"Legend of Mana" Mini-FAQ

Written by HonestLiar

Version 1.4

-LoM Equipment Collector's Checklist-

::KEY::

_Item Name (Material: Attack Power/Total Defense) - Source (Drop Level)

Drop Levels*:

1-4 = Enemy Level 1-99

5 = Enemy Level 16-99

6 = Enemy Level 32-99

7 = Enemy Level 48-99

8 = Enemy Level 64-99

*This level system was adapted and corrected to the best of my ability from the BradyGames "official" strategy guide. Due to the lack of accuracy in that source, some Drop Levels might be slightly off. Because of this, I highly recommend that you do all your equipment collecting in No Future Mode, where you can easily find level 99 monsters. Enemies at level 99 are capable of dropping anything on their drop list.
