FAQ History:

16/7/07 - Started (really) working on Enhance Factors @ 0:04AM

Hopefully I'll make it in time for 17/7? Whatever. *high*

DONE! DONE! DONE!! Enhance Factors DONE @ 2:22AM GOD DAMN THAT WAS
LOOOOOOOOOONG. Off to sleep. Oyasumi ~.~zzz

Started work on the side quests. So... tired...

I'm submitting this for now >_> Side Qs can wait.

15/7/07 - Completely carpet swept the entire game again to check for missing
stuff. Got the rest of the Gilgy gear and Kusanagi. When I look at
my L160 character, it gets... sad. Oh well.

Oh my Lord, the Ys Origins Super Arrange Soundtrack is so dead sexy
and beautiful to the ears. I can't get enough of it. <3 *adds to
Sora no Kiseki 3 OST playlist*

Yeah this is actually more like a blog than a FAQ now. Teehee.

<3 ZARD

Finished Main Quests and Walkthrough? XD

Finished Shields

Finished Glove/Gaunts

Finished Accessories

Finished Radiants/Quests

14/7/07 - Finally got back to working on the FAQ >_>

(Break)

8/7/07 - Finished Beastiary @ 0:30AM

Started Main Quest

Finished Weapon List

Finished Rare Drop List

Started work on Main Quests/Ailily/Doplund/Gavada

Started work on Attack/Skill List

Started work on Tech Trees

Finished Armor and Helm lists

Finished Cooking, Smithing, Tailoring, Item Making

7/7/07 - Opened the file with Wordpad by mistake, screwed up formatting...

Finished Recipes.
Started work on Bestiary...
Finished VS Tales Characters.
Started work on Items/Weapons/Ore/Food list...
Started work on Armor/Helm/Shield/Gauntlet/Acc list...
Started work on Radiant/Rare lists.
Started work on Enhance factor chart...

5/7/07 - Finished Hard/Mania drops list. Lawl that was fast.

4/7/07 - Got Eternal Sword and Excalibur...

My Gilgy set is STILL 3 pieces away... Started FAQ, too.

Foreword: [RM01]

HAVE YOU READ THE LEGAL DISCLAIMER? IF YOU HAVEN'T, GO BACK AND READ IT!

Uh, I guess I gotta apologize - I didn't make good on my promise to make a Phantasia PSP FAQ -_-;

Sorry.

After playing through ToP on the PSP, it occurred to me that the changes weren't significant enough to warrant a new FAQ, especially one that would be a carbon copy of the 20 FAQs that already exist. So I just stopped writing the FAQ. (If you've got a problem, you can shove it.)

So as compensation, I decided to make one for TotW instead. After browsing a bit on FAQs, it was clear that the English version would soon make its debut.

So why not? Actually, I can think why NOT, but anyway - welcome to literally, my biggest FAQ yet. I started out just listing rare drops and triggers, then I said to myself "Screw it. Let's make this big."

Don't:

E-mail me questions composed of
 "how do I beat - named character-?"
 "why aren't your char names right it's -stupid translation name-, blah"
 "which characteris better"
 "why isnt -someone- in this"
 "i liek luke > stan"

Do:

Tell me which armor/item names have been changed in the US version for corrections and editing.

Oh, and you CAN mine for fish.

=====

Titles: [RM02]

Titles -	How to get	Effect
[Descender] ディセンダー	Story	None
[Apprentice Ad libitum] 見習いアドリビトム	Story	None
[Ad libitum] アドリビトム	Story	None
[Street Savior] 街の救世主	Story	OverLimit Gauge increases as you walk
[World Savior] 世界の救世主	Clear the story	Higher EXP gains
[Berserk] ベルセルク	Obtain all Radiant parts for Senshi/Warrior	OverLimit Gauge increases as you walk

Rumored:		
[Treasure Hunter] トレジャーハンター	Obtain all Treasures (財宝) ???	
Bonus:		
[Perverts] すけべ最低男	From Kannono/Arche/Refill For Chester & Lloyd Only	... No, you can't keep it.
[Flat Chest] ペチャパイ	From Arche For Kannono	... Not this one either.

=====

Unique Item Drops: [RM03]

Note: Some of these can only be obtained on Hard/Mania.

