## A. Game Info

GAME NAME- HARVEST MOON 64 (AKA- HM64)

Makers: Natsume, Victor Entertainment

GENRE- RPG/SIM

## B. Story

So you've bought this great new farming game and you have no idea what its all about (why would you buy a game without knowing what it is or about? But just in case :) ). Well the story is this:

Your grandpa (who owned a ransacked farm) died. The town he lived in (Flower Bud Village) is worried about who will take over it (not like the town really benefited from the shut town, trashed, ransacked ,etc. farm). Being the hard working person you are, you offer to take care of the farm. Your father is kind of an idiot, so he thinks nothing of the farm or your grandfather's death. He wants you to work with him at his job, but you have other ideas. You want to work on your grandfather's farm. You officially got three years to impress your father and the towns folk. Officially that is... you can play for ever! (Well at least until you N64 gets so filled with dust and becomes really old technology and its rejected by everyone in the world and your called a looser because you play N64 still, so you stop playing the N64. sorry, I get carried away sometimes.)

Through those three years you must do accomplish the following:

1. Fix up the farm
2. Turn the farm into a money making machine
3. Get married
4. Have a kid.

If you can do that all in three years than you can beat the game. Actually. I did all of that in the first year. I spent the next two years doing nothing.

## C. Controls

\*III. HM World\*

\*\*\*\*\*

In every RPG, there is a game world. This world includes three essentials things. Characters, Place, and items. In this section, I weill explain the three essentials.

## A. Characters

The first of the three essentials is characters.

Characters are the living things that you can interact with in the game.

There are both human and animal characters.

Characters with a "\*" on each side of the name is a possible bride.

-JACK= The official name of your character, you can name him whatever you want

-KORO= the official name of your dog, you can name him whatever you want (at least that's the official name in the SNES version)

-MAYOR= The mayor of flower bud village. He shows you around if you want him to.

-MAYOR'S WIFE= Exactly what the name says. Nice woman, pretty ugly if you ask me.

-\*MARIA\*= Mayor's daughter (referred to as "the daughter" by Mrs. Mayor). Basically just a geek.

-MR. GREEN= of Green Ranch (go figure). You want live stock? Go see him. Want medication for your animals? Want a man with a GREEN Thumb (what a bad pun!!! Wait... he doesn't garden!)? Go see him! Ann and Gray's dad.

-\*ANN\*= Mr. Green's daughter, Gray's sister, and Rick's cousin. She gives you your horse (which as far as I know has no "official" name). She really loves animals. Her mother died when she was very young. Poor Ann! She'll marry Cliff if you don't make your move first.

-GRAY= Ann's brother. I quote Ann- "He's a real social disaster" Oh, believe me he is! How can he be related to sweet Ann?!?!

-RICK= Owns tool shop. He's Ann's cousin. His shop is never opened and he never sells anything! He sells like 1 or 2 items a year!!! It's so annoying! I think he's the only person who never gets married in the game, unless you never marry.

-\*KAREN\*= Cliff's cousin. Owns the vineyard. Constantly getting in fights with her father. She runs away a couple times. She marries Kai if you don't marry her and if you revive her vineyard

-\*POPURI\*= Her father travels... ALOT!!! Loves flowers. Her mother owns Lilia's Flower Shop. Mother is Lilia! Marries Gray if you don't marry her.

-\*ELLI\*= Owns the Bakery. Her grandma's life is in your hands (scary ain't it??). Marries Jeff , The Bakery Master.

-\*MARIA\*= Mayor's daughter. Works at the library. Very shy. Very mysterious, but not as mysterious as Gray! Marries Harris if you don't marry her first (who cares, she's a freak, let the little girl marry the thirty year old postal worker who doesn't deliver mail!!!! (Only in America...er...I mean... only in Flower Bud Village!))

-HARRIS= The Flower Bud Village mail man. Even though he never really delivers your mail or anyone else's.

-MIDWIFE= She delivers all the children in Flower Bud Village  
LILLIA= Owns the flower shop. Popuri's mother. Basil's wife.

-BASIL= traveling botanist. Lillia's husband. Popuri's father. Well, he sure does travel a lot! He'll leave in autumn and return sometime in spring. When

he comes back he'll give you a gift if your good friends with him and he'll have some rare flower seeds at the shop.

