1.Introduction
```

```
=====
In the International Version of Armored Core: Formula Front
after you defeat Bren from Team Arti in the Formula Regular
League, Bren announces his decision to invite various teams
from all leagues. Selecting "League Match" grants you
access to 50 special Exhibition battles. This option is not
included in the US and Japanese versions of Formula Front.
For the benefit of all I created this Core list. Note you
still have to tweak the AI settings and Tune the individual
parts. Optional Parts are not included.
