I. INTRODUCTION AND REVISION HISTORY

Chyna first came into the WWF around 4 years ago, after Triple H dumped Sable as his girl. For the next couple of years, she would interfere matches in Triple Hs favor and was the main cause for his success. When DX was created, she always came out with HHH in each and every match he had. As DXs popularity increased so did Chynas.

Currently, she was involved (romantically) with Chris Jericho, but as of the Monday Night Raw of 4/3, she turned on him to join Eddy Guerrero, who nows calls himself Latin Heat. Chyna has had some huge success in single wrestling, holding the Intercontinental Championship for a couple of months.

I created this FAQ for many reasons: I was bored with my current Soul Blazer walkthrough, so I wanted to find something to do, and no one had made a character guide for Chyna yet, and she is pretty good in the WWF, especially when she danced to Too Cools music awhile back.
