Welcome to my second OST FAQ, after getting various feedback from my previous OST FAQ, I decided to go all out in my next one, hence I created the 8 Bit OST Guide. In doing so I spend ALOT of time gathering information from the game by myself with a notebook until 3 in the morning. Yes, that may seem sad, but I'm out to please ;)

As usual you've got the track listing and your basic track guide, like everyone else, afterward, It gets a little diferrent, this is where I spend all the time. I listed the tracks again, but this time I've listed every single time the track is played in the game =O Pretty cool eh?

Secondly, I've done a Game Track guide listing in what order the tracks play in the game order! It's all pretty straight forward, so I hope you enjoy the guide.

A final note, any errors, suggestions or advice you may or may wish to send me, my address is talking_cows@hotmail.com. Thanks!

0.4 Track Listing

Now, this is the first new addition to my 8 Bit OST FAQ technique! I listed every single time each track is played in the game, there are guaranteed to be Spoilers, so I recommended you DON'T read this until you have completed the main game. I may also note, nobody is perfect, I might have missed a few scenes so if I have, please e-mail me and let me know, I'll be sure to give you credit. One last note, if you're wondering where all that FMV music is about 90% of it is on the OST PLUS, not this version. Well hope you enjoy.

0.5 Game Track List

And here is my second new technique! I listed every track in the ORDER it plays in the game, (Yes it did take an extremely long time). Now tracks from both the Original Sound Track and the Original Sound Track PLUS play through at the game. I haven't listed Boss Music or Stage music more than once because it's pretty obvious where it plays, boss music in boss battles and stage music in stage music. It's all pretty straight forward so I hope you enjoy!

English Lyrics

Final Fantasy IX - Melodies of Life

Music By: Nobuo Uematsu

Performed by: Emiko Shiratori

Alone for awhile I've been searching through the dark
For traces of the love you left inside my lonely heart
To weave by picking up the pieces that remain
Melodies of life^様ove's lost refrain

Our paths they did cross, though I cannot say just why
We met, we laughed, we held on fast, and then we said goodbye
And who'll hear the echoes of stories never told?
Let them ring out loud till they unfold

In my dearest memories, I see you reaching out to me
Though you're gone, I still believe that you can call out my name

A voice from the past, joining yours and mine
Adding up the layers of harmony
And so it goes, on and on
Melodies of life
To the sky beyond the flying birds^肩orever and beyond

So far and away, see the bird as it flies by
Gliding through the shadows of the clouds up in the sky
I've laid my memories and dreams upon those wings

Leave them now and see what tomorrow brings

In your dearest memories, do you remember loving me?
Was it fate that brought us close and now leaves me behind?

A voice from the past, joining yours and mine
Adding up the layers of harmony
And so it goes, on and on
Melodies of life
To the sky beyond the flying birds forever and beyond

If I should leave this lonely world behind
Your voice will still remember our melody
Now I know we'll carry on
Melodies of life
Come circle round and grow deep in our hearts
As long as we remember
