(1) Welcome

Welcome to my first (and already completed) Pokémon Stadium guide!
This guide has a lot of info on being a Pokémon Master. It has a lot of charts for each stage in the game. This guide should be the only guide that I have been really getting into! This guide is huge! Well enough over that, just start to reading it to become a Pokémon Master.

The gamer I am, Hyper Gamer. -Stephen Bolton (s_bolton__jr@hotmail.com)

(2)Round 1 Guide

This Round 1 Guide provides charts telling you what Pokémon each Trainer own. I might in the future try to get what moves the Trainers have set up for each of their Pokémon, but right now am too busy to do that. So if anybody who wishes to do this, please feel free to contact me asking to do this. Then once this info is gathered, it will be put into this guide. You will also be in Credits, and also by each thing you have contributed. Well read on to know what Pokémon and their trainers you will be encountering!

(2e) Gym Leader Castle

In this part of the guide I will provide a little tip containing what Pokémon type you should use in each tower, so you will not be cussing your brains out to beat those hard headed knuckle heads!!!

First Tower: Pewter Gym Battle

Brock uses his mind and has decided to use Rock type Pokémon, which these Pokémon are weak against Grass-type Pokémon and Water-type Pokémon. So you could use these two types against this whole tower to finish it off. This is one of the following great tips provided with this guide, so read on!

Trainer: Bug Boy |
Pokémon: Caterpie, Weedle, Metapod, |
Kakuna, Beedrill, Butterfree.

Trainer: Lad |
Pokémon: Bulbasaur, Ekans, Zubat, |
Oddish, Paras, Gloom.

Trainer: Jr Male |
Pokémon: Farfetch'd, Diglett, Pidgey |
Dugtrio, Sandshrew, Geodude.

Leader: Brock |
Pokémon: Onix, Graveler, Cubone, |
Vulpix, Omanyte, Kabuto.

Win: Opens Misty's tower |

Second Tower: Cerulean Gym Battle

Misty must of just loved those dog gone cute (bah!) Pokémon, so select Thunder-type Pokémon and/or Grass-Type Pokémon to finish the whole tower off.

Trainer: Fisher |
Pokémon: Squirtle, Poliwhag, Magikarp |
Wartortle, Seaking, Tentacool. |

Trainer: Jr Female |
Pokémon: Seadra, Pidgey, Kadabra, |
Voltorb, Diglett, Jigglypuff. |

Trainer: Swimmer |
Pokémon: Meowth, Goldeen, Mankey, |
Omanyte, Clefairy, Poliwhirl. |

Leader: Misty |
Pokémon: Starmie, Horsea, Psyduck, |
Blastoise, Staryu, Seel |
Win: Opens Lt. Surge's Tower

Third Tower: Vermilion Gym Battle

Surge brings out one of the coolest type (um, I don't know) out on to the play field "Thunder-Type" Pokémon. I suggest that you use Ground-Type Pokémon against his whole tower. Why? It's his only weakness.

Trainer: Sailor |
Pokémon: Machop, Spearow, Krabby, |
Slowpoke, Shellder, Golduck. |

Trainer: Rocker |
Pokémon: Porygon, Voltorb, Electrode |
Pikachu, Magnemite, Magnetron. |

Trainer: Old Man |
Pokémon: Growlithe, Nidoran Female, |
Nidoran Male, Ponyta, Charmeleon, |
Charmander. |

Leader: Surge |
Pokémon: Raichu, Voltorb, Electrode, |
Pikachu, Electabuzz, Magnemite. |
Win: Opens Erika's Tower

Fourth Tower: Fuchsia Gym Battle

Erika uses Plant-type Pokémon, so use Psychic-type Pokémon and/or Fire-type Pokémon to defeat this tower.

Trainer: Lass |
Pokémon: Jigglypuff, Wigglytuff, |
Eevee, Cubone, Paras, Rattata.

Trainer: Beauty |
Pokémon: Staryu, Seaking, Doduo, |
Pidgeotto, Rhydon, Dratini.

