6. Miscellaneous

6.a How to use Hyper Moves

In order to use it, here are some instructions (I'm very sorry, this is my first time doing an ASCII and it is unimpressive):

Sample A:

| |-----
| |>>>>>>>>I>>>>>>>I>>>>>>>>
|_____|-----

Sample B:

| |-----
|LV 1 |>>>>>>>>I>>>>>>>> I
|_____|-----

For example, this is your lifebar and the two letter I represents the border for your Hyper Moves and the box is which level the life bar is in (Sample A). As the opponent receives damage to you, the "LV 1" which appears can now be used by tapping L1 or R1 and the button command (Sample B). Be careful, though. If you use a healing item, you will restore health but if it is near the border, it will reduce by 1 meaning if your life bar is in Level 2 and you used a healing item, it will go

back to Level 1.
