#####

First, you'll see if you have message in your mail; And after that, you'll see very very good CG movie (usually I call it FMV). Okay, keep your good work CAPCOM !!!!

Now, Regina, Rick and Gail will talk about the situation here. After little event, go right till intersection then go up till event again. Now enter the right room through green (maybe) double doors. Inside, go on a little and take a key. Now go right and push the shelf, and take item (this item is only for mix and there are three colour only, there are blue, orange and green). Exit, continue up and push the box at the center of two boxes. Take item, now go back to the place where you split with Rick. Event.

NB : I think the item which need to push the box is defferent if you push it from left or from right.

Now go back to where you were split with Rick just now. See event; Then follow Gail. In the next place, there are three doors :

-----1---	Legend
----	1 = door 1 : Your destination for now
____	2 = door 2 : Where do you came from
	3 = door 3 : You need to go here later
----3-----	

Take door 1. Go on follow the path till you see event again. After the event end, take an item (forgot what item it is. Sorry ^_^) then go follow where Gail go. You don't have to talk to Gail. But if you talk to him, he'll tell you if he will guard outside and tell you to go inside and power up the computer room's power (where Rick is). Go enter the next room through the nearest door from Gail. Go on, till you see dead end. Check the power up

toggle. There are four options. If you press the first option, the place of first colour and the second colour will move.

Arrange the colours into these arrangement:

Red blue green white

In other words, choose this option : 1, 3, 2, 3

After the colour in that place, choose the last option and then look your right and choose first option. The generator will active. After that, go out. On the way out, you'll hear gun's sound and Gail's voice. Exit quickly, continue down. Event. You'll attack by your first RAPTOR ! Don't shoot it. It would be wise if you run around and go to the place where you split with Rick. Run fast before the Raptor bite you. After you enter the next room, the Raptor will jump above the FENCE !!! So you haven't save yet. Go enter the right room. Event. You'll see the Raptor try to jump above the fence again, but the fence is too high, the Raptor can't reach it. WWWHEEWW... Finally it cannot reach it.

Now you'll call Rick, if Gail was attacked by a dinosaur. Rick doesn't believe it and call it a good joke.

After little conversation, go enter the right door through the door which Rick enter it. There, go on till you hear dino's voice. Don't worry, it would not attack you. Go on till you see event. Choose first option and you'll go up to that vent (you can go here every time you want, 'cause there are many vents like this later). Go follow the path and go down when you see next vent. Don't enter the room through the door on your back. Go on down till you find sliding door. If you go on a little, there is item and E-box. E-box is for put your items (you need key(s) to open the E-box). Enter the sliding door, and that is the computer room. Event. Exit this room and enter the room that I said to you not to enter it just now.

Inside, take Shotgun, DDK disk. Now there is a red dot near the other door. Push it and the computer will turn on. Check the computer if you want to. Enter the right room beside the computer. There is a man die. Take the card beside the corpse. There is a LEO words there. Check the green dot. The password is 0375. Where I get the password ? You can read this password later. Take the key and Exit this room through the door beside red dot. You can save your game here.

Rick will call you if he already deactivate the laser beam. After the event, equip your weapon if you want to kill VELOCIRAPTOR. Go down, kill the Velociraptor if you want (I kill it). Now enter the room through white door. Take all items there and read the books here to know the password that I told you if you'll know that password later. Exit, back to where Rick call you. Push the green light to deactivate the laser beam and enter the only door, don't go up through the vent.

[{ Hall }]

You'll look around the main entrance (hall) of this building (I guess. Tee-hee ^-^). Take the items here (the item is somewhere on the ground. Usually, the item is under the stairs). After take all items, go up the stairs to 2F.

[{ 2F }]

There, push the box for item and enter the white door. Equip your weapon if you want to kill the Velociraptor (I choose to kill it). After kill the Velociraptor, go on down till your view is change, don't enter the door right door for now. Go left and take SG bullets. Now enter the door which I told you to ignore before.

Inside, kill a Velociraptor. From the entrance, go right and take an item. From the entrance of this room, go down the go left. You'll see a light beside shelf. Push and enter this password : 7687 (you'll know this password if you continue go down, enter front door then the left door. There, read the book at your right).

