NOTE: I've added a Search Engine into all my FAQs now. To use this, if there's something you wish to find instantly in my FAQ, in the above table, on the left is the name of a section or sub-section. To the right is a weird code, like GOK5.1. Basically, if you wish to go to the section where I tell you about Goku under The Playable Characters Of The Story, on your Keyboard, hold Ctrl and then hit F and a window will open. Type in GOK5.1 and hit Find Next. It'll bring you to that section instantly. The code to reach the Table Of Contents is just that: Table Of Contents. I hope this makes browsing my FAQs easier for you. Enjoy!

Hey and welcome to another Monster List (Technically...) by me, Kain Stryder. This time, I'm covering Final Fantasy Tactics, although I'm kind of straying from normal. It's a Monster List, but also a Character and Class List as well, listing stats for every person in the game, for EACH Level. As usual, I please ask that you do not take this guide and claim it as your own for profit, personal gain, etc, as I spent too much time on this and that's the last thing I need, having some snot nosed kid taking this, claiming it as theirs and getting away with it for nothing. Please, just respect this, as it's all I ask of you. Also, please don't edit this guide in any way, shape or form unless you have my permission, although I don't care what you do with it for personal use ONLY. That and this guide is to ONLY be on GameFAQs and NO other site, unless I state otherwise. Anyway, thanks for hearing me out on that and now, onto the Monster List!

Update: This Walkthrough is now available at IGN, Neoseeker and any other sites I've allowed via E-Mail to host this file. If I did not give you permission to host this FAQ on your site, then you're hosting it illegally and if you're reading this on a site with any variatin of "cheat" in its name, please notify me so I may take the necessary action. Thanks.

= II. Current Updates . . . . . [ CURUP2 ]=  
=====

5/14/07 - Just writing in to let any readers know if they E-Mail me any questions or comments, that my address still works. My willpower to write walkthroughs over the last few years died, mostly to college and real life, but I may just start this up again. Feel free to write in, thanks.

11/26/06 - Finished the guide and I have made it the final version. If I ever need to revise or edit the guide in the future, I'll do so. If someone sends me something that I believe is worth putting in this guide, I'll also update with it. Until then, enjoy the guide and I hope it helps you. (Note: Lord Skylark never got back to me with the information he wanted to and I've been busy with college and other things lately. I decided to label this as Final and be done with it. If anyone has anything they'd like to add to this guide, feel free to E-Mail me. Thanks!)

3/27/04 - Alrighty, well, I completed the basics of this guide for now. I still need to get more information from Lord Skylark on some of the things he's missing, such as a few stats for each Character/Class/Monster, as well as some missing things here and there. Though, until then, I think you'll find this guide more than helpful for those of you looking for the

perfect game. So, until my next update, enjoy!

=====  
= III. FAQ (Frequently Asked Questions.) . . . . . [ FAQ3 ] =  
=====

There are none...yet. If I get any, I'll add some up, so start E-Mailing me so I can add to this area!

=====  
= IV. Character List . . . . . [ CHARLI4 ]=  
=====

Note: Here's a key for all the stats you'll see: Lv=Level, HPL=Minimum HP, HPH=Maximum HP, MPL=Minimum MP and MPH=Maximum MP.

Also, a quick explanation on exactly what all this is. Basically, it's a chart that shows the growth rate for EACH Character, based on their Class in the game from Level 1 to 99. There's a minimum and maximum amount of stats they can gain, as you'll see on the list below, so, use it to help you with whatever. Finally, these stats for the computer controlled characters will ONLY be these IF they are kept as the Class they start as. Otherwise, depending on their Class, you'll get mixed stats.

=====  
= V. Class List . . . . . [ CLASLI5 ] =  
=====

Note: Here's a key for all the stats you'll see: Lv=Level, HPL=Minimum HP, HPH=Maximum HP, MPL=Minimum MP and MPH=Maximum MP.

Also, a quick explanation on exactly what all this is. Basically, it's a chart that shows the growth rate for EACH Class in the game from Level 1 to 99. There's a minimum and maximum amount of stats they can gain, as you'll see on the list below, so, use it to help you with whatever. Finally, these stats for the Classes will ONLY be these IF the character is kept as the Class and progressed to the end. Otherwise, depending on their Class, you'll get mixed stats.

Well, here's where I give credit to the ones that helped make this guide possible. Here's the following people I'd like to thank:

Squaresoft - For making the game of course. It's a DAMN good one, although I've yet to beat it, as it's VERY time consuming, but fun. Thanks for making this nice spin off of the series and like many others, I greatly enjoy it. Thank you!

Myself - For writing this guide. Thanks for reading it and I hope it helped you in playing the game.

Lord Skylark - For his INTENSIVE and AMAZING work for getting this information. THANK YOU VERY MUCH. I can't stress this enough. You ARE THE ULTIMATE Final Fantasy Monster guy. Check his site out at [http://www.geocities.com/lord\\_skylark/](http://www.geocities.com/lord_skylark/) and be prepared to be amazed.

Thanks for reading my guide, first of all. I sure hope it helped you. If you wish to submit something to this guide, send it to [ssj4kain@aol.com](mailto:ssj4kain@aol.com) and label the subject as "Submit-Final Fantasy Tactics List" and as nothing else please. It isn't too hard and I'm not asking for alot. If you have any questions regarding this game, also send them to me and label the subject as "Question-Final Fantasy Tactics List" please. Again, not asking much here and it isn't hard to understand. Now for the legal stuff.

This guide was created by Kain Stryder. It is not meant to be used on any other site besides GameFAQs and any other site I've deemed to have it hosted on. It's not to be edited in ANY way for other use. (Unless I give permission to do so.) I did not create, nor take in participation of creating Final Fantasy Tactics. I am not affiliated with Squaresoft, nor the team who made it. I also don't have the rights to it. I am a writer simply giving out information to other gamers of Final Fantasy Tactics.
