UPDATES

27th April 2002 : Added some of the Mineral Village and the Mountain portion.

Oh...and SHITSHITSHIT!!! I GOTTA MAKE THIS UPDATE QUICK, BEFORE OTHER SITES SEE version 0.1!!!! I accidentally authorised many other sites for usage of this FAQ, because I copied and pasted the Legal Stuff bit from my Harry Potter FAQ, and I'm not sure if any of the sites have taken this FAQ!!! Could someone please help me check and tell me?! AHHH!!
Version 0.2 done.

22nd April 2002 : WAHAHAHAHA!! I FINISHED THE WALKTHROUGH!

Phew...version 0.1 done.

20th April 2002 : I started on "The Farm" section. Finished the Animals and Layout of the Farm sub-sections.

19th April 2002 : Finished the 2nd Year, and the first season of Year 3 Spring.

16th April 2002 : Finished the Crops section and tidied up the Contents a little. I polished and corrected what I've done of the Walkthrough so far. Winter 2nd Year almost finished, there are just a few days to fill in.

15th April 2002 : Did another two more seasons of the Walkthrough. Second year almost done.

14th April 2002 : Another season of the Second Year in the Walkthrough. So far, the first Year has been finished.

19th March 2002 : Started on the Walkthrough.

15th March 2002 : Added the Recipes section. Half-complete.

14th March 2002 : Added the Crops section. Almost complete!

10th March 2002 : On this fateful day, I embarked on the guide. Hey, what am I saying? :-)

WHO AM I?

My nick is Schlave - let's just have it as that.

Harvest Moon was unexpectedly NOT an RPG like Golden Sun (GBA) or Chrono Cross (PSX)...rather, it is simply a farming simulation. In my opinion, Natsume achieved their objective with this game - to almost fully simulate the farming experience.

I've seen many walkthroughs pop up, and many of them go. What I've noticed is that, for 2 years, even the best ones (like SONG's) are lacking a walkthrough. I decided to not only make a full FAQ, but also a walkthrough, as a way to guide newbies through the game effectively and complete a sufficient number of (fixed?) objectives.

Harvest Moon: BtN is, as of the 16th of April, the largest FAQ I have ever embarked on. It was also my secret project, to momentarily distract me from current FAQs I was doing. Definitely there will be a few (very few!) spelling mistakes and quite possibly a couple of factual errors in the guide. I myself am no veteran of the game, but those more experienced, I welcome their help and guidance in any stupid mistakes. I shall attempt to make this FAQ cover as much of Harvest Moon: BtN as I can. Personally, I am aware of the information covered in previous, just as detailed, FAQs.

If I thought Ecks vs. Sever (GBA) was deep, this game is even deeper. I had to think of all the stuff you can find in this game, and time limitations forced me to make brief references to other FAQs. There's tons of the information, and I have tried my very best to put them into clear-cut categories.

I hope this guide is fulfilling to all those who use it.

CHARACTERS

There are a lot of people you can find in Harvest Moon - Back to Nature to talk to. Most do not come into much use. Others, like who I shall outline here, can never be done without.

This section is still under construction, as I am making a more precise and detailed character guide. As of now, I am experimenting with the vast bestiary of items in Harvest Moon on every character.

3.1 Jack (or, whatever you name your character)

=====

Hey, he is whom you play as, and is the very sole owner of the farm! He need not be called Jack, just whatever you call him, but if I ever have to address the character in the third-person, I will address him as Jack.

3.2 Doctor

=====

Description:

Wears a white doctor's uniform and has an odd little circular lamp on his forehead.

Favours:

Red, Blue Grass

Likes:

Green Grass

Dislikes:

Found at [specific time]:

Clinic
Mother's Hill

The medicine man of the town. Provides medicines (like Bodigizer, Turbojolt etc.) and medical examinations for ailments...for money, of course. He is a shady guy who hides his feelings most of the time.

3.3 Saibara

=====

Description:

Saibara is an old man with a white beard and moderately long white hair.

Likes:

Ore

Found at [specific time]:

Blacksmith

Saibara is a seasoned, old blacksmith who produces excellent wares and helps you upgrade your tools. He also has a grandson, Gray, much of which is expected of him.

3.4 Zack

=====

Description:

Zack's a muscular guy and has a very small moustache, and smiles quite a lot.

Likes:

Large Fish
Wine

Found at [specific time]:

Supermarket
Dock
Farm [5 pm]

This guy comes every day at 5 pm to pick up your wares in the shipping box, and deliver stuff you order from the Shopping Channel on the TV. Overall quite a nice guy and is easy to get along with, and he lives in a small house at Mineral Beach.

3.5 Gotz

=====

Description:

Big muscular guy with beady eyes and a grey beard. Wears a white, short-sleeved shirt.

Likes:

Oil
Lumber

Found at [specific time]:

His House
Mother's Hill
Supermarket

Another important fella to have around. He upgrades your house if you have enough wood, thus paving your way to marriage.

3.6 Won

=====

Description:

A guy who wears yellow Chinese clothing and hat, along with sunglasses. He carries a briefcase with him.

Likes:

Fish

Found at [specific time]:

Inn [1 - 3 pm]

If not for the fact that he rips you off sometimes (e.g. selling you the Blue Feather for a whopping 5000G) he would have been an innocent Chinese merchant with the rare wares for sale. He sells seeds that you cannot find in the Supermarket, but make sure you are not getting ripped off for something you could get just as easily, and much cheaper.

3.7 Louis

=====

Description:

Wears a green bush jacket and a white hat, with glasses. He looks every bit like a mad scientist...look at his eyes...

Likes:

Honey

Found at [specific time]:

Gotz's House

Louis is an extremely smart scientist who is handy for upping the price of your honey when you give it to him for a period. He puts up at Gotz's house.

3.8 Barley

=====

Description:

An old man with a long white beard and wears a green shirt and short pants. He is slightly hunched.

Likes:

Eggs (Spa-boiled)
Bamboo Shoots

Found at [specific time]:

Yodel Farm
Hot Springs

Barley is a kind old man who is very easygoing! He has a granddaughter May, left to him by his daughter Joanna, when she left. Barley does not like talking about his daughter Joanna. He gives you a horse in the first year, but will take it back if the horse does not have enough hearts. He is the owner of Yodel Ranch and provides you with cows and sheep for a price.

3.9 Greg

=====

Likes:

Fish (especially Large Fish)

Found at [specific time]:

Dock [Friday - Sunday, 8 - 10 pm]

He fishes almost all the time at the beach. He gives you a fishing pole.

3.10 Carter

=====

Description:

Wears a plaid jacket and has a head of short hair.

Likes:

Wine

Bread

Rice Balls

Found at [specific time]:

Church

He is the priest of the church, and is very friendly and easy to get along with. If you have any confessions, take them to the confession box in the church and tell him.

3.11 Rick

=====

Description:

Rick has orange hair which goes down to his neck at the back and wears large spectacles.

Favours:

Likes:

Dislikes:

Found at [specific time]:

Poultry Farm

Outside Supermarket

People say he is psycho, but I find him perfectly sane. He is extremely defensive of his sister Popuri, and this gets him into fights sometimes. In truth, he is rather comical. He fancies Karen and wine. (look, if you want to make him doubly unhappy, FINE! just marry Karen and don't tell him about Popuri leaving the village. ooh, he'll be unhappy alright; no Karen, no sister!)

3.12 Kai

=====

Description:

A tanned guy who wears a purple bandanna around his head.

Likes:

Corn

Bread

Found at [specific time]:

Seaside Lodge [Summer]

For some reason, he is not well liked by the people (as Rick says, he comes and pisses everyone off, then leaves.). Every Summer he will come

to open the Summer Lodge, and will be found at the Summer Lodge during Summer. Popuri and him like each other, but Rick does not like it...and Kai does not like Rick. Nevertheless, he is not as rude as you may think, and making friends with him is also good too.

3.13 Gray

=====

Description:

Wears a blue baseball cap and khaki jacket.

Likes:

Ore

Found at [specific time]:

Blacksmith

Library

Gray is a shy person who hides his feelings under his blue baseball cap. He resents the village life, thinking it is boring...but when he meets Mary, he gets a whole new insight. Gray is, as mentioned, shy, but is quite friendly nonetheless. He's a helpful guy once you know him better, and making friends is pretty good.

3.14 Doug

=====

Description:

Your average country guy with a plaid suit and jacket, with a moustache on his face. His hair is short and bushy.

Likes:

Mushrooms (NOT poison)

Eggs

Found at [specific time]:

Inn

He is Ann's father, and an excellent cook (if you don't win the Cooking Festival, he, or more occasionally his daughter Ann, will win). He owns the Inn and wishes to see Ann get engaged. I guess it's slightly harder since he raised her to be such a tomboy :-)

3.15 Jeff

=====

Description:

A guy who looks like a French waiter - has moustachios and wears a white shirt and bow tie.

Likes:

Bodigizer

Wine

Found at [specific time]:

Supermarket

He is Karen's father. Jeff is a procrastinator and allows buyers in the Supermarket to buy first and pay later - which Sasha does not like. He is under lots of stress - "I'm up to my ears in bills." Jeff is the owner of the Supermarket as well.

3.16 Cliff

=====

Description:

A head of brown hair (slightly spiky) and a short-sleeved brown shirt is what he wears.

Likes:

Eggs (Spa-boiled)

Found at [specific time]:

Inn

Church

He is a wandering traveller, and desperately needs a job, so he has come to Mineral Village. He puts up at Doug's Place, and does not know how to deal with his relationship with Ann very well...

3.17 Duke

=====

Description:

Wears a white shirt and purple vest, with a bow tie. His hair is streaked with white.

FAVOURS

("Oh, thank you. As long as I can work and eat good food I'll be happy.")

- Wine
- Grape Juice

LIKES

("Thank you.")

- Mushroom

DISLIKES

("What is this? Is it good?")

- Green Grass
- Red Grass

HATES

("What's this!? Are you joking with me?")

- Weeds
 - Poison Mushroom
-

Found at [specific time]:

Winery

Inn [night]

Father of Aja, who left the village a while ago (to become a F1 Racer...watch more TV :-)). Duke is a friendly, easy-going guy who smiles a lot and cares about his grape vines just as much. However, he is depressed at the leaving of his daughter, Aja, to get a job far, far away, and drinks himself drunk at night.

3.18 Manna

=====

Description:

Has a head of black hair, with a black top and a dress.

FAVOURS

- Flowers

LIKES

("Thank you. Do you make a point of giving every villager their favourite thing? I mean, not everyone is happy with everything you give to them, so you should give them different things and watch their expressions. They may hesitate to tell you what they really feel, but you can read it in their faces. For example, my expression now is a 'normal' expression.")

- Mushroom

- Wine

DISLIKES

HATES

("Oh my, what is this? I like you, Jack, so I don't mind whatever you do...but other people may get angry. Be careful because the villagers here don't take jokes like this very well.")

