- Foreword..... -
This guide is designed to help gamers, Japanese or not, through the
game SaGa Frontier. Because lots of other FAQs contain information
about starting the game, etc. I don't want to include them. As a side
not, I always suggested that you don't play the game with a walkthrough
or stuff like that beside you because it is too tempting. The game
will be less fun if you use a walkthrough without trying first......IMHO.

Mirrors of the guide (hopefully):

Any corrections or enhancements please email to squaresky@mindless.com
Newest revisions should be in Azure.Fong State of Living (should see
an alert/confirm box if you can see Javascript) All of the Japanese
characters are encoded in EUC code. I recommend Unionway for
viewing/inputing Japanese/Chinese ^^ (http://www.unionway.com)

~ 1. Characters ~

- 1.1 Asellus ----------------------------------

Name: Asellus ƒAƒZƒ‹ƒX
Race: Half-Mystic
Sex: Female

Killed 12 years ago by a accident, she was revived by the King of the
mystics, Orurowaaju. She was the only half-mystic lifeform in the world. Of
course, she had been lost many times as she go on living....

Because she is at least half a mystic, she had the ability to use "Demon"
magic (—d�p) and use the Hellwing (ƒwƒ‹ƒEƒCƒ“ƒO) techs (—d-,,Ì�¬Žè, —d-,
,ÌŒ•, —d-,,Ì‹ï'«) which absorbs the enemy's ability while killing them.
My favourite character ^^

- 1.2 Coon ---

Name: Coon ƒN�[ƒ"
Race: Monster

Coon's homeland Maagumeru was on the verge of disintergrating. The leader of
Maagumeru let Coon escape for the hope of leaving the bloodline of the
tribe in the world. He gave Coon a ring with mysterious powers...And Coon
began his adventure to collect rings and save his homeland.

Being a monster Coon can absorb the ability of the enemies he fought. His
special techs are basically depended on which monster he absorbs.

- 1.3 Emiria --

Name: Emiria ƒGƒ~ƒŠƒA
Race: Human
Sex: Female

- 1.4 Lute ---

Name: Lute ƒŠƒ…�[ƒg

```
Race: Human
Sex:  Male

Lute decided to go outside for an adventure when he got bored of his
peaceful hometown Yorkland. Bearing his musical instrument, he went to
other cities, hoping to find a more exciting lifestyle......

Lute is well, basically useless ^^ He will get stronger when he get magic,
but before that it is better to depend on his ogre friend...His chapter has
a certain difficulty, but it also has more freedom so it is actually a
very nice chapter.

- 1.5 T260G ---------------------------------------

Name: T260G
Race: Machine

- 1.6 Blue ----------------------------------------

Name: Blue ƒuƒ‹�[
Race: Human
Sex:  Male

The master of the magic lycee let Blue to go outside for training purposes.
Before Blue left, the master told him that his twin brother, Rouge (what the
hell? color family?), had also gone out for training. The existence of both
Blue and Rouge makes their studies of magic incomplete and thus, if Blue
wants to become a "complete" magician, he must kill Rouge......

Blue is very strong in any magic, so it is best to set off his chapter with
the Arcana (”é�p) and Rune (ˆó�p) events, followed by Maze of Light (Œõ,Ì
-À‹{) and Maze of Darkness (ˆÅ,Ì-À‹{).

- 1.7 Red -----------------------------------------

Name: Red ƒŒƒbƒh
Race: Human
Sex:  Male

- 1.8 Other Characters ----------------------------

Below is a listing of the characters that will join you as one of your party
members.

= 2.21 Asellus ==========

I: Opening
   Items: None

Asellus' chapter begins in her room in the Pinnacle Castle. The
Master of Illusions, Orurowaaju arrives and talks to Asellus.
Where am I? Thought Asellus.

She exited the room and the one outside with the coffins. There
was a fork before her. Left path led outside and the right path
led to a room with several treasures. Asellus tried to get them,
but found them too heavy when she exited the room. There was a
tower in the NW direction. The pond inside the tower seemed to
have teleporting powers and transferred Asellus to a garden. In
the garden, a blonde-haired man stabbed Asellus. "Purple
blood......" Orurowaaju says, and exits.

Asellus didn't died from the injury. Instead, she woke up and
went to the throne room with the rose doors, a level lower than
her room (original starting place). Orurowaaju told the story of
Asellus. She was hit by Orurowaaju's carriage when she was still
a human and died. Orurowaaju then brought her to the land of the
Mystics, Fascination, and revived her by giving her his blood.
She was then transformed into a half-mystic. He ordered Asellus
to change into a Mystic's dress and Irudoun went with her.

The house in the centre of the village was the clothing store.
Asellus changed and went back to Pinnacle Castle. There was a
tower opposite of the one with teleporting ponds, where you
found one of wives of the Master of Illusion, Orurowaaju. She
was named the "Empress White Rose" (EWR below). There was also
two more towers/coffin rooms towards the lower levels. The
right one was the room of the "Golden Lion Empress", a female
warrior. The left one was the room of the "Zero Empress", an
escaped wife of Orurowaaju.

         ** note ** the visit to Zero Empress's room is necessary
                       if you want her to join you later in the
                       chapter.

Asellus went to her room alone. Both of her companions chose
not to enter her room with her. Then she went to EWR's tower
and let her join again. At the store in the village (left
of the road to the Castle), EWR talked to the owner. He then
agreed to let Asellus exchange items with LP's.

         ** note ** these items are:
                          Illusionary Demon (sword) 4LP
                           -> very, very powerful sword. will keep
                                  the equipped character the strongest
                                  for a long time.
                          Sand Container (accessory) 1LP
                           -> required to get Master of Time to join,

