I. The Introduction (Blah blah blah blah blah...)

Hey, everybody! I decided that it was finally time for me to sit down and re-write the introduction to this FAQ. I stared at it a LONG time and decided it needed fixing. So... I fixed it. ^\_^

I guess that's about all I can say this time, but, first, let's all take a li'l test. Look at the following lines:

1234567890  
-----  
\*\*\*\*\*  
ABCDEFGHIJ  
\\\/\\\/\\\/  
/\/\\\/\\\/  
.....  
////////

Alright, all of those should've been the same length. If not, go switch your browser settings or whatever settings you have to.

Otherwise, this WHOLE FAQ will be SUPER \*\*\*\*ED UP!

Now, for the fun schtuff.

-----  
II. Legal Crap (DON'T DO IT!!! NO --- Ugh, too late... you die.)

THIS DOCUMENT COPYRIGHT 2001-2002 ANDREW YEARY

Don't take this. Whatsoever. No. Not at all. This is Copyrighted Material, man. Don't sell this, claim it as your own, etc.. If you want to use the FAQ, that's okay with me, as long as my name stays on it, nothing is changed WHATSOEVER, and my Copyright notice is still slapped on it! Permission to use this text for commercial or promotional purposes is denied; this includes, but is NOT limited to, printed and/or digital media. So, don't take it or I'll unleash the dogs of war upon your sorry carcass. If you do, by some odd chance, want to use my FAQ, then E-mail me first... and if you do steal part of my FAQ, you DIE, but if you steal Braveheart's section, you DIE, I'll ressurect you, kill you again, then ship your flaming body to your spouse's/girl/boyfriend's house!

Muahahahahaha! >:)

III. Revision History (V. 1.....)

-----V. 2.4, 7/18/02

I was told of an extremely horrendous error that I made. It sucked. Badly. So, I decided to go on and fix it. Now watch, I'll have made a few more errors, so a bunch of people will flame me or something for it. If you do, I've

only got one thing to say about it:

-----V. 2.3, 3/19/02

Finally had to sit down and fix some stuff. I know no one probably reads this anyways, but hey, whattya know. For all I care, you could be printing copies of these, burning them, and \*\*\*\*ing on the ashes. But, who cares? At least I'm making high-quality \*\*\*\*ing materials.

I - - -R E A L L Y - - - need to start playing VS again.

-----V. 2.2, 6/13/01

Muahahaha! I worked on the Total Armor Needed and fixed some major errors. You guys will see the f\*\*\*ed up version of this before you see this one. I pity myself.

-----V. 2.1, 6/13/01

Kicked the crap out of the "ULTIMATE ULTIMATE ULTIMATE Jazeraint Body Armor" section and knocked it from over 1000 pieces of armor to relatively few. I might do this lil' sidequest myself... ♪ .♪

That's a BIG M A Y B E on that one.

I also updated my legal section, preceding THIS section. Also, on a somewhat (Read: Not in any way, shape, or form) related note, I got my 30+ Title yesterday! I'm now a Knight of Brilliance! My weapon of choice? A Cranequin aptly named "Crapequin". Actually, now it's the "Unholy Chainer", but, the thing's stayin' with me forevermore...

-----V. 2.0, 5/30/01

Updated with a new section, a new person to thank in the Thanks Section, typos corrected... my next goal is to make the "ULTIMATE ULTIMATE ULTIMATE Jazeraint Body Armor" section easier... that's over 1000 pieces of armor!!! \*\*screams and rips out hair\*\*

-----V. 1.0, 5/28/01

Just wrote the darn thing. Nothing updated, obviously, and very basic, at the least. All the info contained within this li'l FAQ is

correct, to the best of my knowledge... Hey, I used it to build my own armor!

---

#### IV. The Combo Process (Circle, Square, Up!... Oh wait, wrong combo)

This has all the processes for making the Jazeraint Armor. It should be pretty easy to understand, but if not, then here's the guide for the steps, etc...

(# of times to repeat) Piece 1 + Piece 2 = Result

It's that easy. Like, for (4)Barbut + Basinet = Armet, you would mix together (combine) a Barbut with a Basinet to get an Armet, and rinse and repeat until you have 4 Armets!

##### IV.A.Helm

---

(4)Barbut + Basinet = Armet  
(4)Basinet + Armet = Close Helm  
(2)Basinet + Close Helm = Burgonet  
(2)Close Helm + Burgonet = Hoplite Helm  
(1)Hoplite Helm + Hoplite Helm = Jazeraint Helm

---

##### TOTAL:

Barbut: 4  
Basinet: 10

---

##### IV.B.Body Armor

---

(2)Brigandine + Plate Mail = Fluted Armor  
(2)Plate Mail + Fluted Armor = Hoplite Armor  
(1)Hoplite Armor + Hoplite Armor = Jazeraint Armor

##### TOTAL:

Brigandine: 2  
Plate Mail: 4

##### IV.C.Arm Armor

---

(16)Tilt Glove + Tilt Glove = Freiturnier  
(8)Rondanche + Freiturnier = Fluted Glove  
(8)Freiturnier + Fluted Glove = Hoplite Glove  
(2)Hoplite Glove + Hoplite Glove = Jazeraint Glove

---

##### TOTAL:

Tilt Glove: 16  
Rondanche: 8

---

##### IV.D.Leggings

---

(4)Missaglia + Missaglia = Plate Leggings  
(2)Missaglia + Plate Leggings = Fluted Leggings  
(2)Plate Leggings + Fluted Leggings = Hoplite Leggings  
(1)Hoplite Leggings + Hoplite Leggings = Jazeraint Leggings

---

IV.E.Shield

(4)Casserole Shield + Heater Shield = Oval Shield

(2)Heater Shield + Oval Shield = Knight Shield

(2)Oval Shield + Knight Shield = Hoplite Shield

(1)Hoplite Shield + Hoplite Shield = Jazeraint Shield

V. Where I Say You Should Get The Materials (HERE!!! NOW!!! Aww...)

Honestly, this is where I think you should get all the materials to make the armor. Anything marked with a (GH) you need GodHands to combine with the other items, so you'll need to be on your second game, at least. This should be pretty self-explanatory. BTW, this is in MY opinion, the best places to get the materials. There are many, MANY other places to get the stuff, but this is where I recommend, and where I got all the stuff for my set of Jazeraint Armor :D

VI. How to make ULTIMATE ULTIMATE ULTIMATE Jazeraint Armor

Thank you Braveheart. Thank you. I love you for this, man. You saved me more than you can ever know. Anyways, this is how you make ULTIMATE Jazeraint Armor. Damascus. 100/100/100... And don't even bother with the shield. But first, gather these materials:

Piece	Stats
Tilt Glove	12/12/12
Missaglia	12/12/12
Plate Mail	10/10/10
Fluted Armor	15/15/15

From these locations:

(H) Fluted Armor

-----

Chest in "The Flayed Confessional (Great Cathedral L1)"

(H) Plate Mail

-----

3% Lich Lord in "Salvation for the Mother (Undercity West)"

3% Lich Lord in "The Crumbling Market (Undercity West)" (after all cutscenes)

(H) Missaglia

-----

5% Crimson Blade in "Rue Crimnade (Town Center East)" (after Sky Dragon)

3% Lich in "Corner of the Wretched (Undercity West)"

3% Lich in "Larder for a Lean Winter" (Undercity West)" (HP 200 or greater)

3% Lich in "The Crumbling Market (Undercity West)" (after all cutscenes)

3% Lich Lord in "Saint Elmo's Belt (Iron Maiden B3)"

3% Lich Lord in "Salvation for the Mother (Undercity West)"

3% Lich Lord in "The Crumbling Market (Undercity West)" (after all cutscenes)

3% Blood Lizard in "From Boy to Hero (City Walls North)" (before Limestone Quarry)

(S) Missaglia

-----

3% Lich Lord in "Dunking the Witch (Iron Maiden B3)"

(H) Tilt Glove

-----

5% Crimson Blade in "Kesch Bridge (Town Center East)" (after Sky Dragon)

3% Death1 in "Bite the Master's Wounds (Undercity West)"

3% Death2 in "Bite the Master's Wounds (Undercity West)" (HP 225 or greater)

3%\* Lich in "Corner of the Wretched (Undercity West)"

3%\* Lich in "Larder for a Lean Winter (Undercity West)" (HP 200 or greater)

3%\* Lich in "The Crumbling Market (Undercity West)" (after all cutscenes)

3%\* Lich Lord in "Saint Elmo's Belt (Iron Maiden B3)"

3% Lich Lord in "Crossroads of Rest (Undercity West)"

3% Lich Lord in "The Body Fragile Yields (Undercity West)" (HP 201 or greater)

(S) Tilt Glove

-----

5% Crimson Blade in "Shasras Hill Park (Town Center East)" (after Sky Dragon)

\*The percentage that the enemy would drop the corresponding armor would actually be double than this because they carry two of the pieces.

VII. Thanks (I'm running out of corny sub-titles)

I'd like to send my thanks out to several people. Obviously. I don't wanna do this in a paragraph form, so how's a list for everyone? Good? Good.

SQUARE --- For making this beautiful game. I've grown a few shades lighter, thanks to this game. The sun has forgotten what I look like, again, thanks to this game. It's the best game I've ever played, and it's a shame that Square isn't going to make a VS2... \\_ \*\*cries\*\*

Philip Bradley-Hutchison --- For talking to me while I play this game, being the best friend a guy could have, and actually playing (and liking!) the game when I got it for him for his birthday. He's also helped tremendously with this FAQ (Read: He's been my guinea pig) and is currently making Jazeraint Armor with the help of this guide!

Drake Strife --- He caught me in a horrid error. Thankfully, he emailed me and told me about it, so I could fix it. Hence, his name goes in here. Ph33r.

Jay Tilton --- For making the World-Famous Combination Guide. I don't think I could've made this guide without that combo guide's tables! I've checked and rechecked my work, and it would've taken about 20X as long to do all this by hand with no helpful combination tables to look at while thinking of the processes. Also, his enemy guide tells you exactly where to find the enemies you need, what items they drop, and the percentage they'll drop it!

Samuel Riesterer --- One word. Braveheart. Thank you, man. Your FAQ helped me more than you can ever imagine. You are a God. I bow down before you and kiss the ground that you walk upon. No one has made such a godly FAQ in history. I owe you MASSIVELY for your help. Love goes out to ya, man.

-----

VIII. Outro (I'm outta here!)

Well, a new version needs a new Outro, I guess. You're lookin' at it. Yup, nothin'. Pure blankness. Ahhhhhh. In fact, a whole page of it, just for you. Enjoy!

Hehehehehe. ヲ.ヲ
