

*-> Got to the point where I found the rumor about the genie gaining "affinity reading power" and I made a second affinity table with it.. Interesting! The return table list is a pain and still under construction but I've added some more.

[2/21/01]

I finally finished the game at lvl 61,55:51:44 hours and with the legendary personas...awesome fight. Its 2:05AM and am enjoying the credits...it was all worth it. One word..Excellent. Now...to play it again..*snicker* I want to see the Ex-dungeon.

Version 1.4:[8/02/01]

*->Well, its been some months since I moved on from playing the game to another games, I was half-way through this version in May but due to school I had to postpone it until now, so I added a item return table from Archaeopteryx's FAQ and updated my email since @usa.net stopped giving free service.

Version 1.5:[1/08/02]

*->Noticed gamfaqs had version 1.3 instead of 1.4, so I added a little introduction explaining this FAQ IS NOT a walkthrough(I got some mails about it).

Affinity Table

How this works:

When you aquire certain rumor, you are able to get affinity readings with the Sumaru Genie for 5000 yen, the genie tells you about the affinity you have with a certain character depending on the answer you give her to the 6 questions she asks you. For example giving her 6 "Yes" answers will give you the Eldest Satomi Sister as your affinity character and thus she will give you discounts in her store! (Magazines cost 400 yen instead of 500 yen, useful when you wanna buy 99 to have a chance to win something in those sweepstakes). Now, I made a table with all 64 possible answers to the 6 questions the Genie asks you, it works like binary code(because of the Yes or No choices), if you dont know binary I'll explain after the table.

Remember:

1 = "Yes"
0 = "No"

|00|2nd Sister |20|7th Sister |40|7th Sister
|01|Katsuya |21|5th Sister |41|Tony's
|02|RosaCandida |22|7th Sister |42|2nd Sister
|03|Eldest Sis |23|6th Sister |43|Eldest Sister

Questions I have regarding the comments made by the characters of the reading.

**Irquic calls herself Akari? WTH? Im Irgri?

 *?*Makes every two-sided rumor the good one?
 *!*This one is a MUST before you go shopping there..REALLY!(Padaparcha Store)

Rumors about Affinities with non-store-owners characters found on the board or emailed to me:

From Tainted Beef:
 the only thing that happens when you get affinity with party members (aside from warm fuzzies) is that the damage during fusion spells between maya and that person increases slightly. no changes in storyline or dialogue, etc.

How binary code works:

Its all in the sum.

We give a value to each position: 32,16,8,4,2,1

We multiply the value with the number(either 0 or 1)

if its 0, the result is going to be 0 (32x0 = 0)

if its 1, the result is going to be the value(32x1 = 32)

Examples:

|0 0 0 0 0 0| = 0

They are all 0's so we ignore them and add nothing to nothing.

(0 = 2nd Satomi Sister/Belladona)

|1 1 1 1 1 1| = 63

They are all 1's so we start to add giving each position its value.

From left to right:

32+16+8+4+2+1 = 63

(63 = Eldest Satomi Sister/Tatsuya)

|1 0 1 0 1 0| = 42

From left to right:

32+0+8+0+2+0 = 42

(42 = 2nd Satomi Sister/Trish)

|0 1 0 0 1 1| = 19

From left to right:

0+16+0+0+2+1 = 19

(19 = Eldest Satomi Sister/R.Toku)

If you still dont get it...bummer..lots of books about
the binary code in yer library and plenty of info in the net.

 Q&A

Credits go to the Board at gamefaqs.

Questions:

 A.-When you donate 100,000 yen, it gives you access to the backroom where a demon Rumormonger resides.
- 2.-How about the Dog statue at the Police HQ?
 A.-It gives you the Hihi-Irokane metal when you give him 10,000yen.
- 3.-When you are in the trail to the Sanitarium, there is a small shrine, what is it for?
 A.-It is said you can unlock a special persona with it.
- 4.-In the Laboratory Complex, how do you use the Elevator?
 A.-You need to ask a demon for info about it, then get the key.
- 5.-What do you get when you have a certain affinity with a main character. I.e an affinity with Sugimoto will let you save him?
 A.-See the other Affinity FAQ for the answer.
- 6.-Whats up with all the bulletin boards and letters in the bomb shelter?
 7.-In 2xSlash..there is a girl who reads fortunes..anything special with her?
 A.-She gives you a material card of a lvl 62 Persona, also it is rumored that she "sets" your tarot reading with the Genie, this last one has not be proven yet..maybe I should try it out when I have time.
- 8.-In order to make Legendary weapons you need LegenBright and an Akashic Ring, where do I find them?

Random babbling:

Thou shalt Carry thy feet in the sequence of:

Dubha -> P

Alioth -> E

Phelpa -> R

Mergez -> S

Merak -> E

Mizar -> U

Alkaid -> S

Personal Questions about the storyline:

Who is Maya Okamura?History teacher?

At the end..if Maya remembered the other side..
why didnt she forgot about the other side too? Isnt
that gonna affect "This Side"?

The following was sent to me to my email..I just copy-pasted it =)

When the girl at 2xSlash asks you what month you were born, tell her
"HASTURCOMEFORTH". Then go to Maya's desk at Kismet Pub., and open the box
next to it. It contains the King In Yellow material card.

Also, the donation box on the Mifune trail must be full to get the secret
Persona Junnosuke Kuroda. If you get Tatsunoshin Suou, another secret
Persona, and filled up the donation box on the trail, Junnosuke
automatically comes along.