-JEFF= Owns the bakery. He looks french with a lower case "f".

-KAREN'S FATHER= A mean alchoholic that fights with his daughter alot. He owns the Vineyard.

-KAREN'S MOTHER= A shy nice woman that's caught between the never ending battle between her daughter and her husband.

-KAI= Works at the Vineyard. Might marry Karen. He's pretty much the nicest guy in the game.

-CLIFF= a bum that has no job. He has a hawk for pet (the only cool thing about him).

-SAIBARA= owns the craft shop. Not much info on him. His shop sells only two things in the whole game. He sucks.

-PARSON= The pastor guy at the church. He preaches about the goddess of nature and all that Bull Crap. He holds the funeral service for your animals when they die.

-CHIEF CARPENTER= the head carpenter. I don't like him. He's a jerk. He's the guy you go to if you want an add on added on to your house.

HONEY BUNCH AND SWEET PIE- they are the young couple that comes to your farm when you plant a lot of flowers.

OLD TIMERS- The old couple that hang out at the horse and dog races.

Three FRIENDS- three friends that hang out. They appear at the races and at your farm when you plant a lot of flowers.

MAY- the Midwife's granddaughter and the buyer's daughter.

THE BUYER- the guy that takes away your stuff every night. I wasn't sure if I should list him under a minor character, but if you think about, you rarely see him because while your at your field, he's at your farm's entrance. A whole screen away. Plus, you only see him at night and at some of the festivals. I might change this later on. Live with it for now.

KENT AND STU- the annoying little brats that are the potion shop owner's grandkids. They call you brother for some odd and twisted reason. Maybe there was some weird relationship between their mom and your dad? Lol. J/K I made that relationship thing up. ITS NOT REAL!!!!

-TAVERN OWNER= owns the tavern. He's pretty cool I think.

-CARPENTERS= they help the Chief Carpenter build the add-ons. Unlike their boss, they are nice.

-GREG= the fisherman that gives you the fishing rod. Oddly enough, the only black guy in the game. There should be more. I think the potion shop owner should have been black too. But that's just me and my weirdness.

-RESTAURANT OWNER- owns the restaurant on the top of the mountain. Lives with his wife.

-RESTAURANT OWNER'S WIFE- the wife of the Restaurant Owner.

-ENTOMOLOGIST- a geeky science guy that appears only when you plant the Blue Mist Seed. Some how, the flower attracts this rare butterfly and he is obsessed with getting a picture of it. if the flower grows successfully, you get a pick. (see photos section)

-Special Gourmet Judge- this guy has some fat lips. He judges the cow contest and goes to the festival that has all the food. This dude scares the living heck outta me!

-PHOTOGRAPHER- Takes pictures at some festivals.

-MRS. MANA- the lady that asks you to watch her cows.

-YOUR DAD- your dad. He's a jerk I think. You only see him like twice in the whole game. He doesn't even come to your wedding.

Animals:

CLIFFGARD= Green Ranch's prized horse. Your horse's brother.

DOG= Price: 0g (comes with farm)

Produces: nothing

Other Uses: Use in the dog race. Breed with Taro (leave your dog next to Taro)

How To Be Nice To: Feed daily, "walk" him, and put him outside during day (if not raining or snowing), and bring inside at night (For more info on your dog see the "WHATS UP DOG?" mini section at the end of the character section.

HORSE = Price: 0g (get from Green Ranch)

Produces: Nothing

Other Uses: Use in horse race. You can store your veggies in his bag thing. It directly goes to the collection box thingy.

How To Be Nice To: Ride him daily. Brush him daily.

CHICKEN = Price: 1,500g

Other Uses: Breed them to make more chickens (place egg in incubator).

How To Be Nice To: don't leave in rain. Feed it.

Other uses: N/A

How To Be Nice To: Brush it and talk to it daily.

COW = Price: 6,000g

Produces: S Milk (100g), M Milk (150g), L Milk (300g), Gold Milk (500g)

Other Uses: Can enter in Cow Festival

How To Be Nice To: Brush it and talk to it everyday.