Take weapon upgrade, exit the room and go to the place where you get SG bullets. Go left, there is blue light. Check it and there is puzzle.

HOW TO KNOW THE PASSWORD :

There are many letters here (the top and the bottom one). The bottom is the key. You must not use the letters at key's place.

Example : Code : O X P Y E Z N

Key : X Y Z

Password : open

You can learn how to use DDK or not. If not, you must enter " HEAD ". Yes, that's the password. Enter the room. You'll see survivor there. He'll give you a card (wonder why it's same with the one you've found beside corpse, but this one is SOL on it). Go to the bottom left of this room and take the item. Now go to upper right, check the place till you find red letter. Use your LEO and SOL card. LEO : choose first option

SOL : choose second option

Now you must enter password. The password is 705037. Where I find that password ? Take a notice at SOL and LEO words. Actually, that's not LEO and SOL words, but they are : SOL is 705

LEO is 037

You'll receive L card. Go left, and.... the T-REX !!! Will come out from the window !!!!! First, the T-Rex will eat the dead survivor, after that it will back again for you. Be careful, your game will over if the T-Rex eat you. So, first press back till dead end. From now, you'll have two choices to evade the T-Rex eat you.

1. After it's try to reach you, it will pull it's head. NAH! that's only your chance to exit this room.
2. Use your poison darts to make the T-Rex is bored of you. I think you'll need two or three darts (I forgot)

For the choices, there is higher and lower. I'll explain it one by one.

1. Higher : You don't need to waste your darts to the T-Rex
Lower : You must be careful, 'cause if you wrong a little, it will eat you and the game is over (Game Over)
2. Higher : You don't need to worry Game Over, 'cause you shoot the T-Rex
Lower : You lose two or three darts to a T-Rex like it

So, the answer is up to you. If me, I choose first choice.

Take DDK disc beside the place you found L card just now. Exit; go back to

Hall.

[{ Hall }]

Go enter outside building through big door. There, go around to right and take SG bullets and DDK disc near the corpse. Now go back inside. Go to under the stairs, go to DDK door. Rick will call you, to check the area (it's red light in the map). Enter the password " NEWCOMER " Enter the door.

There is an E-box here. There is corpse at the right. There is a table beside it, push the table for item. Now see the 1F map (it's beside the corpse). You'll write it on your map. Go enter the door.

Go on, turn off the laser beam. Enter the room through the left door.

There, you'll see Velociraptor. Kill it if you want. Then unlock the double door (It's bottom left corner of this room). Exit the room through the same door. Go on, and if you didn't kill Velociraptor just now, you'll face two Velociraptors. One is from inside the room, the other is hearing Velociraptor's roar and come to you.

First, push green light if they are close to you. You'll hurt them, but you'll never kill them, actually shoot them. After push green light, go on your way and check the corpse, take item. Now enter the left room.

Inside, go to bottom right; Take the key and event. There is DANGER word at bottom of your screen. That tells you to tap all four buttons to evade game over. Then you'll kick the Raptor and Gail will kill the Raptor.

After little conversation, Gail will exit the room. Now go to the room where Rick is (Computer Room). After little conversation, your mission now is to power up the B1 computer. Go to the place where you split with Rick. Go on up and enter the right place which need B1 key. Take item then climb down the ladder. Go on till you find green light. Check it and choose first option to take it. Go left, push the shelf to take item, go on till dead end and then use the key that you took it just now. Arrange the four key like you did before.

Choose : 3, 2, 3, 1, 2, 3

Then go right and choose first option. After little event, Rick will call you if there is something to talk to you. Now back to where's Rick is. BUT!!! Before you go there, save your game first, 'cause there are two options later.

After little conversation, you'll have two options. If you choose different answer, you'll get different story, but same ending. I'll explain each of them. But I suggest choosing 2nd option. Yes, the 2nd option is long way to do, but if you choose 1st option, you'll need to continue your journey with the 2nd option's path (from the beginning) and lost your conversation with Tom and Rick. So, choose whatever you want.

| 1st option |

Exit, go down till you see stairs, then descend that stairs. Go on till you see event. There are many Amasgus here (you'll know if you see The Lost Word movie). Go on, enter the right room. There, go to beside the table and take two items and ID card on one of those desks. Exit, you can save here.

