-1. Easy Experience Build Up

In order to do this you need Ramza at a high level and to know Yell. Everyone else in your party needs to know a time consuming attack like accumulate. Also it helps to have no one with a counter attack.. Defeat all but one enemy, surround that enemy, Have Ramza use Yell and everyone else use accumulate or other attack. Using this combo, you should get a large amount of JP and EXP. Note, the higher the EXP level, the more JP you get per attack.

-2. Easy way to defeat Gafgarion

In chapter 2, you have to fight the mercenary Gafgarion. Before you go to Zirekile Falls, right after the battle with the Chocobo, unequip him and change his job to a priest or something with low stats. During the battle, he turns evil and you and your forces must destroy him.

-3. Monsters

You can fight many monsters in FFT. If you have a mediator with Invite skill, you may be able to convince them to join up. The best ones to get , I feel are BlackChocobos and Dragons.

```
-4. Jobs
This is the most important aspect of FFT, Jobs
How To Get Them:
