Grunge Run Time Trial
=====

Objectives:

- +Finish 3 laps in 4 min 30 secs to qualify
 Stay on the ground, this is to qualify
- +Score 20000 to earn an xpoint
 Try doing combos after grinding and mixing up the tricks

Grunge Run Race
=====

Objectives:

- +Win 3 Lap race to unlock park
- +Finish race in 3 min 0 secs to unlock next trial

Tips

Stay on the ground during the race, you lose to speed hitting jumps. Try not to do tricks, they give a possibility of crashing. Try hugging the corners and not bumping into anything. There are two shortcuts in this level. The first one you should skip because it's not faster. This is the one with the ramp going into the alley near the end. The one that is very helpful is the opening that has no ramp. If you jump the sidewalk right before you reach it, you'll make it and just navigate through the turns.

Grunge Scooter Park
=====

Objectives:

- +Score 10000 points to unlock teammate
- +Score 20000 to earn an xpoint

Tips

The halfpipe right at the start is the perfect place to get points. Use it to your advantage and continually pump out tricks.

Mall Crawl Time Trial
=====

Objectives:

- +Finish 3 laps in 5 min 0 secs to qualify
 Stay on the ground, don't go the high way
- +Score 25000 to earn an xpoint
 There's a bowl you can scooter in halfway through the level

Mall Crawl Race
=====

Objectives:

- +Win 3 lap race to unlock park
- +Finish race in 3 min 0 secs to unlock next trial

Tips

The mall is different than the other two tracks. There are two ways to go, stay on the lower path for a shorter route. The upper path you can cruise on your own time. There is a monster shortcut you can use that will guarantee the win. Towards the end of the lap, as you come to the escalators, stay to the left and jump over the left side to land on a solid barrier and then turn left a bit to continue over. If you don't do this, you will have to go down the steps and then turn and come back up.

Mall Crawl Scooter Park

=====

Objectives:

- +Score 15000 points to unlock teammate
- +Score 25000 to earn an xpoint

Tips

This is tough park. The first two ramps you start on are pretty nice to work with. Try out the rails along the top side of the park and you should be able to link some good combos together.

LA River Run Time Trial

=====

Objectives:

- +Finish 3 laps in 6 min 0 secs to qualify
- Stay off the jumps and watch out for the rails
- +Score 30000 to earn an xpoint
- The slalom you are in changes the sides to yellow and that is when you should use it gain the points. They form a halfpipe that you can rack up points on. I recommend the spot right before the finish line.

LA River Run Race

=====

Objectives:

- +Win 3 lap race to unlock park
- +Finish race in 4 min 10 secs to complete circuit

Tips

There aren't really any shortcuts. I would stick to the path in the middle rather than going up and down the walls. Watch out for barrels and pipes and time the pits right so you don't lose as much speed. It may be helpful to grind the top rail but don't stay on too long.

LA River Scooter Park

=====

Objectives:

- +Score 20000 points to unlock teammate
- +Score 30000 to earn an xpoint

Tips

The halfpipe you start out on is a great place to get points. Just continually bust out tricks and spin with them. You'll get around 1000 points a trick and should be able to get this pretty easily.

Congratulations on completing the game with that particular character. Beat it with everyone to truly complete the game!