- Weeds

- Poison Mushroom

- Grape Juice

- Red Grass

Found at [specific time]:

Rose Square [sunny climate, afternoon]

Winery

Manna loooooovves talking! In fact, the most direct of answers or questions will rile off several textboxes of her words. Some of the information is off track of the topic - but she provides excellent information on the people in the village, as well as their shady pasts. She is disappointed at her husband for becoming weak - he falls into

depression in thinking of his daughter, is a drunkard and gets angry easily. Nevertheless, she's a kind soul.

3.19 May

=====

Description:

A small girl who wears a red blouse and has pigtails.

Likes:

Garbage (e.g. Fishbones, Tin Cans etc.)

Found at [specific time]:

Barley's House

Church (playing with Stu)

Hot Springs

May is a cute little girl whose mother, Joanna, left her when she was younger. She is brought up by her grandfather Barley, but to her, life is not so colorful. She likes to show Barley bits of Garbage.

3.20 Stu

=====

Description:

Stu is five years old and has a head of short black hair and wears a T-Shirt and shorts. He is quite a cheerful guy.

FAVOURS

LIKES

DISLIKES

("I...I'll give it to Grandma.")

- Mushroom

HATES

("I don't want this.")

- Weeds

- Green Grass

- Poison Mushroom

Found at:

Ellen's House

Church

Stu is the small boy of Harvest Moon: BtN. He really does not affect gameplay that much, but it's good to be friends with this friendly kiddo.

3.21 Anna

=====

Description:

Anna is Mary's mother, but is a little bit fussy...she waits a light yellow dress and has a head of black hair.

FAVOURS

("Oh, how nice. Thank you.")

- Green Grass

LIKES

("Thank you. I like it very much.")

- Mushroom

DISLIKES

("Ecch. What is this?")

- Weeds

- Poison Mushroom

HATES

Found at:

Ellen's House

Church

Stu is the small boy of Harvest Moon: BtN. He really does not affect gameplay that much, but it's good to be friends with this friendly kiddo.

3.22 Ellen

=====

Description:

Ellen is the old lady of Mineral Village and a firm friend of the Mayor's. She likes Apple Pie, and she has a head of black hair tied up in a white cloth, as well as a blue scarf around her neck. She also wears a yellow dress.

FAVOURS

("Well, thank you Jack. Please come again.")

- Mushroom

LIKES

("Thank you for going out of your way like this.")

- Green Grass

DISLIKES

("What? Why for me?")

- Weeds
- Poison Mushroom

THE FARM

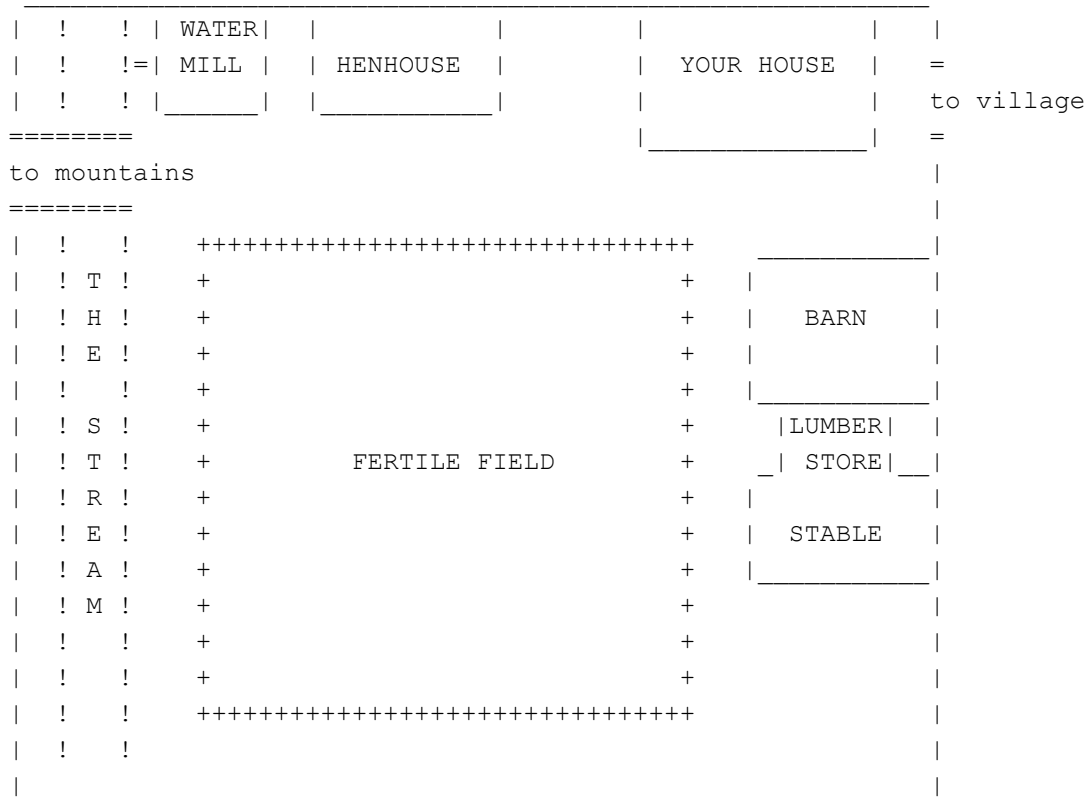

At last, here we are; the part of the guide relating to your Farm! Or rather the Farm; you won't get it until end of Year 3, if you percentage is high enough (say, 30%).

4.1 Layout of the Farm

=====

You absolutely have to know where all your stuff is in the Farm. Time runs very fast, and you have to save every minute. So knowing where your Barn or your Stable is is very important.

NOTE: The below diagram is not really to scale.

4.1.1 Your House

=====

The House is where you live. It's a bit small at the start, but you may upgrade it with the help of Gotz. It can be upgraded two times, and each time it will bring some new facility into the House. More of this will be detailed on in the "Mineral Village and Mountains" under the

Mountains section: Gotz's Area.

4.1.2 Henhouse

=====

The Henhouse stores all your Chickens and your Feed Boxes. It contains an Incubator, 5 Feed Boxes and 1 Feed Spout at the start, and you can have a maximum of 5 Chickens. You can breed Chickens by picking up an Egg and putting it into the Incubator. The Egg hatches in 3 days. Feeding your Chickens is also a snap; just go over to the Feed Spout, the red thingy in the top left corner, and press X. You will take out a unit of Chicken Feed (if you have more than one) and one Chicken needs one unit of Chicken Feed in a Feed Box. Simply go over to an empty Feed Box and dump in the Feed. To harvest Eggs, pick them up and dump them into the Bin in the bottom left corner.

When upgraded, the Henhouse contains 2 Incubators, 2 Feed Spouts and 10 Feed Boxes. You can store a maximum of 10 Chickens.

4.1.3 Barn

=====

The Barn is where your Cows and Sheep are stored. At the start, the Barn has space for 10 livestock; upgrading it adds another 10 Feed Boxes to the 10 Feed Boxes at the beginning. The Fodder Spout is on the frontmost wall. You feed your livestock Fodder the same way you feed your Chickens.

4.1.4 Lumber Store

=====

When you cut down Tree Stumps or chop up Logs, all Lumber is stored here automatically.

4.1.5 Stable

=====

The Stable only stores your Horse; nothing more. Your Horse is safe from natural disasters if you put it in here.

4.1.6 Water Mill

=====

The Mill is next to your Stream, and is driven by the stream's kinetic energy. By dumping in Corn, you can make Chicken Feed which your Mill supplies to the Feed Spout. 1 unit of Corn provides 10 units of Chicken Feed.

4.1.7 The Stream

=====

The Stream drives your Water Mill and contains Garbage, Small/Medium Fish and Logs. You can fish in the Stream.

4.1.8 Fertile Field

=====

If you miss finding the Fertile Field, I suggest you go study Braille. The Fertile Field is a very large tract of light brown land, which is useless for planting seeds until you use the Hoe to hoe a plot of land.

Seeds can only be planted on the hoed, dark brown land on the Fertile Field; and you can only hoe plots of land on the Fertile Field. Weeds grow on the Field and can also grow in hoed but unseeded plots of land; get rid of them by pressing X and uprooting them. Stones and Rocks are also rampant on the Field; use your Hammer (needs to be upgraded for Rocks and Large Stones) to smash them.

4.2 Animals

=====

You have animals on your Farm of course. And most of them can be bred or bought. They come into some sort of use usually.

4.2.1 Puppy/Dog

=====

This is the first animal you get in the game. Someone (I think it is Barley) will give it to you when you start the game. Your Puppy needs 2 seasons to grow into a Dog, after which you may choose to mate it with Barley's female Dog (Hana-chan, or Miss Flower in Japanese) to produce Puppies. You can make your dog happy by giving it a ride; simply pick it up and put it down. When you get the Dog Ball from Won for 100G after your Dog is fully grown, you can throw the Ball and the Dog, if nearby and awake, will run and grab it and come back with the Ball in its jaws.

Alternatively, if you don't like your Dog, you can put it in the Mountains to lose it forever; or if want to bully it, take the Sickle and Hammer to it, or throw it into the Hot Pot at the Harvest Festival.

4.2.2 Pony/Horse

=====

The second animal you can get in the game. Except on Mondays, go to Yodel Ranch, where Barley and May will be sitting outside looking at a downcast Pony. Barley will lend it to you for a year to take care of, and if after a year the Pony has more than 7 hearts, he will give it to you. Otherwise, he will take it back, and you must plant 25 packets of Grass to make Barley moved enough to give you another Pony.

The Horse, when fully grown, can ride you around the Farm very fast, but cannot exit the Farm. It does not require any Fodder at all. It also acts like a moving Bin; you can deposit your stuff inside the pack on the Horse without having to run back to the Bin on your Farm.

4.2.3 Chicken

=====

The Chicken is a cheap way to get daily money, but is an animal you have to feed. You need to feed it everyday, and each Chicken requires 1 unit of Chicken Feed, which you can make either by putting Corn into the Water Mill, or buying 1 unit for 50G at the Poultry Farm.

As long as you feed it everyday, each Chicken will produce 1 Egg. The heart value will also grow fast. Each Egg, whether Normal (0 - 3 hearts), Good (4 - 7 hearts) or Excellent (8 - 10 hearts) (check by selecting it in the Rucksack with X twice) will sell for 50G if put into the Bin (of course!), and Golden Eggs (if you Chicken wins the Sumo Chicken Festival) will sell for 150G.

You can breed Chickens by putting an Egg into the Incubator and wait 3

days to hatch, or buy one from the Poultry Farm for 1500G. Each chick will take a full week to fully grow, but it's a relatively short time in comparison to other animals...furthermore you can sell them to Lillia. The more hearts, the better the value.

4.2.4 Cow

=====

The Cow is expensive, but an excellent way to boot up your daily money. Each Cow requires 1 unit of Fodder everyday, and you can get Fodder by slicing fully grown, dark green Grass with the Sickle or buying 1 unit for 20G at Yodel Ranch.

