Pop'n Music 6 (Playstation)
Secrets FAQ and Track List

Written by: Ari Margo (Gamefaqs: Kythlyn)
Version : 1.06

Copyright 2004 Ari Margo

This is a free document that is not intended for commercial use. It is free to be distributed FREELY. It may NOT be used to make money in ANY FORM. I give my permission for this document to be modified and improved upon in a tasteful manner as long as my name remains on the document. Most of the information contained here was either discovered directly from the game or obtained via one of Konami's Japanese websites translated through Altavista's Babelfish. I created this to spare other Pop'n fans the trouble of deciphering poorly translated Engrish since no other FAQs were available for this game at the time of writing. This FAQ was NOT designed to be very in depth. It is merely to give importers enough information to get the most out of the game. If you need more in depth information about the Pop'n Music series in general, there are very detailed FAQs for other games in the series already available at GAMEFAQS.

Enjoy.

4. Challenge Mode and Extra Stage
5. Instant Give-up
6. Omake
7. Expert Mode

Section 3: Closing

1. Version Information
2. Contact Information

SECTION 1: TRACK LIST

The list below contains all the songs in the game. There is a HUGE number of songs (91 Normal songs, 61 Hyper versions and 18 Extra versions and a total of 104 unique songs). At the time of the game's release, no other music game ever had so many songs. When you begin the game, 50 songs will be available. The rest must be unlocked. See the secrets section for more information about unlocking many of the secret songs. The songs that are not in that section can be unlocked in the Extra Stage section of Challenge Mode or in Expert Mode.

This list does NOT provide the real names of the songs, but the name that you will see when selecting stages, which represents the genre of the music.

Before you begin play, you may want to go into the options menu and change SELECT to SHORT CUT. This will replace the normal Pop'n Music 6 menu screens with a much more simplified version. This will make navigating the game's menus much easier. If you are good at reading Katakana, you might want to use the NORMAL mode.

Songs with marked with an * are not available by default and must be unlocked (see secrets section). In addition, there are specific requirements to play the more challenging HYPER and EXTRA versions of the songs (once again, see the secrets section). See the EXPERT MODE section for information on how to unlock the secret songs from EXPERT MODE for normal play.

Pop'n 6 uses a new scale of difficulty to rate each of the songs. The songs range from 1 to 10 stars, with 10 being the most difficult. If a difficulty is not filled in, then that challenge level does not exist for that song.

SECRETS

----- 1. HOW TO UNLOCK SECRET SONGS -----

There are many Secret Songs in Pop'n Music 6. Actually there are more secret songs than default songs! They can be unlocked by the many methods in this section.

One way to unlock songs is to play them in Expert mode (see the Expert mode section).

Another method of unlocking songs is by time-releasing them. In order to time release the songs, you must play Arcade Mode. FREE MODE WILL NOT ADVANCE THE TIMER! The only time the timer advances is when you are actually playing a song. Navigating the menus does not count. Watching the staff

roll does not count. Only actual gameplay counts. Once enough time has elapsed, the secret songs will start becoming available in their appropriate stages.

Here are a few of the time releases (thanks aechris):

4 Hours 30 Minutes : Kids
5 Hours : Oi Punk, Tropical
5 Hours 30 Minutes : Mind, Girls Pop
6 Hours : Classic 6, Blues

Songs can also be unlocked by meeting specific requirements. Thanks again to aechris for making these accurate translations and submitting them for the FAQ.

Funk

Select Fat Boy and clear Rock n Roll on your 1st or 2nd Stage to unlock Funk in Stage 3.

Spanish

Get 70000 or more on Romance Kayou on your 1st or 2nd Stage to unlock Spanish in Stage 3.

Skacore

Select Dami-yan and clear J-Tekno on your 1st Stage to unlock Skacore in Stage 2.

Kung-Fu

Select any Pop'n Stage character to unlock Kung-Fu in Stage 1.

Folky

Get a 49+ combo on any song on your 1st Stage to unlock Folky in Stage 2.

Reggae

Get a 38+ combo on Samba on your 2nd stage to unlock Reggae in Stage 3.

