

# NHL '97 FAQ

by Myke

Updated to vFinal on Aug 28, 2010

This walkthrough was originally written for NHL '97 on the SNES, but the walkthrough is still applicable to the GENESIS version of the game.

NHL 97 - Guide/ US Version

For the Super Nintendo

Version Final (August 28, 2010)

Guide by Myke - mykeownz (at) yahoo (dot) com

-Y Button	- -	Punch to head	
-B Button		Uppercut to body	
-A Button	- -	Grab opponent's jersey	
-Directional pad		Control player forward or backward	
-D-pad away from opp.		Block	

=====  
Main Menus  
=====

----[ MODES ]-----|-----|

[EXHIBITION]

A one-game battle. You can play with your friends or test your ice hockey skills against the CPU.

[SEASON]

Select this to play a 82-game season and complete it with best-of-7 playoff series and post-season awards ceremony.

[PRACTICE]

Improve your skills or draw up plays to run. You can also work on your penalty shot skills here.

\_\_\_\_\_  
/\_\_\_\_\_/ GAME MODE OPTIONS-----

Skill Level: Novice (CPUs skate slow/react slowly  
Intermediate (CPUs are average)  
Expert (CPUs are NHL-level)

Period Length: 5/10/20 Minutes (set the length of minutes in each period and there are 3 periods in a game). If the game goes to overtime, it is always an extra 5 minutes period.

Goalies: Toggle to manual or automatic.

User Records: Toggle on or off. If you turn it on, your personal NHL 97 performance will go on an ongoing record.

Penalties: Turn penalties on/off or on with no offsides. Having the penalties off will put you in a fast-paced game.

Line Changes: Turn on/off or automatic. Having it on automatic will have your team change lines automatically before each faceoff in a game. Having it off and your best line will be on the ice for the whole game and never tire.

Rosters: Default or With Trades. If you have it on With Trades, team rosters will reflect your transactions in the game.

Fighting: The option to get in some fisticuffs or not.

\_\_\_\_\_  
/\_\_\_\_\_/ PLAYING THE GAME-----

Select Team: In Exhibition mode, you can select and choose from the 26 NHL teams plus two All-Star teams.

Controller Setup: Move the controller icon under the team you want to play as in the game.

\_\_\_\_\_  
/\_\_\_\_\_/ SCOREBOARD MENU-----

Instant Replay: This lets you replay an action and slow it down and focus on a play or specific areas. You might have made the most fantastic of plays and you want to replay this and be in awe of it or you want to see a penalty that you don't agree with.

Edit Lines: You can edit your team's lines here and give it a new look on the ice. If you have Line Changes toggled OFF, you can only edit your team's top line.

Change Goalies: You have the option to replace your starting goalie or play with no goalie and put in an extra skater.

Goalie Control: There is this option at the main menu but it's also on the scoreboard menu. You can play as a goalie manually or let the computer do it.

Timeout: Each team is allowed to call one timeout per game. It has very little use in a game and all it does is restore the energy levels of skaters on both teams and that's only if Line Changes is toggled ON.

Team Rosters: Not much to do here but to view and browse the ratings of the players and goalies.

Coaching: A neat little feature here. You can assign different strategies to different lines to affect the style of gameplay.

Score Summary: Take a gander at who scored and who assisted on the goal and the time of the goal and if it was on full strength, power play or shorthanded.

Penalties: To view the penalties that were called during the game.

Record Holders: At the main menu, if you have User Records turned ON, you can put in a little challenge here and break the All Time Records.

Other Scores: This is in SEASON MODE and during the season you can view the score of the other contests.

=====  
Seasons  
=====

At the main menu, you have the option to play a regular exhibition game, practice and full 82-game season. Select SEASON and this section will educate you on how to get around it.

\_\_\_\_\_  
\\_\_\_\_\_\ LEAGUE MENU

Games Today

When you are ready to start your season, this is where you need to go. Take a gander at the entire season and select the games you want to play. You can go through the games on a date (Control Pad Up/Down) or go to a different date (Control Pad Left/Right). To select a matchup, pick a game and press B to mark it (press B again to unmark). When you have decided the match-ups you want, press START to proceed to the Controller Setup screen and select your team.

