2. INTRODUCTION

=====

This game about Akira who wanted to be a great Tamer. You will be walking around in a maze like Chocobo Mysterious Dungeon 2 or Torneko with a car vehicle called Digi-Beetle. This game is very different from Digimon World 1. In Digimon World 1, you must look after it: feed it, go to toilet, etc. Digimon World 2 is a RPG genre game, so you must increase its level by getting EXP from killing enemies.

This FAQ contains SPOILER. Don't read it if you didn't want your game spoiled. But if you didn't mind, you can read it.

This is my fourth FAQ after Vanguard Bandit FAQ, Valkyrie Profile FAQ and Eternal Eyes FAQ. If you have comment, correction, suggestion send me e-mail at <syusup@hotmail.com>. Check the newer version at GAMEFAQS.

=====

3. CONTROLS

=====

Triangle- To cancel
Square - To look at the status of the enemy's digimons in dungeon
Circle - To select menu
Cross - To accept, talk, give gift and destroy barriers
Directional pads - To move up, down, left and right

=====

4. TIPS/HINTS

=====

- You can go to next floor by stepping in Floor Portal (square-shaped floor with square on it).
- You cannot get back to the floor you came from, so be sure you didn't miss anything before going to next floor.
- Look carefully at the colour of the floor. This is Specialty Floor. When you battle on a Specialty Floor, damage from certain techniques increase and the defensive ability of Digimon with certain Specialty increase.

COLOR SPECIALTY

```

-----
Blue      Water
Red       Fire
Green     Nature
Gold      Machine
Black     Darkness
-----

```

So be careful with your enemies because if they fight in same Specialty Floor, they become stronger!

- If your enemy's target die, your attack will missed.
- If you make walk one step, EP will decrease 1.
- You can leave the dungeon if you step on Exit Portal (square-shaped floor with EXIT on it).
- Engine sets the HP of your Digi-Beetle.
- Battery sets the EP of your Digi-Beetle.
- Memory sets how many digimon you can carry in Digi-Beetle.
- Tool Box sets how many useful items you can carry in Digi-Beetle.
- When HP or EP goes to zero, Digi-Beetle will stop working.
- There are 5 Cannons :
 - Shooter Gun -> shoots disks, drivers, ROMs and gifts.
 - Bug Zapper -> fires Bug Zaps to destroy Bug Nests.
 - Missile Gun -> shoot missile to destroy big rock and electro-spores.
 - R-Cannon -> fires Ray Bombs that boost or lower Digimon's power in battle.
 - Z-Cannon -> fires Z-Bombs that damage enemy.
- To remove deadly Land Mines, you need Arm Parts.
- To make Damaging Acid Swamps didn't make damage, you need Tire Part.
- There are 9 Tournament Ranks.
- Your Digimon can digivolve after the requirement fulfilled.

```

-----
DIGIVOLVE INTO      LEVEL
-----
Champion             11-20
Ultimate             21-30
Mega Form            31-..
-----

```

- Be careful when you want to open chest, sometime it's trapped.
- It's best to move diagonally to conserve EP.
- You can look the enemy's status by pressing square in maze.
- Talk to people in Digital City after finishing mission, sometime they give something.
- You can make enemies join you by giving gift and enter the battle to defeat it, then it will join you. More better the gift (Level A is the best), more greater possibility digimon join you.
- This is how to give gift : press square in dungeon to look at enemy's digimon status and then press X to give gift.
- Kill the digimon that you want the last.
- Try to upgrade Battery first.
- Always bring items to recover MP/HP before enter maze.
- To increase your digimon's max level, you must DNA Digivolve.
- DP is Digivolve Point. To increase it you must DNA Digivolve.
- If your next level is 9999999, it means you must DNA Digivolve.
- You can save at Digital City, File City and world map.

After long talk (bla..bla..bla..), now you in world map. Choose Boot Domain to enter your first maze to finish your last test to become a tamer.