J-Dance

Select Judy to unlock J-Dance in Stage 1.

House

Get less than 33 bads on Sazae-san on your 1st or 2nd Stage to unlock House in Stage 3.

80's Pop

Get at least one "8" in your score (80000, 92800, etc.) on your 1st stage to unlock 80's Pop in Stage 2.

Spiritual

Select Tran and clear Sympathy on your 1st stage to unlock Spiritual in Stage 2.

Scat

Select Sumire and get 80000 or more on your 1st stage to unlock Scat in Stage 2.

Swing

Select Sanae-chan and get a max combo ending with a 3 or a 7 (82093, 99877, etc.) on your 1st stage to unlock Swing in Stage 2.

Kids

Get a total score of 250000 or more in a game of 9-line on Normal to unlock Kids in Stage 1 of your next game.

Mind

Select 6-Boy on Normal mode and get a border clear on any stage to unlock Mind in Stage 1 the next time you play Challenge mode.

Girls Pop

Get 90000 or more on either Samba, Yodel, Anime Heroine, or Musical on your 1st or 2nd Stage to unlock Girls Pop in Stage 3.

-AND-

Get a 250+ combo on your 1st stage and a 300+ combo on your 2nd Stage to unlock Girls Pop in Stage 3.

Oi Punk

Clear US Hard Rock for your 1st Stage and Melocore for your 2nd to unlock Oi Punk in Stage 3.

Tropical

Select Uowo to unlock J-Dance in Stage 1.

Classic 6

Get 85000 or more on Yodel on your 1st stage and get 90000 or more and a 60+ combo on Romance Kayou on your 2nd stage to unlock Classic 6 in Stage 3.

Blues

Get 100000 on your 1st stage and a 500+ combo on your 2nd to unlock Blues in Stage 3.

-AND-

Get exactly 66666 on your 1st or 2nd stage to unlock Blues in Stage 3.

-OR-

Get a max combo of exactly 6, 66, or 666 on your 1st or 2nd stage to unlock Blues in Stage 3.

The third way to unlock songs is by entering secret codes. When you enter an unlock code, the secret song will be available on its appropriate stage in Arcade mode. If you play the song once it will be forever unlocked in Free mode, whether or not you clear it.

The secret codes must be performed on the Title Screen where you would choose a mode. If you are successful you will hear a sound effect. Then when you play in Arcade Mode, the song will be available one time only on its appropriate stage, and then permanently in FREE Mode once you play it.

Pop'n Controller

CLASSIC 6 - 999969999699996
BLUES - 666626666669

2. Special Options

There are 4 gameplay special options that can be adjusted on the options menu. They can also be adjusted after entering arcade mode. To change the options in arcade mode, hold down the select button

on the mode select screen, and press the appropriate keys. They can also be changed on the title screen. Press both yellow buttons (B and H) to toggle a menu and then follow the on screen instructions.

High Speed: The notes scroll faster. There are four levels to this setting. Press the left or right blue buttons (D and F) to adjust the setting. The choices are off (slowest), X2, X3 and X4 (fastest).

Mirror: In this mode, the note patterns are completely reversed. The A row will be on the I row and the I row will be on the A row. B will swap with H. E will swap with G. D will swap with F. E will remain unchanged. This can be toggled on and off with the left yellow button (B).

Hidden: In this tricky mode, the notes will actually vanish before they reach the bottom of the screen, making the game much more challenging. This can be toggled on and off with the right yellow button (H).

Random: When this is on the note patterns are randomized. Songs that you thought you mastered can be much more challenging with this on. It can be toggled on and off with the right white button (I).

3. Difficulty Toggle

Press the select button when choosing the song you are going to play. If a HYPER or EXTRA version is available, the text will change color. Check the song list to see which songs have HYPER and EXTRA versions. If you are in SHORT menu mode, the text will change red for Hyper and green for Extra.