As long as you feed it everyday, each Cow will produce 1 bottle of Milk. Normal Milk (0 - 3 hearts) will sell for 100G, Good Milk (4 - 7 hearts) for 150G, Excellent Milk (8 - 10 hearts) for 200G and Golden Milk (must win the Cow Festival) for a whopping 300G. You need a Milker from Saibara for 2000G to milk the Cow though (strange; the Cow loves the milking too! I guess it's sort of like pissing.).

If you have a Mixer (a sort of Utensil) and Kitchen you can make Butter, which is handy for many dishes. If you have a Cheese Maker, you can make Cheese.

Talk to and brush your Cows everyday to make them happy. To get more Cows, you can buy one from Yodel Ranch for 6000G per Cow (!), or buy a C.M Potion from Yodel Ranch for 3000G and pregnate a Cow. The Cow will give birth after 3 weeks, and the new-born baby calf takes 2 weeks to become a calf, and 2 more weeks to become a fully grown Cow. You should pregnate only if you have more than 1 Cow, otherwise stick to saving up; it's much faster.

4.2.5 Sheep

=====

The Sheep is less expensive than a Cow, but its Wool isn't generated quite so fast. Each Sheep requires 1 unit of Fodder everyday, and you can get Fodder by slicing fully grown, dark green Grass with the Sickle or buying 1 unit for 20G at Yodel Ranch.

As long as you feed it every day, each Sheep will produce one ball of Wool EVERY WEEK. It's a slow process, but if your Sheep wins the Sheep Festival, it produces Golden Wool which sells for a hell-yeah price of 600G. You need Clippers from Saibara to clip the Wool from the Sheep though. It costs 2000G.

With a Yard Ball Maker, you can toss Wool into the Maker to make Yard Balls (or should that be yarn balls?). They sell for a much higher price.

Talk to and brush your Sheep everyday to make it happy. To get more Sheep, you can buy from Yodel Ranch for 4000G per Sheep, or just breed by pregnating a Sheep with a S.M Potion from Yodel Ranch for 3000G. Each new-born Sheep requires 2 weeks to grow into an adult.

MINERAL VILLAGE AND THE MOUNTAIN

This portion of the guide describes the Village in detail, as well as

the services, so if you want to find out how to level up Tools or where to buy Cows and other stuff, look here.

5.1 Mineral Village

=====

The good villagers of Mineral Village dwell in various parts of the Village. Some are stay-at-homes and very easy to find (e.g. Ellen); some are constant travellers (e.g. Basil) and move from place to place in the Village.

The villagers provide various services, and you can go to them to buy something or get information from them.

There are various parts in the village, which I shall highlight one by one. I make references to the parts of the village, starting from the northern exit on your Farm, to the Village, the exit to the right of your House. Like this:

- First Area : Saibara the Blacksmith, Aja Winery
- Second Area : Anna's House, Library, Ellen's House, Mayor's House
- Third Area : Supermarket, Hospital
- Fourth Area : Church, Harvest Sprites' Hut
- Fifth Area : Doug's Place
- Sixth Area : Poultry Farm
- Seventh Area : Yodel Ranch

5.1.1 First Area

The First Area is where you first emerge into the village via the northern exit from your Farm. It contains a straight stretch of road, beside which lie Saibara the Blacksmith, and Aja Winery.

5.1.1.1 Saibara Blacksmith

"Open from 10 am to 4 pm. Sorry, but we're closed on Thursdays."

People you can find here:

=====

Saibara - the old but seasoned blacksmith. He's the one who does the upgrading.

Gray - Saibara's nephew and apprentice-in-training. Not very talented as a blacksmith.

(Zack sometimes pops by to have something made.)

Services:

=====

The Blacksmith offers the making of Jewelry and certain Tools, levelling up of Tools, and sells several ready-made Tools.

--~LEVELING UP TOOLS~--

To upgrade a Tool, first hold the Ore in your hand and equip the Tool you want to upgrade. Talk to Saibara and say "Level up Tool".

Your Tool must have sufficient "experience" to upgrade to a certain

metal, which you can read in the Start Menu. It requires 3 days to upgrade. It is measured as a percentage, like so:

- Copper : 100% experience required, costs 1000G to upgrade
- Silver : 200% experience required, costs 2000G to upgrade
- Gold : 300% experience required, costs 3000G to upgrade
- Mystrile : 400% experience required, costs 5000G to upgrade

You know your Tool is qualified for an upgrade once you see a small picture of the better Ore below its status. While a Tool is upgrading, you will not be able to enter the Blacksmith.

--BUYING TOOLS--

Saibara also sells several Tools you can use to take care of your animals. These can be bought with the appropriate amount of money. Note: These are must-haves!

- Brush : sold for 800G and used to brush Horse to keep it happy.
- Clippers : sold for 1800G and used to harvest balls of Wool from Sheep.
- Milker : sold for 2000G and used to harvest Milk from Cows.

--MAKING TOOLS--

Saibara specializes in making Tools with certain special Ores. He requires rare Ores to make them, namely the Orichalcum and Adamantite Ore, both of which can be mined for at the Winter Mine, open in Winter. He charges quite a hefty price!

To make the special Tool, you simply have to store the Ore in the Rucksack. If you hold it in your hand...it will be a gift.

- Girl's Present : a piece of Jewelry. Requires 1000G and Orichalcum Ore. Takes 3 days to complete.
- Mayonnaise Maker : can make Mayonnaise by throwing Eggs into it. Requires 20000G and Adamantite Ore. Takes 5 days to complete.
- Cheese Maker : can make Cheese by throwing Milk into it. Requires 20000G and Adamantite Ore. Takes 5 days to complete.
- Yard Ball Maker : can make Yard Balls (or rather, balls of Yarn) by throwing balls of Wool into it. Requires 20000G and Adamantite Ore. Takes 5 days to complete.

5.1.1.2 Aja Winery

"Opened from 9 to 12 [pm] selling wine and grape juice made from our own orchard. Closed Saturdays."

People you can find here:

= = = = =

Manna - Owner of Aja Winery; or rather, the only person who appears to be selling the merchandise of Aja Winery. She is very talkative, but very nice.

Duke - Manna's husband. He gets himself drunk every night in Doug's Place, and always forgets Manna's birthday. He tends lovingly to the orchard.

Services:

= = = = =

Aja Winery is not a bar! It sells mainly Wine, but other than that, nothing much more. It's also pretty hard to get Wine/Grape Juice, because the Winery is only open for 3 hours a day!

--BUY MERCHANDISE--

Aja Winery sells fine Wine and Grape Juice, made from Duke's equally fine grapes. Wine is often well-received by people, but is rarely used in recipes. Grape Juice is the cheaper, non-fermented drink.

- Wine : 300G
- Grape Juice : 200G

5.2 Second Area

=====

The Second Area is where a stretch of road leads through several houses. Not the most important of sectors...

5.2.1 Anna's House

People you can find:

=====

Anna - A woman very protective of her house. She's not too bad, but is a very fussy woman and shows frankly whether she likes or doesn't like something.

Basil - He's a man of nature and enjoys exploring. He's a nice guy and brings home Mushrooms for his wife.

(Mary sometimes comes home too.)

5.2.2 Library

"Mary's Library. Open from 10 am to 4 pm. Closed Mondays."

People who you can find:

=====

Mary - The librarian and one of the girls you can court. A friendly and easygoing gal.

(Gray sometimes pops by to read books - YEAH RIGHT! HE COMES SIMPLY TO SWANK AROUND IN FRONT OF MARY! >;-))

Services:

=====

--READ BOOKS--

The Library contains a wealth of information and you can read the books there for a lot of information regarding the game, e.g. Harvest Sprites and the like.

5.2.3 Ellen's House

People you can find:

= = = = =

Ellen - the kind old lady of Mineral Village. 'nuff said.

Stu - a cheeky boy who shows Ellen, his grandma, bugs out of the ground.

(Elli comes home on Wednesdays.)

5.2.4 Mayor's House

People you can find:

= = = = =

Mayor Thomas - he's the head honcho of the Village and loans you the Farm for 3 years, after which, if he is satisfied, he will grant you ownership of the Farm.

Kano - the Mayor's swanky son who wears a camera and a bow tie. He is a master photographer.

5.3 Third Area
=====

The third area is the central area of the town, because it contains two main buildings, the Supermarket and the Hospital.

5.3.1 Supermarket

"Supermarket. Open from 9 am to 5 pm. Closed Tuesdays and Sundays."

People you can find:

= = = = =

Jeff - always around at the Supermarket, he stands at the counter and awaits your purchase. He's stressed out most of the time.

Sasha - comes home and hangs around the counter (not helping Jeff!) when the weather is rainy/snowing.

Karen - she hangs around on from 10 am to 4 pm outside her room when the Supermarket is open. She's another fussy girl and costly to please, but she's a caring person. And she likes Wine! She is another girl you can court.

(Zack, Gotz, Saibara, Mary and Anna occasionally pop by the Supermarket to do their purchases as well.)

Services:

= = = = =

The Supermarket is the main shopping centre! BUY! BUY! BUY!

--BUY SEEDS--

Located in the centre of the Supermarket is a large counter. And on the counter, there are several bags of seed. The seeds change from season to season (except Winter, when no seeds are for sale). For the cost of each bag of seeds, refer to the "Crops" section.

--BUY COOKING STUFF--

This, the Cooking Corner of the Supermarket, is where you can buy ingredients for cooking Recipes...warning! The Cooking Corner will not contain all the ingredients, only 5 of them.

- Curry Powder : sold for 50G a packet, used in Curry, Curry Noodles
- Oil : sold for 50G a bottle, used in Small/Medium/Large/Gold Mayonnaise, Veggie Pancake, Stir Fry, Scrambled Eggs, Omelette, Rice Omelette, Fried Rice, Fried Noodles, French Fries, Tempura
- Flour : sold for 50G a packet, used in Veggie Pancake, Noodles, Curry Noodles, Cookies, Chocolate Cookies, Cake, Chocolate Cake, Apple Pie, Stew, Pizza, Tempura
- Rice Balls : sold for 100G a packet, used in Rice Omelette, Fried Rice, Bamboo Rice, Mushroom Rice, Truffle Rice, Curry, Sushi, Chirashi Sushi.
- Bread : sold for 100G a loaf, used in Sandwich, Dinner Roll, Jam Bun, Raisin Bread, Cheese Fondue.

--BUY MISCELLANEOUS ITEMS--

Another side of the Supermarket is known as the Wrapping Corner - although most of the items don't wrap anything up. This area is more useful slightly later in the game.

- Blue Feather : Sold for 1000G (after you get 2nd House Extension and red heart for a girl). Used to propose to girl.
- Wrapping Paper : Sold for 100G. Used to wrap items and make them more attractive. Best for birthdays!
- Medium Rucksack : Sold for 3000G. Has 8 slots each for Tools and Items.
- Large Rucksack : Sold for 5000G (after you buy Medium Rucksack). Has 16 slots each for Tools and Items.
- Basket : Sold for 5000G. Convenient storage of items, which can all be dumped into the Bin at one go after collection.
- Fish Food : Sold for 20G per packet. Used to feed fish and make them grow.

