/ How to Play \

Play games, buy items, take pictures and sleep. That's the gist of the game. You are only limited certain activities in the day, afterwards it forces you to go back to the hotel to rest. After 2 weeks (14 days) of fun in the sun the game is over. You can always come back and play again. All your belongings you bought or recieved will be intact. Here are the things you can do:

Partnering Up

---

From the start of the vacation you can partner up with a girl. You can partner up with anyone if they are compatible with them. Look at the girls guide to see

who they are compatible with. To partner up with someone you have to give them gifts. Swimsuits make the best gifts. Sometimes your partner will leave you if you don't keep sending them gifts. It will say they 'left the island'.

A always guarantee way to get a partner: Use the tutorial at the character select screen!

## Gifts

-----

Giving gifts is how you get girls to partner up with you. Each girl have there own particular taste of gifts so check the guide to see what they like. If a girl doesn't like your gift they will give it back to you! You can also send gifts from the hotel to any girl. Make sure to wrap the gifts with the girls favorite color. You will also recieve gifts from your partner at the hotel sometimes.

## Shopping

-----

With the money earned from winning games you can customize your girls appearance with items and new bikini's. Items will always change from every visit. You can also find rare stuff if you're lucky. You can buy film at the Sports shop if you run out of film, along with the Digital camera.

## Hotel

-----

Hotel is where you go after a day spent at the beach. From here you can go to the Casino for games, send gifts, or view your photos and belongings. The 'Go to bed' option will take you to the next day of the vacation. Sleeping in will skip a day of the vacation. You will lose your partner if you choose this option. After you complete a 2 week vacation in the game a 'Go home Tomorrow' option will appear after the 2nd day. This will end the game and you may choose another girl to play with.

## Belongings

-----

You can view your belongings from the Hotel or at Poolside on the beach. From here you can equip any bikini or accessorie bought. To put things in your closet you have to be at the Hotel. Select the item with X and select 'Put Away'. The closet is a collection of all things collected in the game including Swimsuits, Accessories, and Items. Each girl have there own collection.

## Imitating

-----

When you have a partner you will have a new option at the beach locations called 'Imitate'. What this does is it helps you unlock even more Venus clips. This is

a quick way to unlock all the Venus clips for each girl. Go to different locations and Imitate each others poses.

### Zack Exclusive Bikini's

-----

These are bikini's that Zack will gift you at the hotel. You can't buy them at the shop, only Zack can. The only ones I found so far are ones for Kasumi. Other girls might have some but it is not certain. FAQ will be updated if I find more. Go to the girls section to see them.

### Pool-Hopping

-----

Hop across the pool! Use small jumps for short distances, big jumps for longer ones. You can press any button, but match the button with the button on the floats for bonus points. Hold the button to skip floats, press a button for single hops. This is by far the quickest way to make money in the game. If you're low on money play this! You can play this multiple times when you're playing alone and not with a partner or challenger.

### Beach Volleyball

-----

D-pad/Analog: For movement  
Circle: Pass or set to teammate  
X: Return Ball / Attack

Formation - L: Passing  
R: Blocking  
L+R: Normal

Serve Controls: X, X: Overhand Serve  
Forward + X,X: Jump Serve  
Back + X, X: Underhand Serve

Passing Controls: Hold down O: Normal Pass  
Forward + O: Quick Pass  
Up/Back/Down + O, O: Set Attack

You can gain a lot of money from this game. First to 7 wins the game. Use special techniques to gain even more money. You'll get the most money if you perfect them, 7-0. If you keep getting ties, the first to 10 wins.

Some quick tips:

- Follow the ball shadows. Because of the wierd camera angle it's hard to see where the ball might land. Don't play in the forest because you can't see the shadows well.
- Always set passes for your partner to spike. I have the most success scoring with this. You will most likely score.

#### Beach Flags

-----

Press X Repeatedly to run  
Press O to Jump the flag

Race to grab the flag in the shortest time possible! If your timing on the starting dash is good you might even get bonus points. Just be careful not to jump the gun or you will lose.

You can make decent money with the game. I just don't like it because you have to mash the X button repeatedly, wearing out my PSP button ;(

To unlock: Accumulate a total of 50 unlocked "Venus Clips" throughout the game with any girls.

#### Butt Battle

-----

Use the D-pad for this one.

Foward:            Attack  
Back, Forward: Strong Attack  
Back:               Dodge  
Up, Down:          Side step  
Analog:            Move camera

A competitive conflict of perfect posteriors. Use various attacks to knock your foe in the water! The key is to quickly dodge an attack, and then go in for your own.

Another way to make easy money but not the best. Sometimes the AI will cheat even if you have her near the edge. If you get 3 straight perfects you can make up to 100,000.

To unlock: Accumulate a total of 100 unlocked "Venus Clips" throughout the game with any girls.

Casino

-----

In the Hotel play Blackjack, Poker, or Slots.

I would not play any of these games if you want to gain money. They are too random and impossible to win. The AI can be just unfair to you. Save your money and don't play these games! Don't play the slots with the negative numbers on the machine. You can lose all your money if you hit the bad jackpot.

The poker game is Five-card draw. Bet and make the best hand with your 5 cards. Good luck winning this. :P

If you're not familiar with poker hands, here they are:

Pair	- 2 matching cards	Example: AA
2 Pair	- 4 cards that match each other	Example: 55 44
3 of a Kind	- 3 matching cards	Example: 2 2 2
Straight	- 5 cards of sequential rank	Example: 8 9 10 J Q or A 2 3 4 5
Flush	- 5 cards of the same suit	Example: Diamonds x 5
Full House	- 3 of a same card, 2 of the same card	Example: 444 JJ
4 of a Kind	- 4 matching cards	Example: 10 10 10 10
Straight Flush	- 5 cards of sequential rank and suit	Example: 2 of Diamonds 3 of Diamonds 4 of Diamonds 5 of Diamonds 6 of Diamonds
Royal Flush	- 10, J, Q, K, A of any matching suit

Venus Clips are a collection of flicks collected when you take a picture of the girls at different locations. Each girl have over 150 clips to unlock. I myself have not collected all of them but to get them you must take pictures at different locations and at certain times of the day. New scenes will randomly appear so you need to check every location frequently.

The Private Paradise located at the games title screen is where you can edit the flicks collected. You can move the clips around and select the swimsuit they can wear. The only swimsuits available are the ones you collected in the game. You can play 20 clips at a time.

Precious Memories at the title screen is where you can view all pictures taken.