```
                       but you can get it later.
                    Yin Robe (armor) 2LP
                 Charisma Necklace (accessory) 1LP
```

There were many other stores in the village. To the right of
the store was the Magic Shop. The only kind of magic available
was Mystic Magic. The NWmost house was the Bar and below the
bar was the Locked House. The right path led to a lava cave.
There, someone talked to Asellus. "Asellus-sama..." and lapsed
into silence.

Asellus found Irudoun outside of the Training Arena, right of
the throne room. She fought at the Arena, exhausted, and
challenged again. Finally Irudoun told her that she was strong
enough and didn't need to train anymore. Asellus decided to
rest for a while in her room and both companions of hers left.

Alone, Asellus wandered back to the village. The female owner
of the clothing store , Gina, told Asellus about a secret
passage that led to the human world. The man at the Bar told
her that the door of the Locked House would open if she had
some kind of precious metals.

Of course Asellus had no money. EWR surely had some. She found
EWR again and opened the Locked House. Beyond the door inside
the Locked House was a series of caves through which Asellus
fled, just in time to escape from Irudoun and his army.

II: The Mermaid
Items: Ghost Cannon, Kris Knife, Lava Suit, Highest Potion x3,
        Stone of the Sealing Fields, Magic Wine, Rotten Meat,
        Jet Boot, Armor Glove, Shelf Razor, Jackal Blade,
        Rabaasouru, Pearl Heart, Leather Boot

By the time Orurowaaju knows about Asellus' escape, Asellus has
arrived Owmi. The person at the airport told her that the region
ship was currently preparing for its next take off. "There is
some unrest in the water here. Is it the spirit of the water?"
EWR wondered, looking over the bridge.

The people at the bar were talking about the Leader's water
sprite. Seeing that there was still a lot of time before the
next region ship, Asellus and EWR decided to investigate.

A mermaid was being kept inside the Leader's House. A fisherman
caught her in a lake. "I'm Asellus." "My name's Mesarthim,
Asellus-sama."

The Leader warned Asellus about the basement. She explored the
house, entering the attic and found the basement (right of main
entrance). Before entering the dark, gloomy area, she found a
storage room at the end of the passage.

         ** note ** all these "found" rooms contained treasures
                     and are strictly optional. (although I don't
                     see the point of skipping treasures)

Asellus, etc., explored the basement and discovered a huge
monster that was probably the fear of the Leader. After killing
it, Asellus proceeded to a treasure. To her surprise, the treasure

was another teleporting device and she found herself in another
area of the basement. Finally she exited the strange area and
was back in the room, with a duplicate of the huge monster.

There was a secret door at the W. Mesarthim dived into the water,
thanked Asellus and bid her farewell......

At the Pinnacle Castle, Orurowaaju discovered EWR's escape and
ordered Seato (the blonde man who stabbed Asellus) to capture
her and Asellus. At that time, Asellus had boarded the region
ship to Shuraiku, her home in the human world.

III. Knight of Fire
Items: none

The first place Asellus went to was her house. Her grandmother
did not recognise her. "No, my granddaughter died 12 years
ago!" Asellus was transported into a strange dimension and had
to fight one of Seato's copies, the Knight of Fire. The battle
awakened the Mystic blood in Asellus and she gained the Mystic
Sword just like Empress White Rose.

        ** note ** the hotel in the Street is free, if you
                        need it.

IV. Searching for Friends
Items: none

Asellus felt exhausted after the battle and decided to tour
around the human world. She went to Luminous, where she found
a man called Rouge. He asked her about "Magic" and if she was
pursuing it also. "Yes" said Asellus and he joined. At Scrap,
she found a bard named Lute. He joined as well and they went
to Yorkland, his homeland to find Thunder, an ogre friend of
his. Lute was hestitant about Thunder joining but finally
flattered.

V. The Knights
Items: Crimson Flame Gem

The human world was a series of different "regions", with
Kowloon in the centre. Asellus was amused about the prosperity
of the city. There was a Secret Passage on the upper level
of Kowloon (not the one with the shops). Once she entered the
Secret Passage, she was dragged into the strange dimension
again and had to fight the Knight of Water. After getting the
first treasure inside the canals (the manhole), Asellus
decided to exit.

