if you can!"

After moving to the right for the first few steps you will encounter two Acid Throwers. They carry barrels of acid around and as the name suggest throws some of it at you. Attack quickly to take both enemies out. When you reach a small stream of acid jump over it.

Two Acid Throwers will appear from the left. While avoiding the acid, defeat both of them. After reaching two streams of acid jump in between the two to land on the solid ground. Some barrels will come rolling along the ground from the right.

Stay towards the top of the screen and jump should a barrel get to close. After the third barrel continue to the right. When the screen stops you'll have to fight three Acid Throwers. Two will come from the left and the other will come from the right.

With them all defeated carry on. When you reach another stream of acid a new enemy will appear which I will refer to as Acid Shooters. Two Acid Shooters will come from the left and one will come from the right. These guys have a longer reaching attack and can jump.

When you reach another two streams of acid three barrels will come rolling across the screen from the right. Avoid them by staying at the top of the screen and jumping if one is too close. When you reach a sign that reads Tromaville Pet Shop three Acid Shooters will come from the left.

After killing all three of the Acid Shooters three Acid Throwers will come from the left. Defeat them all to go to the next section of the level. As soon as you enter the next section a barrel will come rolling along from the right.

Avoid the barrel and then two Acid Shooters will come from the right as well. Stay to the left and let them come to you. It is easier to let them come to you rather than get injured by one of the streams of acid. After both are defeated jump in between each stream to get to solid ground.

When the screen stops moving you will have to fight three Acid Throwers. As soon as you defeat one another will come on screen and take its place. Defeat these three then to continue. Once you reach another three streams of acid three barrels will roll from the right side of the screen.

Stay towards the top of the screen to avoid the barrel. When the last one rolls by jump in between each stream of acid until you reach solid ground. Once the screen stops again three Acid Shooters will come on screen. It will be the same thing with the Acid Throwers where one is killed another comes.

Continue on until you reach a truck. When you move close to it two Acid Shooters will come from the left. Defeat them and then approach the truck again for two Acid Throwers to come from the left. Defeat them then get on the truck.

This is the Level Boss, a big slimey crocodile. This is a fairly simple boss. Whenever it is about to spit out spiked balls hit it in its face. You will know its about to spit when you see its cheeks puff up. Keep hitting it until it explodes.

Right off the start, two Acid Shooters will jump onscreen from the right. Defeat both and carry onward. When the screen stops three barrels will come bouncing across the screen from the right. Run to the top of the screen and wait here until all three are gone.

The next time the screen stops there will be three Acid Throwers. Defeat all three of them and then continue. When the screen stops once more three barrels will bounce onto the screen. Again, wait at the top of the screen until all three pass by.

Once by the barrels there will be some Acid Shooters coming up. Defeat both Acid Shooters and carry on. Run along and the screen will stop once more and three Acid Shooters will come on screen. Two from the right and one from the left.

Walk past several screens for another three barrels. Stay at the top of the screen to avoid them. When you come to a small set of stairs three Acid

Shooters will jump from the right. Go up the stairs to enter the highschool.
Two Acid Shooters will greet you.

Continue down the hall and three Acid Shooters will attack. If you defeat one another will fill in for it. After defeating four Acid Shooters continue down the hall. A little further down the hall and another three Acid Shooters attack. Defeat one and another will take its place.

As soon as you beat four Acid Shooters three barrels will roll onto the screen from the right. Avoid them at the top of the screen. Continue down the hall and another three Acid Shooters will attack. Once you defeat all three, three Acid Throwers will come from the left.

Continue down the hall and three Acid Shooters will attack. If you defeat one another will fill in for it. After defeating four Acid Shooters continue down the hall. After defeating all of them a brick will be tossed through one of the windows. Keep going down the hall.

When the screen stops again. You will need to fight four Acid Throwers. After killing one another will fill in for it. Keep going down the hall and the screen will stop moving. Two bricks will come flying through the windows. Then three Acid Throwers will come on screen. Beat one and another will come.

After killing all the Acid Throwers some barrels will roll onto the screen. When you come to a dead end more bricks will come flying through the window. Defeat the three Acid Shooters and go through the top right door. In the next hall defeat the three Acid Shooters.

When the screen stops again bricks will come flying through all of the windows and then three Acid Throwers will come on screen. Followed by three barrels. Take out throwers and avoid the barrels then continue down the hall. At the next dead end bricks will come through the windows.

