## 1) Introduction

---

This is a FAQ where I have translated the moves from VPW2 into English and into NM moveset format.

I chose to do this FAQ for several reasons:

- VPW2 rocks!
  - Monk Boon wanted this
  - This will be useful for translating movesets
  - This will also be helpful for my translating mod
-

## 2) Version Histroy

---

v1.02 - 18/7/06: Fixed an error with one of the taunts (The Ultimo Dragon taunt)

v1.01 - 21/11/05: Fixed two entrance taunts, and added Neoseeker.com to the allowed list

v1 - 17/11/05: Wooo... finished... kinda... haven't done the combo moves and the MMA stuff, although I think I should do the MMA stuff in a different guide. There's only a few unknown bits, which I can mend in the future. Anyway it's... 11pm and I'm really tired...