## B. Places

This is the second Essentia

In any game, there must be a place for the characters to live in and roam around. Here I list just about every single place there is!

Here's more on the places:

Unlike HMSNES (harvest moon super nintendo version), there's a ton of places! Just when you think you've been everywhere, there's at least one place you haven't been, or something somewhere you didn't know about!

- YOUR FARM (NOT BUILT BY CARPENTERS)

-HOUSE:

The farm that your grandfather left when he died. and now its your job to take over it and save it from being destroyed or left to deteriorate or something.

-T.V.:

A T.V. Set that has only four channels.

1. Channel C-UP= WEATHER- tells you the weather. It's like our Weather Channel.
2. Channel C-RIGHT= SPECIAL EVENTS- tells you about upcoming festivals. Its like our CNN or FOX Channel.
3. Channel C-Down= EDUCATIONAL-not really helpful. It tries to tell you about the tools and the plant and all that jazz.
4. Channel C-LEFT= ENTERTAINMENT- Just a snowy channel. Here's the inside scoop on it. The Japanese version of the game has a real entertainment channel that has real entertainment. The thing was that the American version was so full of edited stuff and the text was bigger. (Japanese is symbol for each word. English is Symbol for each Letter. So English version is sooo much bigger). So in the English version, it was cut out to make room for the editing and text.

-POND:

This is where you refill your watering can. To refill your can, set your can to "B" and press "B" when your standing next to the pond.

-LIVE STOCK BARN:

This is where you keep, or should keep, your cows and sheep. When they're there, you can feed them. In the barn there is a box you can throw your wool or milk into so you can sell it.

-CHICKEN BARN:

This is where you keep, or should keep, your chickens. For some reason the small sized chickens get there own house and the large sized cows and sheep have to share a house! That's messed up man!

-FIELD:

This is where you can plant grass and or veggies. If you plant grass, you can leave your animals outside and they feed themselves. COOL! NOTE: YOU MUST HAVE AT LEAST A 3X3 PATCH OF GRASS FOR THEM TO GRAZE ON.

-SILO:

Even though you can't see the stuff, the silo holds your feed. The sign next to it tells you how much feed you've collected.

-DOG HOUSE #1:

A basic dog house

-DOG HOUSE #2:

A more fancier version of dog house #1

-TREE:

Just a plain old tree. OR is it? hit "A" in front of it to receive the TREASURE MAP.

-HORSE HOUSE #1:

Small house for your horse next to your live stock barn.

-HORSE HOUSE #2:

Only difference between H. House 1 and 2 is that # 2 has a different color

roof.

-YOUR FARM (BUILT BY CARPENTERS)

-GREENHOUSE:

A big glass building that you can plant grass, veggies, and flowers. Basically  
It's just a smaller version of your whole field.

-KITCHEN:

Just a big room with only three usable items in it.

1. The recipe paper

-Shows what recipes you've collected

2. The Power Berry paper

-Shows how many power berries you've collected and where you've  
collected them at.

3. The freezer

-Stores veggies and stuff.

-BATHROOM

If you use the shower, its the same as if you were to use the spa in the  
mountain. In other words, it restores your stamina.

The toilet is just there for fun. Where did the your character's grandpa go to  
the bathroom? Until you come along, there is no toilet! Did he never take a  
bath either? Or wash his hands! Now we all know why he died. He was stupid and  
never took a pee or crap, never showered, and never washed his hands after  
playing in the dirt all day! That's why he died. He basically killed himself.  
How tragic.

-DECK THINGA MA BOB

One word.

Pointless!!!!

This thing does nothing. Well, there is one thing it does. If you've  
accomplished certain things and you have this deck, all your friends will  
come over and have a party on your deck! What fun. I use it as a holding spot  
for my animals, they stay there and they still eat the grass!

I have also heard that having the party adds on to your father's score.

#### F. Power Berries

Here I have listed for you where you can get every Power Berry in the game! Aren't I awesome?

