1.0 INTRODUCTION

=====

WWF Wrestlemania 2000, after a few delays, was released, with much fan fare, in November of 1999. It quickly became a top seller, mainly because the World Wrestling Federation is so popular. People flipped over the deep gameplay and wonderful controls, and soon word spread that this was the greatest wrestling game, not only on Nintendo 64, but possibly of all time.

Featuring such superstars as Rock and Stone Cold Steve Austin, this game is much

improved over the slower paced but still fun as hell to play WWF Attitude. With a ton of unique options and one of the deepest create a wrestler options around,

Wrestlemania 2000 became one of the most talked about games of 1999.

Featuring a modified engine of the popular Revenge, WWF Wrestlemania 2000 was a welcome sign for those WWF fans (including me) who bored of Attitude and its Warzone-like gameplay engine.

With a new WWF game coming out (WWF Smackdown for Playstation) it will be interesting to see whether or not this game will continue to be loved. With its great pedigree, it's a pretty safe thing to assume yes.

Hello everyone, and welcome to yet another wrestling guide from YOUR master reviewer and king of all that is wrestling, DaLadiesMan Steve McFadden! Some of you may be wondering why I am writing a guide for a game that is kind of old, especially with No Mercy on the horizon. I am kind of wondering myself, but the main reason is because I want to write a guide for almost every current wrestling game, even the ones I don't really like.

My WCW vs. the World guide is evidence of that. Regardless, this guide will have move lists and biographies of all the wrestlers that are in the game. Enjoy, and if you have any questions, make sure to email me.

Since I am a big WWF fan, I also pay close attention to some of the things that have happened in the past to the wrestlers. So don't be surprised if a few story line related things pop up throughout this guide.

Also this guide will feature the official biographies of all the wrestlers. This will include a little paragraph about the wrestler, and their official height, weight, etc.

In any event, enjoy the guide!

1.1 REVISION HISTORY  
=====

v0.5 (November 15, 2000): I told you I would be updating a lot today.  
-This is the version I will submit to GameFAQs in hopes of getting posted.  
-I finished the remaining six move lists, which means they are all done.  
-In my next update I will work on the game basics and game modes sections some more.  
-Currently this guide is at 258.2 according to my word processor.

v0.35 (November 15, 2000): Second of a couple of updates today, more than likely.  
-Move lists are now complete for 24 more wrestlers. Yes, 24.  
-That means I have now completed 51 move lists, with 6 to go  
-I have decided to submit this guide to GameFAQs after I finish the last six move lists.

-Currently this guide is at 235.7K according to my word processor.

v0.25 (November 15, 2000): First of a couple of updates today, more than likely.

-Fixed some formatting and reviewed Wrestlemania 2000 review for cosmetic reasons, added link to review in its place.

-Move Lists are now complete for 25 more wrestlers. Yes, 25.

-That means I have now completed 27 move lists, with 30 more to go.

-I have added the controls to the game basics section, I got the controls from the manual directly.

-Currently this guide is at 147.4K according to my word processor.

v0.1 (November 14, 2000): Got a lot done today.

-Bios and Line Art are finished for every wrestler.

-Move lists are complete for Stone Cold and The Undertaker.

-The format of the guide is completely done.

-Currently this guide is at 62.2K according to my word processor.