Go on, ignore those amasgus; and enter the other room through the center door. There, you'll find Gail. After event, go on and enter the door. Go on a little and Raptor will come out to kill you. This is a danger scene. After that, you'll kick that Raptor and it will die. Enter the double doors. Take the item and check the corpse if you want. Now continue with 2nd option.

| 2nd option |

Go to the first time you get here. QUICK !!!! Why? It's ok. ^^ tee hee.
Enter the door 3 (south door).

There are two Velociraptors. Kill them with shotgun. After kill them, take shotgun bullets (not SG bullet. Remember! They are different!). Go on enter through brown door.

There, you'll have event. HEY! you are familiar with it. It's PATHERANODON !!!! If I not wrong. Tee hee. Okay, now you have danger word again. After its end, go back to where your gun is fall. Take it and then take the item, it's at the corner near your gun.

HOW TO KILL PATHERANODON :

1. Equip shotgun with any bullets, except darts
2. Shoot the Ptheranodon if your gun is go up if you press R1 (aim)

Go on till you see R-6 garage, then go to the boxes and take the key that you need to open E-box. Now go right, enter the door.

Inside, you'll see Tom. You'll have a conversation with Rick and Tom. After that, you will receive DDK disc. Don't forget to take another DDK disc on the table. Go upper left door, and complete your map by checking the map on the wall. Go south and enter through the door.

There, you'll face two Ptheranodons. Run as fast as you can, ignore the ptheranodons and take all items you see (I think there is only one item). Go on till you look a door, enter it. Go down the ladder and push the right shelf for item, and take the card beside the shelf. Go on and you'll see six computers and arrange it in this order :

6 = B	1 = R	R = Red (second choice)
3 = G	4 = G	G = Green (first choice)
2 = R	5 = B	B = Blue (third choice)

Now press those computer in that order. If number one, press it first time, etc. Now go ascend the ladder and exit this room. You'll see Danger word. Tap all buttons, and the Ptheranodon will die (look by yourself ^o^). Go back where you see first Ptheranodon and activate the elevator; Now go to where Rick is, and then event.

[{ B1 }]

After little conversation, go up the ladder, go on, push the shelf, then use B1 key to activate the machine. Now you must move the box to make your way pass. Use this option :

Choose : 2 up, 1 down, 1 left then hook (choose start if finish)
1 left then release
2 up, 1 down then hook

Exit

The last box you can leave it hook or you can release it. I think you must leave it hooked if you want quick. Go down the ladder, after event, go on and enter the right door. Before it, take the item. It's at right. When you enter the room through the door, you'll see event. Tom is attacked by Raptor and Turn off the laser beam, go to upper right of this room to take item. Now go back to entrance. Go on till you find event. Now there is Danger word again. Then go on till enter the next door. Go on and enter the other room again. Inside go on a little and you'll see many Amasgus are eating Raptor at the corner of this room. Ignore it, just go on till see the door on the right, enter it. You'll see TOM WAS ATTACKED BY RAPTOR AND DIE. After event, take two med kits and all items.

Now go to first save point. Go there now, but don't enter the save room. Outside the save point where you fight your first Velociraptor. Go on, deactivate the laser beam, and enter the door which need ID card. Inside, Grab all items. Also, there is E-box here. The most needed here is to take mini computer. You can use this at the corpse. Exit, go to where you put Newcomer's password. Inside, go to the corpse, use mini computer. Now enter through the only one door. Inside go to the left door. Check white board (there are two white board with orange letter). Take a notice at the blue password. But don't worry, I write it. Use your ID card to the computer, enter 46907, choose first option twice. Go back where you take dead guy's finger printing. Now the left elevator is active. Go inside. At the way down, Raptor will come out from the ceiling. You'll have danger scene again. Then, you can kill it. I choose to kill it. Take all items here, also you can complete your map with the map in this room. Go on, you'll find DDK door. Use the DDKs and enter LABORATORY.

NB : Sorry if these explanation are confusing you. Because I confuse the place. I write these, without playing. Baccuse I've finished the game three times.

Inside, there are two Raptors (may be), and one laser beam. Turn off the laser beam, go on till the dinosaurs are hearing you, go back to laser beam, turn on the laser beam (the same switch). Now kill the Raptors. Turn off the beam, go on, don't enter two sliding doors. If your item is full, go right, turn off the beam. There is E-box here. Enter single door.