- Use your hoe at level one in your field. A Power Berries might appear at random if you dig around enough. You can't till your field in Winter, but you can find this one in any of the other seasons

-Throw a large, blue fish into the pond behind the fisherman's tent. A green imp-like monster will pop up and give you the Power Berries. Make sure you do this between 9:00 in the morning and 5:00 in the evening, or he won't show up. Guess he's sleeping, or something. This works during any of the seasons except for Winter, because the pond freezes.

-The Traveling Salesman will sell you a Power Berries at the Flower Festival in Spring for 1000G. If you can't afford this your first year, don't worry. He'll show up every year in the same spot until you buy it.

-You can win a Power Berries at the Egg Festival in the first Fall. It's almost impossible not to win, so this one's really easy.

-Try fishing off the dock on the beach. You'll eventually catch a Power Berries. This works in all four seasons.

-Either make sure your strength is at 100%, or eat a few pieces of cake to get it there, and then take a vegetable you have grown to the pond in the grove to the left of the carpenters' cabin in the mountains. Between the hours of 9:00 a.m. and 5:00 p.m, throw your vegetable into the water. The Goddess will appear and ask you to make a wish. Wish for strength. If you're already maxed out on strength, she will give you PowerBerry instead. This only works with vegetables you grew yourself, not ones from the mountain. Also, it should work in all four seasons.

-During Winter, the pond behind the fisherman's tent will freeze. You can walk across it to reach the large rock on the other side. Take a level three (golden) hammer and use your most powerful swing to break the boulder. A Power Berry will magically appear in your hands.

- Dig in the mine during the winter.

-Give Popuri's parents, Lillia and Basil, lots and lots of gifts. On his return from the south in the Spring, if you're good friends with him, Basil might bring you a Power Berry.

-In the third Spring or later years, fill your field with flowers. Plant eight to ten plots with a combination of Pink Cat Mint seeds and Moondrop seeds. I did it by planting five of each, but I think you can get away with less. When all of your flowers have bloomed, Stu, the little black-haired boy, will come and ask for one of your flowers. If you agree, he will give you his marbles, since he has no money. The next step is becoming good friends with the Harvest Sprites. Give them gifts until they are able to speak English, at least. Eventually, they will notice your marbles and ask about them. You can give the marbles to the Sprites, and in return, they will give you a Power Berry.

#### I. Best Place For...

Here I try to help you by telling you where the best place for stuff is. It's a small section now, but I hope to make it bigger. Email me if you have any ideas of what else to add to it.

##### -WOOD

Your farm. Well, until you clear all of your land and then there's no more. After that happens, the best place is in the mountain. The best place on the mountain is where the spa will go (where the busted bridge is) Eventually the spa will be built. Then the best place is all over the mountain. All the wood except for the wood that was where the spa was is still there.

##### -FISHING

I'm not sure, but I have a theory.

One of the Harvest Sprites says something like, "Where's the best fishing spot?...I don't remember... sorry." . My theory is if you become really good friends with the Sprites, the one Sprite will remember. NOTE: THIS PROBABLY WON'T WORK, BUT IT'S WORTH A TRY. EMAIL ME IF IT DOES IN FACT WORK.

You can also get a few tips from the carpenter!!! Talk to him and he just might reveal the location of his favorite fishing spot!

##### -GETTING FLOWERS

Once Popuri gets married, go to Green Ranch. Popuri has planted tons of flowers all along the path that leads to the field. You can pick them for free! NOTE: Popuri must get married for this to work!!

Also, in the mountain, there is a little area where there is a stream that leads into a little pond. In that area there is like 5 or 6 flowers.

Collecting flowers is helpful for winning a girl's heart.

##### -GETT'N DRUNK

Read the secrets section. In it there should be a part that talks about stealing wine for the wine cellar. That is the best place cuz it's free.

##### -MAKING MONEY

Other than your farm, the best place for making money is the mountain. Here you can find fruit, berries, and other misc items that can be sold for some cash. You can also get some even better stuff in the mine in the winter. I know its part of the mountain, but it is the best place within the mountain. NOTE: you can only get stuff from the mine from Winter 8th to winter 30th. Its closed the rest of the year.

##### -MAKING FRIENDS

The best place isn't really a place. Its more of a time. So, the best time to make friends is on the festival days. On these days, all of your friends are in one place! Also, most of the festivals allow you to dance. Other than using a cheat I list later on in the guide, Festivals are the best time to make friends.