Drop Requirement: On that difficulty level, an enemy that drops the same type of weapon. Example: Rafflesian drops Rapiers, so on Mania, it will drop a Kusanagi because its level is higher than L144. Check the bestiary if you want to know what drops what.

Side: Tales Characters also drop Uniques. Check the bestiary for a list.

Weapons:

Excalibur (N/Lv 40)
Eternal Sword (H/Lv 89)
Kusanagi no Tsurugi (M/Lv 144)

Bahamut Tear (N/Lv 40)
Gaia Cleaver (H/Lv 89)
Mjolnir (M/Lv 144)

Nagafune (N/Lv 40)
Kotetsu (H/Lv 89)
Shiden (M/Lv 144)

Venom (N/Lv 40)
FPMP (H/Lv 89)
Fod Weapon (M/Lv 144)

Hama no Yumi (N/Lv 40)
Wind Force (H/Lv 89)
Eden's Fire (M/Lv 144)

Gale Staff (N/Lv 40)
Uroboros (H/Lv 89)
Hanuman Shaft (M/Lv 144)

Armors/Clothes/Robs/Helms/Hats/Hands/Feet/Shields:

Gold Armor (N/Lv 40)
Mumbane (H/Lv 89)
Heavenly Garb (M/Lv 144)

Behrostell (N/Lv 40)
Reedial (H/Lv 89)
Valmega (M/Lv 144)

Charmil (N/Lv 40)
Excal (H/Lv 89)
Amelia's Love (M/Lv 144)

Golden Helm (N/Lv 40)
Envisage (H/Lv 89)
Desperado (M/Lv 144)

Angel Ring	(N/Lv 40)
Aifreet Hat	(H/Lv 89)
Pyrex	(M/Lv 144)

Hyper Gauntlet	(N/Lv 40)
Tamagushi no Kagote	(H/Lv 89)

Main Walkthrough [RMWF]

Ailily

Evidence (Shrine):
[Solo]

Your first main quest. Keep moving on the first floor towards the middle. You'll find a plushie with a note in it asking for help. Auto-cutscene back to Kratos.

Find Lloyd (Shrine):
[Solo]

Keep moving to the left side of the first floor until you find Lloyd, who attacks you no matter what. Bash his skull in if you can. Win or lose, event still takes place.

VS Lloyd - For the physical classes, this really shouldn't pose a problem. Bashing Through -> Counterattack/Crit Def -> Counterattack
For casters... good luck. Most of his skills are limited to Tokugi, so the recovery will also be short. Try to get a Fireball off on him when you can, otherwise just run. Monks... PIKO HAMMER!

Rescue Prisoners (Shrine):

Move to the second floor, then start with the lower left part. Rescue the man behind the door, then the little girl and old man towards the middle right, then head left and up to rescue Stahn. Before opening Stahn's door, get ready for a fight with 2x Pedestal and 2x Gargoyle.

Escort Stahn (Shrine):

Escort Stahn all the way to the north western corner of the third floor. Beware of 3rd floor spawns. Quest end.

Demon Corridor Appears (D.Corridor):

To get to the 3rd floor - RIGHT, LEFT -> 2nd Floor, RIGHT, LEFT, STRAIGHT, RIGHT -> 3rd floor.

If you want to get the treasures, do so before or after you've finished the quest. Even if you get lost, just press start to exit the dungeon.

VS Ganser - Take out his minions first, then beat on Ganser. He will cast Eruption, so use your Magic Guard and normal Guard against his Status attacks. I don't think there's anything to add...

-> Doplund

Investigation 1 (Mine):

Work your way through the mine (take the right route) until you reach 5/F.

VS Rockworm - As the RW is alone, you can take two or three mages with you, if you need them. Distract the Rockworm with skills like Chirisazame/Akisazame until the mages cast their spells, or just block. Either way, make sure your health doesn't fall below 1.5k too often, as a few clean hits from the RW can waste you.

Investigation 2 (Magma Valley):

Head towards the right side (3/F) and work your way to the end. A cutscene will ensue.

Investigation 3 (Magma Valley):

Head left this time (2/F) and make your way to the end of the left side. A cutscene will ensue and the way previously blocked by lava will now be cleared. Keep heading forward on the path and you'll fight Drake. Note that after this mission, you're free to come back to this spot and mine Septanite and Ruby Ore. You may need Gold/Silver Mattocks to get a good haul.

