Biography of Paul Bearer

~~~~~

Paul Bearer, the rotund manager of the Undertaker at the time, first made his presence felt in the WWF in 1990. As the manager of the Undertaker, he was the guiding force behind the Man from the Dark Side when he captured his first Federation Championship in 1991 and has helped make the Ministry of Darkness the most demonic threat in sports-entertainment-eight years later!

In 1997, Bearer turned his back on the Phenom and attempted to destroy him with Mankind and, later, the Undertaker's own brother, Kane. In another bizarre twist in the macabre family tale, it was soon revealed that the "Big Red Machine" was the manager's son! However, their father/son relationship would deteriorate, leading Bearer to abandon Kane for his calling in the Ministry!
