I.Intro

Crash Bandicoot 2, is a great game, even though, it may seem just boring, and easy because all you do is run through levels, and jump on boxes, but it's more than that.
I have to get every single extra thing in the game, otherwise, I didn't beat it. And

for those of you who have beaten it, and forgot about the Gems, too, you did not
100 % complete, the entire game. Don't go getting mad though, cause in this
Guide
I will tell you where to get the Gems, and how to beat the bosses.

II.Review

This is just a small review, to give you the basic features of the game.

Graphics: 8/10

The Graphics, are fairly good, and they are very real looking. Even though
they are
not in 3D, they are still great. The Gems and Crystals, are in 3D, and
they look
great.

Sound: 10/10

The sound for this game is great. I don't know what to say. Every this
sounds so
good. Nothing blurred out, or unclear. It's amazing.

Gameplay: 9/10

The Gameplay is great. For those you who may think running up is boring,
don't even
bother reading this guide, or playing the game.

Overall: 8/10

The game is good, and you should beat it with in 5 days, if you play at my
pace.

III.Walkthrough

WARP ZONE ONE

[Level 1: Turtle Woods]

Items: Crystal, Silver Gem, Blue Gem

This level is easy, but the Silver Gem, can get very hard. To get the
Silver
Gem, you must beat the level collecting all the boxes, and thats hard. The
hardest part is getting the boxes above the flamingos. Slide off them and
jump to them. You may have to do this a few times though.

Getting the Blue Gem, is easier. All you have to do, you go through the
level
without breaking a box. It may seem stupid, but thats what you gotta do.

[Level 2: Snow Go]

Items: Crystal, Silver Gem, Red Gem

This level is diffrent. To get the Clear Gem, break all the boxes, in this
level.

To get the outlined boxes, you must break a crate, then go back and break them.

You can get a Red Gem, in this level, but, you can't get it now. You will come back for it later, once you have access to Air Crash. Once you arrive here using the secret passage, follow the path, to the Red Gem. Then go back to Warp Zone Two.

[Level 3: Hang Eight]

Items: Crystal, Silver Gem 2X

There are two Silver Gems, in this level, and no colored Gem. To get the first Silver Gem, get all the boxes, in the level, and make sure you use the ! boxes.

To get the second Silver Gem, hit one of the C Boxes(Checkpoint), and a timer will begin. You have to get to the end of the level, before it gets to 0:00. You only have one chance to do this, unless, you go to the Warp Zone and come back in. So do it good.

[Level 4:The Pits]

Items: Crystals, Silver Gem

There is only one Gem, in this level, and to get it you have to break all the boxes. When you come to the fork, go down, the right, path, then circle around, the left path, to end up going down, the right path, again.

[Level 5:Crash Dash]

Items: Crystal, Clear Gem

To get the Clear Gem, just break all the boxes. Simple as that.

[Boss: Ripper Roo]

This is just a basic idea, of how to beat him. For a better idea, read my boss guide, which I will be finished with soon.

To beat Ripper Roo, let him knock himself out then hit him.

WARP ZONE TWO

[Level 6: Snow Biz]

Items: Crystal, Silver Gem

Remember, about the Silver Gem, here, because you can't get it until you have the Red Gem. Once, you have the Red Gem, break all the boxes, and you will get the Silver Gem.

[Level 7: Air Crash]

Items: Crystal, Silver Gem 2X

This is a very important level. You have two Gems, to get, as well, as a passage, to Snow Go, and then, you can get the secret passage, in Snow Biz.

To get the first Silver Gem, don't die, as you take the skull path, which is the path with the skull on it.

To get the second Silver Gem, break all the boxes in the level, but you can't do this until you have access to Bear Down, once you do, break all the boxes, to get the Gem.

Now, the good part. Getting the secret passage to Snow Go. Once you get the the first Checkpoint, before water, jump on the boxes, and land on the right platform.

[Level 8: Bear It]

Items: Crystal, Silver Gem

This is one of my favorite levels. To get the Silver Gem, break all the boxes, in the level. This can get tricky, because the speed of the bear, but, you should get the gem in two or three times, maybe more, if it is troubling you.

[Level 9:Crash Crush]

Items: Crystal, Silver Gem

To get the Silver Gem, break all the boxes, but you have to you the platform after the fence, and go back and take the path you didn't take before, to get the Silver Gem.

[Level 10:The Eel Deal]

Items: Crystal, Silver Gem, Green Gem

This level is easy, to get both Gems. To get the Silver Gem, break all the boxes.

To get the Green Gem, go right at the fork, and when you enter it, you should be saying Holy Crap! Make your way through the Nitro boxes, and when you reach the end, jump through the wall. Don't worry, it's fake so jump through it, and go straight, and get the Green Gem.

[Boss: Komodo Brothers]

To kill these guys, let them knock each other out, and when they are blinking hit them. One will start throwing swords at you, just in front of them. This boss is fairly easy.