VS Drake - One of the more annoying fights for me, as Drake has a tendency to increase his altitude, making it hard for Fencer skills to hit. If anyone has Embrace End (you probably don't have it yet), make them cast it. If Drake is flying high, it will be hit over ten times by the spell, making the battle far shorter.

Rescue Leon & Kill Gilgalim (Forest):

Work your way to 3/F until you see Leon, who joins you after an auto-cutscene. Keep moving towards 4/F until you hit the Gilgalim.

VS Behemoth - This fight is actually pretty pathetic. Get someone, anyone, to use Chirisazame/Akisazame on Behemoth, then race in yourself. Keep repeating the chain until Behemoth is dead. If you're good, you can get up to several hundred hits here (remember to keep the TP levels high). For those who prefer using mages, keep Behemoth distracted with Piko Hammers until the bigger spells go off. Wind spells work great to keep it in the air.

Eliminate Monster (Mine):

Make your way back to 4/F then take the upper route to 5/F (stop by to mine some Mithril/Platinum ore if you haven't already).

VS Grelhorn - This overgrown moose needs to be slaughtered. Kill it with light. Again, keep bashing it with continuous Akisazame/Chirisazame series of techs to keep it occupied. It might be a good idea to get someone to hit it from the front while you go round the back to hit it from there. Not a difficult fight.

-> Gavada

Find Harold (Ancient Forest):

Get to 2/F and the center of the map. You'll find Harold's scepter.

Get Fluorite (Ice Cavern):

Head to the end of 3/F for a boss fight. Watch out for the Ice Spirits - they are dangerous in large numbers.

VS Ice Spirits x4 - Like any random encounter, use large area fire spells. Cast Eruption -> Ancient Nova if anyone has it, or if you're using a close combat squad, get your team to take on one at a time.

Search & Rescue Harold (Ancient Forest):

Go back to the same spot in 2/F to find Harold.

Destroy Mana Laboratory (Ancient Forest):

You can now access 3/F and above, so do that. You won't lose your way in here, unless you're REALLY bad with things like coping with two directions.

VS Tyrant Totus - It's slow, but it packs a huge punch. Don't let it get too close, or it'll KO you with its floor pound. Another thing to beware of is that it has a tendency to charge forward within "walking" distance, so always skip back if you feel its too close for comfort. Keep distracting it with whoever you're controlling and let the mages let loose wind spells before rushing in yourself. Approaching it, even in Over Limit mode, can be dangerous

so make sure you've got enough health to break out a full combo, ending with your Hi-Ougi.

->Doplund

Chase After Disappearing Mana (Forest):

Keep moving to the 4/F. Auto-cutsceane.

The Wandering Girl (Forest):

Keep moving to 4/F, where the Gilgalim was.

VS Kannonno - Technically, she's no different from any of the Tales characters, except she's really, REALLY hard to stun. Don't bother trying to keep your party alive, unless you plan to use a whole lot of healing items. Use long range skills until she starts casting, then mob rush her. Hopefully you'll break her casting and start racking up combos. After her HP is drained enough, she'll start shifting towards complete casting, so use the opportunity to shell out an Hi-Ougi or two. Remember Hi-Ougi and Unison will interrupt everyone's casting and spells, so if you can't manage to stun her quick enough, use HO/UA to cancel her Meteor Swarm. If you're lucky, you can get a Red Line Shield.

-> Ailily

The Withering World Tree (World Tree):

Make you way to 4/F.

VS Aurora - If you're not confident about dodging projectiles, equip a Stone Check before entering this one. Aurora has an extremely annoying tendency to keep sending out her petrification butterflies. The pink butterfly explodes ala Flare Tornado, except it's more of a Flare Pillar, and it HURTS (1.6k~). Aside from status ailments, Aurora will also teleport around. If you don't keep her attention, your team members will get pounded instead. Very hard to keep members alive after one goes down.

Infiltrating Gilgalim (Gilgalim):

Note: You beat the game after this, so make sure you finished whatever quests you have remaining, such as bread making, or you'll have to do it ALL OVER AGAIN from no.1 of the series!

