Hint: Easy Hp fever:

At the start, pick Armadillomon as a companion. When you get the Digi-Egg of Knowledge and have the HP Boost+100 Digi-Part, heal Digmon for 200 HP. You will then get HP Fever (1110).

Digivolve to a Vegiemon and use a Small Recovery Floppy Card. Your HP will then go to 1110.

Hint: Easy experience:

Fight with Betamon in the first city when he uses the pick up deck. If you win, you will earn more than 30 points.

Hint: Easy super bonus:

This trick only works when you fight with Betamon, and he uses the pick up deck. First, obtain a partner card in your first hand. Use your partner, but do not

Armor Digivolve. Never discard a card -- you have to use them all as support or DP (this is important, never lose your partner card, you need obtain a no loss win). Kill two of your enemies by only using the same attack (only Circle, Triangle or X as you prefer). When you fight with the last opponent, keep using the same attack, but when you are sure of your victory in that turn, use a gamble or nothing card. If you followed those steps, you can easily obtain: 30 points of your enemies, No Digivolve Win, No Loss Win, Last Gamble Win, Ultimate Level Win (because Betamon only use level U cards, he does not have R or C cards, so he is easy), No Discard, Partner Win, all ? Attack win, and your super bonus of 10 points. This is more than 50 points.

Hint: Better cards:

Win a certain arena repeatedly to get better cards each time.

Hint: Double your cards:

This trick requires two memory cards. Copy your game to the second memory card, then give all of your cards from the copied file to the original file. Note: This does not work with the 7's cards, Download Digivolve, and Rosemon's Lure.

Hint: Easy Ultimates:

Get to Dark City and defeat all four stages of Wormon. You will get a pack and an Ultimate.

Hint: AreoVeedromon:

Fuse Phoenixmon and Veedmon.

Hint: Diaboromon:

fuse a Digitamamon with Infermon.

Hint: ImperialDramon:

Get to the last city, Wiseman Tower. Go to the Fusion shop, where you can Fuse

anything. To get ImperialDramon, you must fuse Paildramon and Omnimon II.

Hint: Paildramon:

Fuse ExVeemon and Stingmon or Shakkoumon and WaruMonzaemon.

Hint: Piedmon:

Fuse Andromon with Etemon to get Metal Etemon. Then, fuse Metal Etemon with Angewomen to get Piedmon.

Hint: Rosemon:

Fuse Myotismon with Lillymon.

Hint: Seraphimon:

Only fuse a MagnaAngemon with Jijimon.

Hint: Valkyrimon:

Fuse Silpymon with Garudamon.

Hint: Veemon:

Select Veemon as a partner if you are a beginner. He has three Digi-Eggs, compared to Hawkmon's and Armadillomon's two Eggs.

Hint: Vikemon:

Fuse Shakkoumon with Zudomon.

Hint: WarGreymon:

Fuse Shakkoumon and WaruMonzaemon.

Hint: Wizardmon's wand spells:

Successfully complete the game, then go back to Sky City, where you fought Wizardmon. He will tell you he has a magic wand. Say the spell, and he will give you a Card.

Hint: Water special Digimon:

If you are specializing in Water special Digimon, and only collect cards of water, then use the following trick. When you fuse two Cards, it will always come out as a Water Type. To get a Water Type Card, you must fuse a Fire type and ? type.

Hint: Easy way to Digivolve into U (Ultimate and Mega):

You must have the Warp Digivolve Card, and have at Least 40 Digivolve Points. As a Rookie, you must have the same type Rookie as the U you are going to Digivolve into. After you have 40 DP, look at the Warp Digivolve card, and it will read "OK!". Use this, and if you have a U level on the board, you can warp Digivolve into U easily.

Hint: Strongest card:

The strongest card is Omegamon. The back of Omegamon have two large cannon.
The strongest card is Apokarimon, with an attack power of 990 and HP of almost 3000.

Hint: Most powerful card:

The most powerful card is Level Mega.

Hint: Digi Egg of Courage:

Defeat Beginner City and move to Flame City. From there, defeat the Battle arena. Return to the Battle Cafe and talk to Davis. He will reward you with the Digi Egg Of courage and explain the art of Armor Digivolving.

Hint: Digi Egg of Miracles:

Get 300+ wins then go to Beginner City and defeat BlackWarGreymon. Then, talk to him then he will give you the Digi Egg of Miracles.