#### B. HOW TO GET MARRIED

-By a guy who doesn't really know how in the real world.

Once you've got a pink heart with a girl, go to Rick's shop and buy the blue  
feather for 1,000g or 980g if you're good friends with a Rick ( The weirdest  
thing ever happened, It was the end of Spring and I hadn't spent any time  
getting to know anyone other than my wife-to-be. So anyway, I went to go get  
the blue feather and Rick gave it to me for 980g. And I never really talked to  
him or was nice to him or anything before that day. WEIRD).  
Once you've got the feather, give it to the girl with the pink heart.  
The next Sunday, you'll get married to her.

#### C. HOW TO GET KIDS

Be really nice to your wife. Talk to her every day and give her gifts every  
day. It takes for ever but It makes your score better. NOTE: once your wife is  
pregnant, you have to wait about 2 seasons for the bundle of joy to be born.  
And it's always a boy.

#### D. Hearts

Hearts represent how a girl feels about you.

Color	Feeling
White	Indifferent
Blue	Friendly
Green	Flirtatious
Yellow	Deep Affection
Pink	In Love

## V. Game Ending

Well. On the thirtieth day of the first season of the third year, your dad comes back. He will talk to some of the villagers and see how you've been working (or not working) through those last 2 years and 1 season.

He will talk to the following people:

### 1. Mayor

-He rates you on how much everyone likes you. If talk to everyone a lot, you will get a perfect rating from him.

### 2. Midwife

-She rates you on how well the girls like you. To get a perfect rating from her, get a pink heart with all the girls.

### 3. Potion Shop Owner

-He rates you on how well you take care of your self. To get a perfect rating, never get sick. To do this, never work in the rain all day.

### 4. Mr. Green

-He rates you on how well you take care of your animals. To get a perfect rating, make sure no animals dies and make sure you have the max. amount of animals.

### 5. Buyer

-He rates you on how much you sell. To get a perfect rating, try to ship almost every day. He is a hard guy to please.

### 6. Chief Carpenter

-He rates you on how many house extensions you get. To get a perfect rating, buy all extensions.

### 7. Greg

-He rates you on how relaxed you are. To get a perfect rating, try to fish a lot.

### 8. Basil

-He rates you on how big your grass field is. To get a fail proof perfect rating, fill your whole field with grass. See the secrets section for a tip about this

### 9. Special Gourmet Guy

-He rates you on how many recipes you got. To get a perfect rating, get all the recipes (See the recipes section)

After he talks to everyone, your dad talks to you and tells you how he thinks your doing. If you have the porch thing in the back of your house, you will have a party with all your friends on it. that's about where the game ends. Of course you can continue to play forever. Actually, some things can only be accomplished after the third year is over, so there is a reason to continue.

### SECRETS

Here's How I rate my secrets. This is how they do it in Nintendo Power Magazine.

I have the following ratings:

J4F- Just For Fun!  
SBF- Sent By HM64 Fan  
GE- Game Enhancer  
G-Glitch  
T- Tip  
GH- (Girl Help)

Also, TBA stands for Tested By Author (Not To Be Announced)

1) LOVE AT FIRST SITE... OF YOUR DOG!? (G?/GE/GH) (TBA)  
You can get Karen to love you in one night.

Go to the bar with your dog. While holding your dog, talk to Karen. She'll say something like "He isn't very clever is he?". talk to her over and over again

and soon, you'll see that Karen's love for you will slowly rise. I did this like the first night and was ready to marry her the next Sunday (except I forgot that you have to have a kitchen, so I had to wait a season or two).

2) Dog Eating Chicken (G) (G)

Place a baby chicken on your dog. Soon your dog will be gone. BUT! He will come back the next day.

NOTE: I've tried this one a bazillion times and it never works for me. Maybe it's my game, or maybe it doesn't work at all. Email me if you have done this and it works.

3) FEED A PLENTY! (GE) (TBA)

The following secret requires you to have the stairs that lead to your roof.

Place your chickens on your roof. Now they won't ever need to be fed. This is really helpful if you don't have a lot of time to feed your chickens or you don't have a field of grass.

