## <3> Adventure Guide <3>

---

This guide is intended to help people in the adventure whether they are playing in 1 player mode or 2 player mode.

If you attack something like cars, rubbish bins, shops and etc., you'll get Destruction Bonus at the end of the stage.

---

### [3.1] Stage 1

---

The first stage shows a helicopter landing the characters that you choose. After that, attack the nearby police car to find a bazooka at the back of the car. Use it to destroy the enemies, gates and cars.

Attack enemies that come out and you'll continue to the next stage.

---

### [3.2] Stage 2

---

This stage is inside the building. Continue attacking the enemies. This time, the enemies will be slightly powerful.

There is two fences that can be destroyed. Inside them will be two boxes. Each of them contains something useful, a bomb, life-restoration item and weapons.

Once you finish off the enemies on the first area, destroy the green thing to reveal a room. There, attack enemies that came out from a door.

---

### [3.3] Stage 3

---

At the next stage, you're inside the lift. Attack the 'Fire' thing to get a powerful red axe. Use it to kill enemies. Enemies will come into the lift at any moment so be alert.

-----  
[3.4] Stage 4  
-----

At the fourth stage, you're now at the upper floor. Just keep on attack the enemies. Remember here that dustbins can be destroyed to get Destruction Bonus.

-----  
[3.5] Stage 5  
-----

On this stage, you'll see a man running away to the helicopter. Then, attack the swift enemies that are left behind.

-----  
[3.6] Stage 6  
-----

At the next stage, you're now outside on the road. Some enemies may attack you by motorcycle so be careful. All you need to do is attack them.

At times, cars will bang into shops and items so be alert too or you'll get hurt.

After that, you'll see a big lorry causing troubles. Now, you'll have to fight the first boss, Driver.

Attack him until he drops his weapon, the red axe. Take his weapon and keep on attack him until he lose.

Once you finish the boss, you can go to three places. Decide whether to go to Bronx, the Mall or the Park, then head to that direction.

-----  
[3.7A] Bronx  
-----

If you go to the Bronx, you'll fight at the backlane. The enemies will be slightly powerful and you can get a bazooka from an enemy.

Try and destroy anything that are useful to get Destruction Bonus points. Also, you'll go through this area for two times.

-----  
[3.7B] Mall  
-----

If you choose to go to the Mall, you can attack shops and a car to get more Destructon Bonus. If you're stuck there because you can't find a way to exit, go near a light-blue door to open it.

-----  
[3.7C] Park  
-----

If you go to the Park, sometimes you'll have to fight against enemies riding motorcycles.

To destroy them, try and kick them off the motorcycle to make it explode. This may kill the enemy together.

-----  
[3.8] Stage 8  
-----

No matter where you go, you'll still end up in the train station. Enemies will come out from trains and attack you.

This part will take quite a long time because there are lots of enemies here.

After all that, you will have to fight another boss, Exo. This boss is slightly powerful. If can, grab him and attack it. Once he is on the ground, kick him.

After killing him, choose whether you want to go to the Air Base or Naval Base.

-----  
[3.9A] Air Base  
-----

The Air Base enemies are not as difficult as Naval Base. If you go to the Air Base, you must fight the enemies until you fight with Jetpac. She'll move a little fast so you have to attack her quickly.

-----  
[3.9B] Naval Base  
-----

If you choose Naval Base, the enemies will be quite difficult. Once you finish all enemies, you'll fight with Vulkan. You can't attack him with normal attacks. It will only hurt you.

I hope you have master throwing items by now. You have to take tins and aim carefully to throw at him. If he flies into the air, be careful. Once you see he's coming down, jump to avoid his shockwave. Also, don't go too near with him or you'll get shot.

-----  
[3.10A] After Air Base  
-----

Once you finish the Air Base, you'll have to fight enemies on a flying thing. There are enemies coming down from helicopter so be careful!

There are boxes here around to help to restore your life a bit.

-----  
[3.10B] After Naval Base  
-----

If you completed Naval Base, you'll have to fight enemies on the ship. This is almost the same as After Air Base as enemies will come down and attack you by helicopter.

-----  
[3.11] Stage 11  
-----

-----  
After all that, you'll reach inside the base. There will be more powerful enemies so I hope you have master all the moves.

There are recoverable enemies called Cyro that can recovers its life automatically. So, you have to fight with it until it dies.

Also, there are a lot of enemies here. Some enemies can use electrical punching power a bit like Vulkan.

-----  
[3.12] Stage 12  
-----

After completing Stage 11, you'll fight on the construction site on the moving platform.

There are quite a lot of enemies here with no boxes with restorative items so you have to plan your moves carefully.

Try to make use of restorative food coming out from enemies. They are quite useful.

Then, you'll fight with the final boss, Zeng! He is quite powerful with his fists. So, it is advisable not to go near him.

Around you will be several gold boxes. Destroy them to reveal weapons and life boxes. Use the weapons to attack him until he dies.

After defeating him, you'll then see his island base destroyed. There will be a newspaper report about Zeng on the front page. Then, you'll see Zeng in prison. Congratulations, you've finished the game!

Wait for a while for a screen to pop up. Put your name there to be listed in the Top 10.

-----  
<4> Secrets and Tricks <4>  
-----

There are a few secrets and tricks in Fighting Force. So, if you found more please e-mail to me at saigoheiki@gmail.com

Also, below listed are the ones that I found.

-----  
[4.1] Cars and Items  
-----

Some cars can be destroyed to reveal weapons or to get more Destruction Bonus. Items like shops and rubbish bins can be destroyed to get more Destruction Bonus too.

Also, once you get 100,000 points, you'll get an extra life.

-----  
[4.2] Enemies on Ground  
-----

If you attacked enemies until they fell on the ground, press the punch or kick button to attack them. This is especially useful when you are facing a hard enemy.

---

#### [4.3] Coca-Cola Machine

---

On some stages, you may find a Coca-Cola machine. Attack it to get more Destruction Bonus, Coca-Cola cans and a weapon.

The Coca-Cola cans can be picked up to drink to restore a bit of the life. While you're drinking, the enemies can't attack you.

---

#### [4.4] Additional Weapons

---

Once the Destruction Bonus screen appears, quickly head to a particular exit that can bring you to the next stage.

Example, on stage one, when you ram the gate, attack the enemies until the Destruction Bonus screen appears. Quickly run to the gate to begin the next level.

Once you do this, you'll get a weapon ready on the next level. Be warned that you won't get any Destruction Bonus points with this trick.

To get the points, wait until the Destruction Bonus screen appears. Wait until the points are added and quickly run towards the exit.

Some stages don't have any exits so you can't try this trick.

---

#### [4.5] Hot Dog and Soda Stall

---

In the Mall, you'll see a Hot Dog and Soda Stall. Destroy it to reveal many restorative foods.
