Type of Treasure Spot Appearance of Gathering Spot (Detailed location of Treasure Spot)

Types of Treasure Spots - Gathering, Mining, Fishing, Bug Catching

Treasure Location

When describing the Treasure Location, there will be certain words used to make the description a little easier to understand. "Directly Direction to Treasure Spot] from [Entrance to Area #]" tells that the Treasure Spot is in a straight which is almost accurately in accordance with the direction stated. So in other words, if description says "North-West", going spot-on North-West will lead you to the exact spot. . When the description says "Just [Direction to Treasure Spot] from [Entrance to Area #]" it means the Treasure Spot is only a mere few feet in the direction explained, and that if followed, wont be too hard to find.