4) NEVER GET SICK FROM RAIN... EVER!!! (GE)

Toss a fish into the pond behind the fisherman's tent. Once you do, the Water Imp will pop up and give you a blue Power Berry.

5) DOG EXERCISE (GE) (TBA)

This requires two things, your Horse (Has to be adult), and your Dog.

First: Stand by your horse with your dog close by.

Second: Whistle for your dog.

Third: Quickly hop onto your horse and ride around.

Your dog will follow you and get a lot of exercise.

6) NO DOG (G/J4F) (TBA)

Place your dog in your bathroom. Let him walk around a little bit. Eventually he'll walk into the black part of your screen. WARNING! DOING THIS WILL PERMANENTLY GET RID OF YOUR DOG!!! I DON'T SUGGEST THAT YOU USE THIS SECRET!!!

IF YOU GET RID OF YOUR DOG YOU'LL NOT BE ABLE TO ENTER THE DOG RACE AND YOU WON'T BE ABLE TO USE THE DOG GLITCH ON KAREN!!!!!!

7) THE BLACK VOID (G) (TBA)

When leaving the vineyard, walk into the black area that's in the direction of the village. Once in the void, walk to the left and you'll be in Flower Bud Village instantly. This cuts about ten seconds of a trip for you.

8) A Little Bit of Treasure. (GE/G) (TBA)

Go to the tree in your farm. Hit "A" and you'll receive a map. It gives directions to a treasure.

From the far right side of the field, go down 11 spaces and over to the left

3 spaces. An easy way to mark the spaces is to use your hoe.

Once you got the treasure (which is a music box. Just in case your wondering what it is), go to Rick's Shop and if you're his friend, he'll fix it up. If he doesn't notice it, give him some gifts and eventually he'll notice it.

Once he fixes it, give it to the girl you like. It will boost up the heart rating. Not sure how much it will boost it though. Email me if you know. You will get credit. The glitch part of this is:

After you give it to the girl, go back to the spot that you dug it up from. The thing is there again! So repeat the process and continually boost up your girl's heart level. This is a good way to get married really quickly.

#### 9) Cheating The Game (J4F) (TBA)

On a horse race day, talk to Mrs. Mayor and bet on all the racers. Bet all your money if you want. When your done entering how much you'll bet, hit "B" instead of "A". This will give you a full refund and you will still have the bet made as long as you don't talk to her until the next round.

#### 10) A Rare Bloom (J4F)

between fall 10 and fall 12, go to the top of the mountain and the Full Moon Berry will appear. Cool huh?

#### 11) Stuck In Time (T) (TBA)

Time freezes when you are inside a building.

#### 12) Five O'Clock Deadline (T) (TBA)

Once the Buyer takes all the stuff for the day (at 5 o'clock I think), you can't sell any more. You can put stuff in the box all ya want, but It wont count as anything sold. You're just wasting your veggies.

#### 13) Feed Me! (T) (TBA)

When feeding an animal, make sure you put the food in the right food bin. If you put food in an unused bin, the animal that you intend to feed will go hungry and get sick. If you don't know which bins are used and which ones aren't, hit "A" on the side that you put the food in from. It will display the animals name. If the bin displays nothing, it is unused.

#### 14) Seak Peek J4F/G (TBA)

If you can see the Buyer come into the farm, but not at the box yet, pause the game and you see that you have already got the money for what you put in the bos! Cool huh?

#### 15) Horse, horse! Where art thou horse? (G)

When ann comes to your house to invite you to see the Pika bunny, get on your horse and talk to her. You'll go see the bunny all normally, but when you wake up you'll be on your horse in your house. You cant leave until you hop off of him. Then he will dissappear for ever. THIS WILL GET RID OF YOUR HORSE FOREVER!!!

#### 16) This House Is Way Too Small!!! (T) (TBA)

Remember! You can't get married until you have had the kitchen made! And, you can't have a baby until you have the crib. No, not crib as in house. Crib as in baby bed.

-FAQ

Q. Can I cook the recipes I collect?

A. Nope. That can only be done in HM:FoMT

---

Q. How do I enter the races?

A. Mr. Green will come to your farm and ask you to enter. If you say yes, he will take your animal to the race. All you have to do is show up.