CROPS

Crops are the main source of your revenue.

5.1 Buying Seeds

=====

The seeds can be bought at the Supermarket. Press X at the packet of seeds on the counter.

5.2 Sowing, Growing and Harvesting

=====

The seeds, once bought, are transferred to your toolbox and can be stashed until needed. Certain seeds grow only during certain seasons.

5.2.1 Sowing

=====

Seeds require land which is plowed by your Hoe, in order to be suitably planted. Scatter your seeds onto other types of land and your seeds will be lost forever.

As each packet has 9 seeds, you must plow a 3 x 3 plot of land, then stand in the middle and scatter the seeds. If done right, all plots will

be seeded.

5.2.2 Growing

=====

Your seeds MUST be watered every day of their growth period in order for them to grow. It is a tiring process but is one that is compulsory. Not watering your seeds for a day lengthens their growth period by a day. For example, if you plant Turnips (5 days growth period) and water them for 5 days every day, you can harvest your Turnips at the end of 5 days. But if you miss one day of watering, you can only harvest 6 days after the day of sowing.

Although other walkthroughs have listed the use of the Fat-C method as being the best (see below)...

0 0 0	0 0 0	0 0 0	0 []0	Legend	
0 0 []	0 0 0	[]0 0	0 0 0	0 - watered plot	
0 0 0	0 []0	0 0 0	0 0 0	[] - unwatered plot	

...I myself prefer the use of the traditional Doughnut watering way. Basically:

- (1) Hoe [3 x 3] plot of land.
- (2) Stand in middle of land and scatter seeds.
- (3) Water all seeds.
- (4) When the plants germinate, you can only reach the outer crops, unless you've got a Gold Watering Can. Shame...only 8 crops.
- (5) If the crops are regrowable, you cannot reach the middle crop. But you may go ahead and harvest the middle crop if it has grown and you are on your last harvest.

5.2.3 Harvesting

=====

After the required growth period, you can harvest your fully grown crops (provided you have watered them every day). Go over to a seeded plot with a fully grown crop and press the X Button to uproot the crop. Then go over to the shipping bin and press X again to toss the item into the bin; the bin will then vibrate a little. If you toss it wrongly, the harvest will smash onto the ground and it is rendered useless.

At 5 pm, Zack will pop by your farm to see if there is anything in the bin to sell; if there is, he will give you the money, take the items and leave. If you go to sleep before 5 pm, the money will still be added to your account in the morning. If there are no items, then he says "What...nothing today?" and leaves.

If it is a festival day, Zack won't come to collect your stuff. But the items are still in the Bin the next day.

5.3 Normal Crops

=====

This is a list of all the normal crops you can find in the game,

excluding the special crops. These crops are what you can find normally in the game without having to go to extra means to get, or are just there for a general purpose. This includes where you can buy the crops, how much is a packet, how much one crop can be sold for and how much profit you earn per crop. One more thing...certain crops can regrow after you harvest them, so you save some money on buying seeds over and over again. Also, as said, the crops only grow during certain seasons, and NEVER during winter.

The factors I have listed down for each crop are here:

Price	- how much one packet costs	
Buy at	- where to buy the seed	
Growth Time	- the life of the seed before it dies	
Harvest Number/season	- number of times you can harvest one crop	
	in one season	
Re-growth (time)	- does it regrow after harvest? for how	
	long?	
Selling Price/crop	- how much Zack gives you for one crop	
Profit/full harvest	- how much extra money you earn by	
	subtracting seed cost by the money you	
	get for selling 9 crops per harvest per	
	season	
Ingredient of Recipe(s)	- whether the crop is used to make any	
	foods	

(Note: when I say "full crop" I mean 9 crops. If you want 8 or 7...do the calculation :-). Also if the harvest regrows, the profit value will be multiplied by the number of harvests possible)

=====
5.3.1 Spring Crops
=====

5.3.1.1 Turnips
=====

Price : 120G
Buy at : Supermarket
Growth Time : 5 days
Harvest Number/season : 1
Re-growth (time) : No
Selling Price/crop : 60G
Profit/full harvest : (60G x 9 crops x 1 harvest) - 120G = 420G
Ingredient of Recipe(s) : Pickled Turnips

On the 21st of Spring in the first year, the Mayor will ask you to bring 3 turnips to his house. His house is closed before 4 pm, so go after 4 pm with the turnips INSIDE YOUR RUCKSACK (medium). If you are carrying it with you and talk, it is considered a GIFT, and your precious harvest is WASTED!

Turnips are the quick-monah crop of Spring; they grow in a super-fast time of 5 days. They are not regrowable. Shame.

5.3.1.2 Cucumber
=====

Price : 200G
 Buy at : Supermarket
 Growth Time : 10 days
 Harvest Number/season : 5
 Re-growth (time) : Yes (5 days)
 Selling Price/crop : 100G
 Profit/full harvest : (100G x 9 crops x 5 harvests) - 200G =
 4300G
 Ingredient of Recipe(s) : Vegetable Juice, Vegetable Latte, Mixed
 Juice, Mixed Latte, Pickles, Sandwich

On the 21st of Spring in the third year, the Mayor will ask you to bring
 3 cucumbers to his house. His house is closed before 4 pm, so go after 4
 pm with the cucumbers INSIDE YOUR RUCKSACK (medium). If you are carrying
 it with you and talk, it is considered a GIFT, and your precious harvest
 is WASTED!

5.3.1.3 Cabbages

=====

Price : 500G
 Buy at : Won
 Growth Time : 15 days
 Harvest Number/season : 1
 Re-growth (time) : No
 Selling Price/crop : 250G
 Profit/full harvest : (250G x 9 crops x 1 harvest) - 500G =
 1750G
 Ingredient of Recipe(s) : Salad, Deluxe Mixed Juice, Veggie Latte,
 Veggie Pancake, Vegetable Juice, Stir Fry

On the 21st of Spring in the third year, the Mayor will ask you to bring
 3 cucumbers to his house. His house is closed before 4 pm, so go after 4
 pm with the cucumbers INSIDE YOUR RUCKSACK (medium). If you are carrying
 it with you and talk, it is considered a GIFT, and your precious harvest
 is WASTED!

5.3.1.4 Potatoes

=====

Price : 150G
 Buy at : Supermarket
 Growth Time : 8 days
 Harvest Number/season : 1
 Re-growth (time) : No
 Selling Price/crop : 80G
 Profit/full harvest : (80G x 9 crops x 1 harvest) - 150G =
 570G
 Ingredient of Recipe(s) : French Fries

Potatoes are good for quick money next to Turnips, and bring slightly
 more money.

5.3.1.4 Toy Flowers

=====

Price : 300G
 Buy at : Won
 Growth Time : 12 days
 Harvest Number/season : 1

Re-growth (time) : No
Selling Price/crop : N/A
Profit/full harvest : N/A
Ingredient of Recipe(s) : N/A

5.3.2 Summer Crops

5.3.2.1 Corn

Price : 300G
Buy at : Supermarket
Growth Time : 15 days
Harvest Number/season : 6
Re-growth (time) : Yes (3 days)
Selling Price/crop : 100G
Profit/full harvest : (100G x 9 crops x 6 harvests) - 300G =
5100G
Ingredient of Recipe(s) : Popcorn

On the 21st of Spring in the second year, the Mayor will ask you to bring 3 ears of corn to his house (that's a bit unreasonable really. Corn in Spring?! And it's too much of a bother to carry around 3 units of Corn in a Medium Rucksack for half a year!!) His house is closed before 4 pm, so go after 4 pm with the corn INSIDE YOUR RUCKSACK (medium). If you are carrying it with you and talk, it is considered a GIFT, and your precious harvest is WASTED!

5.3.2.2 Tomatoes

Price : 200G
Buy at : Supermarket
Growth Time : 10 days
Harvest Number/season : 5 (minus one because of Swimming Fest)
Re-growth (time) : Yes (4 days)
Selling Price/crop : 60G
Profit/full harvest : (60G x 9 crops x 5 harvests) - 200G =
2500G
Ingredient of Recipe(s) : Tomato Juice, Ketchup, Salad, Sandwich

5.3.2.3 Onions

Price : 150G
Buy at : Supermarket
Growth Time : 8 days
Harvest Number/season : 1
Re-growth (time) : No
Selling Price/crop : 80G
Profit/full harvest : (80G x 9 crops x 1 harvest) - 150G =
570G
Ingredient of Recipe(s) : Ketchup, Curry

5.3.2.4 Pineapples

Price : 1000G

Buy at : Won
 Growth Time : 21 days
 Harvest Number/season : 2
 Re-growth (time) : Yes (5 days)
 Selling Price/crop : 500G
 Profit/full harvest : (500G x 9 crops x 2 harvests) - 1000G =
 8000G
 Ingredient of Recipe(s) : Fruit Juice, Mixed Latte, Deluxe Mixed
 Juice, Fruit Latte

Pineapples are waaaaayyyy expensive (the most expensive crop) but they
 fetch a hefty profit in return. One Pineapple sells for 500G; on top of
 that, they regrow in 5 days, and if you can harvest both at a time, it's
 worth the wait of 26 days, in my opinion!

5.3.2.5 Pink Cat Flowers

=====
 Price : 300G
 Buy at : Won
 Growth Time : 6 days
 Harvest Number/season : 1
 Re-growth (time) : No
 Selling Price/crop : N/A
 Profit/full harvest : N/A
 Ingredient of Recipe(s) : N/A

Plant a 3x3 plot of flowers. When the flowers bloom, bees will come and
 make a hive, and honey starts to produce!! Take a bottle of honey to
 Louis at Gotz's house, and leave. The next day, he will come and tell
 you that the bees are rare honey-producers and that the honey is
 actually more valuable! Your honey price will jack up. (This is provided
 of course you have not visited Louis with honey for any time yet)

Pink Cat Flowers are just about the best kind of Flowers you can get -
 they are relatively cheap, grow in 6 days, and are well received by
 Popuri and her mother Lillia. Also, they give you Honey!

5.3.3 Fall Crops

5.3.3.1 Carrots

=====
 Price : 300G
 Buy at : Supermarket
 Growth Time : 8 days
 Harvest Number/season : 1
 Re-growth (time) : No
 Selling Price/crop : 120G
 Profit/full harvest : (120G x 9 crops x 1 harvest) - 300G =
 780G
 Ingredient of Recipe(s) : Vegetable Juice, Salad, Mixed Juice, Veggie
 Latte

Carrots can be used to grab some quick cash in Fall. They don't sell for
 a great lot, but are still good crops to grow.

5.3.3.2 Eggplants

=====

Price : 120G
Buy at : Supermarket
Growth Time : 10 days
Harvest Number/season : 7
Re-growth (time) : Yes (3 days)
Selling Price/crop : 80G
Profit/full harvest : (80G x 9 crops x 7 harvests) - 120G =
4920G
Ingredient of Recipe(s) : Fruit Juice, Mixed Latte, Deluxe Mixed
Juice, Fruit Latte

Eggplants can be grown with Sweet Potatoes to make sure that the problem of spare cash in your pocket is eradicated. Like Sweet Potatoes, they regrow in 3 days.

5.3.3.3 Green Peppers

=====

Price : 150G
Buy at : Won
Growth Time : 8 days
Harvest Number/season : 12
Re-growth (time) : Yes (2 days)
Selling Price/crop : 40G
Profit/full harvest : (40G x 9 crops x 12 harvests) - 150G =
4170G
Ingredient of Recipe(s) : Fried Rice

Green Peppers bring a less-than-decent amount of money per bag of seeds, but they regrow in a very short time of 2 days! Green Peppers are generally the best item to dump into the Hot Pot at the Harvest Festival.

5.3.3.4 Sweet Potatoes

=====

Price : 300G
Buy at : Supermarket
Growth Time : 6 days
Harvest Number/season : 9
Re-growth (time) : Yes (3 days)
Selling Price/crop : 120G
Profit/full harvest : (120G x 9 crops x 12 harvests) - 150G =
4170G
Ingredient of Recipe(s) : Fried Rice

Hell YEAH! In terms of Monetary Profit, Sweet Potatoes bags you ONLY THE BEST profits you can ever have! This only grows in Fall, but if you plant 4 crops of Sweet Potatoes, you will never worry about money again.

5.3.3.5 Magic Red Flowers

=====

Price : 600G
Buy at : Won
Growth Time : 10 days
Harvest Number/season : 1
Re-growth (time) : No

Selling Price/crop : 120G (red flower)
Profit/full harvest : (120G x amount of red flowers x 1 harvest)
Ingredient of Recipe(s) : N/A

Magic Red Flowers are a little bit special from other flowers. For one thing...most of the Flowers aren't red. They are blue; in fact, I've seen statistics suggesting the chances of you getting 1 Magic Red Flower is 1 Red Flower in 3 packets (!). The red Flowers fetch a bit of cash; however, I'd suggest you don't plant these Flowers. They are expensive, and are not especially liked by other villagers.

5.4 Special Crops

=====

These are the ones you should try going after for after settling down properly with a good, steady revenue (that should not take much more than a few weeks). The special crops have a special purpose, and a few of them are secret - you need to go to extreme means to get them, but getting them is worth it, for they bring in the bucks!

So, once again...

Price	- how much one packet costs	
Season	- the season when the seed grows	
Buy at/How to get	- where to buy the seed/or, if the crop is secret, how to get it	
Growth Time	- the life of the seed before it dies	
Harvest Number/season	- number of times you can harvest one crop in one season	
Re-growth (time)	- does it regrow after harvest? for how long?	
Selling Price/crop	- how much Zack gives you for one crop	
Profit/full harvest	- how much extra money you earn by subtracting seed cost by the money you get for selling 9 crops per harvest per season	
Ingredient of Recipe(s)	- whether the crop is used to make any foods	

5.4.1 Grass

=====

Price : 300G
Season : Spring, Summer, Fall
Buy at/how to get : Supermarket
Growth Time : 10 days
Harvest Number/season : 9
Re-growth (time) : Yes (30 days on 1st of Winter)
Selling Price/crop : N/A
Profit/full harvest : N/A
Ingredient of Recipe(s) : N/A

Grass is VERY special. For one thing...you don't have to water it and it grows, and you can walk onto plots of grass. It continues to flourish in Summer and Fall if you planted it in Spring, and will disappear in Winter. It grows in two stages; first is short, light-colored grass, followed by fully grown, dark-colored, long grass. If you have

sufficient grass you can rear your cows and sheep; if Barley takes away your horse, plant 20 bags of grass and he will give you another pony.

If it is Winter, as mentioned, your grass will not grow, so make sure you take your sickle and cut down grass in earlier seasons. One "crop" is one unit of fodder, which you can feed your livestock during Winter.

5.4.2 Orangecup Flowers

=====

Price : 500G
Season : (only in Hothouse)
Buy at/how to get : Won
Growth Time : 9 days
Harvest Number/season : 1
Re-growth (time) : No
Selling Price/crop : 60G
Profit/full harvest : (60G x 9 crops x 1 harvest) - 500G = 40G
Ingredient of Recipe(s) : N/A

Orangecup flowers are next to the worst crops. Besides being a good gift to girls, they are nothing much. They can only be grown in Hothouses, which cost a bomb to build. The orange fruit produced by the flowers are the only things that can be sold, and only at a paltry 60G each. A full harvest only brings you a mere 40G profit.

5.4.3 Spinach !!!SECRET CROP!!!

=====

Price : 500G
Season : Summer
Buy at/how to get : Supermarket (to unlock, first sell 100 green peppers, 100 carrots, 100 eggplants and 100 sweet potatoes. You will be mailed a letter from the supermarket about the sales.)
Growth Time : 6 days
Harvest Number/season : 1
Re-growth (time) : No
Selling Price/crop : 80G
Profit/full harvest : (80G x 9 crops x 1 harvest) - 500G = 220G
Ingredient of Recipe(s) : Greens

In my opinion, Spinach is not super worth to get - it gives you a mere 220G profit per harvest, and does not regrow. But to my knowledge, it is an excellent optional ingredient to put into many green-and-healthy dishes (like Veggie Latte).

5.4.4 Pumpkins !!!SECRET CROP!!!

=====

Price : 500G
Season : Summer
Buy at/how to get : Supermarket (to unlock, first sell 100 corn, 100 onions, 100 tomatoes and 100 potatoes. You will be mailed a letter from the supermarket about the sales.)
Growth Time : 15 days
Harvest Number/season : 1
Re-growth (time) : No

Selling Price/crop : 250G
Profit/full harvest : (250G x 9 crops x 1 harvest) - 500G = 1750G
Ingredient of Recipe(s) : Pumpkin Pudding

A crop worth getting. Does not regrow, and grows after 15 days...but one Pumpkin has a large selling price of 250G. One 9-crop harvest brings you 2250G. Worth waiting the 15 days, eh?

5.4.5 Strawberries !!!SECRET CROP!!!

=====

Price : 150G
Season : Spring
Buy at/how to get : Supermarket (to unlock, first sell 100 turnips, 100 cucumbers, 100 potatoes and 100 cabbages. You will be mailed a letter in your mailbox telling you about the sale of the crops)
Growth Time : 8 days
Harvest Number/season : 4
Re-growth (time) : Yes (6 days)
Selling Price/crop : 50G
Profit/full harvest : (50G x 9 crops x 4 harvest) - 150G = 1650G
Ingredient of Recipe(s) : Strawberry Jam, Strawberry Milk, Mixed Juice, Deluxe Mixed Juice, Fruit Juice

A must-have. Besides being cheap, you require Strawberries for many delicious recipes, regrows, and bags you 400G for every 8 crops you harvest. It still cannot compare to the monetary profits Sweet Potatoes bring in though...

5.4.6 Moon Drop Flowers !!!SECRET CROP!!!

=====

Price : 500G
Season : Summer
Buy at/how to get : Won (to unlock, you must first have a blue-heart relationship with Karen. Soon, she will bestow you a packet of Moon Drop Flower seeds. Plant and grow them, and then Won will pop up and say that he now sells them.)
Growth Time : 6 days
Harvest Number/season : 1
Re-growth (time) : No
Selling Price/crop : N/A
Profit/full harvest : N/A
Ingredient of Recipe(s) : N/A

As good as fool's gold. If you are after Karen, you MUST have this seed, to increase your chances of marrying her. However, they ARE very good for courting Karen! The moment they bloom, she will come to your Farm and see the Flowers and be very happy with them!

COOKING RECIPES

Of course, the recipes you can cook are one of the main highlights of Harvest Moon - Back to Nature! There are, as I have finally found out,

64 recipes in total, all of which make use of some of the ingredients which I shall list later.

Cooking is very precise, as it should be. You have to have the necessary ingredients, seasoning, utensils, as well as the recipe, otherwise you cannot cook. You may also add in optional ingredients to spice your food up (like peppers to Pizza during Hot Pot Fest, or Pineapple to your Ice Cream). The food can then be given to people as a gift.

Of course, you need a Kitchen, which the 1st House Extension can provide.

6.1 Ingredients

=====

The ingredients are, of course, the very primary elements of the recipes. Here is a quick list on how to get the ingredients.

INGREDIENT	HOW TO GET THE INGREDIENT
Turnip	It's a crop. Grow it in Spring.
Potato	It's a crop. Grow it in Spring.
Cucumber	It's a crop. Grow it in Spring.
Cabbage	It's a crop. Grow it in Spring.
Tomato	It's a crop. Grow it in Summer.
Corn	It's a crop. Grow it in Summer.
Onions	It's a crop. Grow it in Summer.
Pineapple	It's a crop. Grow it in Summer.
Carrot	It's a crop. Grow it in Fall.
Green Peppers	It's a crop. Grow it in Fall.
Eggplant	It's a crop. Grow it in Fall.
Sweet Potato	It's a crop. Grow it in Fall.
Spinach	It's a secret crop. Grow it in Fall.
Strawberries	It's a secret crop. Grow it in Spring.
Pumpkins	It's a secret crop. Grow it in Summer.
Mushroom	Near Gotz's House, foot of Mother's Hill, Hot Springs
Egg	A chicken with 1 - 3 hearts will lay these.
Good Egg	A chicken with 4 - 7 hearts will lay these.
Excellent Egg	A chicken with 8 - 10 hearts will lay these.

Gold Egg	A chicken which has won the Chicken Festival on Summer 7th will lay these.
Milk	A cow will give you this if you have a milker. Usually, the more hearts the cow has, the better the milk quality, and the better the dish with the milk will taste.
Oil	Buy at Supermarket (50G)
Bread	Buy at Supermarket (100G)
Honey	Grow a 3x3 patch of flowers. Bees will be attracted to your Apple Tree and make a bottle of honey a day.
Curry Powder	Buy at Supermarket (50G)
Flour	Buy at Supermarket (50G)
Wine	Buy at Aja Winery (300G)
Rice Ball	Buy at Supermarket (100G)
Apple	3 drop from your apple tree every day in Fall.
Chocolate	Girls with Blue/Purple-heart relationships with you will pop by your farm on Thanksgiving (14th of Winter) to give you chocolate. Stay at home.
Fish	Catch these in Lakes, Oceans and Rivers.
Relaxation Tea Leaves	Wrap up some stuff in gift-wrapping paper as gifts and go to the Harvest Sprites' house at 3 - 4 pm on a sunny day without festivals. Give a present to each Harvest Sprite (7 of them) and they will throw you a tea party. At the end, they will give you some Relaxation Tea Leaves.
Small Stone	On your farm grounds.
Winter Stone	On your farm grounds in winter. Basically a Small Stone covered in snow.
Truffle	Grows in Fall at foot of Mother's Hill.
Wild Grape	Grows in Fall at foot of Mother's Hill.
Bamboo Shoot	Grows in Spring near the Hot Springs.

6.2 Utensils

=====

You need utensils to handle the ingredients and cook them. You cannot buy them but here are the steps to get them:

- (1) Upgrade your house once.
- (2) Watch the TV show on Saturday, "TV Shopping Network".

(3) Go to the Inn and use the phone.

(4) Order, using the phone, the utensils you want.

(5) Zack will deliver the goods 3 days later (if there are no disasters).

Here are the utensils:

- Rolling Pin : 2000G
- Mixer : 2000G
- Whisk : 2000G
- Frying Pan : 2500G
- Cooking Pot : 3000G
- Kitchen Knife : 3000G
- Oven : 5000G
- Seasoning Set : 5000G

(I think there's a Power Berry, but why's it to be used?!)

6.3 Seasonings

=====

The spice of your food. It's necessary for some, optional for some. They help a lot in any Cooking Festivals though!

Here's how to get them:

- (1) Buy all the Utensils.
- (2) When TV Shopping Network next shows, it offers Seasonings for sale.
- (3) Buy the Seasonings. You will have an unlimited stock of them.

The Seasonings:

- Miso Paste
- Soy Sauce
- Vinegar
- Sugar
- Salt

6.4 Recipes

=====

At last - the very formulas of your food! You need to correct combination of seasoning, ingredients and utensils, plus an upgrade of your house at least once. You also need the recipe - but if you have a good memory, you can memorise the recipes and use the appropriate ingredients! You will find most of them in the Delicious Hour, a TV program shown on Tuesday. As long as you know what the recipe is like from this FAQ, you won't have to bother finding the actual thing from other people or the Delicious Hour.

To make your recipes even better, you can add in other stuff like seasonings. These are shown in square brackets, []. If you toss in the wrong ingredients or you don't complete a recipe and you start cooking - your result is awful black Charcoal. No, no-one likes it.

This section is under construction. I'm conducting experiments on the various people who food to see who loves it, likes it, dislikes it and hates it.

6.4.1 Drinks

6.4.1.1 Fruit Juice
=====

Where to get: Delicious Hour

Ingredients : Pineapple, Apple, Wild Grape, Strawberry

Utensils : Mixer

Seasonings : [Sugar]

6.4.1.2 Fruit Latte
=====

Where to get: Basil

Ingredients : Pineapple, Apple, Wild Grape, Strawberry, Milk

Utensils : Mixer

WARNING!!!WARNING!!!WARNING!!!WARNING!!!WARNING!!!

Read this foreword before even diving into the walkthrough straightaway. Any questions answered in this foreword will not be entertained - and you had better have searched hard before asking for help.

WARNING!!!WARNING!!!WARNING!!!WARNING!!!WARNING!!!

The main objectives you want to achieve in Harvest Moon is:

- To make lots of money
- To have a wife (and children possibly)
- To be on relatively good terms with the villagers (get inside their houses?...you'd probably have to go further than what is mentioned in the walkthrough. I think I overlooked it a bit. I might add some more stuff to the walkthrough to keep this up...later)
- To have a thriving farm and life in overall

This walkthrough, however, may NOT be everything. It might not let you be able to be on the best terms with everyone always, and certain things which I can leave out (such as flirting even though you are married) I will leave out. The walkthrough covers a route you can take to success, which I have used (but altered a little to suit some changes). Of course there are many other ways, but my duty as making a FAQ is to allow you to achieve the objectives. Weather is subject to changes. If it changes, use your common sense, and if you have to make some modifications to your plans, use your common sense.

Of course, the main flaw of the walkthrough is the availability of disasters, like hurricanes and large storms. They disrupt a day of work. They also come randomly, and can smash you off track this walkthrough. They also destroy your crops...and your revenue will vary. But I cannot help that. All you can do is to save everyday and reload if necessary. I have attempted to alter the walkthrough such that there won't be any storms (at least other than the first 3 seasons). But don't fret over this too much - natural disasters come once in a blue moon, and will not throw you off the walkthrough's tangent too far. Myself, I was struck by quite a few storms - so I altered the walkthrough a bit, such that it assumes you have been hit by no storms (to provide a standard tangent which you can properly follow.

Another thing: you will notice that I say give Flowers to your "girls" - but I mean, preferably, the one who likes you most by far. It also does not need to be Flowers in every case (exercise discretion): here is a quick condensed list of stuff you may buy/grab and give your girl(s):

Mary - Red/Green/Blue Grass, Bamboo Shoots

Popuri - Flowers (preferably Pink Cat Flowers), Milk, Eggs

Ann - Flowers, Eggs

Karen - Flowers (preferably Moon Drop Flowers), Wine (300G! Discretion is needed when giving this)

Elli - Flowers (she loves 'em!)

(Sometimes, it may imply "Give Elli the Flowers! It's the easiest way to get a wife, and that's Elli!". Well, you have brains; do your own judgement.)

Also, you notice that sooner or later I start using "Farm business" to

sum up many unnecessarily boring details of your Farm stuff.

- Cuddle your Puppy/Dog
- Throw Dog Ball and train Puppy/Dog
- Brush and talk to Horse
- Whistle to Horse
- Water Crops (if any)
- Feed Fish
- Feed Chickens
- Feed Cows and Sheep
- Give Flowers to Wife

The list will build up eventually as time goes on. Don't forget them...write them down if you have to!

Good Luck!

~~~THE FIRST YEAR~~~

---Spring---

Day 1

=====

Right, you start off in your grandfather's abandoned farm, and it is a big mess! Weeds and stones everywhere on the farm! You must first equip yourself with your Hoe and Watering Can, and then get on with uprooting weeds, picking up small stones and throwing them onto normal land (green grass). They will be destroyed like that, so clear up a [9 x 9] portion of untilled land (brown land), and hoe 2 [3 x 3] portions of land. The hoed land is tilled land, which you can plant seeds on. Make sure they are separated and not together, so you can reap maximum profit when harvest time arrives.

After preparing your tilled land, go out of your farm and buy 2 packets of Turnip seeds from the Supermarket. Also, get familiar with the village and its people. When you are done, pick up your little puppy for a while, then put it back down. It will like you more.

If you feel it is pretty late, go to spend an hour in the Hot Springs in the mountain, then return to your house for a sleep.

Main Objectives : Clear up Farm  
Significant events: None  
Money earned : 0G  
Money spent : 240G

Day 2

=====

The next morning, exit your house with the Watering Can equipped. The local bobby will give you a visit and tell you that a "suspicious man wearing yellow clothes, a funny hat and holding a strange bag" is loitering around. He is none other than Won, the wandering merchant. Then Won will come, tell you he needs a rest and goes to lie down under a tree.

Now equip the two bags of seed and plant them on the tilled plots. Water the crops, and refill Watering Can if required. Pick up your puppy again to keep it happy.

Now you should equip your Hoe, and find your way to the Waterfall Mine

(the one behind the Mineral Hot Springs), and start mining. Mine for about three hours, and dump any Junk Ore you find. Try to get Copper and Gold Ore, and store them both in your rucksack. After mining, get out of the Mine and have an hour in the Hot Springs. Then find your way to Yodel Ranch, have a chat with Barley, and answer "Take Care of pony". He will then give you the pony, and will deliver it to your stables. When you return, give it a pat or two, then go to bed.

Main Objectives : Mine a bit for useful ore, Get Horse, Plant 2  
bags of seed

Significant events: None

Money earned : 0G

Money spent : 0G

Day 3

=====

Water your plants. Give your horse a pat and your puppy a ride before going back to bed.

Main Objectives : None

Significant events: None

Money earned : 0G

Money spent : 0G

Day 4

=====

Water plants. Equip your Hoe and go mining at the Waterfall Mine for some Gold. After 2 - 3 hours of mining, go have an hour in the Hot Springs, return to farm and go to bed. Again, talk to your horse, lift up your puppy for a while before going to bed.

Main Objectives : None

Significant events: None

Money earned : 0G

Money spent : 0G

Day 5

=====

Water plants. Push your horse outside into the green field. It will start to graze if it keeps still for a while. Talk to it a bit. Give your puppy a ride, equip your Hoe and go mining at the Waterfall Mine for some Gold. After 2 - 3 hours of mining, go have an hour in the Hot Springs.

After that, take the southern path down the mountain into an new area. Pluck the flower next to the road and take it to one of the girls you fancy marrying in the future.

You should also have enough Gold after all that mining. Go buy a packet of Turnip seeds and a packet of Potato seeds.

Return to farm and go to bed.

Main Objectives : None

Significant events: None

Money earned : 0G

Money spent : 0G

Day 6

=====

Water plants. Hoe another [3x3] plot of tilled land and plant some Turnips. Also, grab a bunch of flowers and give them to your girl.

Main Objectives : Plant another bunch of Turnip seeds

Significant events: None

Money earned : 960G

Money spent : 0G

Day 7

=====

Finally! You may harvest your Turnips. Owing to so much rain, you will be lucky enough to harvest two full crops of Turnips! (I'm not sure if your game's weather varies, but that's what I got)

It is raining today. You can slack off watering. So quickly take your Potato seeds from your Toolbox and plant them onto an empty [3x3] plot of tilled land. Then equip your Hoe and go mining for Gold again. After 2 - 3 hours, get out and have an hour at the Hot Springs.

Main Objectives : Harvest Turnips, Plant Potato seeds

Significant events: None

Money earned : 1080G

Money spent : 0G

Day 8

=====

Hmm, it's Sunday 8th of Spring, and it's the Spring Goddess Festival. Before going out, cuddle your puppy, and talk to your pony. Water your plants, THEN go out. No shops will be open, so proceed to the Town Square and talk to everyone there. Then talk to the Mayor, and answer "Yes please" to start the festival. You will then watch the 5 girls dance, then the festival fast forwards to the ending, at 6 pm when you finally reach home.

When you reach home, don't try going out to buy stuff, because all shops are still closed. Go to bed.

Main Objectives : None

Significant events: Flower Goddess Festival

Money earned : 0G

Money spent : 0G

Day 9

=====

Before going out, water your plants, and cuddle your dog. Then go out and purchase a packet of Potato seeds, a packet of Cucumber seeds and a Brush (from Saibara at 800G). Then go back, equip your brush and brush your Pony and talk to him to raise his heart value. Hoe up another [3x3] plot of land and plant your Cucumber and Potato seeds and water them.

Finally, to round off the day, take your Axe and chop up some logs on the land for some lumber.

Well that is it for today.

Main Objectives : Plant a bunch of Cucumber seeds, Buy Brush  
Significant events: None  
Money earned : 0G  
Money spent : 1150G

Day 10

=====

Go out, harvest your Turnips, cuddle your puppy and brush your Pony.  
Take your Axe and chop up some logs on the land for some lumber  
(preferably about 18 units more). There is nothing much to do, so grab  
some flowers from the mountain for your girl.

Main Objectives : Harvest Turnips  
Significant events: None  
Money earned : 480G  
Money spent : 0G

Day 11

=====

Nothing much, water your crops (including the last Turnip), cuddle your  
puppy, brush and talk to your Pony. Then...go back to bed ;-)

Main Objectives : None

Day 14

=====

Water your plants. Cuddle your puppy, brush and talk to your Pony, then  
go to bed. Oh, and harvest your potatoes (8 of them). Then go back to  
bed ;-)

Main Objectives : Harvest Potatoes  
Significant events: None  
Money earned : 640G  
Money spent : 0G

Day 15

=====

Today, the Mayor will come and ask you to bring 3 turnips to his house for the Cooking Festival on 22nd of Spring. Oh oh! You have 5 days, and currently do not enough money for a medium rucksack...can you fulfill the task? Well, let's see! Answer "Yes" to his request and he will leave, pleased. Today is Sunday and the Supermarket will be closed, so forget about buying seeds now.

Let us take count - you should have about 1500G by today, if you have not done any optional splurging on expensive luxuries. Listen up - you gotta mine your ass off these days, and make sure you bring back at least 150G in Gold Bags, and two Gold/Mystrile Ores. You want to be able to hold the three Turnips in a rucksack, and you can only do that with a MEDIUM one.

So take out your Hoe and zip straight to the Waterfall Mine. Mine for Gold Bags, and Gold/Mystrile Ore. If you faint, go to the Hot Springs for two hours, and mine again if you have not completed your quota.

When you have finished, return to the farm, deposit your Ores in the bin, and go to sleep.

Main Objectives : None  
Significant events: Major's Turnip request  
Money earned : 200G (at least)  
Money spent : 0G

Day 16

=====

Harvest your second batch of Potatoes (8 of them) and any other potato crop which is ungrown yet (because I used the doughnut style of watering). Then go down and buy a packet of Turnip seeds, and plant them immediately in an empty plot of tilled land. Water them.

Then equip your Hoe and go mining again. Mine for Gold Bags, and Gold/Mystrile Ore. If you faint, go to the Hot Springs for two hours, and mine again if you have not completed your quota.

When you have finished, return to the farm, deposit your Ores in the bin, and go to sleep.

Main Objectives : None  
Significant events: None  
Money earned : 840G (at least)  
Money spent : 0G

Day 17

=====

Sunny day. Water all your plants, cuddle your puppy, brush your horse, then pick up your Hoe and go mining for at least 190G again. If you faint, go to the Hot Springs for two hours, and mine again if you have

not completed your quota.

When you have finished, return to the farm, deposit your Ores in the bin, and go to sleep.

Main Objectives : None  
Significant events: None  
Money earned : 200G (at least)  
Money spent : 0G

Day 18

=====

Sunny day again. Your Cucumbers should have finished growing! Pluck the cucumbers out of the plant and harvest 8 of them. Water the empty pods after that. Then water the rest of your plants, cuddle your puppy, and brush your pony.

By this time you should have accumulated about more than 2500+G, and your latest harvest of cucumbers should do just about fine to top up to 3000G, enough for a medium rucksack.

But you cannot buy it today. Today is the 18th of Spring, and the Horse Racing Festival is on! Your Pony cannot have fully grown, but if you go down, you may buy tickets to bet on a horse; and people will like you better for attending. If you win, you will get medals which you may redeem for prizes. I bet on Fuji, and won :-) But beware! 10 tickets cost you 500G. You want to be able to have enough for a medium Rucksack, so only bet once. Your cucumbers will not earn you enough if you throw out 1000G on tickets...oh yes, and there will be four races in total. You cannot leave before they all finish. After they finish, everyone will go home, but the Mayor stays a bit longer for you to redeem gifts. (I suggest that if you redeem a gift with 60 medals, redeem jewelry - necklaces, bracelets, earrings - so you can give them to your girl and improve your relationship faster.

After the races, you may go home. You notice your money will not go up, because Zack was at the races and did not fetch your produce. Shame :-(  
Now go to bed.

Main Objectives : None  
Significant events: Local Horse Races  
Money earned : 0G  
Money spent : 0G (if you didn't buy tickets)

Day 19

=====

Sunny day. Cuddle puppy, brush pony, water plants, and harvest last Potato. You won't have to mine for today. Then go back to sleep ;-)

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 20

=====

Zack should have given you your money for your Cucumbers! Also your

Turnips should have fully grown. Don't harvest just yet; you should now have 3000+G, enough for a medium rucksack. Clean up the farm a mite, just to burn sometime while you wait for the Supermarket to open. When it does...rush in and BUY it!! Then get home, bust your butt in storing three Turnips in the rucksack, and harvest the rest of them. Then grab a bunch of flowers from the mountain and deliver them to your girl.

Then go back to bed.

(As an extra goodie: when I went to the part of the town with the church, I saw Rick and Karen talking about going off into the forest together to look at something. Talk about a peeping Tom :-)

Main Objectives : Buy Rucksack, Harvest Turnips, Store 3 Turnips  
Significant events: None  
Money earned : 1100G  
Money spent : 3000G

Day 21

=====

The Mayor tells you about the Cooking Festival tomorrow when you exit the house, and leaves.

Cuddle your puppy and brush your horse, then grab a bunch of flowers and give them to your girl. If you are lucky (and you have given her flowers regularly, like I said), she will be at a blue heart relationship with you!

Also, go over to the Supermarket and buy 2 packets of Turnip seeds.

(As an extra goodie: I courted Elli. After I bought my seeds and emerged from the Supermarket, Elli came out of the Hospital and I walked over to her. She asked how the farm was going, and I replied "Fun" - the reply which is favorable.)

Return to the Farm and plant your seeds. Then wait around until it hits 4 pm. Now run to the Mayor's house and talk to him, with the Turnips in your rucksack. He will be pleased to see you have fulfilled his request.

Now return home and go pluck a bunch of flowers from the mountain and keep in your rucksack, and go to bed.

Main Objectives : Give Mayor 3 Turnips  
Significant events: None  
Money earned : 0G  
Money spent : 240G

Day 22

=====

Today's the Cooking Festival! Harvest your last Turnip, water your plants and cuddle your puppy and bush your Pony. Then go to the mountain, grab two more bunches of flowers, and run to the Town Square for the fest.

You will not have anything to submit by then...so you can't participate. Never mind, there's always next year! Ask the Mayor to start the judging, and the very fat Gourmet will go around tasting the food. Usually Doug or Ann will win. But the other people's reply's can be

funny - I talked to Karen, and she lamented that she should not have added alcohol to every dish (ROTFLMAO!).

At the end of the festival (after the judging), exit the Town Square and you will return to your farm. Then go to sleep.

Main Objectives : None  
Significant events: Cooking Festival  
Money earned : 60G  
Money spent : 0G

Day 23

=====

Water plants, cuddle puppy, brush Pony, and go out and deliver the flowers to your girl(s). At this time, you should have at least one girl who has a purple-heart relationship with you, and if you have more than one (I'd say about two) share out the flowers. Then return home, go to the Mountain...and get more flowers!

(As an extra goodie: I also courted Karen, and got her as well to a purple-heart relationship. When I entered the Mountain, I went to the Waterfall, and Karen came and asked me whether I had something that was troubling me. Pick "Love Life" and yeahh, your relationship will improve...)

Yep, today's James Bond day - well, at least you can afford to be.

Now go and deliver the flowers, cut up 4 logs of lumber and go back to bed.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 24

=====

Water plants, cuddle puppy, brush Pony, and go out and grab 2 bunches of flowers. Deliver them to your girl(s). Then go to sleep.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 25

=====

It's a rainy day, and Harvest time! Harvest all 16 Turnips, 8 Cucumbers, cuddle puppy, and brush Pony. Pick 2 bunches of flowers, and deliver them.

Then go back to bed.

Main Objectives : None  
Significant events: None  
Money earned : 1760G  
Money spent : 0G

Day 26

=====

Nothing much. Rainy day. Cuddle puppy, brush pony, bring 2 bunches of flowers to your girls. Go back to bed. And forget about buying any other Spring plants now; the best you'll be able to do is to make a last harvest of your regrow-able Cucumbers before the season ends off.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 27

=====

Again, nothing much. Harvest last two Turnips. Cuddle puppy, brush Pony. Water plants, clean up the farm of logs for lumber, weed 10 weeds, and go back to bed.

Main Objectives : None  
Significant events: None  
Money earned : 120G  
Money spent : 0G

Day 28

=====

Yawn. Water plants, cuddle puppy, brush Pony. Grab two bunches of flowers and give them to your girls. Then go back to bed.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 29

=====

Yawn. Cuddle puppy, brush Pony. Grab two bunches of flowers and give them to your girls (if you are especially after Karen, you cannot do a thing because the Supermarket's locked!).

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 30

=====

Last day of Spring! If you had been following what I have done, then your last Cucumber plant should have fully grown (the one in the middle). Hack down one of the outer Cucumber plants with the Sickie and harvest that Cucumber. Cuddle puppy, brush pony.

(When you exit the farm to go the village, you will see Popuri greet Kai, then she leaves. Kai then gives you a less-than-modest greeting, and leaves too.

Then return to your farm, and if you have Elli at a purple-heart relationship, she will come and give you some sandwiches. You chomp them down, but they are not so good...oh well.)

Main Objectives : None  
Significant events: None  
Money earned : 100G  
Money spent : 0G

WELL DONE! You've survived Spring. At this time, I had 1800+G. If you did extra crop-growing, you will have earned more. If you spent more...you will have less. Well, you should have around this amount at least!

---Summer---

Day 1

=====

No crops to water - any remaining crops would have withered by now. Never mind! Cuddle puppy, brush Pony, then go to the Beach for the Swimming Festival.

There, talk to the Mayor to start the race. You will change into your trunks and the Mayor starts explaining how to swim - press the X button to move, use the Triangle button to take a breath. If you win, you get a Power Berry!

When you return home, go to bed.

Main Objectives : None  
Significant events: Swimming Festival  
Money earned : 0G  
Money spent : 0G

Day 2

=====

When you exit your house, Barley comes and tells you that May, his granddaughter, is missing! You cannot do much for now, though, but brush your Pony, cuddle your puppy, and just go to the Mountain.

There, pluck two bamboo shoots, grab two bunches of flowers, and hold an extra gift for your girl(s). If you are after Mary, take a sprig of Blue Grass. Karen, go to the Aja Winery and buy a bottle of Wine. Elli, a Bamboo Shoot. Ann/Popuri, just give the bunches of flowers in your rucksack. Then give the two Bamboo Shoots to Manna, Duke's wife.

Then buy two packets of Corn and one packet of Onion seeds and plant them in three [3x3] plots of hoed land.

One more thing before going to bed...when it hits 6 pm, go to the Dock at the Mineral Beach. Ah! May is lingering around there. Talk to her and choose "Listen to her Story", then you will take her home. Barley will have a talk with May, then leave for home and go to sleep.

(As an extra goodie, if you have Elli at a purple-heart or more relationship, she will come to your farm with an egg sandwich! And guess

what? IT'S JUST AS CRAPPY! Oh well...)

Main Objectives : Get 2 packets Corn and 1 packet Onion seeds  
Significant events: Rescue May!  
Money earned : 0G  
Money spent : 750G

Day 3

=====

Water your Corn and Onion crops, cuddle puppy and brush Pony and go and grab two Red Grasses in the mountains and give them to the Doctor (you want to be friends with the villagers, don't you?). Follow up with two Pink Cat Flowers, one for Mary's mother and the other for your girl. Then buy a packet of Onion seeds and plant them in a [3x3] plot of hoed land (yep, we're saving up for something). After that, go to sleep.

(As an extra goodie: if you have Elli at a purple-heart or more relationship - I had her at a blue heart by now, one of your girls should be too - she will come after noon and give you a combo sandwich. It's good, and she will walk off satisfied.)

Main Objectives : Get 1 packet of Onion seeds  
Significant events: None  
Money earned : 0G  
Money spent : 150G

Day 4

=====

Water plants, cuddle puppy, brush Pony, pluck two Pink Cat Flowers and two sprigs of Red Grass. Give one sprig to Doctor, another to Mary. Then a bunch of Flowers to your girl, and another for Ellen, Elli's grandmother. Now dash back to the farm, grab two units of Lumber, and give them to Gotz. You want to curry favour with him too! Then go home to bed. AND put back your Pony into the stable, if there is a hurricane forecast.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 5

=====

For me, I got a hurricane. Go back to bed.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 6

=====

Water plants, cuddle puppy, brush Pony. Then go out and deliver the apple pie from the Inn to Ellen as the Mayor instructed. She will then offer you a tip: 300G! Accept anyway ;-)  
Go to the Mountain, get two bunches of Flowers and give them to Anna, and two sprigs of Red Grass

for Mary (regardless of whether you're courting her or not). Then return to farm and go to bed.

Main Objectives : Deliver pie to Ellen  
Significant events: None  
Money earned : 300G  
Money spent : 0G

Day 7

=====

Today is the Sumo Chicken Festival. Water plants and cuddle puppy and brush Pony before you go out, then go to Rose Square.

You will not have a chicken to participate in the Contest. so after the festival, go home.

Main Objectives : None  
Significant events: Sumo Chicken Festival  
Money earned : 0G  
Money spent : 0G

Day 8

=====

Today, the Mayor comes to your Farm and if you have delivered the pie successfully, he will give you a Pie, which you chomp down. Then May arrives and when she speaks, answer "Go to see Ellen" and you will go to Ellen's house. There, she tells the bored May to go with Stu and you to Pastor Carter. Pastor Carter collects the children and assures you that they will be delivered back by sunset.

Then go to the Mountain and grab two bunches of Flowers and give one to Lillia, and one to Popuri at the Poultry Farm.

Then return to the Farm and hoe up three more [3x3] plots of land and water plants, cuddle puppy and brush Pony before going to sleep.

Main Objectives : None  
Significant events: None  
Money earned : 0G  
Money spent : 0G

Day 9

=====

Today is seed shopping day! Hopefully you have enough money, probably around 800+G by now...water plants, cuddle puppy and brush Pony, and pop down to the Supermarket and purchase two packets of Onions. When it hits 1 pm, get to the Inn and purchase a packet of Pink Cat Flowers from Won.

Now go home, collect two bunches of Flowers and two sprigs of Red Grass in your rucksack, followed by mining for one ore, which you give to Saibara. Give the two bunches of Flowers to Manna, and the Red Grass to Mary, plant your seeds, and go to bed.

Main Objectives : Get 2 packets of Onion seeds, 1 packet of Pink  
Cat Flowers

KEWL! You've survived Summer. That wasn't too bad...what with four Chickens and all...could've done better monetarily...but Fall will be a blast! Why? Cos' it's gonna be the last season of the year before Winter. At this time, you should have about 3000+G if you followed closely enough. Get your ducks up...you also need to brush your Pony at least 8 - 10 times a day, if you want to jack up its heart count...you MUST NOT lose this Pony.

---Fall---

Day 1

=====

On this day, Gray will pop by your home and tell you that he is using the water mill for his work. Then Kai will also come and tell you that he is going away, since it is the end of Summer. The Pastor will also come some time later to tell you about the Music Festival. Agree to

participate and he will say that he would give you an ocarina on Day 3.

Your puppy should have fully grown by now, and I will address it as your Dog instead. If it is so, Won will come today and sell you a Dog Ball for 100G. Be sure to throw it five times to your Dog everyday to train it up! Now equip that Sickle and go out cutting down all the other withered crops!

Also, harvest three Apples fallen from your Apple tree. Each is worth 50G. Also, your beehives will still be there - worry not! Pick a pot of Honey, go to the Henhouse and put two Eggs into the Bin. Go and pick three Mushrooms (each is worth 70G) from the Mountain and put it into the Bin as well.

ALLLLL RIIIIIGHT! You have gotten through Fall, Year 1! This season, as you may have noticed, is the Season of Gold, both in color and literally. At the start, you planted several regrowable crops, both of which regenerated in about 3 days, providing you with a steady stream of income. You should have saved mountains of this income, and have about 10,000G by now! However, you should also have noticed that harvest time also strains your time hanging out with the villagers. Nevertheless, I have tried to help you in squeezing some spare time out. You might also have noticed that I left out a significant event or two, both by mistake and on purpose, like Moon-View Festival, and Karen's Birthday. If you did remember these, well, good for you!

The next season is the last season in the year, and it is Winter. This is going to be tougher on your pocket - you will have spend minimally on your girls, and not splurge too much on luxuries for them. Flowers, like crops, certainly will NOT tolerate sub-zero temperatures, but if you saved them up in your Rucksack last season (clever boy), you can give them the Flowers.

So, as I said, no monetary stream via crop harvests, 'cos there will not be any crops to speak of. You WILL have your Cows' Milk, as well as your Chickens' Eggs, and your bottle of Honey per day, so that will bring in some economic assurance. Nevertheless, as I must emphasize, DO NOT SPLURGE.

Also, you gotta have to brush and talk to your Pony 15 - 20 times per day, and give your Dog a ride as well as toss the Dog Ball to it 15 - 20 times per day. It is time-consuming, and I am sorry I have to rush you like this, but it is the only way to jack up their heart values.

Good luck on Winter - you are going to need it!

---Winter---

Day 1

=====

From today, your Farm business is nothing more than taking very, very good care of your animals. You have to train your Dog up for the Dog Race from today by throwing the ball to it at least 15 - 20 times per day, and putting it out in the fields during a sunny day. You must jack up your horse's hearts by putting it out on a sunny day and brushing it 15 - 20 times everyday. Also, harvest a pot of Honey, 5 Eggs and a bottle of Milk.

But I got hit by a snowstorm today ;- ) Go to bed.

SO! You have survived for one Year! That is amazing (at least if you are new), no? You should have a decent amount of money in your pockets and livestock in your Barn and Henhouse with relatively good feelings towards you. Your Pony, by the end of this year, should also have 7 hearts (at least), if you have been brushing it as consistently and as often as you can. If not, Barley will take it back...and it's a great, great loss.

By this end of this year, your Farm percentage should well exceed 20%. If it hasn't, well, you had better catch up very fast.

Next year will be even better! Keep your spirits up!

