0) A little note:

The byte order of the values is little-endian (Intel). Generally the values are stored in big-endian (Motorola). I'll explain this:

```
Value 32767: in big-endian is 7FFF  
             in little-endian is FF7F  
Value 11111111: in big-endian is A98AC7  
               in little-endian is C78AA9
```

```