THIS IS SAVE ROOM.

Go on, there is a computer. If you want to active it, use 5037 password. Take the item from red box (you can take this item later if you want).

Enter the next room. Then go to another room. Go on, ignore the door for now, there are two Raptors and E-box. Kill those Raptors. Now enter the room through the door that I told you to ignore just now. Take all items here. Don't miss anything. Beside the next door, there is a shelf. Take a key for E-box there. Now enter the next room. You'll see a doc dying in the poison room. Check the poison button. Don't push the button twice. Here is the order :

2 1 3

After the poison is 0, go inside and talk to the doc. You'll receive card. Check the doc again, you'll receive a key (till I finish the game, I don't know what is this for. If anyone know, please tell me). Try to exit this room, a Raptor will come in and there is a danger scene. After you pass the

danger scene, kill the Raptor by push first button (one time is enough). Exit this room, go up, a Raptor will come out from the other room. Kill that Raptor. Go to the next room. Take all items here. Now go to the other door. There is a computer on the wall. Use your B1 card, enter 3695 (the password is from the card). Now you'll solve the puzzle. It's easy. Now go to green light, use the same key. Take R card, read the note if you can Japanese. Go back to save point, there is a big screen. Use the L card on the left or the R card on the right. Gail will contact you. If you don't use those cards together, the door won't open. After a moment, Gail will come. Now enter ENERGY as the password. Save it before you enter.

There, you'll see an energy. Wonder what is that energy for ? Go on, push the shelf for weapon upgrade. Use it. Go to the computer, you'll have four options. Push the second button from right, then third from right, then first from left. The energy will come out again. Exit this room, take the ammo. Outside, there is event. Then go left, use the item in the red box at the left. Now you have to solve the puzzle. It's rather difficult.

Right picture : turn right 1 time
Center picture : turn right 1 time
Left picture : don't change any direction

Now put the following picture : right, left then center

See event, then you have two options again. If you choose first option, you don't have to solve a puzzle again. But if you choose 2nd option, you'll solve memory puzzle (it's random). I choose 1st option, but there are Raptors again at here. Go to where you arrange the box to make your way (B1). You'll find Dr. Kirk there, see event. You'll receive special ID card. Go back to computer room (Rick always there before, there is E-box nearby). Save your game before it. Inside, go on down till you see green light. Check it, you'll go up one level to 2nd floor. There is E-box on your left (I can't open this E-box if you open the other E-box just now). Go on right, take the item in safety box. Enter through the door on the left. Go on till you see 2 doors. Enter the left door. Use the key that you find just now at the machine. Exit, and you'll see event. There is T-Rex!!!!!!! I think it want take revenge to you (if you shoot it at the last T-Rex). After you take control, go on down till dead end. Prepare your Shotgun with any bullets. Go to the corner. When the T-Rex come to you, shoot it. It will go back little. Use this trick about 3 shoots, and Rick will unlock it. See event. Go back and Rick will call you. Go to the main lobby (where there is a stairs to 2nd floor). Enter the big sliding door. You'll face two Ptheranodons. Go on and enter the green door. Go on, you'll find two Raptors that jump from the ceiling. Go on run, enter the right door. Ascend the ladder, go on left, take item (gun). Go back down. Go left till you find boxes that you can push it.

Here is the order :

b	Legend:
b	b: small box
B1 B5	B: big box
B2 B4	
b	
b B3	

Make it into :

b	Legend:
b	b: small box
B1 B4B5	B: big box

In other words, move B1 to right, B2 to bottom, B3 to right, B4 to top, don't change B5. You can go on now. Take all ammos then enter through double doors. You'll have FMV. Then the T-Rex is coming!!! The T-Rex is eating the helicopter. Now the T-Rex is run after you. Just run around the helicopter or you can shoot the T-Rex with bazooka gun. After shoot 3 times (may be), Rick will call you to come there. Just run there and you'll in elevator. The elevator is shut. You'll have to find another way. Go on, see event. Huh, there are only Amasgus again. Ignore them. Go on down, go to the right hole then enter the right room. There are many Amasgus here are eating a dead man. Go to the dead man for mix item. Exit, then go on down. Enter the elevator on your right. See event. The elevator will shut for a while.

