INTRODUCTION

VERSIONS AND UPDATES

VERSION 1.0:

Wrote the FAQ, submitted it to gamefaqs, this is my second FAQ written. File size is about 20kb, and damn it, this took me about 3 weeks to write. Im a slow typer.

VERSION 1.1:

Second version, added cheats, and I think that is all, yep, thats all. Released about 3 days after the last version.

VERSION 1.2:

Just fixed afew grammar mistakes here and there, not many though. The document has heaps of spelling mistakes around, I will fix them sometime, if ever.

VERSION 1.3:

Changed E-mail, it is now Wayalla1(at)yahoo.com.au, all questions, compliments, contributions and hate mail can all go there.

VERSION 1.4:

Re-formatting and allowed www.gamers-realm.com to host, they are just starting up, so I'm not sure if it would ever get posted.

VERSION 1.5:

Made the table of contents better, to make it look more appealing.
Sorted the section according to it, and added a few things. trying to get this to a full dot, because it looks bad on my Contributor page.

VERSION 2.0:

Added in the Cards section and the injuries section to the guide. Still no contributions to the guide, oh well. Added a lot more tips, more to the Tournaments and some stuff at the bottom.

INTRODUCTION

I think This is Football is the best soccer game around on Playstation. It's better than FIFA 2002 or 98, those are very bad games, nothing compared to..... This is Football, YEAH. You can do all the things that real soccer people can do, like headers, volleys, On the run forward passes, Overhead (bicycle) kicks, Air foot passes and LOTS more.

Trust me it's a great game. If you don't have it yet, check out my review at the bottom of the page. it aint big, only 2kb in fact. i had to keep it low, because it would class as a filler.

BASIC GUIDE THINGS

READ THIS FIRST

During this FAQ, I am assuming you are playing a 1-player match against the playstation, so the opposition means 'The Playstation team'

You will notice in this walkthrough I might call it this is Soccer, because I live in Australia and that's what we call it, so I don't want any one E-mailing me saying it's wrong or anything like that. I will try to call it This is Football. Anyway, on with the game.

Thankyou

This FAQ/Walkthrough is copyright Aaron Baker aka. Wayalla, 2003. It may be used for Personal and private use only, and can't be put in a magazine, put on a site that you need to pay money to acces this FAQ or just generally sold. This guide is sole property of Aaron Baker. Only authorized websites can have this FAQ, but must not alter the copyright notice at all, that is against the law. I will not take any responsibilty if this guide destroys your computer, ruins your social life or anything else. this guide is availabe free of cost from sites,

and I am taking time out of my busy life to write this, so be thankful that I am helping you. Do not rip off this guide in Part or Whole, that is illegal and the appropriate steps will be taken if nessecary. I didn't wirte this guide so that someone could just come and rip it off.

This Document Copyright Wayalla, (C) 2003

CURRENT SITES TO HOST:

www.gamefaqs.com

www.gamers-realm.com

This is my second FAQ for Gmaefaq, my first one was on Tenchu 2:Birth of the stealth assassins. I hope to do many more FAQs, anyway on with the legal things.

This FAQ is copyrighted.

No one can use my FAQ on their site UNLESS they consult me first and get a message back saying that they can.

This FAQ can't be used on your website without my permission and can't be copied or reproduced in ANY way (By the website)

If you want to print it out, yeah that's fine, but you can't sell it.

WEBSITES

If you are going to e-mail me about it, put these things in it:

- Your website address
- Why you want my FAQ

I must have written back to you so you can get permission to use it. If I find anybody using this without my permission, you will be fined, it's under copyright law.

Also this can't be altered a bit so it makes it look like your own.

You have been warned about it all.

CONTACTING

When E-mailing me, you can E-mail me about these things:

- If you have any ways that you score goals
- Any other Special controls that I have missed
- A mistake in the FAQ
- Tips on Corners/Goal kicks/Free kicks
- WHAT ARE THE CONTROLS FOR PENALTIES

The last one has got me really bothered.

When E-Mailing me, please remember to put this is soccer/football in the subject so I know it's not spam, Thankyou.

Also, any questions you have about the game, I will try and answer. it was awhile ago since I last played this game, but oh well.

CONTROLS

BASIC CONTROLS

The controls:

WITH THE BALL

X: pass the ball to a teammate.

O: Do a big kick in the direction you are going.

Square: Shoot the ball, hold down to set the power.

Triangle: Use this button to knock the ball in front of you and get a little speed burst, if someone tackles you when you don't have the ball, it's a free kick.

R1: Special

L1: Foot over ball

L2: Move the ball to your left

R2: Move the ball to your right

WITHOUT THE BALL

X: A normal, quick tackle with your feet, this doesn't hurt them

Square: A sliding tackle, also used to knock over the opposition, it inflicts some injury, but if you get the opposition if they haven't got the ball, at worst it could be a RED card.

O: A sliding pass tackle/Hook tackle. It tackles and does kind of a pass while tackling

Triangle: Press repeatively for a speed burst.

L1: Retain Player Orientation

R1: Special

L2: Hold down to make your keeper come out

R2: Change your player

When the ball is in the air and is about to reach you:

X + D-Pad, header the ball in the desired direction

Square + D-Pad, Header shot or little header or Bicycle

SPECIAL SHOTS/CONTROLS

If you have the ball

R1 + X: An on the run pass, it passes forward to your team mate so they have to run forward to it

R1 + L1 + L2 + R2: Do a fake dive, here are the different equations as what can happen when you do it:

You Receive Free kick: 20%

opposition receive Yellow card: 10%

Play on: 30%

You receive Yellow card: 40%

If you don't have the ball:

R1 + X: Jumping Tackle

R1 + Square: Deliberate foul, this usually results in a RED card if you do it.

GAME AND MATCH OPTIONS

MATCH OPTIONS

Time level:

Changes the length of how long the game goes for. 4 is very short, 6 is short, 10 is normal and 20 is very long. I have my time limit on 6 or 8. 4 is too short.

Difficulty level:

Changes the hardness of the game, Amateur makes it easy, Pro is Medium level, and World Class is the hardest level.

Fouls: On or off. Determine whether you can foul the other team and get away with it. Only works on Exhibition and Quick Game.

Offside: Determines if you can be offside and get penalised or not, only works on Exhibition or Quick game.

Ref: Reasonable, strict or blind. On Strict: If you do a foul while using X, you will get a yellow card, where on Reasonable it will be a Free kick, but on Blind: It will be play on.

Draw Ruling: Tie, Extra time, and golden goal. Determines what happens if the game is a draw at full time. Extra time will pay an Extra 30 minutes, Golden Goal is first to score in Extra time wins, tie is OF COURSE a draw. In the first part of a tournament, it will automatically be a draw and both will get 2 points each.

Time of Day: What time of day to play, Day, Evening or Night, I don't think I need to explain this!

Weather: What the weather is like, Sunny and bright, Overcast and Gloomy or Rainy and Soggy. The best is Sunny.

GAME OPTIONS

Clock: Determine weather you can see the clock displayed on the screen at all times.

Score: If the score is displayed on screen or not

Player names: Turns the player names off. If on, the name of the guy who has the ball and the defender is located down the bottom of screen.

Commentary: Turn play by play commentary on or off.

Commentary volume: Set how loud you want the commentary to be, full is loud and little is soft. Use square to make it softer and X to make it louder. You can also change this in game.

S.F.X volume: Sound effects is sounds such as the ref's whistle, the ball and things like that, here you can set how loud it is. It also includes crowd.

Music volume: How loud do you want the music to be. Use Square to soften it and X to make it louder.

Auto Replay: If on yes, it will automatically do a replay if you score a goal, I just leave it on.

Statistics: ???

Camera: Choose the camera location, the 2 locations are side and overhead. Side is default and I leave it on that

Camera Position: Make the camera zoom in close or Zoom out Far, it's your choice. This and the camera option can be changed in game.

Wide Screen T.V: ???

Vibration: Choose weather your controller vibrates when you are hacked down or tackled or if you tackle someone else.

Radar: Press X and you will come up with a lot of options, you can

choose weather how it shows far away players, what position it's at and many other things.

Centre screen: Explains it's self.

Save settings: Save all your choices to your memory card.

Load Settings: Load all your choices from your memory card.

OTHER OPTIONS

Stadium: Pick a stadium to play at, it can be from Training to France. As you win tournaments on Pro setting, you will unlock the 2 hidden stadiums, Cove and Parklands.

Load Game: Load a previously save game on your memory card.

Load Replay: Loads a replay from your memory card and plays it.

""""""I never save replays, they take up about 4 spaces""""""

Note: Some options can't be used on tournaments.

GAME MODES

QUICK MATCH

Player are put into a match with random selected teams. You can choose who you play, but is put here for a very quick start if you don't want all the trouble of selecting teams and all of the options.

TOURNAMENTS

Here are all the tournaments in this is soccer/football and the team I use when playing the tournament:

World Cup: Play as a team to win the World cup Trophy, Finish it on Pro to unlock another stadium and Finish it on World Class to Unlock another special Tournament. I use either Brazil, Argentina or England to play as.

Euro Cup: You can only choose a European side to play with in this, because it's the EURO cup (Euro = Europe for all dumb people). I play as England Usually.

Asia/Oceania: Only Asian and Oceaninan teams can play in this, that's Australia, New Zealand, Japan, Korea and 4 other teams. I played as Japan and defeated each team successfully.

American: Not many good teams in this, U.S.A and Mexico are the best 2 teams, so choose 1 of them, this tournament is easy to win.

South American: Good teams in this, Brazil, Argentina and Paraguay are pretty good, so use them. This one will be a bit harder to win if you're not Brazil if you're not Argentina or Brazil.

Tournatments are played in groups of 4, where each team plays each other once. Just like this:

TEAM	PLAYED	WON	DRAW	LOST	FOR	AGAINST	POINTS
Australia	3	2	1	0	6	3	10
Brazil	3	2	0	1	4	2	8
Cameroon	3	1	0	2	3	4	4
Nicaragua	3	0	1	2	2	6	2

* I know there is no way that Brazil would lose to Australia, but the teams I chose were Random.

* None of the For or Against figures are really right.

PLAYED

How many matches the team has played

WON

How many times the team has won

DRAW

How many times the team has drawn

LOST

How many times the team has lost

FOR

How many goals the team has scored

AGAINST

How many goals the team has conceded

POINTS

4 = Win

2 = Drawn

0 = Loss

LEAGUES

English: I use Liverpool or Manchester. Liverpool has Owen and Manchester has Beckam and Cole.

I haven't played any other league,

PLAYING TIPS

PLAYING TIPS

- When heading the ball in your attacking half (Normal X header), heading it towards your goal isn't always the best solution, as sometimes you might not have any of your men there.
- Use Square to do a bicycle when the ball is up in the air near the goals, this doesn't usually score, but fun to look at the guy that looks like he is tripping over.
- When near goals, but not close enough to score, use R1 + X to do a through pass (on the run foward pass). The guy could be open for a goal or the keeper will get down to it.
- When the ball is in your defending half near goals, don't use the R1 + X pass out to clear the ball out, because it will usually be intercepted
- If trying to cross the ball into the goal square and not to the keeper, get on the side and then use O + _| (up and left if your goal is to the right of screen. This will cross it just inside the box.
- Usually guys along the wing are open, pass it to them and maybe they could get a cross in and.....
- If your team mate shoots, and the keeper hits it back out and falls into the back of the net, just shoot if you get the ball again, just press square, don't worry about power or moving closer, just shoot.
- The Knock Ahead can be useful if you are near goal, and there are denfders. Wait to they are about to tackle you, and then press triangle and if they still tackle you, then you will likely get a free kick, and who knows what that can lead to.
- Getting the ball from the poosition in the start is the key thing. So, never let the opposition get up forward in the game. Always try to get them near the halfway line.
- Don't waste your defenders. So, don't always bring people forward, save them so that they are back instead of always brining them up forward to tackle everyone.

- If you want to sprint, then you have to quickly tap down the triangle button. So, rapidly tap triangle when you need to. There is no use rapidly pressing it and hurting your fingers when you really don't need to.

=====

GOAL SCORING TECHNIQUES

Here are my best ways to score a goal:

- When near the goal, use the directional buttons rapidly to swerve around the opponent, he will slide and take time to get up, Leaving you for an easy shot if he is the only defender.

Amateur:

Goal: 70%

Intercepted: 10%

Another defender gets back quickly: 20%

Pro:

Goal: 50%

Intercepted: 30%

Another defender gets back quickly: 20%

World Class:

Goal: 45%

Intercepted: 30%

Another defender gets back quickly: 25%

-When the goalkeeper is about to throw the ball out, press R1 + X and into the keeper.

- When shooting, just before you kick the ball, press the way you want the ball to go, e.g: If you have the normal camera, use up to aim in the top corner.

- When between the halfway line and the forward box, pretend to go backwards, then use a on the run forward pass. If successful, you can get an easy goal, but sometimes different things happen:

Amateur:

Goal: 50%

Intercepted: 30%

Offside: 10%

Pro:

Goal: 25%

Intercepted: 60%

Offside: 15%

World Class

Goal: 10%

Intercepted: 75%

Offside: 15%

- (This one is usually done on 2 player on the same team) If you start with the ball, get the 2nd player to go back, then get them to use

Square to shoot it up, it wont get to the goals if you go back. The ball will go to a defender that is controlling it on his leg. About 2 microseconds after his done that and has it on the ground, tackle him. If he is the last line of defence, you will have a good shot a goal. If you do it at the wrong time, it's a yellow card.

Amateur

Goal: 60%

Another defender back: 20%

Don't control it like that: 20%

Pro:

Goal: 60%

Another defender back: 15%

Don't control it like that: 25%

World Class:

Goal: 40%

Another Defender back: 40%

Don't control it like that: 20%

These are my best ways, all percentages are what I got so there probably not really correct. If you know a new way, please E-mail it to me at Wayallal@yahoo.com.au

It really depends on what team you use to get these ratings. So don't go e-mailing to me that you got different because I don't care.

SET PLAYS

FREE KICKS

A free kick happens when you are hacked down and you don't have possession of the ball, be carefull when tackling computer players because they trick you.

Controls:

Square: Shoot the ball if it's close to goal, or it will do a quick, low lob if you are past halfway to the oppositions shooting way.

O: Lob the ball up field, if your close to your goal, don't use it. Best used if you get a free kick in your defending goal.

X: Pass the ball to a closeby teammate. Aim to where he is and press X. Mostly used if near goal and the wall is set, everyone will be at the wall, except some opposition and your team.

Use a free kick wisely, if close, use square full power to shoot, aim in a corner. You must be at least a bit from the box to shoot, otherwise it will go over the top and you have missed your chance.

CORNER

A corner happens when the opposition kicks it out on there defending face of goal. To take a corner, use these controls:

O: Use to lob the ball in the desired aimed direction. Hold down to set power level.

X: Pass the ball to a close team mate. O is better.

if you hold it down too long, you have ruined your chance of a goal. In the middle of the power bar is good.

On the recieving end of a corner:

Square: Bicycle (Overhead kick) towards th goal

X: header the ball out

You can never just get control of the ball when the corner is in, someone at least head buts it.

Never aim the corner near the keeper, he will get it and you can't score a goal.....
.....Unless.....

Here is how:

Nah I wont give away that BIG secret. It is somewhere in this FAQ, look around.

Clue: H.T.S.G (how to score goals)

PENALTIES

Help! I don't now the penalty controls, there to hard. If someone would like to help me, please e-mail me with the controls my e-mail: Wayallal(at)yahoo.com.au

BUNCH OF STUFF

INSTANT REPLAY

A replay happens when you score a goal OR the opposition scores a goal OR you can just view the last 10 seconds of play by pressing start and going to Replay, here are the controls:

X: Play the Replay in mormal speed

O: Fast Foward the replay

Square: Fast rewind the motion

Triangle: Pause Replay

R2: Rotate Camera Right

L2: Rotate Camera Left

L1: Zoom camera in

R1: Zoom Camera out

Select: Change Camera

Start: Menu (Continue Game, Replay or Save Replay)

If you save a replay, it takes up 4 blocks on your memory card, is it worth keeping it on your memeory card. Who would think 11 seconds of play takes up 4 blocks, thats about 1 block for every 3 seconds. It must be a really gooooooood goal if you want to keep it on your memory card.

MY FAVOURITE TEAMS

Brazil: Great team, I always use them in World cups or Exhibition matches, I never lose, Except for once against Argentina, I still think they cheated, I couldn't of got a yellow card when I tackled him and he had the ball, tey jipped me fully! They ended up getting a penalty and winning 1-0 (This was on Pro)

Argentina: To me, they are a side that cheats, especially against Brazil. But they have a good Foot over ball technique where you can't use Square to tackle them or you will get a yellow card.

Germany: If started playing with them alot recently, probably due to them coming second in the world cup. They mostly use that goal technique with pressing all the buttons to get around the opponent. My brother says is called a 'Blitz Kirg'

England: Great team all around they have alot of great players, my favourite is Owen, he always scores a goal in all of my matches.

Japan: Good at everything, great at passing, shooting running and there keeper is reall good too.

IN GAME MENU

Press start to bring up the menu

Menu Options:

Formation: Change your formation and strategy. If you find a team is good at attacking, you might want to change your way to Defend.

Substiustion: Swap a player for another player on the bench. The player that was on the bench will then go on the field and vice versa. You usually substitute people if they are tired, injured or have a card.

Replay: View the last 10 seconds of play, you might want to view something good that happened a second ago or something.

Camera: Change the camera and it's zoom position. Default is Side Normal. If you change the setting and don't save it, it will stay as Default next time you turn off the Playstation and turn it back on again.

Controlllers: Choose what colour is on what team. Left is Player 1, Right is Player 2 and in the middle is Computer controlled. Simple.

Abandon Match: Quit match. In tournaments, if you abort, the other team will automatically win by a random amount.

PLAYER EDIT

In this is football, you can change your player names and team names. Go to edit teams and choose a country league team, like Newcastle. Now, you can change your player names and edit player skills, hair and all that sort of things. I don't usually make up a team, because I already have my favourites.

TROPHY CABINET

Each time you win a tournament or league, you get a trophy, it will be placed here. It automatically saves your trophy cabinet to your memory card. So once you finish World cup, you win a trophy. And if you want to play a South American cup, you can overite the data of the world cup instead of having 2 different blocks for 2 different tournaments.

You have to save the trophy cabinet for your trophys to count. So, when you save the trophy cabinet, you can then delete all of your tournament blocks (but not the trophy cabinet) because all of your hard work will show on your trophy cabinet.

THIS IS FOOTBALL 2

=====

This is football 2 is out now for playstation. I haven't got it but I want to get it. It shoul have more complex and stunning moves for defence and Offence.

Overall, I think This is Football is the one of the best soccer games on playstation.

Updtae note:

This is Football

This is Football 2

This is Football 2002 ~ ps2

this is Football 2003 ~ ps2

CHEATS

Small heads:

At main menu press R2, DOWN, L2, L1, O

70s mode:

At main menu press L1, R2, L2, O, R1

REVIEW

THIS IS FOOTBALL

=====
This is Football is a Football game (Soccer). You play in competitions to win cups and trophies and try to build your trophy cabinet as high as possible.

Gameplay 9/10

The controls are easy and include all the things you can do in real soccer, such as pass the ball, lob, shoot, slide tackle, conservative tackle, hook tackle, foot smuther, headers, volleys and lots more special moves. The only bad thing about the controls is that most commands take longer than usual to do after the button has been pressed, this is critical if you need to clear the ball straight away. It has got

a superb shoot style though.

Graphics and sound 9/10

Graphics are normal, nothing to rave about. But there isn't really much to see about the graphics, all you see is the grass and the crowd, so I had to score it on that. Players look very real, they have gone in detail with there faces and beards and shirts. Sound Effects are what you would expect from a real soccer game, the ball hitting the bar, the foot hitting the ball and alot of other things.

Features 10/10

In This Is Football, there is over 10 leagues and 10 tournaments, including all the spectacular cups such as the World Cup and the Euro cup and all the continents' cups. The leauges has the English League, German league, Spanish, Portugese and alot more. Also the whole game is two player either against. It is also 2 player, either against each other or both on the same team, you can also use the multipad to connect more controllers to let some more friends join in and play. Another great feature is that you can make and create your own team and customise their name, position, number, hair colour, shirt colour and lots lots more. The game also handles a Analog control if you want to play with it.

Playable 10/10

I have never got bored of this game and still play it often, it's fun and addictive if you love soccer, so enjoy. Once you get into the game, you will enjoy it alot and want to play it 24/7. I still play ot often and don't get bored of it. Iove this game!

Overall 10/10

Due to all the features, I will give it a 10/10
A must buy for anyone that likes soccer games.
Trust me, it is great.

GETTING CARDS

YELLOW CARD

You shouldn't want to get a yellow card, but here is what to do if you do want one.

* Tackle someone without the ball, mainly if they have just passed it off to someone. Then slide in and tackle the person who just passed it off. When you tackle the opponent, then press square, because that is the worst out of the tackles that can be done. You are certain to get a yellow card if the ref difficulty is on reasonable.

RED CARD

* Do a deliberate foul. The deliberate foul must of been put in the game for fun reasons, because there really isn't any other point to it apart from committing something bad. But anyway, go up to the opponent who has the ball, and press R1 + Square. The referee will come over and book you straight away.

INJURIES

INTRODUCTION

This section will describe what is an injury, how to get an injury and all those sort of things to do with an injury. I think we all know what Injury means. In case you don't, it means when you get hurt badly.

This can include stuff like breaking off your leg, arm or anything else that would hurt very much.

PREVENTING

There really is no way that you can prevent an injury to happen, unless you can dodge all of the tackles. So, if you want to protect your players by not getting injured, never let the opposition do the square tackle on you. If they do, this can cause abit of an injury.

If they do that same tackle on the same guy about 5 or more times, then that player can start to be injured. So dodge all of the tackles when they come for you, but mainly just the square type of tackles where they use both legs and sounds like it hurts when they slide in.

CAUSING

There is a safe way, and an unsafe way to do this. What I mean by "Safe" is not to get ed carder, and "unsafe" is the way that you get down to ten men.

Here is the unsafe way:

* Perfrom the deliberate fould. TO do the deliberate foul, then press R1 + square. This will immediately get you a red card, as well as severely injure the player that you fouled. Note that not all the time the injured player is fully hurt, it may take some more tackles after that for them to actually get injured and me taken off.

Here is the safe way:

* Always use the square button to tackle. That is the one where you

slide in with two feet and hit the ball away from you when you tackle. Keep doing this on the opponents every single time and after some hits on the same person, they will start to limp around.

SUBSTITUTION

This is what makes injuring people pretty much pointless. When someone is injured, they can just be replaced by someone else on the bench. So, there really isn't any need just to go around injuring people, but it is fun mind you.

It still is fun if you find like a star player and want to injure him, like Ronaldo.

ENDING STUFF

This FAQ/Walkthrough is copyright Aaron Baker aka. Wayalla, 2003. It may be used for Personal and private use only, and can't be put in a magazine, put on a site that you need to pay money to access this FAQ or just generally sold. This guide is sole property of Aaron Baker. Only authorized websites can have this FAQ, but must not alter the copyright notice at all, that is against the law. I will not take any responsibility if this guide destroys your computer, ruins your social life or anything else. This guide is available free of cost from sites, and I am taking time out of my busy life to write this, so be thankful that I am helping you. Do not rip off this guide in Part or Whole, that is illegal and the appropriate steps will be taken if necessary. I didn't write this guide so that someone could just come and rip it off.

This Document Copyright Wayalla, (C) 2003

Wayalla For creating this document. If your
 that stupid, it's me.

CjacyC: For posting this guide, as well as Gamers-realm

Inferno: We were going to make a GTA3 guide, didn't work out, and
 feel horrible for taking down the joint guide. :(

FAQ Contrib board:
Help will guides, and all sorts of stuff.

=====

If you have the time, you can start making FAQs/Guides. They are easy to

make, and don't take long as well, but that depends on the file size and also how good you type. But seriously, you should give it a shot. For more information, please read the gamefaqs help files for alot of information about starting. <joke> Oh, and if this helps you get started on guide writing, please send me \$5. </joke>