Not much to say about this dungeon. You can mine (note: mattocks) for ANYTHING here, from wheat remains to pure septanite. You can also get a Moon Crystal from the chests, which is the most awesome piece of accesory for anyone, especially Mages, Fencers and Ninjas.

VS Widdershin (1) - This guy is no joke for anyone without long range skills. Your party might be slaughtered immediately, so don't bother healing them unless you're in need of a weak meat shield (aka mage suckers). Use skills like Majinken Souga/Rengazan (Fencers/Magic Knights), Bomb Rain (Thieves), Shinzu Mekkyaku (Ninjas) to keep Widdershin away (in Ninja cases, to prevent being raped). If he teleports, he'll always attack with a kick that launches the victim into the air and rapes him/her with his swords. If you get hit by the kick, chances are, you're getting raped. Other attacks include charging up for a large sword swing (easily avoidable) and four chain slashes (if you get hit by the first, you're getting hit by all of them).

Before you get his HP down to 50%, HEAL UP. Once you do...

VS Widdershin (2) - Widdles stops time and summons... Eternal Finality. For those who don't know what that is, it's Nereid's (Eternia) ultra cheap multi hit GIANT SWORD FROM THE SKY attack. Unfortunately for you, Reid's Gekkouheki (Aurora Wall) isn't available (and if it were, it wouldn't work)... Eternal Finality will hit for at least 2.5k damage, maybe even 4k on the mages. Make sure Widdles' attention is on you, or your party will face a very quick death. Not only that, Widdles also gains new and much harsher attacks. Fortunately, most of them can be avoided, but when he sends his swords out at you, be sure to guard. Note that Critical Guard can be penetrated by Widdles, so don't use it. He will also start summoning very frequent Meteor Swarms, and at extremely high pace too. The chances of your party surviving is so low I wouldn't bother reviving them until he has only 200 HP left. Just keep going at it...

Hard & Mania Widdershin - Other than Eternal Finality, there's nothing different about it. Do NOT engage him without at least 6K HP/1200 Def//9K HP/1600 Def respectively. Note also that in H/M, normal mercenaries won't stand a speck of a chance, so you're soloing Widdles. Tales characters won't help much unless they're L160, so if you're crazy enough to do it, go ahead and level them that much. Unlike Normal, EF will hit for insane damage, from 5k to even 8k if your defense isn't high enough.

VS Tales Characters [RM08]

Since so many people have problems...

Best classes: Fencer/Kenshi (剣士), Ninja (忍者)

First off: let's get something straight - if you're going to try beating VS 3 with a caster, you're going to DIE. Even more so on Hard/Mania. Don't ask me for strategies with casters outside of 1 VS 1, because I don't have time nor enough in-game resources to attempt this foolishness.

Secondly: When talking about VS 2 battles, I'm assuming you already beat the VS 1 battles, and know enough to run when necessary. Don't even attempt VS 2/3 until you've managed to clear the VS 1 battles. This is especially true for low def people.

Third: LEARN YOUR HI-OUGI FIRST. This applies to all the VS 2/3 battles, and will make your life a hell lot easier. Also, buy every single healing item you can get: gummies, bottles, everything. Make Specifics and Treats if you have the recipes. Steal them from the 1 VS 1s if you dare.

1 VS 1

Comments: Almost everyone's the same. The dangerous ones can cast spells, but you can keep interrupting them with Majinken/long range skills. Run around and make them miss their attacks, then wail on them. If you can't do this much, don't bother going for the VS 2/3 battles.

1 VS 2

Couple Comedy (VS Arche and Chester)

夫婦漫才 (アーチェ & チェスター)

Arche -> Chester

TAKE OUT ARCHE. Getting hit by higher spells isn't funny at all. Chester is hardly a threat other than Toryuu, which interrupts you for a long enough time for Arche to get Indignation off. Just keep beating on Arche and following her wherever she runs, then finish off Chester as you like.

Father & Son Hawks (VS Lloyd and Kratos)

親子鷹 (ロイド & クラトス)

Kratos -> Lloyd

Kratos is the main threat here, plus his heals aren't going to be easy to interrupt, given the short cast time. Get his HP down to 7k or so, then break out the Over Limit and Hi-Ougi his ass. Kill Lloyd after you take out Kratos.