4. Challenge Mode and Extra Stage

In Challenge Mode you have to choose two challenges for each round of play in order to earn bonus points and hopefully unlock an Extra Stage. There are a large variety of challenges that can be selected with the blue buttons (D and F) and the green buttons (C and G). The left blue and green buttons control the left column and the right blue and green buttons control the right column. Highlight the two challenges you want and then press the red button (E). The number of points you will earn for the challenges appear on the right side of the screen. You will only get these points if you both complete the challenges and the stage. You will get additional points depending on the difficulty of the song you select. If you earn exactly 50, 75 or 100 points (or certain other specific numbers) or over 125 points after 3 stages, an EXTRA STAGE will be playable. The higher that number, the more special Extra Challenges will be available. If you fail to get that number of points, you will instead be awarded with an image in the Omake Gallery once you clear Stage 3.

When playing the EXTRA STAGE your groove bar will be different than usual. Instead of trying to fill the bar by the end of the level, you will instead have to prevent the bar from emptying. If at any point your groove bar is empty, the stage will end in failure.

There are many exclusive challenges that only appear if you get enough points (see the song list to find out which songs are there). To select them, press the select button twice (once to switch to HYPER and again to switch to EXTRA difficulty). Once you've played an EXTRA STAGE once, whether or not you clear it you will be able to play it in EXTRA MODE (which was formally a ????)

on the FREE MODE list). Keep in mind that playing a NORMAL or HYPER song in the extra stage will NOT unlock an EXTRA song for FREE MODE. So if you're trying to fill up your entire song list in FREE MODE, then always pick a song you have not yet played. It does not matter if you lose. You can only play 1 EXTRA Stage per game in Challenge Mode. If you want to unlock all 17 of the challenge mode EXTRA stages, you'll have to get the right number of points 17 times. The 18th EXTRA stage (PERCUSSIVE) is only available in Expert Mode.

Here are a few brief descriptions to help you navigate the menus. The default selection (which says NASHI in hirigana) means that you don't want any challenge for that column, and you will receive 0 points.

- MAX (COMBO)##: Try to get a combo that is larger than the number shown before the song is over. The choices are 50, 100, 150, 200, 250, 300, 400 and 500.
- BAD ## : Try to get less than the number of bads shows. The choices are 100, 50, 20, 15, 10 and 5.
- NO BAD : Do not get any bads or you will not get any bonus points.
- ALL GREAT : Do not get any goods or bads or you will not get any bonus points.
- ALL GOOD : Do not get any greats or bads or you not get any bonus points. In my opinion this is IMPOSSIBLE.
- Hi-Speed X2 : This activates High Speed 2 during certain sections of the song. Be warned that if you already have High Speed on from your game options that this will stack and be that much faster! I recommend turning such options off before trying this.
- MINI POP : The notes will be much smaller than usual.
- SUDDEN : This activates SUDDEN mode at certain points in the song (the notes will appear towards the bottom of the screen).
- Dance : The rival character will dance on the main screen to blind you.
- Ninja Pop HS : Hi Speed with blinking horizontal notes.
- HIDDEN : This activates HIDDEN mode at certain points in the song (the notes will vanish towards the bottom of the screen).
- HELL : When this is active in the game, you'll notice your groove meter flashing. During this time correctly played notes will barely fill the meter at all, but missed notes will be much more devastating.
- FAT POP : The notes will be much bigger than usual.
- CHARACTER POP: This turns all of the notes into your rival's head. It can be tough if you depend on the colors of the notes to guide your hands because instead of having blue, yellow, green, red and white, there will be only 2 colors depending on the character.
- Hi-Speed X4 : Just like Hi-Speed X2 but even faster.
- Ojama : With this enabled, whenever you start playing well your rival

will activate its OJAMA, which is basically some sort of visual distractions. Some rivals have REALLY challenging OJAMAs.

ROCKET AND Hi-speed x4 : This will add High Speed 4 and a distracting vertical visual effect at certain points in the song.

Wiggle POP 1 : The notes will wiggle back and forth and zoom in and out.

EXCITE : This can add a lot of challenging distractions as you play.

Wiggle POP 2 : The notes will wiggle back and forth and zoom in and out a lot.

Hidden + Sudden : In this mode you barely get to see the notes before they vanish. Very tough.

EXCITE + Ojama : Excite mode plus Ojama. Lots of distractions.