FIRST MISSION

Place : Boot Domain

Floors : 2

Objective : Defeat Leomon at Boot Domain

Enemies :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
Gazimon	5	E-Stun Blast	Rookie	Virus	39	280	1
Gizamon	5	Spiral Saw	Rookie	Virus			1

Boss :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
Leomon		Beast King Fist	Champion	Vaccine			2
Veedramon		V-Nova Blast	Champion	Vaccine			2
ToyAgumon		Toy Flame	Rookie	Vaccine			2

First Mission is very easy because you have ultimate digimon. You can make great damage and the enemies can only hurt a little. After the mission over you will get your own Digi-Beetle and Tamer License.

Now you must join with a team. There are :

- The Vaccine Type Gold Hawks -> you will get Agumon
- The Data Type Blue Falcons -> you will get Patamon
- The Virus Type Black Sword -> you will get DemiDevimon

After you choose your team, the leader will give you next mission.

SECOND MISSION

Place : SCSI Domain

Floors : 4

Objective : Defeat Hagurumon at SCSI Domain

Enemies :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
------	----	--------	-------	------	-----	------	-------

Tapirmon	1	Waking Dream	Rookie	Vaccine	3	60	1
Biyomon	1	Spiral Twister	Rookie	Vaccine	3	30	1
Betamon	1	Electric Shock	Rookie	Virus	3	50	2
SnowGoburimon	1	Bolt Strike	Rookie	Virus	4	40	2
Crabmon	1	Scissor Magic	Rookie	Data	4	40	3
Gabumon	1	Blue Blaster	Rookie	Data	4	50	3

Boss :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
Hagurumon		Darkness Gear	Rookie	Virus	18	210	4

First thing that you should do is building your level above 6. If your EP almost zero, use AutoPilot. MP is quick running out. Luckily if you level up, your HP and MP goes to max. If you build your level high enough, this maze is piece of cake.

After defeating Hagurumon, go meet your leader. He/She will give you next mission. Before going to next maze, go to Digimon Center to talk with Chris Conner. He will give you Toy Plane. This gift is very good to give to digimon in maze. If you give Toy Plane to digimon that you want to have, it definitely join you.

 THIRD MISSION

Place : Video Domain & Disk Domain

Floors : 5

Objective : Defeat Kokatorimon at Video Domain
 Defeat Numemon at Disk Domain

Enemies :

Video Domain

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR

Betamon	1	Electric Shock	Rookie	Virus	3	50	1
SnowGoburimon	1	Bolt Strike	Rookie	Virus	4	40	1
Gazimon	1	E-Stun Blast	Rookie	Virus	11	200	2/3/5
Gizamon	1	Spiral Saw	Rookie	Virus			
Goburimon	2	Bolt Strike	Rookie	Virus			
		Life Shield			12	180	2/3
SnowGoburimon	2	Bolt Strike	Rookie	Virus			

Boss :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
Numemon		Party Time	Champion	Virus			
Sukamon		Party Time	Champion	Virus	51	840	5
DemiDevimon		Demi Dart	Rookie	Virus			

Build your level above 10. Before go to Disk Domain, bring 2 or 3 HP recovery item because you will fight 3 enemies in boss battle. If you build your level high enough, the battle will be easy. After you defeat boss in Disk Domain, go straight up first to meet Angemon before exiting the maze. You will get Dynamo part if you defeat Kokatorimon. I suggest you catch ToyAgumon at Video Domain to trade it with SnowAgumon at Digimon Center.

After you defeat them, go to your headquarter to report your mission to your leader. Your leader will told you to go to Tamer's Club. There you will talk with Mark Shultz who will tell you about BIOS Domain and give you Toy Plane.

FOURTH MISSION

Place : BIOS Domain

Floors : 6

Objective : Defeat Centarumon at BIOS Domain

Enemies :

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR

NAME	EL	ATTACK	LEVEL	TYPE	EXP	BITS	FLOOR
Centarumon		Solar Ray	Champion	Data			
Gabumon		Blue Blaster	Rookie	Data	102	1050	6
Starmon		Meteor Stream	Champion	Data			

You will see Metal Greymon at second floor. After that, you will see Metal Greymon again at sixth floor. You can catch it with toy plane. I suggest you catch it because it is very powerful and it will help you to fight the boss.