Hunters (VS Reid and Chester)

狩人 (リッド & チェスター)

Chester -> Reid

Wait until Reid uses something big and laggy, then rush Chester. His Toryuu is the only threat in this battle, so eliminate it if you don't want to spend too much time blocking. Reid can be easily smoked.

Friendship (VS Genius and Lloyd)

友情 (ジーニアス & ロイド)

Genius -> Lloyd

Run around avoiding Lloyd, then wail on Genius the moment he starts casting. Genius does jack crap against you with his physicals, so punish him severely if he approaches you. The main threat is of course high lv spells, so Genius must die. Lloyd is a piece of cake after that.

Blood Relation (VS Leon & Rutee)

血縁 (リオン & ルーテイ)

Leon -> Rutee

While I would normally suggest taking out Rutee first because she has recovery, it is a better idea to kill Leon instead, as he can get annoying with Blackhole and frequent Graves. Overall, not hard at all. Watch for Rutee casting First Aid and you should be fine.

Destiny (VS Stahn & Rutee)

運命 (スタン & ルーティ)

Same as above.

Rivals (VS Stahn & Leon)

ライバル (スタン & リオン)

Both Magic Knights, but not a big deal. Take out whichever you dislike.

Abyss (VS Luke & Tear)

深淵 (ルーク&ティア)

Tear -> Luke

Take out Tear in case she heals. Easy stuff. All Tear's spells can be outrun, so smack her whenever Luke misses.

Dragon & Tiger (VS Eugene and Senel)

龍虎 (ユージーン - セネル)

Senel -> Eugene

Senel is much faster than Eugene, and has a whole array of KO moves, so he's the obvious threat. Eugene has huge lag after activating an Ougi, so take the chance to kill off Senel ASAP.

1 VS 3

New Collaboration (VS Arche and Chester and Reid)

異色! 新コラボレーション (アーチェ&チェスター&リッド)

Arche -> Chester -> Reid

This is probably the 2nd hardest of them all. Arche must be taken out at all costs, and Fencer/Ninja are your best bets. Run until Reid and Chester miss their attacks, then rush Arche with Over Limit. Senkuureppa series is a good choice, followed by Mougourengekiha and Meikuuzanshouken. Once Arche is down, the fight becomes a hell lot easier. For ninjas, use Shinzu Mekkyaku -> Eishuuzan -> Genmaretsumane or Shinzu Mekkyaku -> Kienzan -> Kienrenkyaku -> Genmaretsumane for best effects. Impossible with spell casters unless all your equipment are stun-negate.

Armor	HP+/TP+/MDef/Mov/Ele
Hand	Def/MAtk/MDef/OVL/Cast
Feet	Def/Crit/Eva/Mov/Rar

Explanation and Notes:

- Around the time after freeing Ailily, Kratos will talk to you about Radiants.
- Kratos will offer the Test (試金石) to see if you're worthy (VS R.Warrior).
 - The Test will NOT give a Radiant, even though you kill the R.Warrior.
- From this time point on, once your class level hits 25+, the Radiant quests will become available through the listed Tales characters (visit the guild in their respective towns and keep shuffling quests until you hit them).
- You MUST complete the Test again to gather Radiants again in a New Game+.
- All Radiants have a basic level requirement of L40.
- You can collect multiple Radiants from all classes. Radiants do not have to be thrown away to trigger a new Radiant (i.e. you can have more than one of any Radiant) in a New Game+.
- One series of Radiants MUST be finished before another series can appear.

- Radiant Class-specific Titles will be awarded automatically upon completion.
- All Radiants are highlighted in brown.
- Like all Rare drops, only the % are variables. Enhance types will never change.
 - Currently observed maximum Atk+ is 128%
 - Currently observed maximum Def+ is 64%
- You will be pitted solo against the same class as you are for Radiant battles
 - The Test can be taken by 4 people in your party (mages rejoice)
 - All Radiant enemies have the full skill set, except for the Hi-Ougi
 - Well, I haven't ever seen them use it yet.

VS Radiant Classes

 Warrior - Guard -> Counterattack

Any decent Warrior will know what to do. Good skill choices include Rekkuzan, Shishisenkou series and Majinken series. Keep your HP up in case an attack misses and you get wall raped.