NHL Standings

In here, you can check the records (win/loss/tie) and total points for every team in the league.

Game Options

You can toggle options to your desired gameplay. You can mess around with the skill level, the length of period, the severity of penalties, line changes and fighting. You also have the option to toggle PLAYOFFS to a one-game elimination (SINGLE) or Best-of-7 series (MULTI).

Team Roster

Not much to say here but you can see and compare your players to others and cycle through all NHL teams.

## Player Stats

Check and see who's leading in stats throughout the season.

## League Leaders

See how your players and goalies are against the competition. There are only six categories to view from (goals, assists, points, shots, saves and save percentage).

## Transactions

In here you can trade, release, sign and create players.

\*You are able to trade up to 3 players per team.

-To trade players, highlight the desired player(s) and press B to select. To get to the team on the bottom of the screen, press Y and pick the players you want to trade for and then press START to evaluate it (or press X to cancel).

\*You can create up to 20 new players and throw them in Free Agent

-To create a player, pick a slot and press A to get a PLAYER EDIT text. Highlight the first letter and press B to enter and do this until you put in the full name. Press START to accept the name and then find your created player and press B to continue to edit the player's physical attributes.

### -Free Agents

In here you will find created players and those players that you released from their teams. Each team's carry a maximum of 27 players and no more than 3 goalies.

### -Release Players

You can release player from your team to make room for improvement. Each team's roster carry a minimum of 17 players and no less than 2 goalies.

### -Reset Rosters

Restore to the original rosters.

## Play Until A Day

Simulate the season to a certain date to speed up the season process.

## End Season Today

I don't need to say anything here but you can advance to the playoffs once you select this option.

 Season  
 =====

## OFFSIDE

A play is offside when an offensive skater who is not in possession of the puck precedes the puck across the blue line into the Attack zone.

This violation commonly occurs when 1) A pass is completed to a player "camping" in the Attack zone, or 2) The puck handler skates into the zone before his teammates have cleared out.

If you're in danger of committing an Offside violation, the ref appears on the screen with a hand raised as a warning. Wait for your teammates to circle out of the Attack zone, then move the puck across.

\*Two-line pass offside violations are not called in this game.

## ICING

An Icing violation is called when an attacking player on his team's side of the center line sends the puck across the opposing team's goal line, but not in the net, and a defensive skater is the first to touch the puck.

Icing is not called when 1) The opposing team's netminder is the first player to touch the puck, 2) Any attacking skater is the first player to reach the puck, or 3) The attacking team is skating short-handed due to a penalty killing situation.

## BREAKAWAY

A breakaway is recognized when the offensive player with the puck skates past the defenders on the Attack zone creating a one-on-one situation with the opposing goalie.

A single tone sounds to let you know when a breakaway occurs. A last ditch effort by the defense to "take down" the puck handler from behind results in a penalty shot.

## PENALTIES

-Charging (2 minutes)

Applying a body check after you have taken more than two deliberate strides toward your opponent.

-Cross Check (2 minutes)

Hitting your opponent with both hands on your stick and no part of the stick on the ice.

-Fighting (5 minutes)

A fight is initiated the moment you drop your gloves.

-High Sticking (2 minutes)

Carrying your stick above shoulder level when skating toward an opponent.

-Holding (2 minutes)

Using your hands to grab either your opponent or his stick.

-Hooking (2 minutes)

Using the blade of your stick to restrain an opponent.

-Interference (2 minutes)

Any contact with your opponent's goalie while he is in possession of the puck and within the crease.

-Roughing (2 minutes)

A particularly ruthless Charging infraction.

-Slashing (2 minutes)

Using your stick to hit, or attempt to ht, an opposing player.

-Tripping (2 minutes)

Toppling tour opponent by means of either your stick, knee, foot, arm, hand, or elbow.