[{ B3 }]

After you go out from the elevator, go to upper left room of this room. Go on, take the item in the keys box, then go to the other room (but in this room too). Push the shelf for item. Exit, talk to Rick and the power is on again. Follow Rick;

There are two E-box here. Take all items, push the shelf. Now go to where Rick is. There is a card again. Take it, then exit through the other door. You can save your game here. I suggest to save it.

Now go on, take the item on the right, then continue up. You'll see event. After walk a little, there is a DINOSAUR (sorry, I don't know the name)!!! The dinosaur will attack you and cut the rope. You'll have Danger scene again (hope this is the last Danger scene. ^o^). Ignore those dinosaurs (there are two dinosaurs) and enter the big garage. Kill the dinosaur with Shotgun. Take two keys. Exit and Ascend the ladder twice. Use the card, which you get just now (there are three series). Use by these following :

3 up, hook, 2 left, 1 down, release
3 up, 2 right, hook, 2 left, 1 down, release
3 up, 1 down, 2 right, hook
release, 2 right, hook
exit

Go back, go on by following the way, then take the DDK key. Back to where you give an item to Rick to power up the light. Go right, take item then continue down. Enter through sliding door. BECAREFUL!!!! There are two dinosaurs again. Pass it if you can or kill it with kill dart (short Japanese words). Go on, take all item then enter the sliding door. Complete your map by checking the map on the up. Go down, check the dead body for key (for open E-box). Go down, enter the sliding door. There are two dinosaurs again. Run fast to up, go right, ascend the ladder. There is a Raptor behind the laser beam. Don't kill it, but kill it if you want. Go up the vent. Go on till you see vent again. Descend it. Go right, there are two E-box. Enter the right door. Gail is there. You'll have little conversation. Check the table shelf (the left table shelf) for a key for open E-box. Exit, go on right, go down if you see a way. Take C card. Before you take the card, you'll hear a dinosaur's voice. A Losoraptor come out!!!!!! Kill it with Shotgun. Take the C card (you don't take it at that time) and use it at C door near the card. Take DDK key, exit and be careful with the other Losoraptor. Go up the vent then go on till next hole. Go up and enter through the white sliding door.

Go on and emergency warning will out. It's ok, now go down through sliding door. Go down, there are computers with warning words. Check it and the warning will off. Now go right take the key near the corpse. Go down a little, there are boxes at the right. Check it and take a key for E-box. Take DDK key on the computer.

Exit through the same door; You can save your game here.

Go on, descend the ladder and Rick will call you, that he has deactivate the laser beam. Go on, don't go up (turn off the laser beam), but go down and enter that door. Continue down and the dinosaur that in the other door will come out (you can avoid this event if you sneak near the wall).

Go on till door, and go down. There is a corpse. Check it for a key for E-box. Use the DDK keys on Port door. Use WATERWAY as it's password. Go down, Rick will come and try to open the sliding door. The radio from the dead body will call him. Now hurry, 'cause you need to save those people. Take a key beside Rick and check the corpse for a key for E-box. Now go to the elevator room. If you choose different option just now, you have different story, but same ending. Go on, till in front of the elevator and see event. The elevator is go down from Ground, B1, and ... B3 !!! a T-Rex will come out from the elevator. It's look at you. The T-Rex will eat you, but you evade it and the T-Rex have accident and it'll die. Now go to the glass with key. Take it and put it back in it's place. The colours sequence is same with the other. Turn it on.

Now enter the elevator. There are three people die. Check each corpse for key. Go back to where you get two keys in one room, two A room and one laser beam. Go there (if you go there, you'll pass save point). Turn off the laser beam and get many items there (becareful with the dinosaur). Now go back to where Rick is. Regina will give Rick a card. Gotcha! The door is open. Now there is another problem. There is third energy that Dr. Kirk made it. Rick will toss a coin and the coin is GONE!! WOW, what an energy (you'll know why the coin is gone). After little conversation, take the item and then back to the save point with x-ray machine.

