I. Tori's Bio

Since emerging on to the scene in the World Wrestling Federation, fans have seen two sides of this spectacular athlete. Originally, Tori portrayed a timid fan with little self-confidence, she has since evolved into a more self-assuring, seductive woman.

Now that fans are witnessing Tori's true personality, they are still seeing two sides of her. The seductive side, which she has shown off in revealing her body painting vignettes. And her physical side, which she brings to the ring each time she goes into competition.
