Walkthrough
=====

Before I get started I'll give you a tip: keep going to new game until you have at least 2 beasts and 2 pyro monsters in the deck you start with. That way you can fuse for a monster I'll mention later which really helps. Ok now lets get started.

At the beginning of the game you start talking to Simon Muran ignore what he says (it doesn't matter) and when you have options to choose from listen, listen again, then run away. From here go back to the palace and you can duel him.

Simon Muran

Simon is easy. If you have a pyro and a beast in your hand, fuse them to make Flame Cerebus 2100/? and play him in face down attack mode. If not, then play the strongest monster in your hand in the same manner. He'll probably attack and destroy his own monster, if not o well. Play the strongest monster in your hand again in attack mode. Have the weakest of the monster you have on the field attack, then the others. Repeat over and over until defeated.

NOTE: remember to always look for a pyro and beast to fuse for Flame Cerebus.

After you beat him you will be back outside. Go to the dueling grounds and you will see Teana. Duel her.

Teana

Use the same strategy you used for Simon. She's a pushover.

After you duel her, talk to someone else and you have to duel Villager 1