Three Acid Shooters will come from the left. After defeating them two Acid Throwers will come on screen. Kill them as well then go through the door to the right in the wall. This is a simple fight. Wait at the left or right side after the biker goes on that side.

When they drive back onto the screen jump over his head and attack. His attack is that he throws molotov cocktails. Its not a very difficult fight but it takes good timing when your jumping so that you don't land in a freshly thrown molotov.

I may be a bonehead, but I'll be back to battle soon!!!

+Note+ Make sure to destroy every barrel you come across!

As soon as you start the level there will be three Acid Throwers. Defeat them and then jump over the acid stream. After passing by the lone barrel you will have to fight two Acid Throwers. Once you beat all the throwers two Acid Shooters will jump onto screen from the right.

Defeat these enemies as well and then jump the stream of acid. Shortly after hopping the last stream of acid you will then have to jump four streams. After getting halfway two Acid Throwers will come on screen from the right. Beat both of them and then shooters will come from the right.

After plowing through them continue to the right. As soon as the screen stops defeat three shooters and then fight three throwers. With both sets of enemies defeat hop over the acid stream. When you reach four streams of acid you will have to fight three shooters when you are halfway across the streams.

When you defeat one shooter another will take its place. When four shooters are defeated continue to the right. At the next four streams will be another four shooters. Defeat them all and then three barrels will roll onto the screen from the right.

On the third set of four acid streams you'll have to fight three shooters. After defeating all the enemies some barrels will roll by. At the next stream you reach you'll have to fight a three more shooters. Continue along until you pass a barrel and you'll then have to fight three shooters.

Once those three are dealt with three throwers will come on screen. Take care of these as well. Walk onto the next screen. You will now have to jump your way to the top of the screen. This is very simple so just jump from platform to platform.

At the top go through the door on the right. It will be the same boss from the first level. Just hit it in its head again until it eventually explodes. The one change for this level is that instead of spikes it now shoots faster fireballs.

I destroyed you, Pulluto. You Toxic Mutant!

This is a very linear level. You are on a skateboard so just make it past the waves of enemies and avoid any barrels. No matter how much damage you take you will not lose your mop. When you reach the end of the stage you will be off your skateboard.

On the next area run up the ramp while avoiding the barrels tossed by the

enemy. At the top head to the right. A helicopter will rise in the background as you leap off the screen. Its time for another boss fight. You will be on the helicopter with a security gaurd.

This is a very straight foward fight. Just keep hitting the guard while avoiding his bullets. Along with the shots from the guard you need to avoid them when they start bouncing. Also don't go to down or you may fall out the helicopter.

I'm glad you won because now I can go eat some donughts.

This is another straight foward level. You won't be able to jump so just keep going to the right. Whenever the screen stops you will need to defeat some enemies that are underwater. Wait for them to pop up then strike. When you come to a dead end enter the whirlpool in the top right corner.

You will now be underwater. Again this is a straight foward level. Just swim to the right and either fight or avoid the fish in the water. When the screen stops moving kill all the enemies on screen then swim up. You will now fight the level boss.

It will be a submarine. The weak spot is the glass window. When you hit it it won't be able to damage you for a few seconds. The pattern fot it is fly up fire rockets, chase you down, go down. Keep attacking it so that you kill it before it kills you.

Since I'm psycho I knew you would win! I told you so!!!

```
+-----+  
|      Level 6      |  
|  Island City      |  
+-----LVL6-----+
```

This is it, the last level. And like the last two levels its very linear. Just make it to the end of the hall. Along the way be cautious of spikes and missles. The spikes will come out of the walls while the missles come from the ground.

At the end of the hall you will be on a trampoline. Jump up on it to go flying up the shaft. Along the way there will be an enemy above you dropping barrels. Knock the barrels back and he will eventually fly off, and you will then reach the top.

This is a very easy section. Run up the ramps and then other the other side use the trampoline to cross the gaps. Make it all the way to the end to reach the boss. This is very simple. Above you spikes will drop down. Avoid the spikes and punch the "face" on the train until it explodes.

You will then be on a new area. With none other than Dr. Killehoff. This is a fairly simple fight. Just keep dodging his energy balls and then hit him. Move as soon as you strike so he won't be able to hit you when he counter attacks your attack.

It's curtains for you Killehoff, you oversized bug!!

A pollutant mutant from planet Smogula never gives up!!!

You may have stopped me for now Tozie--but I'll be back!!!

After Credits

I, Dr. Killehoff will never be defeated by the Toxic Crusaders

Congratulations you have just beaten Toxic Crusaders
