Version 0.8 (last updated 2/24/2001)  
ASCII art done with FIGWin

This FAQ is (C)2000 Kurushimi. The original CAWs are (C) their original creators. This FAQ may not be reproduced in any way. If you wish to use my information or my FAQ, contact me. Same applies if you wanna post my FAQ on your web site. As of this version, the only sites allowed to use this FAQ, in alphabetical order, are:

Cheat Code Central (<http://www.cheatcc.com/>)  
CompuServe's Video Game Central Forum (GO VGCENT)  
GameFAQs (<http://www.gamefaqs.com/>)  
Neoseeker.com (<https://www.neoseeker.com/>)  
WWF CAWs (<http://www.wwf-caws.com/>)

If ANY other site has a copy of this FAQ, it is an illegal copy. So, if you happen to see this at another site, please notify me immediately.

-----  
A FEW NOTES

This FAQ only applies to No Mercy's Create-A-Wrestler system. No default character move lists, no Championship paths, no Survival tips, etc. This is strictly CAW. If you want anything else, go check out SuperShaneSpear's nifty FAQ.

If an item must be bought from the SmackDown Mall, it will have a ! next to its name followed by the amount of cash needed. If I have any prices wrong, feel free to E-Mail me. (UPDATE: I no longer have the resources to do this, as I've bought just about everything in the SmackDown Mall as of late. Also, due to the now massive size of this FAQ, I won't be able to go back and add prices in time for another update, because the FAQ will likely die by the time I'm done.)

If a CAW is missing anything that doesn't relate to appearance, that means you can put whatever you want in there. Just make sure you keep it true to the original wrestler. =)

Creations should be sent to pe\_kurushimi@hotmail.com. When sent, include which fed that wrestler is from, if possible (WWF, WCW, ECW, or Misc.). And please, PLEASE don't give me any of that "e-mail me if you want my CAW" crap, because

I will simply not reply. The only ways your wrestler won't be able to get in are if (1) it's a total piece of crap, (2) it's not true to the original guy, or (3) I can barely understand your grammar and/or the text is all messed up, which does happen sometimes with plain text e-mail.

#### VERSION HISTORY

- 0.1 (11/30/2000) - Here it is, the first version. It's not supposed to have ASCII graphics yet, so don't gripe. I'm going for quality in info, not eye candy. =)
- 0.2 (12/3/2000) - Fixed a few grammatical errors and other things that might leave some people confused. Also, take note that wrestlers that have been added won't be mentioned in the version history section; you'll find the version they were added below. I also added ASCII art courtesy of FIGWin. Oh, and by the way, because a few people complained about Raven's face, I stuck a little note there. It's a correction, not a modification, so I don't have to go to court. Ha.
- 0.3 (12/10/2000) - Whoops, my bad. I accidentally put Steve Corino, an ECW creation, in the misc. section last update. My apologies to Noah Brown; it's fixed in this version. I'm now starting to watch ECW on a weekly basis. WWF Armageddon is on tonight... have you ordered yours?
- 0.4 (12/17/2000) - Hotmail has been a real b\*tch lately, so I'm sorry if any sent creations haven't made it into the FAQ yet or if any e-mails haven't been answered. The chances of me moving to something better like Yahoo! are pretty high, so watch this section carefully.
- 0.5 (1/7/2000) - My god, I thoroughly apologize for the extreme lateness of this release. I've been very busy lately, doing things such as formatting another computer to get it to work again, preparing the house for a New Year's party, and of course my recent Christmas gift of SmackDown! 2. Rest assured, though, that this FAQ is far from dead; until the first WWF GameCube title is released, I will continue to pump out new CAWs as long as they keep coming. Among the updates are a new Requests section, a must if you can't decide who to create.
- 0.6 (1/14/2001)
- 0.7 (1/28/2001) - Nyaaagh! Another late update! Oh well, this is well worth it, as there are many more new CAWs available this week, and I've also added a new note above. Some CAWs sent haven't made it in the FAQ yet, as I've had a very busy schedule and haven't been able to touch the FAQ. So one of two things will happen... one, I'll make another update (0.7a) later this week with more CAWs, or two, they will be included in 0.8 next week. Until either happens, have fun with the new guys! =D
- 0.85 (3/7/2000) - Hi, everyone. This is a little release just to let you all know that the FAQ is still not dead; my schedule has been very tight lately. Hopefully, my "rival" Shawn Burk's FAQ has kept you entertained around this time, and I'm aware this isn't a huge update. However, version 1.0, to be released on the day of WrestleMania XVII, WILL be! Expect around 100 new CAWs to keep WWF No Mercy going when the big man is released. This will REALLY prove I'm not dead! Also, due to the overwhelming number of tasks I have that is about equal to the number of CAWs I receive, I can no longer promise that I will update the FAQ every Sunday. This should really set things up for a pleasant surprise when one day 1.1 is on GameFAQs, so keep watching, and keep them CAWs coming!