After you go back to Digital City, go to your leader to report your mission. You will get Entry Pass to enter Coliseum. Your leader will give you another mission to defeat wild digimon at Drive Domain and Web Domain. When you exit the room, you will see Chief Engineer Maestro. He wanted to meet your leader to tell about City's Power Generator that went offline because some parts are missing. Because of that, Item Machine must be shut down. So you can only buy EP Pack-1 from Item Vendor.

If you go to Tamer's Club, you can see event about a mysterious girl named Kim. She will talk about parts, Dvice Dome and her sister. If you go to Digimon Center, you can trade your Crabmon with Wizardmon. You can get Crabmon from BIOS Domain. Now you can buy new parts and ammos at Main Gate. I suggest you buy parts especially Battery. If you go to Meditation Dome and talk with Angemon, you will ask about Dvice Dome and Angemon will tell you story about it.

I suggest you bring Mag. Miss-2 and Drill Miss2 at least two, before going to Video Domain and Disk Domain. I suggest you had already Ultimate Digimon because these maze are very hard. In Disk Domain at floor 7 you will fight Bertran and Commander Damien. You will get Red Orders after defeating Commander Damien. After you finish all places, go meet your leader. The leader will told you to find Archive Ship and to talked with Professor Piyotte.

You can find Professor Piyotte at Device Dome. He is at the right side room where you can buy parts, ammo and find TECHNA-DONNA. He is at far right. He will tell you the location of Archive Ship but after you catch three Digimon for him. They are Yanmamon, Syakomon and Ikkakumon. You can get Yanmamon at SCSI Domain. You can get Syakomon at Web Domain. You can get Ikkakumon at Video Domain. After you got them all, put them in your digi-beetle not your server then talk to Professor Piyotte. He will then tell you to talk to

Ben Oldman who knew the location of Archive Ship.

Now talk to your leader. Your leader knew Ben Oldman as the man who used to be the Blue Falcon Leader. After you finish the conversation, Chief Engineer Maestro will come in to tell about strange sickness breaking out among the Digimon and there were items disappearing from the Main Server. Some Digimons were stealing those items. That's why sometimes there were Junk Parts in your items because the items that they stole turned into useless items. After the conversation is over, your leader will tell you not to enter the headquarter and Coliseum tournaments.

Now go to Device Dome and talk to Professor Piyotte. You will ask for his help and Professor Piyotte will examine your browser and find mutation in your Digimon's DNA. To cure this, you need Digital DNA Patches from Digimon with super will power from all three types : Vaccine, Data and Virus Type Digimon. Before you exit Device Dome buy one Digivice and put it in your Digi-Beetle.

Now go to Meditation Dome and talk to Angemon. Go to the right side room and talk to WereGarurumon. Wait until Weregaurumon asked you if you were tired. Say "YES". You will get VACCINE Patch. Now go to the left side room and talk to Clockmon. He will give you DATA Patch if you give him a Digivice. Now talk to Angemon. He will tell you to get VIRUS Patch from OGREMON. Now go to Device Dome and talk to Kim. You will get VIRUS Patch. Now talk to Professor Piyotte. The Professor will make you Wild Code.

Now go back to Digital City and enter your headquarter. You will report the cause of strange sickness and the cure for this sickness (Wild Code). In the middle of the conversation, the Security Guard came in and report the showing of the Blood Knights. This time they invade BIOS, Web and Drive Domain. If you go to Digimon Center, you can trade your Garurumon with MagnaAngemon. If you go to Device Dome you can buy new parts for your Digi-Beetle.

You will fight Crimson at floor 16. I suggest you bring a lot of MechFix-EX because after you defeat Crimson, you will walk through a lot of Acid Swamp that can damage you before you reach Chaos Lord. After you defeat him, go back to File City and go to Jijimon's House. Jijimon told you to go back to Directory Continent, first world map.