Trainer: Cool Male |
Pokémon: Marowak, Chansey, Parasect, |
Nidorina, Nidorino, Lickitung.

Leader: Erika |
Pokémon: Victreebell, Gloom, Tangela |
Vileplume, Weepinbell, Exeggcute. |
Win: Opens Koga's Tower

Fifth Tower: Fuchsia Gym Battle

Koga uses Poison-Type Pokémon. So it is best to use Psychic-Type Pokémon in this Tower.

Trainer: Biker |
Pokémon: Koffing, Grimer, Ditto, |
Weezing, Venonat, Tentacool.

Trainer: Tamer |
Pokémon: Kingler, Sandslash, Scyther |
Ivysaur, Weepinbell, Machoke.

Trainer: Juggler |
Pokémon: Drowzee, Kadabra, Mr. Mime, |
Hypno, Abra, Slowbro.

Leader: Koga |
Pokémon: Venomoth, Muk, Weezing, |
Venonat, Nidorina, Nidorino. |
Win: Opens Sabrina's Tower

Sixth Tower: Saffron Gym Battle

Sabrina has a sixth sense! So sense she can see Ghosts, she uses Psychic-type Pokémon. So it is up to you to pick Pokémon that are Normal Pokémon that have Bug-type attacks.

Trainer: Cueball |
Pokémon: Dratini, Primeape, Dewgong, |
Mankey, Machop, Rhyhorn.

Trainer: Burglar |

Pokémon: Ninetales, Vulpix, Ponyta, |
Growlithe, Charmeleon, Rapidash.

Trainer: Medium |
Pokémon: Gastly, Haunter, Gengar, |
Golbat, Lickitung, Tentacruel.

Leader: Sabrina |
Pokémon: Alakazam, Kadabra, Mr. Mime |
Hypno, Exeggutor, Jynx. |
Win: Opens Blaine's Tower

Seventh Tower: Cinnabar Gym Battle

Blaine uses Fire-Type Pokémon. To defeat this tower, use Water-type
Pokémon or Ground Type Pokémon.

Trainer: Judoboy |
Pokémon: Raticate, Primeape, Machoke |
Nidoking, Hitmonlee, Machamp.

Trainer: Psychic |
Pokémon: Slowbro, Alakazam, Poliwrath |
Starmie, Jynx, Hypno.

Trainer: Nerd |
Pokémon: Electrode, Snorlax, Golem, |
Exeggutor, Muk, Cloyster.

Leader: Blaine |
Pokémon: Charizard, Arcanine, Rapidash |
Magmar, Clefable, Kangaskhan. |
Win: Opens Giovanni's Tower

Eighth Tower: Viridian Gym Battle

Giovanni is a mystery alright!! Just make a good strong team with Using
Water-type or either Psychic-type, you choose!

Trainer: Rocket |
Pokémon: Golbat, Raticate, Persian |
Moltres, Dodrio, Parasect.

Trainer: Lab Man |
Pokémon: Kabutops, Magnetron, Fearow, |
Hitmonchan, Poliwrath, Lickitung.

Trainer: Cool Male |
Pokémon: Omastar, Dodrio, Tentacruel |
Clefable, Zapdos, Pinsir.

Leader: Giovanni |
Pokémon: Persian, Dugtrio, Nidoqueen |
Nidoking, Rhydon, Tauros. |

Win: Opens Elite Four Castle |

Elite Four

This section is divided into different sections of the Trainers.

Lorelei

Lorelei uses ice-type Pokémon. The best Pokémon to use against her are Thunder-type Pokémon and/or use Fire-type Pokémon.

Pokémon: Dewgong, Cloyster, Slowbro, |
Jynx, Lapras, Articuno.

Bruno

Bruno uses Fighting-type Pokémon, and my use Ground-type Pokémon. Use Water-Type Pokémon to finish him off.

Pokémon: Onix, Hitmonchan, Hitmonlee |
Machop, Golem, Rhydon.

Agatha

Agatha uses Ghost and Poison Pokémon. Use Psychic Pokémon, it works.

