Tuesday's the Delicious Hour is a must-watch-channel also. List the recipes. You don't know what help can it give especially when you already have a kitchen. In TV Shopping Channel, you can buy utensils and seasonings for cooking. After watching the WHOLE show, go to Doug's Place and use the telephone there beside Doug.

~~~~~  
Cabinet /  
~~~~~

None-edible items are deposited here such as dogball or flowers. You can also have this after your 1st House Extension.

Mailbox

You should check this everyday. Important reminders are here. Mails on the Mailbox are removed after a season.

Fish Pond

You can grow fishes here but you can't fish here. Beside is the Food Basket, throw only one Fish Food everyday so that fishes will gradually increase.

Apple Tree

When Summer, three apples drop from the tree. There will be a honey comb here when you planted some flowers. Get a Honey and show it to Louis. The selling price will go up!

Henhouse/Chicken Coop

Obviously, you'll raise chickens here! At first there is a maximum of five chickens but after Gotz upgraded it, the maximum will be ten. Feed the chickens from the feedspout (the red box). Put only one chicken feed to one feedbox for one chicken. After the chicken laid egg, you can sell it or put it in the incubator. After some days, it will be a chick and then a chicken.

~Note~
You also need to feed chicks!

Watermill

The river makes the watermill roll. The purpose of the watermill is to make chicken feed. Throw an ear of corn and it will be processed to ten instant chicken feed. It's just the same as buying chicken feed at Chicken Lil's. If you sell an ear of corn, it gives you 100 G. If you buy ten chicken feeds, it will cost you 100 G also. Remember that the chicken feed is automatically placed at the Feed Spout.

Field

You can grow your crops here but beware! You need the right seed for the right season. Note that all the seeds in the Supermarket are for that season but Won sells different kinds of seeds. :P Before growing crops you need to till the land first using you hoe. Till a 3x3 pattern because one bag of seeds contains 9 seeds and the best profitable pattern is the

3x3 plot.

#####

Barn

You can raise your cows and sheep here. The maximum is ten animals but if you upgrade it, the maximum will be twenty. You can take care of your cows and sheep by talking, brushing, and feeding them everyday. If you have a Milker, milk your adult cows. This will make them happier. For the sheep, the Clippers will cut off their wool. You can milk the cows everyday unlike the sheep's wool that will regrow after one week.

~Note~

The cow you bought at the Yodel Ranch is still young but the sheep is old enough to clip its wool. :)

#####

Lumber Stockroom

After you chopped the branches and stumps, the produce will automatically be stocked at the lumber stockroom. You can get the lumber from the stockroom and make a fence by making a closed rectangle. Put them together. :D

#####

Stable

The Stable is where your Horse is raised. Actually, the Stable is just a place where you should put your horse when it rains or a disaster will come. Your horse or pony, on the first year, doesn't need to be fed. Just talk to it and brush it everyday. I recommend placing your horse outside and whistling to it everyday.

#####

Doghouse

The Doghouse is just a design. You can't put your dog there. Anyway, to take care of your dog, you just need to lift it up everyday. And when it is raining, put it inside your house. This goes well in disasters. On Fall, your puppy will become a Dog and Won will offer a Dogball for 100 G. Buy it and play with your dog. this trains it for the incoming Dog Festival. :D

#####

River

You can fish in the river, then you can put the fish in the Pond. this is not the best place to fish. The best place is the Sea. But whenever you are, you will fish some garbage. You shouldn't just throw it. It will increase your liter count. Instead, put it in the Trash Bin in the Rose Square. You can also put it in your basket. :P Cheat! :P Anyway, the liter count is whenever you throw away items. To lessen your liter count. You can confess at the church (to the door on the upper-left side). It's not always open.

=====