At Tomb of Mo-Wong, Shuraiku, Asellus fought the third knight,
Knight of Forest. Orurowaaju was disappointed at the defeat
and ordered the Golden Lion Empress to track Asellus, etc.
down.

VI. The Ancient Tombs
Items: Spirit-Soothing Jade, Water Mirror, Cloud Clusters in
        the Sky

There was a secret room inside the Tomb of Mo-Wong. 2 monsters
were pretending to be treasures. Asellus found the lower levels

inaccessible at the moment and exited the site.

The Tomb of Chai-Wong in the opposite corner was a lot more
amusing. After exiting Chai-Wong's room, Irudoun appeared and
joined Asellus, etc.. To open the door in Chai-Wong's room,
3 sacred tools were required. With some level of difficulty,
Asellus collected the tools and placed them on the altar. The
door opened, revealing Chai-Wong's coffin. "Who dares to
disturb my eternal sleep?" he demanded. After a battle, he
admitted his defeat by joining Asellus or giving her his
sword.

         ** note ** the sword is not very strong, so I
                     suggest to get Chai-Wong instead.

VII. Golden Lion Empress
Items: none

Recalling the Magic Mazes at Luminous, Asellus returned via
the region ship. She entered a battle with the Golden Lion
Empress, finally defeated her.

Finding that only humans and Mystics could enter the mazes,
Asellus decided to come back later. Douvan was a city of
magic. There Asellus leart about the Rune and Arcana Magics
and how "ž'Ž¿" was required to learn the higher level magics,
whereas the lower level magics could be brought.

         ** note ** Rune magic is at the SW tent, Arcana
                     magic is in the centre house.

VIII. Rune Event
Items: 200 Credit x3, 400 Credit, Memory Board, Addition

        Katana, Blood Cherish, 500 Credit, Victory Rune, Freedom
        Rune

         ** note ** if a character had Rune magic, s/he could
                     not have Arcana magic. buy Arcana magics
                     for your characters who don't want Rune
                     magic.
                  Also, once you start collecting the Runes,
                     you cannot collect Tarot Cards for Arcana
                     Magic.

i. Protect Rune [Kowloon]
The man in Douvan did a divination for Asellus about the
locations of the Runes. Her first destination was the Natural
Cave, connected with Kowloon.

She entered the secret passage where she found the Crimson Flame
Gem and followed the canals, manholes, ladders and stairscases
around. Finally she found the deserted train station, which led
to the Natural Cave.

A few paths lay in front of Asellus in the cave.

         ** note ** I'm not sure about the pathes in the Cave,

so I decided to take this part out. It will
be revised shortly.

At the end of the Natural Cave was a huge spider cave. Asellus
finally obtained the Protect Rune after a battle with the spiders.

ii. Vitality Rune [Tanzaa]

Kill the boss in Tanzaa, found at the moving Shuraiku along with
Feion. There are some story about Tanzaa, but I forgot.

iii. Victory Rune [Shuraiku]
Enter the Tomb of Mo-Wong and select the bottom answer at the
door to the lower levels. Go left and down. Go down the right
stairs and enter the right cave. Go left to the room with 4
doors. Collect the treasures and go down the stairs below. Go
down, right, down, left and enter the cave to the boss' room.
Use normal attack first, and then your strongest tech/spells
to kill him and get the Victory Rune.

iv. Freedom Rune [Jail of Despair]
Talk to Annie at the restaurant at Kowloon about Jail of Despair.
Enter the door, go right and follow Annie. Enter the pipe, go
down the ladder and go right again. Go down the ladder, go right
and exit the circular room. Go down and up the ladder to enter
another pipe. Go down until you exit the storage room. Go right
and through the right door. Go right, down and enter the manhole
at the LL corner. Go up the left ladder in the canal to exit
the large circular room.

Continue to walk until you enter the room with the infrared
sensors. If you touch the sensor, you'll fight some machines.
Go through the infrared sensor and exit through the UL ladder.
Go UL and you'll fight the boss. After the boss is killed, the
door will open and in the centre of the circular room, you
receive the Freedom Rune and Rune Magic for your party members.

IX. Arcana Event
Items: Lord Star, Stone of the Sealing Fields, Golden Fleece,
        Kris Knife, Autobus Board, 1000 Credit, Shield Card,
        Gold Card, Cup Card, Double Dragon Katana, Iron Shoe,
        Sword Card

i. Shield Card [IRPO]
Go to IRPO and talk to Hughes. He has the Shield Card but in
exchange, you have to help him to pick flowers from
Mosperniburg. Go up the mountain and enter the cave on the