Pokémon: Haunter, Golbat, Arbok, |
Muk, Venusaur, Gengar.

Lance

Lance uses Dragon-Type Pokémon. He is quite challenging! So use Thunder-Type Pokémon and Water-Type Pokémon.

Pokémon:Gyaros,Dragonair,Aerodactyl |
Lapras, Charizard, Kangaskhan. |
You recieve: Go against Rival

Rival

Now here we go with a pain in a butt challenge! The Rival uses Rock-type, Water-type, Thunder-type, Normal-type, Fire-type, and Psychic-type. So to make things easier, make a team with the same types. OmegaGilgamesh e-mailed me recently and told me that when he fought against the Rival with his Pokémon Yellow Pokémon, he fought against

different types of Pokémon. So I decided to see what he was talking about. I added another list of Pokémon the Rival used while you use Pokémon from the Yellow version.

Rental

Pokémon: Exeggutor, Slowbro, Ninetales |
Clefable, Electabuzz, Pinsir.

Pokémon Yellow (If you use Pokémon from Yellow Version)

Pokémon: Flareon, Alakazam, |
Exeggutor, Cloyster, Magnetron, |
Sandslash.

You now win a Pokémon Present from Professor Oak. Go to your game boy organizer thing. You now have the choice to load it in your Game Boy game, or you can put it in your N64 Box.

When you get Pokémon from winning, you get the following Pokémon at Random:

Bulbasaur
Charmander
Squirtle
Hitmonlee
Hitmonchan
Eevee
Omanyte
Kabuto

These Pokémon are rare ones from the Game Boy games. So if you want a certain one, you have to wait a little bit.

2f. Vs. Mewtwo Battle

First you must defeat all of the trophies, and the Gym Leader Castle. Once you have done this, this mode will open up. The sky will turn dark.

I will only have this one chart, and the rest is up to you!

Trainer: Mewtwo |
Pokémon: Mewtwo |
Level: 100 (No matter what) |
Moves: Psychic, Rest, Blizzard, |
Thunderbolt.

3. Round 2 Guide

Well I finally have the weekend upon me, and ready to type up as much of this guide as I can! If I do not get this one finished, I will have the rest next release. Oh yea, this full section has a layout just like the other.

Rental list for Rival
Pokémon: Exeggutor, Slowbro, Ninetales |
Clefable, Electabuzz, Pinsir |

3f. Vs. Mewtwo Battle

Best advice I will be giving you for this hard battle is...you need to use your own Pokémon. Really Strong ones that is. I used Alakazam also in this battle, so use Psychic Pokémon against Mewtwo. I would also use Ditto, so you could transform into Mewtwo. And Good Luck!! After you beat this battle, you have officially completed the game (that is if you got Amnesia Psyduck, or Surfing Pikachu).

4. Kids Club

In this section I will explain how to play the mini-games. I will

also provide tips on each mini-game.

Magikarp's Splash

In this game you control Magikarp to jump up and down. The main objective of this mini-game is to make Magikarp hit as many times the counter up above. If you get the most, you win. But if you get the lowest, you lose. Make sure you press the (A) button until Magikarp hits the counter, then let go. Once Magikarp hits the ground, press the (A) button again. Repeat this as fast as you can, or you just might lose if you don't.

Clefairy Says

Now this game is fun, but I never win in it. You have to remember the signals the teacher gives you on the chalk board. You use the D-Pad to move your Clefairy when it is time to do the pattern. My best advice is to hold the control pad with your left hand, and have a piece of paper and pen or pencil to right down the pattern (or vice versa) (the other way around). Then you could look off the paper and do the patterns. Simply huh! Yea but if you want to do it the hard way, good luck is all I can say!

Run, Rattata, Run

This is one of the fun games. You have to make your Rattata run the track with jumping over walls. You must rapidly press the (A) button to make Rattata run, and press the Up button to jump over the walls. Once you see a wall pop up, you should press the Up button fast enough so that you will be able to make it over the wall.

