Revision History

---Version 2.7---January 11, 2001

Fixed a few minor details about the hidden wrestlers for Smackdown 2, thanks goes out to Steve Saunders/Mcfadden for pointing that out. The move list for Smackdown 2 is now complete, so CjayC, please link to this FAQ in the FAQs portion of Smackdown 2.

---Version 2.6---January 1, 2001

Happy New Year! This FAQ has been constantly updated now for well over a year, and is the most up to date one you'll ever see. This update brings us the hidden wrestlers of Smackdown 2 for PSX, courtesy of RIDD13@aol.com.

---Version 2.5---November 22, 2000

A little late, but WWF No Mercy character listings are up, the little brackets connecting wrestlers mean that those wrestlers share a tile to be selected from(each wrestler has 4 different costumes, for some costumes its just a whole different wrestler). Expect Complete Smackdown! 2 lists within a week or two.

---Version 2.4---September 3, 2000

Noted some wrestlers that were hidden in Royal Rumble for Dreamcast. Also added the list of wrestlers for Smackdown 2! off IGN. I don't have a list of any hidden wrestlers so far though for the game. But the wrestlers in there are confirmed off their site. Thanks to Iaconist@cs.com for pointing out the tidbit to me.

---Version 2.3---August 10, 2000

Added the character list for Royal Rumble for Dreamcast.

---Version 2.2---March 21, 2000

Added some other hidden characters for Smackdown I missed. Note there's also a some hidden uniforms for The Rock & Austin in the game, but I won't count them as hidden characters, like how I didn't count the Trainer as a secret character in Warzone or Attitude.

---Version 2.1---March 5, 2000

Got the secret characters up for Smackdown.

---Version 2.0---February 16, 2000

Added the list of characters to Smackdown, courtesy of IGN.com, and Iaconist@cs.com of notifying me they had a list up, I also got an

unconfirmed list of hidden characters from IGN as well, but I'll post the official hidden one's when they're confirmed, so don't e-mail me with anymore lists.

---Version 1.9---November 29, 1999

Removed Bulldog from secret characters list in Wrestlemania 2000 and added Paul Bearer, also added Wrestlemania 2000 character list for Game Boy Color.

---Version 1.8---November 16, 1999

Added more secret characters to Wrestlemania 2000 list. (Thanks to Steve Schneider stevens@mediaone.net)

---Version 1.7---November 9, 1999

Added the WWF Wrestlemania 2000 list for N64, not all the hidden wrestlers are discovered yet, but will be posted within the upcoming weeks. Turned out the Master System Steel Cage game is a dud. It was that people were playing the Game Gear roms on the Master System's emulator and they got the format Steel Cage was on mixed up. Sorry about that. (Thanks to Noel Webster at noel_webster@yahoo.com for the correction)

---Version 1.6---November 6, 1999

Added Dreamcast WWF Attitude character list. Also added list for WWF Steel Cage Challenge for Sega Master System. (Thanks to Brian Cole at support@realvalue.net)

---Version 1.5---September 4, 1999

Turns out the Adam Bomb code was just a rumor so I removed that (Thanks to indigo_twilight_@hotmail.com). Some people were e-mailing me the lists for the characters in Wrestlemania 2000 and that game won't be released until November and I know how developers make last minute decisions and cut and/or add wrestlers in the game, so i won't put the Wrestlemania 2000 list up until the game is released.

---Version 1.4---August 31, 1999

Added Adam Bomb as the secret character in Wrestlemania: The Arcade Game for the Playstation version of the game. (Thanks to Monk1984@aol.com) Added PC Character listing for In Your House and Wrestlemania: The Arcade Game (Thanks to Emptyeye at emptyeye@juno.com for reminding me of these game, I've kinda been ignoring the PC wrestling games for a while)

---Version 1.3---August 30, 1999

Added Ted Dibiase in Super Wrestlemania for Geneseis (Thanks to Monk1984@aol.com)

---Version 1.2---August 27, 1999

Added Savage for Superstars for Arcade, plus added more guys in European Rampage for Amiga and guys in Wrestlemania for Amiga (Thanks to jutanguy@club-internet.fr)

---Version 1.1---August 26, 1999

Added the Amiga European Rampage list and completed the Super Wrestlemania Geneseis list. Thanks for all who contibuted.

---Version 1.0---August 24, 1999

DX/NWO Wrestling: <http://kulasd.tripod.com/main.html>

Over 2 and a half years on the 'net running since December 1997, which has the most original, archived history of both the DX and NWO factions since their very beginnings.

Gruel's GameFAQs review Page: <http://kulasd.tripod.com/reviews/>

I write reviews for GameFAQs, currently I have over 160 of them here, and I'm starting to store them at my website, where I have around 40-70 archived their so far, with added game introductions as an exclusive. Definitely worth checking out for the best consumer reports for video games from a person who has over 1 year experience doing it.
