Considering the fact that I have recently purchased [Notes From Author]
this miracle work from Konami; I have decided that I
will go ahead and drop my tedious writings on the NES game, "Deadly Towers".
I am hoping to have time to write a "C o m p l e t e" guide to 5th Mix in
time. For now, I am logging all the songs I complete and what they open up.

Find any mistakes or errors?

Just send me an e-mail to

Enjoy!

[Update Log

(sighs deeply) I'm sorry guys, this FAQ is no-longer going to go anywhere.
I have considered many patterns that these secrets may reveal themselves in,
however none of them seem to work. So either I'm not looking deep enough,
or the unlocking method truly is random. This renders this FAQ obsolete,
except to those who may find it of some use. Maybe someone will continue
my work in the near future. If you're interested, please feel free to
e-mail me at the address listed above. Hopefully CJayC will be kind
enough to leave this FAQ up for reference.

So, I'll leave you with this. Life's short, go have fun. Be it with
Dance Dance Revolution, or some harsh euro-rave (that's the stuff),
just get out there and go.

Take care, and happy new year to those who read this before the turn of
2001 ...

Been a great year! Enjoy!

[Version 1.31] : 10 / 3 / 01 "I can't feel my legs."

Psh, just finished some 4th Mix down at Playdium. Ouch. Okay, so here's
what's up. As realised ... say, when I first got fourth mix, I noticed
that songs are unlocked in fairly generic or obvious numbers. Fives and

tens, more or less. So I'm rounding the songs down to the nearest five or zero. Bleh.

Oh, yeah. A very sexy "MogKnight" [godhand45@yahoo.com] approached me about the unlocking certain galleries. Apparently, he's right. So I re-formated the layout for the "List By Galleries". Oh well, sounds good!

And I'm trying to determine if it's songs complete, or the actual song and difficulty level. It's really tricky, but I swear it can't be random as some predict.

Oh yeah! I've been really stressed lately, so I stopped logging and made a save on a second memory card so I could at least take vague guesses at requirements of unlocked songs. However, I will not assume findings for the Gallery and the Information modes as they require more 'precise' calculations; Gallery more than Information.

[Version 1.2] : 10 / 3 / 01 "Alignment is fishy."

It's sometimes funny how no matter how many times you re-align something, it always decides to wrap when uploaded. Ugh. Oh well, that's all this update, just fixing that. Looks like I might get that file save to you guys sooner than I thought, I've decided to play through with a controller. Maybe I can learn why Konami brought out that funny looking Doubles pad.

[Version 1.1] : 09 / 29 / 01 "I'm Working On It"

- Just some more stuff. That's all. Personal Notes Log

"Sometimes you have to be curious as to why Konami uses such generic numbers like "10", "20" and other multiples of ten. Oh well, maybe they do it so I have to correct some numbers. Bah, here goes! Hey, if this goes well I'll make the "C o m p l e t e" guide to 5th Mix.

Oh yeah. Don't do Hot Limit and B4U (Maniac) without a jug of water, huh? I made Hot Limit, but ended up leg-twisted for B4U. Oh well, practice! I mean, they're really fun ... they're just really tiring.

Oh yeah, embarasing little error. I forgot to change a heading in the Song List. Oops? I Did It Again?"

PS. Don't do Sana Molette Na Ente unless you're a big fan of ORION.78 (AMeuro Mix). That doesn't include Civilization Mix. This thing is so slow I can't read it. Bah. Maybe I should have taken a look at that BPM meter? Oh well.

[Version 1.0] : 09 / 29 / 01 "The Beginning"

- Everything comes the first update. Personal Notes Log:

- List By Number of Songs Completed "I wish I was in Japan so I

- List By Gallery Entries could get my hands on the
- List By Information arcade port ... Topway
- List By Songs mats are nice, but the stage is always better.

I'm lagging behind on my homework though, so I best get off the computer some time soon. Yeah, there is a life outside of video games; contrary to what you may believe. Oh well, enjoy!

Atleast you're not getting fat doing Dance Dance Revolution."

PS "I also had an ACII image ready for you guys, but ... I decided to keep it out of the FAQ in the end. Just too big and there is enough stuff in here. "

PPS "I'll try to get a DexDrive save out some time soon too. "

Author's Note: This is the actual log I keep; please don't tell me there are any typos in it. There are plenty, I assure you. (smiles weakly) Oh well, all my hard work. Yeah.

Also at a point I got really stressed in my life, so I made a new save file and just danced away. Some information may be present without the additional length of log.