WARP ZONE THREE
=====

[Level 11: Plant Food]

Items: Crystal, Silver Gem, Yellow Gem.

To get the Silver Gem, break all the boxes, in the level. This isn't

hard.

Now, to get the Yellow Gem, this is another time test, which you should have at least one Aku Aku mask. After you break the first checkpoint box, a timer will start. Go to the end of the level before the timer gets to 0:00. The same rules, apply to this one, as they did in Hang Eight.

[Level 12: Sewer or Later]

Items: Crystal, Silver Gem 2X

To obtain the first Silver Gem, break all the boxes, in the level. At the fork, break the ! box, and go back around.

2nd Silver Gem by Curtis Armstrong Thanks

To get the second gem in Sewer or Later, come back with the yellow gem. Go down the first hole in the ground and you'll end up on a gem path. Like all other Gem paths, it is dangerous because the enemies are stronger than normal, especially because you cannot touch the water because the Eels are constantly shocking in it. Make it to the end and snatch the gem.

[Level 13: Bear Down]

Items: Crystal, Silver Gem

Another of my favorite levels. Break all the boxes, to get the Silver Gem.

Also, before you exit the level, jump on the disappearing platform, to go to Air Crash.

[Level 14: Road to Ruin]

Items: Crystal, Silver Gem 2X

This level pisses me off so much! It is hard to beat, it never mind get the Gems. Your gonna have a bit of a work out this time.

To get the first Silver Gem, which can be obtained now, you must not die and you must take the skull path. This one is hard to get.

The second Gem, would normally be the first gem, but you must have access to Diggin It.

When you have access to Diggin It, break all the boxes.

[Level 15:Un Bearable]

Items: Crystal, Silver Gem

This is another cool level. To get the Silver Gem, you have to break all the boxes, which is kind of difficult in this level, but it's possible.

[Boss: Tiny]

To beat this boss, jump on the platforms, that are going to fall
and tiny will follow you, and he will fall.

WARP ZONE FOUR
=====

[Level 16: Hangin Out]

Items: Crystal, Silver Gem

To get the Silver Gem, break every box in the level. Easy as that.

[Level 17: Diggin It]

Items: Crystal, Silver Gem 2X

This level is quit a pain. To get the Gem, break all the boxes
in this level. Use the same stragity, as you did with the other
forks, for this one.

Take the skull path.

You can take a secret passage, to Road to Ruin by flopping
on a platform, with a plant on it.

[Level 18: Cold Hard Crash]

Items: Crystal, Silvere Gem 2X

To get the first Silver Gem, break all the boxes. But, in the
bonus area, by the regular jumping crates, you must get the invisable
boxes.

The second Silver Gem, is much easier. Take the skull path, to the end
and get the Silver Gem.

[Level 19: Ruination]

Items: Crystal, Silver Gem 2X

I hate this level too. To get the first Gem, take the path, by the
checkpoint, and follow that to the Silver Gem.

Breaking all the boxes will get you the second Silver Gem.

[Level 20: Bee Having]

Items: Crystals, Silver Gem, Purple Gem

This level can be really hard. The first Silver Gem, you have to
break all the boxes.

To get the Purple Gem, go through the level, until you come to stairs
of Nitro boxes. Go up them, you won't die. Then you will be in a
bonus area, where you can get the Purple Gem, if you walk a little
bit.

[Boss: N.Gin]

This guy is pretty hard. Throw your Peaches at him by pressing the Square button. Keep disabling his parts, until he is fully dead.

WARP ZONE FIVE

=====

[Level 21: Pistion It Away]

Items: Crystal, Silver Gem 2X

In this level, you can kill two birds with one stone. Get the two gems at once. First you have to take the skull, path, to get one of the Silver Gems, then go back and take the other path and break all the boxes, in the level, and you will be awarded with the second Silver Gem. If you know what your doing, it is very easy to get them both, other tan replaying the level over and over. But, if you mess up, it can be very tricky.

[Level 22: Rock It]

Items: Crystal, Silver Gem

This level rocks. Your on a jetpack, and you fly through the level. Although, this level can be hard, it's still really cool, and fun.

To get the Silver Gem, break all the boxes, which can be difficult because you are not use to manufering, with the jetpack, so take your time and don't rush it.

[Level 23: Night Flight]

Items: Crystal, Silver Gem 2X

This level sucks. To get the first Silver Gem, break all the boxes in the level.

To get the second Silver Gem take the skull path.

Easy, but hard.

[Level 24: Pack Attack]

Items: Crystial, Clear Gem

Another simple task. Break all the boxes in the level, and get the Silvere Gem.

[Level 25: Spaced Out]

Items: Crystal, Silver Gem 2X

To get the first Silver Gem, break all the boxes, in the level.

Through the level, you should see a blue gem platform. Jump on it, and it will take you to a passage. In that passage, you will find the second Silver Gem.

[Boss: N.Cortex]

To beat him, fly into him with the Jetpack, and spin. Watchout, for objects he shoots at you though.