Snore War

In this game you have to try not to get hypnotized. What you must do is press the (A) button with the swinging pendulum is lighted up, or you hear a tone. Once the swinging pendulum goes faster, just keep pressing the (A) button rapidly.

Thundering Dynamo

This game is hard, but it is fun to see who will get zapped. You control a Electric Pokémon. When the green light is on, press the (B) button rapidly. When the screwed up blue light is on, you must press the (A) button rapidly.

Sushi-Go-Round

Now in this game you are Lickitung. You have to make "your" Lickitung eat as many expensive sushi you see. It is also good to hog up the other foods also. Watch out for the bad food though, or you will lose some time.

Ekan's Hoop Hurl

In this game you must control your Ekan's to get around a Diglett. You must use the Analog stick for this. To get the Digletts in front, move your Analog stick a little back, then let go. If you want to get a gold Diglett, you must act fast before you friends get it. Gold Diglett's are worth 2 points.

Rock Harden

In this game you have to watch out for the rocks so they do not hurt you. So that is why you have the Harden Skill to destroy the rocks. Once you see a shadow on the ground by your Pokémon, use the (A) button to use the skill. Make sure you do not hold the button down the whole time, or you will lose.

Dig! Dig! Dig!

In this mini game you must rapidly press the [L] and [R] buttons to dig a hole. My only good tip is, you got to be fast, and not mess up with pressing the buttons. If you screw up with pressing the buttons, your Sandsrew will stop. You do not want this to happen!

7. Cheats

In this section I will dump codes in here that work. I will also put codes in here I created for the Game Boy Games Transfer Pack.

7a. GameShark Cheats

YOU NEED TO HAVE THE DIDDY KONG RACING KEYCODE TO MAKE THE FOLLOWING CODES, AND THE GAME TO WORK. YOU MUST ALSO HAVE THE ENABLE CODE PUT IN (BELOW). THESE CODES WERE TAKEN FROM THE CODE CREATORS GAME SHARK CLUB (I AM NOT SURE WHAT THE NAME IS ACTUALLY). I ALSO ADDED SOME GAME BOY TRANSFER PAK CODES THAT I HAVE CREATED. YOU MAY HAVE TO GO ON GAME SHARK CODE CREATORS CLUB WEB-SITE TO GET MORE UPDATED CODES.

|Normal Quantity Digits Modifier Instructions|

(Basic Instructions from The Game Shark Code Creators Club web-site)

First Off: The Quantity Digits of a code, are the 2nd set of 2 digits of the code

Now: You got to this page because you clicked on a '?', so these rules apply only for the '?'s of the code

Values: You can change these '?'s to any number 0-9 and any letter A-F. These values work in HEX mode 0-F. So, therefore, the higher the value, the greater the effect, and vice versa with the lower the value

Notes: Please NOTE, that not all values can be used for all games, so if the game locks up when you put in a certain value, please lower your value some!

7b. In Game Codes

This section contains codes that you can perform while playing the game. This section also contains some tips. Codes where taking from www.gameadvice.com .

Amnesia Psyduck:

Get all 151 Pokémon in the hall of fame.

Surfing Pikachu:

Successfully complete the game to unlock Surf for Pikachu.

To teach your Pikachu Surf, unlock Round 2. Then, get up to the Masterball setting on either the Poké Cup or Prime Cup (in Round 2). Complete the Masterball setting using Pikachu as one of your active Pokémon each round (he must be one of the three you choose to battle with). The Pikachu may not be part of a registered team or a Rental. If you succeed, the game congratulate you and ask if you would like to replace one of Pikachu's moves with surf. Select "Yes", and select the move to be forgotten. The Pikachu will now pull out a surfboard and ride the wave whenever Surf is used.

Note: Surfing Pikachu is not in the Japanese version of the game.

Talking Pikachu:

Upload Pikachu from the yellow version the game to Pokémon Stadium. When battling, Pikachu will say "Pike Pika" and have different motions for certain moves. Note: You must go to battle for this to work. Do not register Pikachu.