right to fight the dragon. Exit the cave and continue up the
mountain. Enter the cave, exit the cave and follow the path
up the mountain. Pick the flowers and you will fight the boss
(Red Bird). Upon defeating him, you'll be back in IRPO and
Hughes will reward you with the Shield Card.

ii. Gold Card [Baccarat]
In Baccarat, go to the Casino Floor. Talk Baniigaa and the
sprite Norm will appear. Chase him to the parking lot and
go down the manhole there. Emiria will stop you. Enter the
manhole, go down the ladder, go right, go down and LL to
enter the second floor. Walk on the left to the third floor.
Enter the cave at the short ladder (Norm's treasure room?)

and talk to Norm about the Gold Card. He asks you for some
gold in exchange of the card. So, go buy 4 pieces of gold
and come back for the Gold Card.

iii. Cup Card [Yorkland]
Collect info about the Cup Card in the village. They tell
you about the God of Wine in the swamp area. So, enter the
swamp (opposite side of the village). The enemies will give
you status problems in 1 turn, so.....

Enter the centre of the swamp touch the altar and get the
Cup Card.

iv. Sword Card [Wakatsu]
At Kowloon, talk to the skeleton about the Sword Master. Then
go to Scrap to get Gen to join. With Gen, you can now enter
Wakatsu.

In the second screen, go up the right stairs and up again.
In the third screen Seato will appear. Fight him. Enter
the main door and go right. Go up and right through the
broken roof and go right and up the right stairs. Go down,
left, left stairs, down and left for the Double Dragon
Katana.

Exit the hill and enter the city (left). Go down, left
to enter the room. Go right and clockwise to exit the
room with the corpses. Go up the stairs.

At the room, the Sword Saint will teach Gen how to get
the Sword Card. Upon obtaining the card, the party (
who don't have Rune Magic) will earn Arcana Magic.

Exit the room and the hill. Go right, up and left.
Continue until you see the Sword God. Enter his room and
he will give Gen the Meteorite Katana.

X. Maze of Darkness
Items: Beauty under the Moon, Spirit Silver Armor, Power
       Belt, Spirit Silver Earring, Buryuunak

When Asellus arrived at Douvan once again, the Master
of Illusions appeared and transported her to the Maze
of Darkness. EWR met with Orurowaaju and the maze was
destroyed. Zozuma appeared and joined Asellus' party.
When Asellus exited, she was transported back to the
temple at Douvan. "Empress White Rose! ....." But she
hadn't come back.

        ** note ** this might be a good time to get the Master
                   of time and Kirin to join the party. (see
                   Section 11)

XI. Master of Sword's room in Wakatsu
Items: Meteriorite Katana

        ** note ** each new sentence marks the shift of one screen
                   to another. Pardon me for not haveing words
                   other than "go" ^-^

Go left upon entering Wakatsu. Go up and right. Go up the
right stairs and up. Continue right. Go right, up,
right. Go up the right stairs. Go up. Go left. Jump over
the crack(or go into the crack? don't remember...) and go
left and down.

Go down. Go down and enter the building. Go down the right
stairs and go left. Asellus has entered the Master of
Sword's room.

"You are the swordsman?" The Master of Sword talked to Gen.
He then presented the Meteriorite Katana to him.

Go up the stairs after exiting the room and continue up.
Go left and down. Continue down. Go down, left, down. Go
down and right. Go right and down to exit Wakatsu.

XII. Life Science Lab
Items: Dragon Scale Shield

The Life Science Lab at Shuraiku was shrouded in mysteries.
The scientists inside busied themselves and ignored the
entering party. When Asellus approached one of them, they
turned into monsters and attacked her.

         ** note ** It is better to not fight these scientists to
                    conserve JP and WP's for the upcoming battle.

Using the stairs, Asellus quickly came upon a floor, but
no exit or stairs can be seen. The exit is in one of the
rooms, behind a shelf.

At the top floor, a group of scientists and IRPO invest-
igators were performing tests on a monster. The monster
was Cotton. It joined Asellus after the defeat of the
IRPO investigators.

Some other business must be going on in this labortory.
Asellus went down the stairs to the basement covered with
tropical plants.

There were various scientists in the "houses" and Asel-
lus could freely enter any of them except for the one in
the upper-left corner.

A strange device was found in the "house" in the upper-
right corner. Asellus managed to activate it without
fighting the scientists by carefully manuevering through
the "house". (it's OK if you fight them)