Go back to Directory Continent and go to Digital City. Go to your headquarter and meet your leader. He will tell you to search Crimson/Blood Knights in two new domains : Bug Domain and RAM Domain. You can buy new items, ammos and parts at your headquarter, Main Gate and Device Dome. You can trade your Angewomon for Magnadramon in Digimon Center.

7. FREQUENTLY ASKED QUESTIONS

Q : Why my next level is 999999999? Why I cannot increase my level again (I stuck at level 13)?

A : It means you must DNA Digivolve to increase the max level.

Q : How do I save this game?

A : You need 2 memory blocks. You can save your game at worldmap or Digital City or File City.

Q : I don't know how to catch the digimons. Please tell me.

A : At the area in the dungeon where you can see your enemies there, press square to see the status of the wild digimons then press X to give gift. Of course you must have gifts in your items. Look carefully to the description of the gift. Give the right type gifts to the wild digimons. For example : give data type gift to the data type digimons, etc. If there is more than one enemy in the area, press square again to see the next wild digimons. Catch the digimon that you want by killing him the last. Don't forget to look at the hearts atop the digimons. Bigger heart means greater chance the digimons want to join you.

Q : What is DP? Tell me how to get/increase it.

A : DP is Digivolve Point. You can get/increase it by DNA Digivolve.

Q : I want to know max level do I get after I DNA Digivolve my digimons?

A : Digimon A = Digimon that has level higher than Digimon B
Digimon B = Digimon that has level lower than Digimon A
Max Level = Level Digimon A + (Level Digimon B)/5
Example : Level Digimon A = 15; Level Digimon B = 13
Max Level = 15 + (13/5) = 17

Q : How to getmon?

A : You can look at my Digivolve List how to get the digimons that you want. DP in my Digivolve List means the required DP to get the digimons.

Q : What do Bit Bug, EP Bug, Ret Bug, Mem Bug do?

A : Bit Bug -> decrease the money (BIT) you have.
EP Bug -> decrease the EP of your Digi-Beetle each time you move.
Ret Bug -> return the digimons in your Digi-Beetle to your Server.
Mem Bug -> decrease the max digimons you can carry in the dungeon.

Q : Why I cannot trade my digimon in Digimon Center although I have it?

A : Look at Digimon menu, then choose Digi-Beetle. If you cannot find the required digimon to trade in Digi-Beetle, this what you have to do. I assume you have the required digimon in Server, so transfer it to Digi-Beetle. The lady only trade the digimon if you have the required digimon in your Digi-Beetle.

Q : When Professor Piyotte told me to get him three digimons, why he didn't tell me the location of Arcive Ship although I have all of them and he looks like didn't know I have already all of them?

A : Put the digimons that he wanted in your Digi-Beetle, not in your Server. He only accepted them if they're in your Digi-Beetle.

Q : What digimon's level do I get when I DNA Digivolve?

A : You will get one level below from the lowest level digimons that you want to DNA Digivolve.

Champion + Champion = Rookie
Ultimate + Champion = Rookie
Mega Form + Champion = Rookie
Ultimate + Ultimate = Champion
Mega Form + Champion = Champion
Mega Form + Mega Form = Ultimate

Q : What digimon's type do I get when I DNA Digivolve?

A : Virus + Virus = Virus
Virus + Data = Virus
Virus + Vaccine = Vaccine
Data + Vaccine = Data
Data + Data = Data
Vaccine + Vaccine = Vaccine

Q : Tell me how to see my Digivolve Point(DP).

A : You can look your DP when you Digivolve or DNA Digivolve.

Q : How do I find Kimeramon? I hear he's the strongest digimon in this game.

A : He's on the 99th floor at Tera Domain and there is only 1 chance out of 666 that he will appear on that floor, which might explain why you didn't find Kimeramon there. It's a Mega Form. The description of Kimeramon : he has Kabuterimon's head, Greymon's body, Metalgreymon's hair, Garurumon's feet and Monochromon's tail. It has 4 wings:2 of Airdramon and under them there are 2 of Angemon. Also, he has 4 arms: 2 of Devimon and under them he has a left arm of skullgreymon and a right arm of Kuwagamon.