Go down where you got DDK disc. Go left, and there's a screen. Use B1 card in each of them. Use 0392 as it's password. There is another game. It's easy game, you know. Now exit this room and save your game if you want to. Ascend the vent, go on. Now you can turn off the laser beam on your right. After you turn off it, you can turn on it again to evade Losoraptors. There, there is a Losoraptor again. Run around and you'll see a shelf. Check it and the password is 1281. You'll know it later. Exit this room and go back to x-ray room. Use DDK keys and enter STABILIZER. Go on your way and there is event (I don't know what is this for). Just go on till auto door. Go down (if you want to unlock the door in front of you). Go to DDK door. Enter DOCTORKIRK (wonder if Dr. Kirk in this room ?). Go on, till you see green light on your right. Use a key to it. Go on; You'll see a green light again. Use a key too. Go on, take MIX item if you want. Go on, open the door twice.

You'll call Rick. After that, go on down. Don't click the green dot now. But it's ok if you already do it. Go on down, enter through sliding door. Descend the stairs. Go up, push the cupboard and take item. There is a B card some where (you can see it by yourself). Till finish this game, I don't know it's function yet. Contact me if you know the function. Ascend the stairs now. Go right, ascend the stairs, there's item here. Go down, enter the right door. There's a survivor here. Complete your map. Complete a mini game here.

Left picture : move left one time

Center picture : move left one time

Right picture : don't move it

Enter by the following : center, right then left.

Exit, go left, and check the computer. The computer need a special key to access it. Now you will see what does she do if she is angry (she punch the computer !!!) After that you'll hear a shot. Go back enter the door. The survivor is dead. Check, the dead body for a paper. There is a code "1281". Yes, it's that code. Use mini computer at blue light. Go on, you'll see Dr. Kirk!! Regina will follow him. Go on till you have event. Gail will save Regina's life (once again). Then Dr. Kirk will explain all his experiment. Now you'll have two options (This is your last option I hope). If you choose first option, you won't have your last mini game. I choose second option. But I'll explain both options. After choose, go left to the boxes and take an item.

| 1st option |

Go to B3, where there is a dinosaur (there are two rooms that need A card). Enter the right door. Continue down, go right, go up the elevator. Take those two items : initializer and stabilizer.

| 2nd option |

Go to where you enter DOCTORKIRK password. There is a dinosaur. Kill it with vital darts (which will kill the dinosaur only one hit). Exit through the other door. Enter the A door. Go to the other side, take weapon upgrade. Go to the main room. Push the shelf. Take item and check the green dot if you want to. At the end of the story, take a notice at the not. It's ok, I write it down in my walkthrough. Go the computer. Use a key that you get from Rick.

Now push : right till end, then down, then up till it is end. Your password is correct.

In other words, the sequence is 3, 6, 7, 2, 0, 4.

Take those two items. Now back to x-ray room. Use the ID card at the computer near the corpse. Use 78814 (get from the room which you get Dr. Kirk's ID). And use Dr. Kirk's finger. Go to the computer that need a special card. Now Activate it. Yeah!! It's work now. Now go back to C door (from the vent : Go down). Go on down till you see a computer, use a key there and enter 0367. Take the item. Go right, use the same key and use 0204. Take those items. Go back to the laser beam. Go right. There, go down till you see green dot. Enter it. Go down, use the same key to take the item. Go to the center computer and use a key. Now there's your last mini game. You must make initializer and stabilizer.

[You can do this or not (I suggest you not to do this, 'cause this just for fun)]Now you can go to the room where you meet Gail. There, there are two dinosaurs (may be). Check the computer and there's memory game. But there are four puzzle you must done it. After you solve all puzzle, you can't enter it now. You can enter it after you choose the last option.

Now go to the place that I told you not to across the bridge just now. Push the green dot and put (initializer or stabilizer. Sorry, I can't Japanese at all). Go down the elevator (from entrance go right). Go on, till you see green dot. Put initializer or stabilizer. Now continue down, take item, and check the computer. Go up the elevator, go to the green dot that

you put initializer or stabilizer. Check the computer. You'll have a very long event.

Now save your game before go to where Gail is, because the next option is different ending (if you choose 1st and 2nd option, those have different ending). After long event, you'll have two options again (this time is your last options. This time for real. Tee hee). If you choose 1st option, you will get bad ending (you can change the ending). 2nd option, you'll get good ending (you can't change it to very good ending).

