### 1. Legal Stuff [LGL1]

---

---

You can use this guide for whatever you want. I don't care, really. You don't need to email me if you want to add it in your site. I've done this for the purpose of helping others, and the only thing you need to do is recognize that. But remember, stealers are same as parasites.

---

### 2. Controls [CTR2]

---

---

Analog - Move Character

- [ ] + /\ - Sp.2 - Consumes 1 Reiatu Bar( Limited to some characters only )
- [ ] + ( ) - Combo Attack ( Mix buttons for combos )
- L + R\* - Limit Release ( Uses 2 reiatu bars and become temporarily infinite )
- L + R\* - Form Release ( Uses 2 reiatu bars, certain characters will transform to Bankai/Resurrection )

\*Your Attack and Defense will increase during this move.

Note that each character has your own moveset. In other words, combos that works for Hinamori Momo, will not work for Nanao Ise, for example. The best way to master then is training. Never forget that!