 Mage - Wait for cast -> Attack

The enemy mage is REALLY fast, and the spells hit for insane damage. Don't engage in a cast contest unless you're sure you can get it off before it can. Instead, just stand at a medium distance, and wait for it to cast. Move in and whack it with your staff, then run away if it comes after you. Big spells are extremely hard to avoid, and you can die blocking. Low level spells and normal attacks are your best friends. (Fireball, Icicle, etc)

 Monk - HAMMER CONNECT!! HAMMER HELL!! HAMMER HEAVEN!! HIKARI NI NAREEEEEEEEEEE!!

Cast Piko/Piko Piko Hammer over and over and over again. That's it. Scream Shishiou Guy's catchline if you can.

 Thief - Ox3 -> Souhajin -> Bakutotsu Shuugeki -> Zanjin Rengatotsu

Bombs, Bomb Rain, combos all work. Do whatever you like, really. You can win this easily even with low levels. It's not because the thief class is particularly strong, it's because the thief class is particularly weak =P

 Hunter - Run, shoot, run, shoot, run...

Avoid Stargazer at all costs, and this should be easy enough.

 Fighter - Ox3 -> Shishisenkou series -> Throw techs

This should be easy enough with Crit Def.

 Bishop - See Mage

 Fencer - Majinken Souga/Majinrengazan, repeat.

Run if it starts getting too close. I love that bonnet. It's so cute. The armor is pretty cool looking too XD Unfortunately, the male helmet is incredibly eww. It's like a new gen Megaman EXE helmet, except UGLY.

 Magic Knight - Guard -> Counterattack, Akisazame against Casting

Another easy fight. Pound it when it gets close, then Akisazame when it starts

casting.

Ninja - Kunaisen -> Eisouzan

Crit Def whenever it gets too close, then combo

Enhance Introduction [RM20]

!!!IMPORTANT!!!

ALL STATISTICS ARE BASED ON PERSONAL OBSERVATIONS OF ZEROHIEI + THE INTERNET, AND ARE THEREFORE SUBJECT TO ERROR!! DO NOT TREAT THIS AS AN OFFICIAL GUIDE!!

!!!IMPORTANT!!!

Weapon/Armor Effect Limits

Note - Effect Limit measures the limit of the sum of the enhanced effects. Didn't get what that sentence meant? Don't worry, Diablo players will. Ask them about it.

Type	From	Limit
Green W	Enemy Drop	489%
Green A	Enemy Drop	302%
Green W	Chests	458%
Green A	Chests	283%
Blue W	Enemy Drop	426%
Blue A	Enemy Drop	295%
Blue W	Transfer	489%
Blue A	Transfer	335%
Blue W	Smith	428%
Blue A	Smith/Tailor	205%

Explanation and Notes:

- All Uniques (GREEN) are exactly that, UNIQUE. One only. You have to throw away the old one before you can get a new Unique of the same name.
- All Uniques can be smithed/tailored, gotten from drops and chests.
- All Uniques and Radiants, only enhanced %s are variables. All Enhances are FIXED.

!!IMPORTANT!!

- Atk/Def %+ are applied to the equipment, and then the player character.
 - RIGHT: Helm (Def 100) (Def+25%) + Armor (Def 100) (Def+15%) on RAO (Def 200)
 - Helm Def = 100×1.25 , Armor Def = 100×1.15
 - Total Def of RAO = $125 + 115 + 200 = 440$
 - WRONG: Helm (Def+25%) + Armor (Def+15%) on RAO (Def 200)
 - Total Def = $(200 + 100 + 100) \times 1.25 \times 1.15 = 575$
- For those of you who didn't understand that... don't bother reading further.
- ONLY Atk/Def are applied this way. The others affect the player character directly.
- Poison/Paralysis apply to PHYSICAL attacks only.

Bugs:

- Bows can only get Atk+ from drops and never from crafting.

Enhance List

Notes:

- Just because an ore is worth more doesn't mean it enhances better. Be sure to use the older materials for the best effects you want.
- Try out different equipment. Just because it has the best def stat doesn't mean it has the best enhance slots.

Ailily Side Quests [RM21]

Note: I'm sorting quests by SERIES. If it's filed in the same section, it's the

same series. Some quests (or rather, all of them) may have different names because I'm just translating from the JP version. Not happy? Deal with it.