The different 1st option but change the ending to good and choose 2nd option :

The different is the story, but the ending is same

Now the end is up to you. I'll explain three of them.

| 1st option [not change the story] |

Just go to the red map. And Gail will die after the event (but you get the CD). Now you'll automatically back to Rick's place. Rick will go with Dr. Kirk. Go follow them. Take all items that you meet. In big garage, go right till you see a door. Enter it and you'll have ending event. Your boat is shaking! Wonder who is shaking your boat ? think a little. Can you guess who can shake your boat ? Of course you can!! It's Tyrannosaurus Rex !!!!! It's too dangerous for y'all. After you take control of Regina, take all ammo that Rick gives to you and use E-box near Dr. Kirk. After you ready for your final fight with Tyrannosaurus Rex, exit the boat.

Here are the tips and trick :

1. Equip your bazooka gun
2. Equip your best ammo (don't use red ammo but use green ammo)
3. Shoot if the T-Rex come to you
4. After shoot about three times, press triangle and equip the ammo once
Again to evade auto reload

After you defeat the Tyrannosaurus Rex, you'll see very very very good FMV (Capcom !!! I love you soooooo much with your FMV. Keep that FMV in Nemesis).

| 1st option [with change the story] |

Now go to where there are two A rooms (in front of the red map). Now enter the A door at the top. Go on with elevator till you find A door again. Enter it and you'll find heliport. Afterwards, go enter the red map. After little event, take a key for E-box and take all bazooka ammo. If you want, go to upper left corner for E-box. Now exit and watch event. Now you'll fight T-Rex. The tips and tricks are same with above.

This is the real ending !!! (The T-Rex is coming to you but the helicopter is faster than the T-Rex, then Rick will release the bomb).

| 2nd option |

Regina will call Gail and punch him. Follow Rick, see a died T-Rex. Go on till next room. If you go right, there is an E-box. The true path is descend the ladder then Rick will call you to refuel the fuel tank. Go to the red map. Use the fuel tank. You'll automatically see your map. Go to the red map. Use the fuel tank and go to the red map (your final decision is helicopter).

Regina will see Dr. Kirk there. She want to arrest Dr. Kirk but Rick is call Regina. Dr. Kirk is hearing that noise and starts to look Regina. At that time, Regina is kicking Dr. Kirk.

Now exit this heliport, and see event. This event is rather unbelievable. Why ?? Because Rick is helping Gail go to the heliport. But, the T-Rex is behind them. This is strange, right ??

Okay, prepare your final battle with T-Rex and see the ending (the ending is same with above).

Actually, this is not secret. But it's secret. Tee hee. Ok, lets go to the point. If you have finished this game and wait till credits scroll is end, you'll get secret.

If you finish this game one time, you'll get two new costumes.
If you finish this game two times, you'll get one new costume and new operation (operation wipe out)
If you finish this game three times, you'll get unlimited bazooka bullets (you can't use it at operation wipe out)

Ok, this is what I can get for you from my hard work. I don't know what will you get if you finish the game four time. I don't finish the game four time because I don't wanna get bored this game in English version. He... he...

?? : Values: You can change these '?'s to any number 0-9 and any letter A-F. These values work in HEX mode 0-F. So, therefore, the higher the value, the greater the effect, and vice versa with the lower the value

Notes: Please NOTE, that not all values can be used for all games, so if the game locks up when you put in a certain value, please lower your value some

Nb : I don't have a Game Shark. So, I can't try it, and I hope these codes is working. Now, I ask for you whom have a Game Shark v2.3 to try it and please tell me if these codes working or not.

1. Thanks to God for everything.
2. Thanks to Capcom who make this excellent game.
3. Thanks to my brother who help me make this walkthrough
4. Thanks to my cousin who borrow me this great game. Why ?? 'cause it's Japanese game and I will be wait for the English version.
5. Thanks to 'Wickdkid' at "Wickdkid@aol.com" who tells me the path for the first time and then I write Dino Crisis's walkthrough

Tell me if there is an error in this walkthrough and one more, I want you to tell me if you have a new game like this, please tell me and I will make the walkthrough if I have a good mood that time. ^o^ tee hee.

Thanks for read my walkthrough