If a Pikachu is uploaded from the Pokémon Red or Blue or is a Rental, it will only make its basic growl, but look more aggressive.

Alternate Pokémon colors:

Pokémon that you upload from the Game Boy version can have alternate colors. Giving your Pokémon various nicknames will change its colors. Switch syllables, such as calling a Mewtwo to Twomew (blue color). Separate the syllables with a hyphen, such as Mewtwo to Mew-two. Also try naming the Pokémon in all lower-case characters. To find out more methods, note the color of the opposing Pokémon and look at their nicknames.

Alternate title screen:

Successfully complete Gym Leader Castle and Stadium modes. Pikachu, Blastoise, Charizard, Venusaur and Mewtwo will now appear on the title screen.

Get Pokémon for Game Boy game:

Complete one of the Gym Leader Castles of the Elite Four or your rival to get one of the following random Pokémon that can be transferred back to your Game Boy Pokémon game.

Eevee

Hitmonlee

Hitmonchan

Squirtle
Charmander
Bulbasaur
Omanyte
Kabuto

Start with all three beginning Pokémon:

When you start a new game, you can start with all three beginning Pokémon by starting over and choosing one of them in the Game Boy Pokémon game. Then, capture a Pidgey or Rattata. Save it to the boxes on Pokémon Stadium. Repeat the steps with a different Pokémon until you get all three. You can also save and keep Pokémon from your old game that you still want before starting over.

Get Pokémon presents faster:

Defeat the Gym Leader Castle. Then, when you want to complete it again go to the Gym Leader Castle, go directly to the Elite 4, then defeat your rival.

Round 2:

Successfully complete the game to unlock a much harder version of the Stadium, Gym Leader's Castle, and Mewtwo Battle modes.

Mewtwo Battle:

Complete all Cups in stadium mode, and defeat all opponents in the Gym Leader's Castle. Mewtwo is the last opponent you will face in both Round 1 and Round 2 versions of the game.

Mew:

Mew will become playable, as a "Rental" Pokémon, in the Round 2 version of the game. He can only be played in the Prime Cup tournament, the Gym Leader's Castle, the Free Battle, and the Mewtwo Battle modes.

Mew in Prime Cup:

This trick requires a Game Boy GameShark and Pokémon Yellow. First start the game and enable the GameShark code in to catch Mew. Put it first in your line up, then save the game. Go to the GameShark screen and enable the code for the first Pokémon in your line up to be any desired Pokémon. Check your stats it should display your selected Pokémon's picture but Mew's name and information. Save the game. Place the game in the transfer pak and go to the Pokémon Stadium building. When prompted to select Pokémon, chose the one that was Mew. When you start the match, the Pokémon will be Mew.

Bonus Stickers:

Successfully complete R-1 mode, defeat Mewtwo, and complete R-2 Mode, and defeat Mewtwo again. Enter the gallery screen, then hold L + R and highlight the "Print" option. Keep holding the buttons until "Print" changes to "Bonus" to access sixteen more stickers.

Kids Club Hyper mode:

In one player mode with three CPU controlled opponents, successfully complete "Who's the best?" five consecutive times under the hard difficulty setting within one match. Hyper will be unlocked as a new difficulty setting for CPU controlled players.

Play Pokémon faster:

Complete the entire Poké Cup to get a sticker on Game Boy Tower and Duo mode. This will allow you play Pokémon on the Nintendo 64 twice as fast.

If you beat the Masterball in Prime Cup, a "Superfast" setting will be unlocked in the GB Tower. The title will change to "Dodrio GB Tower". Press C-Left during game play in Pokémon Red, Blue, or Yellow to activate it.

Give Pokémon to another Game Boy pak without getting one back:

Place the desired Pokémon in a separate box from which you have your regular Pokémon. Next, transfer that box to the 64box on the N64. Then shut off the system (if you only have one transfer pack) and insert desired Game Boy pak. If you have two transfer packs, then just switch the Game Boy pak with the one you are going to trade to. Then, transfer the box with the Pokémon in it to the other Game Boy pak and you will have the Pokémon without giving one in return.