Legend:

- (M) - Clear these Main Quests first
- (Q) - Clear these Quests first
- (S) - Listen to these skits first

Q: How can I unlock Hard/Mania?

A: Beat the game once, create a CLEAR save, and start the New Game+.

Q: What else is unlocked with the clear save?

A: Bonus Sound Test tracks and carrying over everything (Gald, skills, etc)

Q: What can I get from EX Maps?

A: Other than awesome EXP, you can get named items from a set [random], examples include the Jet Boots from Gilgamesh set, Eternal Sword [ToP/ToS], etc.

Q: What's the best class/etc?

A: There isn't a best one, per se. I prefer the Fencer/Kenshi class over everything else because it has Meikuuzanshouken >_>

The less fanboy-ish reason would be that it has the fastest penetration attack (Majinrengazan), with good combo and is hard hitting. The Fencer can also act independently regardless of what's happening. The penetration aspect is important, as you NEED it to interrupt casters and enemies are in the way.

Comparatively speaking, Magic Knight/Mahou Kenshi lacks high class Ougi and spells can be easily interrupted by EX monsters without backup.

Thief has great hit-n-run, but the defense is so horridly low, you get slaughtered in Hard/Mania without some really high class equipment.

Bishop is a great support class, but it's no good without a human controlled tank as back up, and is easily interrupted.

Ninja deals decent damage, and is the only one on par with the Fencer. Hell, if it wasn't for Meikuuzanshouken, I would use Ninja a lot more.

Fighter/Kakutouka has great KO moves that incapacitate the opponent, but the range is much shorter than the Fencer. If a ranged enemy hits you first and you get stunned, you're screwed.

Hunter is good for mid range support, but is easily taken out by swarms, especially with high charge time shots like Taiga and Toryuu.

Warrior/Senshi is the other class that rivals the Fencer, but lacks a fast acting penetration attack.

Overall, I just prefer to rush right in and let others back me up. The good thing about a Fencer is that it can be both a close and mid range class without sacrificing defense and cast/attack time.

Q: How do I trigger the Radiant quests?

A: Get all the way to Gavada, then back to Ailily and talk to Kratos until he mentions the Radiant equipment. He will offer a quest as a test VS Radiant Warrior (R Warrior).

Q: What's this about changing into a frog and chicken?

A: On any given EX Map, there's a small chance you'll meet the Frog Warrior [カエル戦士], which drops the Frog Suit [カエルスーツ]. Though the LV Req and Def are 1, it turns you into a frog... Similarly, you can meet the Chicken Warrior [チキン戦士], and get the Chick Equipment [ピヨコ]... it's cute but useless... Lastly, you can also get an Afro from the Bear Killer [ベアーキラー]...

NB: All these items come in 5 colors [A~E], so collect them all!

NB2: These can't be traded.

Q: How can I get the Gilgamesh set?

A: Defeat the Gold Knight (金剣士) in the EX dungeons, or the Tales characters.

Q: I want some chea-

A: I will not provide cheat codes, patches, saves, hacks, or ANYTHING of similar nature, now or ever. If you can't play the the game like anyone else, don't.

Q: Can I at least download your mercenary? >.>

A: ... Yes. But it's JP only =P

Q: Hey! How come I don't see an attack/skill list in US names?

A: Go read Kiko's FAQ instead! It's pretty useful. Besides, I'm a purist, and I HATE US names. Raging Demon Fang Beast Claw!! Sounds pretty clunky to me.

Q: How do I use a Hi-Ougi again?

A: First, master all of your current class' skills (use them 50 times). Once you've accomplished that, you'll receive an in-battle message you learnt a new skill. To use it:
Activate Over Limit (L+R), use an Ougi (e.g. Mougourengekiha), then press O (Circle). Some say you have to hold it, but I always activate Meikuu even if I just tap the button.

Q: Holy crap this FAQ is LONG!

A: Sorry.

Me >.>

Thanks to

Miyuki, Berserker - For spending hours talking to me XD

Everyone on WZ - for telling me how to get the Cless items and titles

RMWK - for missing list info.

Bamco - for an awesome game...

No thanks to

Bamco - for leaving Cless out...

Yay