The device unlocks the door. Asellus talked to the woman
in the upper-left "house". A dragon, riding an iron ball,
appeared and attacked Asellus. The ultimate shield Dragon
Scale Shield was obtained after its defeat.

XIII. Shinrou
Items: Rotten Meat, Cheap Item, 200 Credit x2, 300 Credit,
       500 Credit, Additional Memory Board, Jump Suit,
       Strengthened Armor, Duel Gun, Electricity
       Shooter, Twin Sword, 250 Credit, Spirit's Stone,

Sprite Silver Armor, Sprite Silver Earring, Stone
                of the Sealing Fields, Excel Guard

The Ancient Ship was in the upper-left corner of Shinrou.
Twelve treasures were inside this Ancient Ship.

After exiting the Ancient Ship and entering the Arena,
the party arrived at the Castle. There were nothing much
inside it so Asellus exited again.

The final unexplored area in Shinrou was the Ruins in the
upper-right corner. Asellus came across a room with a
seal on the door. When she approached it, a few Yellow
Fighter appeared.

The Boss Gaia Toad (ƒ{ƒX�EƒKƒCƒAƒg�[ƒh) was waiting in
the room accessed by entering the upper left hole in
the entrance. There was another door with a seal under
the Boss Gaia Toad's room. Go down the stairs and go
upper-right to access the path under the walls.

There were other ememies and treasures inside the
Shinrou Ruins. Go upper-left, upper-right and down-
right the stone path to fight Boss Viking (ƒ{ƒX�E
ƒ"ƒ@ƒ‹ƒLƒŠ�[). After this was mostly exploring and
finding treasures.

XIV. The Final Confrontation
Items: Golden Lion Empress's Sword, Hades's Armor

Finally it's time for the matter between Orurowaaju
and Asellus to end. She must return to Fanscination. The
road to Fanscination lay open at Owmi, where the ship
only travels to the cave outside of Fanscination.

Once more Asellus went through the Caves and the
Village. She remembered the treasures outside of her
room. After collecting them, she climbed up the tower,
where Irodoun did not allow to her to go in the
beginning.

Jiina was captured by a monster in the circular room
beyond the left cave. She returned to her room when
Asellus saved her.

          ** note ** Whether Asellus rescued Jiina or not
                         affects the ending. (See section 11)

Beyond the right cave was the first branch in the road.
A giant was waiting for Asellus in the right path. The
door behind him opened upon his defeat. At the end of
the rooms and paths was the Fanscinationian teleporting
device.

The rose pedals encircled Asellus. She entered the left
tower of the Pinnacle Castle. The previous Fanscination-
ian bosses were revived and waiting inside the tower.

First Asellus encountered Seato, the "Shawdow Knight".
Next in line was Golden Lion Empress, who gave Asellus

her sword when she was defeated.

Upstairs Orurowaaju clarified Asellus of the relations
between them. A battle between them took place in
Orurowaaju's room, beyond the room illuminated with
purple light and the stairs......

                  - end of Asellus's Chapter -

~ 3. Techs ~

Most techs are learnt as your character progresses. There are certain techs
that are learnt by repeatedly using a tech e.g. ˆî�È"Ë,« is learnt by
repeatedly using �"Žè"Ë,«. I don't know all the ways to learn techs so......

Also I will try to translate the names of the techs (if I can ^^)

~ 4. Magic ~

- 4.1 Learning Magic -

Magic in SaGa Frontier is divided into 12 groups, each have to be
bought or, for the higher level magic, earned by an event/maze/etc.
(e.g. Maze of Light, Arcana/Rune Event) Also, there are certain
magic that have opposing "elementals", which means that if you have
one, you can't have the other. The opposing pairs are:

                                 Yin/Yang
                                 Time/Space
                                 Magic/Mystic
                                 Arcana/Rune
                                 Heart/Demon

They must be equipped to a character if they are to be used in battle,
unless the character had already equipped bakkupakku (backpack), in
which s/he will be able to use all the items in the inventory.

~ 10. Tips and Tricks ~

- 10.1 all the money you'll ever want...sort of ----

First you have to have 12500 credits. Then go to Nelson ()
and buy 25 pieces of gold from the sailor on the right of the bar.
Then go back to Kowloon () and sell gold. The gold price
should be about 800 credit (if never sold gold before) Now press
down on the control pad. The gold price should drop and the number
of gold you have also drops. Drop it until the price equals 520
credit and sell it. Now you'll have 13 pieces of gold and 9000
credit. Go back to Nelson and buy gold with your remaining 9000
credit. Now you should have 31 pieces of gold. Then go back to Kowloon
```

