Version history

0.13 (02/16/05)--First draft. Slots 1 and 2 completed along with some items. I'll need plenty of help on the item and sprite modifiers.

0.20 (02/17/05)--Slot 3 completed, revised the item codes and included an infinite turns code. I RULE!

0.33 (02/17/05)--Slots 4 and 5 completed.

0.60 (02/18/05)--Slots 6, 7, 8 and 9 completed.

0.80 (02/18/05)--Slots 10, 11 and 12 completed.

1.00 (02/20/05)--Slots 13, 14 and 15 completed. I still need to learn what all the items are and my Japanese isn't

A. That good.

OR

B. Non-existent.

You pick.

2.0 (06/11/2006) Thanks to Meteorstorm79@hotmail.com, I made a fix to the infinite turns on slot 2 and filled up the rest of the items.

How to use these codes

-----

1. For those of you who still have the original, find a Pro Action Replay, then input the codes.
2. For everyone else who's playing this through emulation, go to wherever you put the codes on your emulator (for reference, I'm using ZSNES).
3. Enter away.
4. XX means that's where you put the hex value of the codes. They're mainly 8-bit, so keep it to 63 (99).

(20 hex increase)