Flying Poké Cup roof lights:

Win the Vs. Mewtwo battle to see the credits. When a scene showing the Poké Cup Arena appears, look at the roof lights to see that they are flying.

Ineffective moves:

When battling normal type Pokémon do not use Seismic Toss. It can be a fighting move, but is not very effective. The same happens with the Mega Drain attack when battling some Ground Pokémon in the Poké Cup, Prime Cup and Gym Leader's Castle.

Hint: Substitute Pokémon and Missingno resemblance:

Use a Pokémon that has substitute. Use the substitute and it will look like Missingno. does in the snapshots.

Missingno warning:

Do not transfer Missingno or Mew to Pokémon Stadium. It may glitch the game and make it unplayable.

If Missingno present, select the gallery and choose where it is located. It should resemble a baby Rhydon that looks purple.

Place a Game Boy game with a Missingno in the line up or box. Do not register it. Go to the snapshot area and select a Missingno or any other glitched Pokémon. When you get outside to take pictures, the Pokémon will look like a miniature Kanghaskhan or Rhydon.

Mew warning:

Do not trade a Mew level 10 or higher in the trading mode in Pokémon Stadium. It will glitch the game, and if you want your data back, you must call Nintendo (1-800-225-3700) to fix it.

GameShark codes without a Nintendo 64 GameShark:

The "Import" feature and import pack can be used with Game Boy GameShark codes while playing the original game or codes designed for it.

Unlimited number of same Pokémon:

Note: This trick requires the Mega Memory Card from InterAct. Save your file on the Mega Memory Card. Go to the Pokémon Lab in and put the Pokémon to be duplicated in a 64 Box. Reload your game on the Mega Memory Card and receive your Pokémon in the 64 Box. Repeat as many times as desired to create an unlimited number of the same Pokémon

Pokémon with Style (found by Hyper Gamer)

Victreebel= VICTRACE (A BROWNISH VICTREEBEL)

Sandshrew= SHREWMANIA (Green Sandshrew, and purple eyes)

Charizard= ZARDCHARI (real dark red Charizard)

8. AUTHORS NOTES!

This section contains notes that should be read by everybody who has this guide. It contains info on what you can do, and what you can not do.

8a. Last Words for the Guide

I am still working on this guide to be a little bit more better, and help contain good useful charts. You can use these charts to decide which Pokémon you will use against the trainers. That is why I have a Rental Pokémon List with the moves, so you do not have to always go into each window having to check out the moves. This makes it much easier! I also include normal in game codes, and of course Game Shark Codes (which I mostly stick in!). This guide is all you need from all the other Pokémon Stadium Guides. All I want to really say is, my guides are really useful. I am not saying it is the best, I am saying you can actually get something out of the guide that can help you.

Well gotta go, and remember to get updated guides!

~Hyper Gamer

8b. History of Guide

Version 1.0 (March 25, 2000)- Started guide, had a little bit of charts already. Was not released yet!

Version 1.1 (April 19, 2000)- I got bored, so decided to work more on the guide. Fixed some minor spelling mistakes (capital letters mainly, and some words). Added a lot of sections, like the Rental Pokémon List and the Codes section. I also finished the Round 1 Guide up, which took a while to get finished!

Version 1.1 (April 20, 2000)- Version 1.1 (forgot to change the version number on my web-site) was released on my web-site (Hyper Gaming Interactive HQ).

Version 1.2 (April 20, 2000)- Added some more Game Shark codes, and also added the ones I have discovered. Guide doubled page numbers!! I also added the rest of the sections that I wanted to get finished. That means that this guide is completed!! (Mostly, but will add other stuff to it when I get bored)

Version 1.2 (April 21, 2000)- Version 1.2 was released on my web-site.

Version 1.3 (April 24, 2000)- Version 1.3 was released on GameFAQs and on my web-site. I added a section with some in game codes. Also added another section with Who has the rights to use my FAQ. I also added a little thank you to www.gameadvice.com.

