

that it is not the best fishing game. Fisherman's bait was better that year. But now Reel Fishing 2 has released and it is more better. The best fishing game ever. Okay, in this faq i have all the types of the fishes, tackle and the fishing spots. I have a guide which it can help you finishing the game.

Thank you

3) Review  
-----

Welcome to The Most Incredible Fishing Experience Ever!

Reel Fishing 2 builds on the success of the most popular Playstation game console fishing, Reel Fishing. Reel Fishing 2 offers a magnificent 3-Dimensional fishing experience with amazing lifelike fish and a variety of environmental sounds. Catch, keep and care for your fish in three fully equipped aquariums. Relax and enjoy the realistic world of Reel Fishing 2.

- \*Over 70 types of fresh and salt fish
- \*Choose from 500 pieces of tackle
- \*Four methods of fishing, including Rolling
- \*Compatible with licensed Playstation fishing peripheral

This review was on the back of the CD case.  
My final verdict for it is 9 out of ten (9/10)

4) Walkthrough  
-----

Now, to play you must to learn how to fish. It's simple. Watch the three lessons of the tutorial or follow my intoductions:

Casting:

Casting is easy. Press the x button to cast. When you hold the x button for a long time the hook will go further. When you do

this action for a short time your hook will go closer to you. When a fish approaches to the hook the screen will change. You better use a thin line because the fish can't see it. But you must be careful with the thin line because it is easy to break.

Setting the hook:

To set the hook you must press x IMMEDIATLY at the time the fish grap the hook. If you use float fishing you must set the hook when the float sinks completetly.

Reeling in:

To reel in you must press and hold the x button. You must reel in the fish exactly the time that it calms down. When you hear a strech sound while reeling in the line is getting dangerously to break, so be careful when using a thin line.

There are the three lessons of the tutorial. You better watch it because it has examples to help you about fishing

Ok. That's the basics. Now let's start at the season mode. You can play at the free mode to practice.

Now write your name. You must have at least one free block to your memory card to play the game. To finish the game you must complete all the objectives of the fishing spots, capture all 70 types of fish and pass the 18 stage. Now i am going to write to you all the features of the aquaroom.

[The features of the around work desk]

- A) Calendar: From this you can advance to other weeks of the month.
- B) Fishing Notebook: This is your main feature. From this you can advance to the fishing spots to fish, see information and details about the fish/fihing spots and save/load the game. You can also quit the game from there and set the options.
- C) Magazine: It help you about the season of fishing
- D) Fly: In this drawer you are keeping all your flies (See types of tackles section).
- E) Lure: In this shelf you can keep your lure (see types of tackles section)

To go to the other rooms just press select and select your room you want to go.

[The features of the Tank room]

- A) Seawater tank: Keep your seawater fish in there (see fish section).
- B) Freshwater tank: Keep your fresh water fish in there (see fish section)
- C) Running water tank: Keep your running water fish in there (see fish section)

[The features of the stock corner]

- A) Rod: Keep your rods }
- B) Reel: Keep your reel } For details see type of tackle section
- C) Rig: Keep your rig }

Let's start!!!

The magazine tells that in April ocean variety and carp fishing are available.

The ocean variety is only in April and Carp is until the end of July. So select from your fishing notebook the ocean variety spot (We are at the first week of April year one)

The best point for the ocean is the third.

Go there. Fish. Take as lot as you can. If you take all the type of fish in this point try another until you catch all the type of fish in the ocean (See ocean note from the fishing notebook to find what type of fish has the point or see my note i wrote for all the poits myself at the fishing spots section. It is the same than the game. I copy it to help you. I did that with the fish section too).

I can't tell you step by step what you need to do to finish the game.

Just look at the magazine and do as it tells. Grab all the 70 type of fish and pass all the 18 stages with all their objectives.

Good luck!!!

-----  
5) Hints  
-----

- 1) When you hear a streck sound when reeling in stop. That means that the line is going to break.
- 2) To a new fishing point always read the note for it and collect all the type of new fish that the note write.
- 3) Don't continue to other weeks until you take all the type of fish in the period.
- 4) Practice a lot at the free mode.
- 5) When you use fly if you want to make it go futher you must do that: Cast the fly and when it touches the sea pull it out. Then again. You must have rythmic to make it (See the level 1 of the tutorial for better explanation.

6) Questions and answers  
-----

Ok. This is the questions and answers section. These questions are real questions. You can submit one by email me, put subject " Questions for the Reelfish2 FAQ" and put name, town and country. Your question will be 100% posted at my next update. If one of my answers is wrong or there is another answer email me, put subject " Answers for the Reelfish2 FAQ" and put name, city and town. Your answer will be 100% posted.

Q: I lost my refferance manual for the game , and have been stuck at level 12 for weeks now. Could you please advice me on the criteria for advancing to the next few stages.  
Jacques Greeff South Africa

A: Sorry but you didn't tell me what are you using or what are you trying to catch. E-mail me again please!

AgRaMaToS

7) Epilogue  
-----

Thanks for reading my FAQ. There are uncompleted setions but i promise i will finish them soon. And... forgive me if i have little (I mean very much) spelling and grammar errors. If you have any questions about the game e-mail me first.

PS: The notes i wrote before (fish and fishing spots) are taken from the game. I wrote them just to give a shortcut to you. Not to look always at the notebook.
