Sorry If this FAQ doesn't contain any fancy ASCII cover art to titillate your visionary needs. The main purpose of this FAQ is to mainly list out what can you carve out of these wyverns, and as well as to curb the influx of repetitive "WHAT DO I GET "INSERT ITEM NAME"" questions on the gameFAQs message board. The Items listed are in my opinion of which is the rarest, so if you get a Los Ruby on your first carve, good for you. As i said, it's just my opinion.

Yes, some may think it's blatant common sense that a Rathalos Webbing comes from well, a Rathalos, But well, you cannot carve a Rathalos Wing from a Elder Quest Rathalos, hence that's why this FAQ is implemented.

And since carving the same wyvern umpteen times to write this FAQ, if i missed anything out, please kindly email me, as it is quite taxing to keep carving, and getting the same stuff, and carving again to confirm if that's all i can get.
