09. Secrets

01. Controls

Triangle = (Agito only) Change forms
Provocative pose

Circle = Special move (Square + X does the same thing)

X - Guard (Hold down on it)

Dash (Press it quickly)

Throw (stand next to opponent and press)

Square - Normal attack

To execute an attack on your enemy while he's on the ground: Press Up+X or Down+X

If you're lying on the ground you can roll left or right. Also if the enemy is near, press Square or X to do an attack as you get up

Pause Menu

When paused, your options are:

- Cancel
- Command List (Lists your special moves)
- Handicap (if in VS mode)
- Reset

02. Different Modes

Agito Mode - Story mode for Agito

Gills MOde - Gills story mode

G3 Mode - G3 story mode

Tag Battle mode - Cooperate with Player 2 to fight the computer

Single Player Mode - Player versus computer

VS Mode - Player vs player

G Trailer Mode - Build your own original G3

Memory Card Battle Mode - Use an original G3 saved on the memory card to battle

Gallery mode - Collect and View digital cards

Options

03. Coins

When you clear story or single player mode, you get coins that can be used to upgrade your original G3 or for firing bullets in gallery mode.

04. Characters

Agito Ground Form

Agito Flame Form (Uses Flame Saber)

Agito Storm Form (Uses Storm Halberd)

G3 (Uses GM-01/gun (custom can use GG-02 grenade), and G3-03/sword)

Gills

Unknown

Then there are the secret characters listed at the end

05. Story Mode

The rule in this mode is that you must get your opponent's tension level up to 100%, then perform your special finisher by hitting circle. When your enemy has more than 50% in his meter, the battle song will play. If you are Agito, you must be in the same form that's used as in the tv series. If you're in the wrong form after 50%, the game will flash a message at the bottom to tell you to change forms.

Difficulty levels:

Weak - If the enemy hits you, his tension meter doesn't go down

Normal - If the enemy hits you, his tension meter goes down, except for when you get to 100

Strong - Enemy hits you, its tension meter goes down, even if you fill his meter.

Ozawa says:

When in G3 mode, the things Operator Ozawa says are:

Beginning "It's finally our turn. Hikawa-kun, show your guts!"

Episode 1

Ozawa: GM-01 active. You are approved to fire.

Hikawa-kun: Roger

During battle:

If beaten badly - Hikawa-kun, what are you doing?!

If you do particularly spectacularly - Hikawa-kun! That's pretty good

06. G Trailer Mode

First option - customize your G3 by naming it!

Second option - select your weapon

Third option - Level up your weapon (uses coins)

Fourth option - Parameter: Depending on how you fight, your G3 will change.

Normal - Ordinary type

Quick type - You faster than Normal type, plus you can jump twice

Strong type - Attack and defense is higher

Fifth option - Finished

=====
07. Gallery Mode
=====

Use Circle to shoot the cards as they go by. Remember each shot uses a coin, so make them count! It's totally random, I cheated by checking with an emulator, so good luck

To see your cards, click on the button at the top right. You will directly to View mode if you have no coins.

Blue cards - Regular cards

Green Cards - Part of a larger picture

Red cards - Special cards that unlock secret characters. See end for details

In View mode if you click the card you can magnify it. Then move the cursor around the card to get different information. There are even cards that give you hints to get Gills Mode and G3 mode (Wow, what a hint)

Blow up the card and behind it is the number of Doubli's (Doubles) you got. (But once you get more than 2, can you still call them Doubli's?)

Hosted by Shouichi and Hikawa

When you first use it they introduce themselves

At 40 cards

Hikawa: 40 cards complete!

Shouichi: Still a ways to go. Don't lose heart before reaching the halfway point

60+ cards

Shouichi: 60 cards complete!

Hikawa: Finally halfway done. You still have a long ways to go, so good luck

80+ cards

Hikawa: 80 cards complete! Here's the tough part.

Shouichi: Hikawa-san, is there a good method for collecting the cards?

Hikawa: Yes, well... Of course you need "guts". Plus I think you need indispensable "physical strength"? (Note, these are things Ozawa told him in the tv series)

Shouichi: I think it was a mistake to ask you, Hikawa-san!

Hikawa: Why!?

100+

Shouchi: 100 cards complete. Don't let the Doubli get you down, keep going!

Hikawa: Tsugami-san. What is that "Doubli" thing?

Shouichi: "Doubling/Dublin". Hikawa-san, didn't you know that? "Dublin" is an island in Ireland...

Hikawa: Right... It was my mistake for asking you, Tsugami-san.

Shouichi: Haha....

SECRET MODES

Gills Mode - Clear Agito Mode to get
G3 Mode - Clear Gills Mode
G Trailer Mode - Clear G3 Mode
Memory Card Battle Mode - Clear G3 Mode

Use Trinity form - In versus mode pick Agito, then set your handicap to the max. Note, you can only use the abilities of Storm Form or Flame form, not both at the same time. (I also sometimes get Burning or Shining form when I do this, anyone know how what conditions need to be met so that I can pick?)

SECRET CHARACTERS

G3-X - In the G Trailer upgrade your Sword and Gun to the max. Then pick the Sword+Gun, when that's maximized you're G3 custom will change into G3-X

In Gallery mode (Explanation in the gallery mode section):

Agito Burning Form - Collect 60 cards
Jaguar Lord (red) - Collect 70 cards
Queen Jaguar Lord - Collect 80 cards
Exceed Gills - Collect over 100 cards
Agito Shining FOrm - Collect over 120 cards
G4 - Collect all the cards (the last one will be the special red card)

Questions

So is there a way to make Exceed Gills or G3-X appear in Gills Mode/G3 Mode? Some of the cards suggest that there's a way to unlock something, but it might just be a lame hint on how to get Gills Mode and G3 Mode itself.

Comments

I loved this game. The tv show is great. My only gripe is that they could have had more spoiler characters like G3-Mild, Another Agito, a working Trinity form, or Unknown from later episodes. Also would have been

cool if they had included the bikes in the attacks.

Updates 1.0 = Created the darn thing

Updates 1.1 = Translated the words in the Gallery View mode