Wiggle Pop 3 : The notes will wiggle back and forth and zoom in and out. High Speed will also be enabled.

Hidden + Sudden + Hi Speed : This is ridiculous. Don't bother even trying this unless you have practically memorized the song your are playing.

##,### : Get more points than the number shown. The choices are 50,000, 60,000, 70,000, 80,000, 90,000, 95,000 and 100,000.

For 25,000, you need to get LESS than that many points and STILL CLEAR THE STAGE with a FEVER combo (full groove gauge).

5. Instant Give-up

If for whatever reason you decide that you want to quit playing a song before it is over, just press start and select.

6. Omake

To unlock the various images in the Omake section, play through Challenge mode over and over again, each time choosing a different player character. You can select your character after choosing ARCADE MODE by pressing the yellow buttons (B and H). Please note that if you get an EXTRA stage you will NOT unlock a new picture in the gallery.

7. Expert Mode

In EXPERT MODE you will have to play a set of four songs. After choosing Expert Mode you will be on a screen where you can select a course. If you are in NORMAL MENU mode the list of songs will have some icons to let you know if a song is going to be NORMAL, HYPER or EXTRA difficulty. In SHORTCUT MENU mode if the text is yellow on a red background, the song is NORMAL. Red text on a black background indicates a HYPER song, and green text on a black background

warns you of an EXTRA challenge.

There are specific methods of unlocking the secret expert courses. For the most part, they all involve either clearing the default expert courses, or unlocking the secret songs in the game. Here are the specifics, submitted once again by aeChris:

Sana

Play the Parquets course once to unlock the Sana course.

Mickey Masashi

Once Funk Rock and US Hard Rock are unlocked and available in Free Mode, the Mickey Masashi course will unlock.

Pop'n Stage

Once House and Folky are unlocked and available in Free Mode, the Pop'n Stage course will unlock.

World

Once you clear any two CS6 songs, the World course will unlock.

Power

Once you clear Power Folk 7, the Power course will unlock.

Girl

Once Girls Pop is unlocked and available in Free Mode, the Girl course will unlock.

Rock

Once you clear Hip Rock, the Rock course will unlock.

Secret

Once AC6 songs, Blues, and Girls Pop are unlocked and available in Free Mode, the Secret course will unlock.

Gambler

Once Blues is unlocked and available in Free Mode, the Gambler course will unlock.

Hell 5

Once all AC and CS songs are unlocked and available in Free Mode, the Hell 5 course will unlock.

In EXPERT MODE your goal is to survive all four songs without your groove bar ever completely emptying. Each time you clear a stage your groove bar will be refilled a little bit. Any songs played in EXPERT MODE will be unlocked in

FREE MODE. Keep in mind that if you play a secret song in EXPERT MODE that is HYPER, then to play it in free mode you will have to select it from the HYPER list because if you were to go into Normal Mode the song would not appear on that list. Try to play all the expert courses up to stage 4 to unlock as much as possible in FREE MODE! There are many songs that can only be unlocked in this manner! As far as I know, there are no secret codes for those songs. Refer to the chart below to find the secret Expert Mode songs.

Here is a list of the Expert Courses:

D=Difficulty
 *=Secret Song
 N=NORMAL
 H=HYPER
 E=EXTRA

These courses are all available by default:

D Song 1	D Song 2	D Song 3	D Song 4	CHALLENGE
H *ANIME HERO	N *ANIME HERO R	H *SENTAI	H ANIME HEROINE	* * *

SECTION 3: Closing

1. Version Information

- 1.00 : First Version
- 1.01 : Fixed grammatical errors.
- 1.02 : Small fixes.
- 1.03 : Added secret song requirement translations, time-release numbers, the Girls Pop unlock code and the secret expert course requirements.
Thanks aechris for filling in all the blanks! Hopefully this is the final version of the FAQ. I am very happy if you have enjoyed!
- 1.04 : Finally got the star rating for Percussive. Thanks Knochenschleifer!
- 1.05 : Fixed a typo. ...yes, just a single letter.
- 1.06 : Fixed several typos.
