/-----\  
| PLAYERS ON EDIT MODE |  
\-----/
```

On Document 2, I have written the data of the players present on EDIT MODE, from the best to the worst.

The parameters of players are:

- a) shoot power (KICK --> K)
- b) head power (HEAD --> H)
- c) ball control (CONTR -> C)
- d) run (RUN ---> R)
- e) attack (ATT ---> A)
- f) dash (DASH --> D)
- g) jump (JUMP --> J)
- h) pass (PASS --> P)

S.T -> Sub Total
S.P -> Special Powers
TOT -> Total

Players and goalkeepers that have special powers, they have a parameter, sub-total, where I have calculated the values without special powers.

Special power have double points.

(Ex: Tsubasa has this values: 7-7-9-9-8-7-7-5-59-9+2*(HO)-81. The firsts eight are the previous values, the ninth is sub-total, the last is total. The value "9+2*(HO)" means that Tsubasa has 9 special powers that he could performs alone and 2 special powers that he could perform with HO (Misaki). Then Tsubasa has 11 special powers, then 22 bonus points, infacts 59+22=81, is it clear???)

The goalkeepers have a different result, under the players one, because goalkeepers parameters are different:

- a) stop the ball (CATCH --> C)
- b) throw back the ball (PUNCH --> P)
- c) throw (THROW --> T)
- d) jump (JUMP ---> J)
- e) dash (DASH ---> D)
- f) reflexes (REFLEX -> R)

Parameter "REFLEX" is not expressed in numbers, but in letters that have this value:
