1. Introduction

I've been playing Harvest Moon 64 for a while and when I heard a Harvest Moon for Playstation was coming out I got excited. I decided to write this Walkthrough because I am a big fan of this game. I hope you enjoy this Walkthrough and please email me with any questions or comments about it. Also I got this game a week before it is coming out so that's how I have the FAQ up so early.

2. Legal Stuff

Basically you cannot distribute this walkthrough without my

3. The Story

The Story is very short and not very detailed. Basically you have visited this town and farm 10 years ago when you were young. Now you want to fix the farm back up after your Grandfathers passing, because you enjoyed your previous visits. The only way to stay on your farm is if the mayor says that you have been a help to the village, but the game goes past the 3-year mark. You also played with a girl 10 years ago you promise that you will come back, that girl is whoever you date and/or marry later in the game.

6.New Stuff

When I describe the "New Stuff" I am comparing it to Harvest Moon 64. Some new things are the families and how they are arranged. On 64 Rick wasn't sister to Popuri and Liliias' husband was Basil. Others are the way things look, and the complete village itself. On your farm you have a Fishing pond, a mill, and even an apple tree. Also festivals and events, and some characters were removed from this game like Ken. There are also tons of new recipes, and secrets, and a ton of new things to explore.

7.Crop Guide

There are many new crops to plant here are some.

The crops cost follow this pattern:

Number of plants X cost of each = amount - cost of seeds X number of harvest = Total worth of season.

A. Spring

The crops from the supermarket are:

Cucumbers 200 for seeds sell for 100 each takes 10 days to grow harvest it every 5 days.

D. Winter

There are no crops to grow in winter, but if you have a hothouse you can grow anything in any season. There is one crop you can only grow in the hothouse it is the orange cup.

Orange Cup 1000 for seeds sells for 60 each takes 9 days to grow only harvest once (For below lets say the amount in one season grown.)

Horse - Your horse can win you the horse race when it becomes of a horse. You need a brush, and to talk to it everyday. When it grows be sure to ride a little. In the game to get the pony visit the Yodel Farm in the first days of spring.

12. Walkthrough

This walkthrough will tell you events, festivals, seasonally goals for the season and other information. This is not a day by day walkthrough! For any newbies to the game I will explain Spring in a little more detail than the other seasons. These goals are hard to meet especially for new people. In the future I will right a variety of Walkthroughs

for this game to get a good (not perfect) score.

A FEW NOTES

I EXPECT YOU TO FORAGE, AND MINE IN EVERY SEASON YOU ARE ALSO EXPECTED TO CHOP LUMBER EVERYDAY. ALSO YOU ARE EXPECTED TO TRY OUT NEW RECIPES IN WINTER SEE RECIPE SECTION FOR MORE. YOU SHOULD ALWAYS PLANT GRASS EVERY SEASON TO SUPPORT THE ANIMALS YOU WILL BUY.

The Waterfall Mine:

The Waterfall mine is open all year here is what you can find in it, and what you can sell them for. Basically the only good these ores are for is for upgrading your tools. The winter mine open only in winter is in the winter walkthrough section.

Junk Ore: 1

Copper Ore: 15

Silver Ore: 20

Gold Ore: 25

Mystrile Ore : 40

Spring:

Spring what a beautiful time of year, filled with pretty flowers of many kinds, too bad you can't stop to smell them because we've got work to do. Spring 1st year is single handedly the busiest season in the game!

Goals:

Meet all your neighbors

Plant at least 5 fields of Cucumbers

Get fishing Rod

Get Horse

Upgrade Chicken Coop

Grow 3 fields of Grass

Buy a chicken

Start to mingle with your future wife

Buy Medium Rucksack (optional)

Amount predicted to be spent - 8750+420 lumber (11750 if rucksack included)

Forage: Blue grass- Hot Spring, and Gotz House Bamboo Shoot- Hot Spring Well, it is your first day on the farm, and when observing your fields you see strife. Overgrown weeds branches stones all in your way. There is only one thing to do and it is called SPRING-CLEANING. In your rucksack put your axe and hammer. Exit the building and clear those fields pick up grass and throw it, and cut branches, and break stones. (You want experience with your tools so upgrade is possible.) Buy one potato seed package, and then forage. Forage everyday in Spring it helps. With a part of the land cleared hoe a 3x3 square with a space in the middle. (You can't water this space, and we want to make a lot of money so not to waste a field while 1 crop grows.) Then go to sleep. That's you first day.

Throughout the week buy more seeds and plant them. Buy More Make more.

Forage all the time. Give your girl a present. Make friends with the Harvest sprites and they will work for YOU. Get your horse at Yodel Farm, and hug your dog everyday. Get your fishing rod.

3rd of Spring: Harris is looking for a suspicious man, go to Gotz house and see him. He stays at the Inn and will sell you exotic, but expensive seeds and items.

8th of Spring: The Spring Goddess Festival. If you're already on a VERY good foot with your girl on the seventh you can ask them to the festival, but you will probably have to go alone this year.

9th - 17th: During this time you should have 3000 - 5000 buy a chicken if you do. Remember the chicken feed 10 a bag! Harvest your cucumbers when the are ready and as soon as you can, upgrade your axe. Also Mine in the cave so you can save some precious metals for tool upgrades, and make a profit. If you upgraded your axe cut stumps everyday. Plant some

grass too.

14th of Spring: Spring Thanksgiving. It's a time of giving, and you have no kitchen to make those gifts. Don't bother giving anything to your girl.

15th of Spring: The mayor asks for three vegetables for him by the 21st these vegetables can vary. If you get the vegetables to him by that date he becomes easier to make your friend.

18th of Spring: Horse Race. You can't participate because your horse hasn't grown. If you want place some bets.

19th - 21st: You should have enough lumber, and money to upgrade your coop. 1 field or more of grass, and 5 potato fields or more. You should also have more than 2 chickens. Tomorrow will be the last time to plant potatoes.

22nd of Spring: Cooking Festival. Bring an egg from your chicken, but you definitely won't win. Get there before 1 hour after a festival begins if you want to participate. If it starts at 10 be there by 11 if you want to enter something)

23rd - End of Spring: Go to the mine and get some ore everyday. Keep on foraging and harvesting your crops. CHOP WOOD. Make friends with the sprites. Get that chicken coop if you don't have it. (You want to get it out of the way.) If you want update your rucksack for 3000. You should have at least 2000 - 5000 at the end of this season.

Date Variable: May and Barley from the Yodel Farm come by your farm they ask you where May could stay and play if you lead them to the church Pastor Carter will invite Stu and they will play. Barley Pastor Carter and May all become more friendly if you do this.

Summer:

Ah, the wondrous dog days of summer filled with laughter, beach parties, and some of the most amusing festivals in the game. This is my favorite season!

Forage- Honey your farm 50/60 (see secrets)

Pink Cat Flower- Gotz House/Mother Hill cannot sell

Red Grass- Gotz House/Hot Spring 100 WARNING DO NOT EAT!!!!!!

1st of Summer- Well what better way to start off a season with a festival! The swimming festival is held at the beach, but it's a little more complicated than the 64 version. Press X to swim forward, but every time you press X make sure you press /\ (Triangle) right after. If you don't you will stop and take a rest. The only way to win is to never stop and rest.

2nd - 11th - You should have 5- 7 chickens all laying eggs. You should buy a cow ASAP. Also if you can plant more grass. You lose and gain the most money this season. Pineapple onion and tomato seeds are your best bet this season. Pineapples are expensive, but you get tremendous amount of moola for them. Onions and tomatoes should fill the rest of your fields. Grow one field of Corn for Kai.

7th of Summer- Chicken Festival. Remember that chicken you got in spring well if you picked him up everyday, and took him outside occasionally

you might win. Take a chicken to Rose Square at 10 to participate.

plants.

in this festival. You probably won't win.

21st - 23rd- WOW! Your pineapples grew if you planted them. Don't plant
anymore crops, but you will get good money in the next couple of days
that's for sure.

24th of Summer- Fireworks. Go to the beach, and watch the fireworks with
your girl.

25th - End of Summer- Get those crops harvested chop some wood, and
upgrade your house if you can this summer.

Date Variable- In the morning the mayor comes and asks for a favor. You
have to get a piece of cake at the inn and give it to Ellen at the
Mayors House. Agree. Don't go right away go around 12:00. Go to the Inn
and then give the Cake to Ellen at the Mayors house. Turn her down when
she offers a tip. Elli will then come in with another piece of cake.
She will be happy and will give it to you. Next day the Mayor will give
you a cake. The pay off is the cake (they are expensive).

17th of Summer- Ann's birthday. If you are friends with Ann she will
invite you to her party. Go to the supermarket and get a present for
100 at the wrapping center.

On the day of your first corn harvest- Kai will come and ask for corn
and how much it is, if you say its 50 (half the price) he will become
friends with you.

Date variable- May has run away. Barley shows up in the morning and ask
you to find May. Don't go looking for her till 6PM she will be at the
dock. You make a lot of people friends with you after that event.

5th of Autumn- Doug is at Mother's Hill grieving for his wife.

Date Variable- Puppy Toy. Your puppy has grown, and it can participate in the winter dog race, but it needs to train. Buy a dog ball from Won to start training.

Date Variable- Gray comes and asks to use your mill for tool making. Say yes and he will weed your field as gratitude. When he asks you to try out the hammer it shatters and he goes home.

Winter:

Those cold days are settling in. There in Mother's Hill a lake even froze up, good thing because now you have the access to the winter mine. Lumber is what you will be cutting this season, and a lot of it look out for blizzards if your building you hothouse.

Goals:

Get more cows (buy)

Upgrade your house (bedroom

Lumber

Befriend more people

Catch more fish

Amount- 16,000-28,000+750 (The amount depends on amount of cows bought)

Forage:

Nothing!

1st - 9th- Well get the dog ball if Won did not show up in Autumn. Start practicing your recipes in your kitchen chop wood everyday, and hire the Harvest sprites to watch over your animals. If there is a blizzard predicted hire the sprites for 2-3 days since storms can last a while. Mine all this season in both mines.

10th of Winter- The dog race is today race your dog by running in front of it. If you did not train your dog with the dog ball well enough it will stop and do something. Do not run to far ahead or your dog will stop.

11th - 23rd- As you see Winter is not very extortionate do the same things mostly everyday. Have at least 5 cows and 10 chickens. You will get 5 more cows in the first 2 seasons, and the sheep in the last part of the game. Upgrade your tools too.

24th of Winter- Starry Night festival. Go to your girl's house on this night at 6PM. This will raise her affection toward you.

30th of Winter- End of Year. Go up to Mother's Hill at midnight to watch the sun with the other villagers.

Date Variable- Stop be Ellen's house one day to find out about a white flower. If you go to Mother's Hill on a snowy night after speaking with her you will see it. If you tell Ellen and Basil they will be happy.

Date Variable- At 10AM on a snowy day at Rose Square Cliff will pass out in the snow. Search the area he was to find a photo, give it back to him.

30th of Winter- If you didn't inform Cliff about the AJA winery job in Autumn Cliff will leave this day.

Large rucksack

10 chickens

All upgrades except hothouse

5 cows

All tools at least on Silver

Girls heart at least on yellow

Have a Horse

Have at least 10 recipes

2nd Spring

Well this time stop and smell the flowers they are beautiful aren't they relax, relax, relax, not much to do here, except... build a hothouse and make your potential wife on red. Give lots of stuff to villagers

Amount- 50,000-? (Depends on amount of grass grown) +580 lumber

The goals say it all do all these things by the end of spring. Fill the hothouse with all sweet potatoes when you get it, and fill your field with grass after buying the hothouse. If you saved some Orchialc Ore from winter make a jewelry piece for 100 with the ore and give it to your girl.

The only special event in spring is Karen's dance. On the 1st of spring she comes by between 12 and 3PM she wants to practice dancing with you. At the spring goddess festival talk with Karen and she will dance with you.

2nd Summer

This season is good for making friends and even marrying!

Goals:

Get Married

Make friends

Catch 1 more legendary fish

Have all 10 cows

Buy grass

Fill hothouse with sweet potatoes.

Amount: Varies + Lumber

1st through End of Summer- These days just spend time making friends you can tell when you make a friend. Usually a villager, besides potential

wives, has a total of 3 levels of conversation. 1st just met, 2nd friendly, and 3rd good friends. You should have the fishing pole so catch one or more legendary fish. (See secrets) If you already have 10 cows start buying sheep and always plant more grass. Your hothouse should be filled with sweet potatoes.

Ask Kai to watch fireworks the 23rd and go to Mother's Hill on 24th to watch with Kai.

2nd Fall

Make more Friends

Catch legendary fish

Win sheep festival

Have all tools upgraded

Rack in the dough

Events:

4th Year- Flashing thing is seen at the church on a sunny day in winter after 5PM.

5th Year- Buffet is ruined can you solve the case? Between 6-9th day of Fall.

Note I WILL not reveal buffet answer so don't email me about it!

13.Secrets

Power Berries:

1:In the Ocean.

2:In the Mine dig.

3:In the Winter Mine dig.

4:On the outside of the Winter Mine In the corner.

5.TV Shopping Network buy for 5000.

6.Horse Race get for amount of medals.

7. Swimming festival win.

8. Tree on Mother's Hill try to cut it down stop when it pleads you not to.

9. Plant more than 90 flowers say that Anna can pick as many as she wants when she comes by.

10. Goddess give her harvested crops for 5 straight days to receive

this.

Another is If you plant flowers in summer some bees will make a nest in your apple tree. These are the special bees Louis was looking for. Take a sample of the honey with the bottle, and then give it to him. The honey you sell now is 60 instead of 50. Not a major increase, but you need the money early on.

Special Berry:

Toss 3 cucumbers into the lake on Mother Hill you must stand in front of the 2 trees on the left of the lake. Kappa will give you a berry, which halves the amount of energy loss during the day making you work twice as long!

The 6 legendary fish:

Squid- throw a small fish in the ocean as bait (good for one day) Only summer.

Catfish- in lake in winter mine

Angler- in ocean in winter between 10PM and 8AM

Char- must have sashimi grilled fish and sushi recipes in waterfall or river

Sea bream- had to sell more than 200 fish in ocean spring fall or winter

Carp- in the lake at mother's hill must have all previous fish prints.

I am on the 2nd year of summer; I just got back from Ann's birthday party, so that makes it the 17th of summer at 6PM. I was inside my house and decided to work some more so I went out and Harris, the policeman, was there to talk about something private to me. So we go inside my house and he revealed that he is in love with Aja, Duke's daughter, and he asked me if there was anything he could write about to her. My character shook his head, indicating a NO then Harris thanked me and left. So, the next few days after that encounter with Harris, I went to the Inn (on Sunday PM), my intention was to see Karen as I was pursuing her. But what I got was a scene where Duke was heavily drunk and apparently upset over, her daughter, Aja, moving to another city and not receiving any letter from her. I don't know if what I did was right but there was a glass of water there and I gave it to him and the scene moved on to the house of Duke where Manna thanked me and told me how upset her husband was over Aja's move....

17.Tips

Make lots of friends they can help you, give you recipes and trigger special events. Also making friends is important towards your score at the 3 years.

Plant lots of grass. With 10+ animals you need plenty of grass.

Although you can purchase fodder, I recommend growing it.

The hot springs are good for energy recovery use them well at only one hour to fully recover it is pretty good.

Get married after the first year to experience life without a wife, and with one.

During Winter, Be sure to stock up on wood and befriend the Harvest Sprites! Their heart ratings will go down if you ignore them, even if they don't work for you.

During the fall season, grow as many Sweet Potatoes as you can! They sell for \$120 a piece, and they regrow every few days!

TAKE CARE OF YOUR HORSE! One year after you get it, Barley will check to see if it is happy. If it isn't, he'll take it away! So brush it, whistle for it, and talk to it every day.

You only need the Gold Watering Can to water a 3x3 area. The Gold ore can be found in the mine, and if you befriended the Harvest Sprites, ask them to water your crops for the three days it takes to upgrade.

The Hothouse in BTN is much smaller than the 64 version. It has enough for four 3x3-crop circles. You can plant some crops between the crop circles, and you can just hop over them to get around.

Be sure to get the Hive in the summer from planting some flowers. It doesn't sell for much, but you can get honey from it once a day, all year round.

During Winter, if you haven't already bought the Mayonnaise, Yarn, and Cheese maker, save three pieces of Adamantine from the Winter Mine for

these, otherwise, you may have to wait until the next winter to have these made.

Winning the appropriate Festivals, your livestock can produce Golden Eggs, Wool, or Milk. Make sure to choose your hen, sheep, or cow with the most hearts that hasn't already won the festival. The more hearts, the better.

<Press Select>

During certain events, be sure to choose your responses wisely. For Example, when Popuri asks you what you think of her wanting to leave would be, if you say she should stay, she'll get mad at you, and her heart rating could go down.

When you give gifts, when they only say "Thank you." that doesn't necessarily mean they like the gift they have. I gave something to Ann, she said "Thank you." and her heart rating went down.

If you have your Kitchen, watch the TV Shopping show every Saturday. Use the Inn to call and order. Your purchase will arrive Tuesday, the same day that "The Delicious Hour" is on, which gives some recipes.

During winter, you can't feed your fish (don't worry, they won't die.), but you can still stock up on fish for the upcoming spring, by storing them in your Icebox, that comes with House Upgrade 1.

After you receive the powerberry from the Waterfall Goddess, keep giving her harvested veg/fruit. After the next 10 she will ask you if you have a sweetheart. This triggers a scene. After the next 10, she gives you a log, and then Gotz comes to get it and pays you (1000g) I think. This is as far as I have gotten with her. Also, you can give her more than 1 in a day, (the most I have done so far is 20), but, she doesn't come when it rains or on a festival day.

Fall season. Date variable? Only happens if married to Elli? Stu appears at your door with a cricket in his hands, saying Elli wanted to see a cricket. Talking to him again makes him want you to show it to her, saying you found it. Elli will come out and ask what is going on and if she just heard Stu just then. Talking to her again with the cricket in hand scares her. Talking to her without it in hand, she realizes Stu wanted to play a joke on her.

I just found out that you can bring your bin into mine when you are mining for minerals. So that means that you can carry up to 38 mineral but you must be careful not to faint in there or you will have to go down there again to find it and you must carry your bin down with you when you go down. This is very useful in the winter mine. Just though that I should tell you this.

In summer grow A LOT of pineapple. It's expensive but it sells for 500 a piece! and you can harvest it twice if you grow it early.

Note- The following is an updated version of this cheat but not from the same person it may be easier or harder for you.

If you use 2 memory cards and start at least 2 games this is an interesting cheat. Start your first game and buy a chicken and a cow. build your animals happiness to 10 hearts. If you win the chicken festival your chicken will be worth 2000G. No don't sell it save your game (I have not been able to win the cow festival but if you can it will help). Start your 2nd game and exchange your chicken from the 1st game after you buy chicken feed save your game. exchange your chicken

to your first game and read your diary exchange your chicken to the first game and read your diary. Repeat until your first game has 5 or 10 chickens, you should also do the same with your adult cows. Load your first game and exchange all the animals to the second game then load your second game. sell all your animals then exchange from the first game. save and exchange back then load your second game (If you have six games you can sell up to 20 cows for 5 shots of 5000G a piece or more for a champion cow (that's 500000G for a minor bit of boring work.)

Following these lines it may be possible to sell enough chickens to buy the wood you need to be able to upgrade your chicken coop on day 1. If you can pull it off you might be able to win the cooking festival in the first year(you have to get to the chicken ranch as soon as it opens but before Popuri gets in the door at least two or three times.)

Work as long as you like even up to 5.50 a.m.

Go back to home latest by 5.50 a.m.

And drink a bottle of Turbojolt.

And get up by 6 a.m.

Save stuff from all seasons when you get a kitchen cooking is an important part in this game.

You can save energy when you chop wood with a gold axe. You just charge up until his face turns red then charge up until he closes his eyes (one level before he turns red). You don't save much but it adds up when you are mining and chopping wood on the same day.

Spa-Boiled Eggs sell for 30 more than normal if you don't have the mayonnaise maker this could help. Warning these degrade the price of golden eggs.

Here is something you will like: You can control the weather somewhat. After saving a game, check the weather for the next day. If the weather forecast is stormy, A.K.A. rain, snow or blizzard go to the diary and reload your game. Check the weather again, and the forecast will most likely be different. Do this until you get the weather you want. This is especially great if you want to avoid the blizzard condition, don't want to move cattle, sheep, horse and dog inside or if you are upgrading your water can.

I found that you can throw stuff into the basket from a far distance, thus you can throw about six items into the basket without moving it!

X

OOO

OOO

OOO

Is how you place the basket (X) and with once only crops you just grab and aim at the basket with out putting it in your backpack!

To get Spa-Boiled eggs throw them in where the rocks seem crushed into the water.

19. Dangerous Weather

There are not many weather effects in the game of harvest moon back to nature. They are sunny clear day, rain, snow, blizzard, and typhoon. Sunny- On this day do work until you drop its ok just don't over do it. These days you must water your plants, and you may take your animals outside. Everyone will usually be outside. On these days I recommend chopping food, although you have to water your plants you really can't get sick unless you really overwork.

Rain- Well these days you should forage and/or mine both are good options. Remember many of the people in Mineral Village will seek shelter when it rains.

Snow- Since you have no crops and nothing to forage you should mine in the any of the to mines. Since its winter many will still be indoors. Remember to save up fodder in winter!

Typhoon/Blizzard- Or hurricane when these occurs you can't leave your house, your animals can't get fed, and your hothouse could be destroyed. Always hire the harvest sprites the day before the storm

also hire them for 2-4 days since storms can last longer than one day. Hopefully your chickens aren't outside because they can be blown away and any livestock can be killed. Your dog and horse will probably have 0 hearts when the storm is over and they are outside so be careful.

This is not a Gameshark cheat. For those who do not have a Gameshark cartridge, here is a hint. This will work only if you have two memory cards. One of the memory cards is a spare for editing the cheat. First, you must save your game in the first memory card.

<*Of course, you must have some animals in your save*>

Next, for the second memory card, copy the saved from the first memory card to the second memory card. After you have completed, you can start the game with the previous saved in either memory card. After the game loaded, go to the diary where you can save the game. Select the option "Exchange for Animals". Both memory cards should be inside the memory slot and do not remove them. Now you can transfer the animals from your second memory card to your first memory card. To make money, just sold the animals that have been transferred. To increase the money, just follow the above methods. That will do.

23.Special Events and Festivals

Note These events always occur these do not marry which girls you woo.

Spring Festivals:

New Year Festival (1st of Spring)- At 6PM go to Rose square or the Inn.

Rose Square is mainly for dancing with girls when you aren't married.

Although you can still go when you are married if you like.

Goddess Festival (8th of Spring)- If any of the girls have a purple heart you can ask them, but your wife won't appreciate if you go with another girl. Talk with any girl the day before for the option to ask them.

Spring Thanksgiving (14th of Spring)- Give the girls cookies (see recipes) to increase their liking towards you.

Horse Race (18th of Spring)- If you don't have a horse bet on the others to win medals. If you do than enter him in the race and try to win.

Cooking Festival (22nd of Spring)- With kitchen made you can participate in this exciting festival. I recommend bringing Relaxation Tea with milk, blue and green grass, and various other ingredients.

Special Events:

Supermarket Tab (First time supermarket visited)- Various Villagers will put their shopping items on their "TAB" stop this if you say to Duke "You should pay" it goes a long way towards making Karen, Sasha, and Jeff you friends.

Won (3rd of Spring)- There is a strange looking character on the loose. Every time Harris in forms you Won seems to pop up right after he leaves. From your farm go to Rose Square than to Gotz's House to see this event.

Summer Festivals:

Swimming festival (1st of Summer)- This festival can get a little annoying. Press x to swim and /\ to breathe. Pressing these in an alternating order will almost always guarantee success.

Chicken Festival (7th of Summer)- Bring your chicken to Rose square and have a great day. Press x to root your chicken on don't root him out of the ring though.

Tomato Festival (12th of Summer)- This is a great festival. /\ to duck < and > choose your target x gathers and throws tomatoes. Can it get any better?

Cow Festival (20th of Summer)- Choose a cow to enter the day before and observe your cow in this festival. The only way to win is if your cow has 10 hearts.

Fireworks Festival (24th of Summer)- The end of summer brings memories of fireworks go to the beach and watch with your favorite girl.