---

Q. How do I become King at the Harvest Festival?

A. There is no fail proof way sadly. I almost guarantee that if you don't win the first year, the Potion Shop Owner will. Here are some ways to increase your chances:

Save your game 2 days before the festival. Don't save after those days. If you don't get the coin, reset the game and try again.

The winner is chose 2 days ahead of time.

---

Q. Can I have multiple kids?

A. No. Unlike HMSNES, you can only have one. In HM: FoMT you can.

---

Q. Where the heck is this beach that everyone talks 'bout?!?!?!?

A. Go down the path that leads to the Green Ranch. Instead of entering the Ranch, go to the right (Not your character's right, your right)

---

Q. Why can't I get married?!?!?!?

A. You need to upgrade your house and have a pink heart with a girl. AND! In order to ask a girl to marry you, you need the Blue Feather.

-RUMORS

GREEN HOUSE RUMORS-

Rumor: The Invincible Katori keeps your green house from flying away during the hurricane.

Verdict: FICTION!!!! In order to keep it form blowing away you need not only the Katori, but the Mysterious Turtle. This can be won only at the Egg Festival.

Rumor: Keeping your dog inside the green house will keep it safe (The Green House).

Verdict: FALSE!!!! The only way to protect is by having the Mysterious Turtle and the invincible Katori. These two things are worth wasting your time at the stupid festivals. I wish I had known about all this before I lost 1,000+G in corn because of the dumb storm!!!!

-FISHING RUMORS:

Rumor: There is this weird black fish that is almost impossible to catch called the Jumper.

Verdict: Not even I can confirm that. I've read this rumor once or twice in other guides, so I thought you might like to know about it.

Rumor: You can the Super Rod from Greg if you catch the Jumper and give it to him.

Verdict: Well, if there is any chance of the Jumper rumor being true, there is a chance that this is true. The thing that gives me lots of doubt is the fact that it is rumored that Greg will give you like 1,000,000G if you give it to him. Then he gives you the rod. 1,000,000G for a dumb fish? Doubtful.

-RUMORED EXTRA STUFF TO GET

Rumor: You can get the Entertainment Channel from the Sprites. Also, there is a Fall veggie and hidden recipes.

Verdict: No Way. First of all, they are called the Harvest Sprites. Not the Cable Repair Man Sprites. Second, like I said in the places section, the space needed for the translation took up so much space that they had to take out some things. These include the entertaining Entertainment Channel, The Fall Veggie, and the other recipes. They were all just unimportant things. They way I see, they should've take out the strawberry as a plantable thing and kept the Fall Veggie. Fall is just so boring with nothing to plant. Or they could've gotten rid of the turnip. That thing is pointless.

Rumor: There is a second Photo Album.

Verdict: I'm not sure. This is truly a mystery to me.

Rumor: Once you get the rumored 2nd album and fill it up with pictures, there will be an option to build The Great Hall in your house.

Verdict: Three things almost entirely disprove this thing-

The 2nd album probably doesn't exist

There is no place to put a "great hall" in your house.

There isn't any room for another construction project on the add-on poster in the Carpenter's house.

-----  
I WONDER...

In this game, there are a lot of things that you see and wonder, "What the heck?". Well, this section is here to let you know that I wonder that too. And to show my weird thoughts.

If Popuri marries Gray, she plants flowers all over the place. You can pick them and give them to her and she'll be happy that you gave her a gift. And for the rest of the day, she'll still water the spots that the flowers were on. This odd behavior caused me to wonder, "What the heck?"

Why does your character wear white gloves? Or gloves at all? White gets so dirty. They should at least become darker as the day goes on. More dirt on 'em the darker! This fact left me wondering, "What the heck?"

Where do all the animals in the festivals and races come from? Think about it, the cow festival has at least five cows. You and the Greens are the only ones that have a farm. Plus you both can only enter one cow. Where do these other cows come from?!?! Also, where do all them dogs and horses come from in the races?!?!?! This really left me wondering, "What the heck?"

How come when its raining, your plants get watered, but if you plant them while it's raining, they don't get watered!!!! I keep wondering, "What the heck?"