and sell gold in the same manner......Repeat until you have enough
money or when you have 99 gold...(max.) Sell your gold and you can
begin again ^^

- 10.2 Blue's secret magic --------------------------

In time magic there is a spell called Oovadoraivu ()
in which the caster can attack 8 times in a turn without spending
any JPs, but the number of JPs will automatically drop to 0 after
the turn. But if Blue uses this "Overdrive" spell and choose 7
attacks, the 8th being the Stop Rune (), Blue will only lose 10
JPs after the turn and will stay in the "attack 8 times" condition
after the effects of Stop Rune disappear. Any boss can be killed
easily this way......^^

~ 11. Secrets ~

- 11.1 Asellus' 3 endings. ----------------------------

Asellus had 3 endings to her chapter: the one in which she went to a
grave; the one that tell a story and the one in which Asellus become a
true mystic. Which ending she get depends on the number of turning into
a mystic in battle and whether or not she rescued Gina in the final
maze.

IF: saved Gina and few times turning into a mystic   - ending 1
    didn't save Gina and turned into a mystic many times - ending 3
    saved Gina and turned into a mystic many times /or/
    didn't save Gina and few times turning into a mystic - ending 2

- 11.2 Emiria's 2 endings ----------------------------

Emiria also had multiple endings. Ending 1 is the one that takes photos
of her and comrades, ending 2 is the one in which she get married to Ren.
The event that determines her ending is whether she defeated the big
monster when pursuing Joker.

IF: defeated big monster   - ending 1
    didn't defeat big monster   - ending 2

- 11.3 Bonus Chapter -------------------------------

There is a 8th chapter in the game. It is called the "Development II", with
all sub-characters played by the development team of Saga Frontier (hehe).
In this mode you can choose to fight bosses again with any character, test
BGM, looking at screenshot/illustrations, etc.. You can even fight the
Master of Illusions with Blue ^^

To get to this mode, you must finish the game with 7 separate characters
at different times, with one system file. This means if you are playing
Asellus' (have to mention her) chapter, and your friend begins Coon's
chapter before you finish Asellus' chapter with your system file, you are
not going to get this "Development II" when you finish the game ^^; Better
watch out for people who steals your PS and games to play ^^

- 11.4 Secret Characters ----------------------------

== 11.41 The "Zero Empress" =====

To get the "Zero Empress", ―ë•P, you have to be in Asellus' Chapter.

