C. Name Input

The name input prompt in this section refers to your hero's name in the Story mode. I assume that you have the slightest knowledge about the sounds of the Japanese alphabet.

All the names are effective if and only if you start a new game and put them as your hero's name. Each of the specialised names mentioned below have their own miraculous effect but they cannot co-exist with one another. You can only have them one at a time in a game save. 0------0 C. 1) Easy money onhand--30 million yen 0------0 By entering the name "O Ka Ne Mo Chi" in Hiragana, which literally means "Money have". You will now immediately have 30 million yen as your saving! 0------C. 2) Install the unbeatable jet engine in any of your cars 0------0 By entering the name "Ma Ke I Nu" in Hiragana, which means "Can't lose", you will have the jet engine in-hand. When you have control over your hero in his dining room, click on the black drawer and select "Jetto Enjin", a phonetic borrowing of "Jet Engine". When a race starts, press L and R at the same time. Your car will receive a sudden boost to its top speed! You are now unbeatable! (except for your last race with Fujiwara's Supra in which the game programmes it to always top your speed) 0-----0 C. 3) Sound Test Mode 0-----0 By entering the name "Go Ki Bu Ri- Na" in Hiragana when the Story mode starts, you can enter the sound test mode. 0-----0 C. 4) See the hidden background graphics 0-----0 By entering the name "BG Mi Se Te" where "BG" is in English and "Mi Se Te" is in hiragana (literally, "Background let see"), you can see the graphics of the background. 0-----0 C. 5) Immediately see the hero 0------0 By entering the name "O BJ Mi Se Te" in hiragana (BJ in English), you can immediately see your hero. 0------0 C. 6) Skip to the game completion scene 0------0 BY entering the name "SuTaffu" in hiragana, you can skip to the game completion scene.
