First off my name is Andres Alba. I am usually browsing around GameFAQ under my account name tdna12k. This is my first FAQ. I love this game and it seems a lot of people do too. The reason I chose to write this FAQ was because I noticed that there was an incomplete FAQ already done and decided to try to complete it. I also wrote this as a sort of checklist because believe it or not I do not have every item and this way as I find items I can just update them here for everyone's enjoyment.

Keep in mind that the way I listed the items here is the way they are found in the game's item book. The items are not alphabetized, numerically ordered, or any other way of sorting.

If you have questions or suggestions my new e-mail address is miragedres@hotmail.com.

2) Version History

October 18, 2004. Version 1.8 is complete. My good friend EkaBokuchin informed me about the status of some items so rather than wait months to update this FAQ I'll do it now.

October 9, 2004. Version 1.76 is complete. One year later and still not completed. Hmmm I smell something fishy about this game. Got one (yes ONE!) new item and a couple of corrections from some of the people who e-mailed me in the past. EkaBokuchin and Armand Bergeron. (See there I did mention you guys.)

March 8, 2004. Version 1.75 is complete. Another major update and probably the second to last update I will make. Reformatted the FAQ. Got Sword of ???, Sword of Shigoutaitei, Paper 1, Hero Belt, Armor of Satan, and ???'s Z. I will continue playing until ALL items are under my possession. Mwa hahaha.

August 23, 2003. Version 1.25 is complete. This is a major update. Got Fake Dragon Claw, Album, and Ring of Genie. Found Skull of Devil King info due to Ryuhi Powers' Yuka (that's a lot of FD chars!) password. Also updated the 'Others' section.

August 17, 2003. Version 1.0 is complete. I will complete the Others section as soon as I have more items. Now I can finally rest. Sweet!

Okay now that that's out of the way let us begin the FAQ...

3) Battle Items

There are four types of items that fall under this category: Attack, Defense, Medicine, and Special which total up to 100 items.

6) Special Thanks

To GameFAQs and everyone that makes that website run. Everyone down at the Flying Dragon boards who have helped me out in the past. To EkaBokuchin and Armand Bergeron, keep those questions and corrections coming to my new e-mail address. (miragedres@hotmail.com) To Culture Brain for making such a great and memorable game.

Individual thank yous go out to my friends, Kevin and Mike, and my brother, Edgar, for introducing this game to me and because without them I would not have gotten anywhere near the amount of items I have now. Also to Ryuhi Powers for answering all my questions at the Flying Dragon message board.