~~~THE SECOND YEAR~~~

---Spring---

Day 1

=====

Go about your Farm business. Also, harvest a pot of Honey, 9 Eggs and 2 bottles of Milk.

If Karen is good friends (i.e. purple-heart) with you, she will arrive at your Farm to practice dancing. She's good at it!

Main Objectives : None
Significant events: New Year Eve Festival
Money earned : 0G
Money spent : 0G

Thought you'd never see the time when you got through another year? Well you did, even if you are a newbie! You now have 5 fully grown Cows, plus three Sheep, and a Henhouse full of 10 Chickens!! This year was more or less slightly better than last year, and it can only get better next year...

Your Barn is getting full - as I have promised, you will upgrade it very soon. As for your wife, all in good time - don't worry. First worry about getting the second House Extension. Your targeted girl should be, by now, at least yellow heart. If it's at orange heart, better, you can worry less; red heart, you're obviously quite insane, but well done - just keep it at that level.

Your pocket should have a hefty enough amount of cash - probably about between 10,000 G and 20,000G I'd say. You will need it of course. Your Farm should have a percentage of more than 40% by now - or even at 50% if I am wrong. Worry not! Take care of your livestock! Good luck for next year - it's my last year guiding you!

~~~THE THIRD YEAR~~~

---Spring---

Day 1

=====

Go about your Farm business. Also, harvest a pot of Honey, 10 Eggs and 5 bottles of Milk.

Today is New Year Eve Festival, Year 3! At 12 am (or 0.00 am) go to the top of Mother's Hill, where everybody awaits, talk to everyone and end with Saibara and you will watch the sun sink below the horizon...

You will automatically go to bed after you exit Mother's Hill.

Main Objectives : None  
Significant events: None  
Money earned : 1810G  
Money spent : 0G

From now on, the Mayor will agree to give you the Farm and let you stay in Mineral Village. And you've basically finished the game! If you want, you can play on for an indefinite time...

The walkthrough thus ends here.

#### FREQUENTLY ASKED QUESTIONS

These are questions which are commonly mailed to me every day. To get them straight, I have this section so I won't have to KEEP REPLYING to the same old message. It does get boring. :-)

Q: Couldn't you have done more in the walkthrough? IT SUCKS!!!!

A: I don't appreciate that it sucks...especially after HOURS OF HARD WORK WAS PUT INTO THE WALKTHROUGH. You can take an infinite number of different paths and still get your Farm. Thing is, many people don't know where to start when they start a game. And they fear losing the Farm as well (bewaaaaare the wrath of MAYOR THOMAS!), so they lose track of everything. The walkthrough is as detailed as I can make it, with significant events and everything.

But still I cannot tell you to the extreme point of exactness to what you should do; like slice down 65 patches of weeds, or assume that you are not stricken by hurricanes. I cannot say that "if you don't get this done today, you'll have failed totally". I was totally warped just to think of the many factors I had to consider while writing the walkthrough.

Making a general guide is hard enough. As someone put it aptly, it is "nuts to make a day-by-day walkthrough". I have accomplished that. Also, I am not an expert, but that does not mean the game is not in my fingertips.

If you want to ask me something, you can reach me at [ernestho@magix.com.sg](mailto:ernestho@magix.com.sg) or ICQ. My ICQ number is 70345585, but I don't usually use ICQ that much. Only ask questions regarding this game, and questions which have not been listed here. No viruses, no chain mail, no advertisements OR threats, OR unbased flames. If you disobey both of these, I will not reply to your mail and delete you from the Contact List.