Version 1.4 (April 25, 2000)- I added another list of Pokémon the Rival uses while you use Pokémon in the Yellow version. I also added another credit. It was to OmegaGilgamesh. Thanks for it! I also added some more Game Shark codes for the PAL version of the game. The other codes are American, so do not worry! I also finally added a bunch of codes, and plus some tips. Codes are from www.gameadvice.com .

Version 1.5 (April 27, 2000)- Stupid internet did not work April 25th at school, so I was really mad. Well it made it on time though. I started working on the Round 2 Guide. I never said I will never have a final release yet though, this is still the beginning!!! I am thinking about soon having a guide on Kids Club mode soon in this guide, so I might add that in the next version. I also added a web-site to the list of web-sites that have my guide. Which is Game-revolution.com, one of the best gaming web-sites of time!

Version 1.6 (May 4, 2000)- I finished off the rest of the strategies for Round 2 mode. I still have to start making the Rental list for Round 2 mode. I am not finished yet, next release should have tips on Kids Club mode. Till then!

Version 1.7 (May 5, 2000) (Morning time)- I started making the Kids Club guide in here so I could have it ready for when I go to school. If you are reading this, then this is the latest update. I also updated the Pokédex that I am making. The Pokédex will have everything you need in it, including a description strait from the game. This will take a while to get finished. Oh yea I also sent this off to Gamefaqs.com today!

Version 1.8 (May 5, 2000) (Afternoon time)- I finished making the Pokédex section. It can also be used for the Game Boy games. It has evolution levels in it. I will also finish up the Rental Pokémon listing. I just noticed that the Round 1 and Round 2 Rental Pokémon listing are exactly the same, so I will put the Rental Pokémon listing after all of the other stuff in it's own section. I am still not finished with the guide, but soon! I also added a bunch more Game Shark codes.

Version 1.9 (May 6, 2000) (Morning Time)- Last night I decided to finish up the last sections. I finished the Gym Leader Rental Pokemon List. I also did a spell check with the WHOLE document. This took a little time to do. I also took a section out. It was the "What I will add" section. Now that I have completed what I wanted to get put in here, there is no need for that section. This might also be the final update to this guide. If I discover something new, or forgot something, I will have a update whenever this comes about.

Version 2.0 (May 7, 2000) (Morning Time)- I had to fix a few errors that were in the document. I also added a few more evolution stages in the Pokédex.

8c. Credits

After a month of doing this guide all by myself (well it actually took 3 days to type up, man do I have pain in my hands). I wanted to get this guide finished as fast as I can, and look now!! It's (kinda) completed! And this is my second finished guide (The first was Pokémon Snap, it's smaller then this guide!!) from these three days. Well now

for the real credits!

Stephen Bolton "Hyper Gamer" <s_bolton_jr@hotmail.com>

I typed up the WHOLE GUIDE!! Even the GameShark codes I cut and pasted, and had to edit a little bit to get just right! I am happy for myself, now that I can finally get to my homework.

OmegaGilgamesh <OmegaGilgamesh@hotmail.com> - Sent me some info about the rival. I then added it to that part of the Gym Leader Castle R-1 section.

I thank Geocities for having such a great service for letting people make their own web-site. If it wasn't for them, I would not have had a web-site to put this on. I thank them the most!

I also thank GameFAQs.com for letting me put my guide on there really awesome web-site! It makes me feel good to have it on there site, then mine. It's more updated also!!

I also want to thank www.gameadvice.com for wanting to put my guide up, mainly because it contains a lot of good information.

I took a bunch of codes (plus some good helpful tips, plus warnings!!) from www.gameadvice.com .

I also really want to thank Game-Revolution.com for asking me to put my guide up on their web-site. I REALLY DO!! SO MUCH!!

Well that is all the credits, you could be in here too, that is if you submit something I do not have (mostly cheats).

8e. Who else has my guide?

This section contains who has the rights to put my guide up on their web-site. If you want to put this guide up, please read the Pikalaws for more detailed information.