Before you leave the Pinnacle Castle (�j,Ì�é) through the secret passage,
go to the room at the lower left corner of the castle and the White Rose
Queen ("'åKåN) will say something about the "Zero Empress". This way, when
the story advances to the time White Rose Queen leaves the party, you can
go to the temple at Douvan (ƒhƒDƒ"ƒ@ƒ") and talk to the girl. The girl will
then reveals her true identity, the Zero Empress. She is the only character
in the game that knows the magic of Illusion (Œ¶�p).

== 11.42 Master of Time =======

The Master of Time (Žž,ÌŒN) is very (I mean _very_!) strong at the magic
of time. To get him, one character in the party (main character is the
best) must have Yin or Yang, Magic or Demon and Arcana or Rune. Then go to
Mosperniburg (ƒ€ƒXƒyƒ‹ƒjƒuƒ‹) to find the Master of Ring (Žw—Ö,ÌŒN). If
you don't have Sand Timer (�»,ÌŠí), you will have to go to Fascination
(ƒtƒ@ƒVƒiƒgƒD�[ƒ‹). He will either transport you there or you'll have to
go yourself ^^ Anyway, when you arrive at Fascination, go to the weapon
store and exchange 1 LP for the Sand Timer and go find the Master of Ring
again. He will transport you to the dimension of the time monsters. Pour
the Sand Timer into the big Sand Timer and you can enter to find the
Master of Time inside. If you don't make him join the first time, he'll
never join your party. You can only learn magic of time from him. Also,
if the main character is Blue he won't join you. (Blue is too strong in
magic?!)

== 11.43 Kirin ================

Kirin (êi—Ù) is very _very_ strong at the magic of space. You'll have to
get 1 character to have Yin or Yang, Magic or Demon and Arcana or Rune
magic before you can get him. Go to Douvan (ƒhƒDƒ"ƒ@ƒ") to talk to the
Zero Empress (—ë•P) and ask her about magic of space. She will transport you
to Kirin's dimension. After you go through the maze again and find him,
you can make him join. If you don't make him join the first time, he'll
never join your party. You can only learn magic of space from him. Also,
if the main character is Blue he won't join you. (Blue is too strong in
magic?!)

== 11.44 pzkwV =================

The first thing you need in order to get this character is that you are in
T260G's chapter. After Leonardo become one of your party members,
you can go to the secret underground weapon shop in Kowloon and
choose whether or not you want pzkwV in your party.

== 11.45 Žé�� ==================

Žé�� (Red Bird?) is yet another hidden character. To get him, you have to
trigger the Arcana event and go to IRPO to be confided by Hughs.
Then you go to Mosperniburg (ƒ€ƒXƒyƒ‹ƒjƒuƒ‹) to get flowers
and fight the female demon. After the fight go to the snow field in the
center of the mountain. You'll find 3 boars there. If you suceeds, a snowman
will appear in the south of the screen. Go fight him, and Žé�� will join
you after you won. If there is no snowman, go back to the previous screen,
fight the female demon again and come back. Keep trying until you get it...

- 11.5 –,�e Monster Weapon & Gurirandorii -------

You can get Monster Weapon (–,�e) and Gurirandorii (¥°¥ê¥é¥ó¥É¥ê�[) in
your equipment. Just leave a space in each character's weapon equipment and
when these two monsters use a tech that is all kanji (can't type it...) the

character hit will find this monster in his weapon equipment space. -,�e's
attack power is 42 and although it looks like that it only had 4 bullets,
it had infinite ammunition. Gurirandorii's attack power is also 42 and can
use a tech "Final Strike". The sword will explode after you use this
tech......Also this sword can't be deequiped once it gets on your character.
(blow it up...)

- 11.6 DSC -------------------------------------

This is a body tech that cannot be learnt the normal way. This tech
becomes available once a character has these 4 techs: Sliding,
suplex , Baberukuranperu and Jaiantosuibugu . Equip these 4
techs to the character and you'll find a new tech called DSC (18WP).
This is a tech that uses all 4 of the above techs in a row. If one
of it fails, the rest won't be used.

And looking forward to revisions....hope you are too.

No game shark codes...I personally don't like game sharks/game genies,
and don't even own one! The fun of a RPG to me is in the exploring,
not in the finishing of the game......It's true that some codes are
neat, but......
