To see the Japanese words, start a match. Then, pause it. Press select and go to the third option. You will see a list of the character moves. I skipped some because I don't understand some of them. So, please tell me if you know.

Goku | Goten | ----- | Trunks | Vegita | ----- | Buu | ------ | Dabura | No. 18 | | | | | | | | | |

+++++++ Move List +++++++

Goku is a Saiyan. His planet was destroyed and was sent to Earth. He got separated with his brother and left to Earth. He arrived at Earth safetly and was adopted by Gohan, his adopted grandfather. He gave Gohan quite a work until the day when Goku fell and hit his head. He then became a good boy. You can see the mark of the fall at the flat area of ordinary hair. He accidently killed his grandfather after turning into an ape.

On day, he joins Kame and learns the art of martial art. He learned a few basics from his grandfather. Suddenly, Krillin came and both Goku and him help to find Kame a pretty women.

Years had passed and Goku was married. He got a son called Gohan. Gohan and Goku helped to kill Cell. Goku was killed between the match between Gohan and Cell when Gohan turned into SSJ 2. Goku had to transport Cell that was about to explode to King Kai's planet. Well, King Kai and Goku was killed. The ape and insect (i have forgoten their names) was killed too. Cell managed to live and had learn the transporting technique.

Back at Earth, Gohan killed Cell after a one hand Kamekameha with some motivation from Goku. Other that that, in GT, Goku turned into SSJ 4.

Aura Dive Kick

In the Air, Towards, Under, A

Goku will fly towards his opponent with his leg extend. A golden aura will appear on the tip of his feet and smashing his opponent

Upper Knee Slash

Press Under+Back, Up+Towards, B

Goku will fly diagnolly with his knee extend. No aura this time. Good to attack jumping opponents.

Four Kicks of Elimination

Press Under+Back, Under, Under+Towards, Towards, B

Goku will launch four very strong kicks towards the opponent. It will make a good amount of damage even if the opponent is in blocking stance. This is why I call it "Four Kicks of Elimination".

Goku's Sphere Thrust

Press Towards, Back, Towards, B

Goku will jump and make a flip in the air and his two long legs will hit the closest foe. Quite good to be use for anti-air. But, I would prefer the Upper Knee Slash as anti-air.

Three Ki Blasts

Press Under, Under+Towards, Towards, A

Goku will shoot three quick ki blasts towards the enemy. It has a quite short range of attack. Use it when your foe is rushing to you or him/her is near with you.

Super Move: Ordinary Kamehameha

Press Back, Back+Under, Under, Under+Towards, Towards, A

Goku will launch the famous Kamehameha. This is quite weak version of Kamehameha.

Super Move: Fully Charged Kamehameha

Press Under, Under+Towards, Towards, A

This is where the SSJ 2 power comes in. Goku will charge up and all of the electrical power gathers inside him. He then launches a powerful and "electrifying" Kamehameha.

Gohan was the son of Goku and Chi Chi. He was trained by Piccolo to help the Z fighters to defeat Vegita when they came to Earth. They failed to stop them unti Goku arrives. He managed to weaken Vegita until he turned into an ape. Yajirobe cut his tail and Vegita returned to his normal self. Goku was using Genki Dama but failed to use it against Vegita and gave Krillin the aura to attack Vegita. He missed and the ball was heading Gohan's way. Gohan managed to reflect it back to Vegita. All thanks to Gohan.

Gohan also killed Cell in the Cell Saga with a one-hand Kamehameha and some motivation from Goku from the Snake Pathway. He also is the first saiyan to turn into SSJ 2. wow!!!!

Picollo's Rapid Devil Kicks

In the air, Press Towards, Under, B

Gohan will use the technique that had been taught by Piccolo when Gohan was still a kid. He will dash from the air towards his opponent and if his legs connect, his opponent will suffer a series of rapid kicks.

Rage of Gohan

Press Towards, Back, Towards, Y

Gohan will dash towards the opponent with fists flying. Once his attack is done, he will jump backwards and ready for the next attack. Very good offensive attack.

High dash punch

Press Under, Under+Towards, Towards, Y

I wanted to put it's name as Dragon Punch like in Street Fighter series but I don't think it suits. Gohan will dash in front and jump with his fist full of aura punching upwards while dashing. Very good against air opponents. This move can also caught your opponent off guard. A very fast move.

Three Ki Blasts

Press Under, Under+Towards, Towards, A

Gohan will attack using 3 fast Ki Blasts. The range is very short. The ordinary or one Ki Blast is stronger and goes farther.

Super Move: Masenko

Press Back, Back+Under, Under, Under+Towards, Towards, A

Gohan will have aura all around him and both of his palms on his forehead. He then puts his palms farther in front and a big Ki wave appears. This is a weaker Ki Wave for Gohan

Super Move: Gohan's Kamehameha

Press Under, Under+Towards, Towards, A

Gohan will charge and the power of the SSJ 2 comes into action. Everything is the same like Goku's except for the part where "electrifying" wave flew to the opponent.

 Goten was the second and youngest son of Goku and Chi Chi. He always hang around with Trunks and Gohan. Goten and Trunks even tried to disguise themself as "Mighty Mask" in their first Martial Arts Tournament.

Unlike Goku, Gohan and Vegita, Goten can easily turn into SSJ without hard trainings like Gohan, Vegita and Goku went through. He is a quite amazing kid.

Monkey Flip

Press Back+Under, Up+Towards, B

Goten will jump forward and flips like a monkey. You can have two distances to use this move. From far, the tip of his feet might touches the opponent and knockong him/her down. From near, you can knock him/her down when Goten flips towards him/her. This move can bring you out of trouble easily if you quick with that joypad.

Dash of Suprice

Press Towards, Back, Towards, B

Goten will rush to his opponent with his knee extend with Saiyan aura around the knee. If the knee hits his opponent, Goten will kick in a fast motion upwards. You can run away with this move when you stuck somewhere.

Spinning Copper Rush

Press Back, Back+Under, Under, Under+Towards, Towards, Y

Goten will swing his arm around and rushs to his opponent. With his arm still swinging, he hits his opponent with that same arm and knocking them backwards. Nice damage is done with this move.

Three Ki Blasts

Press Under, Under+Towards, Towards, A

Goten shoots three fast but short ranged Ki Blasts. Use this when the opponent is near you. Deals a pretty good damage.

Super Move: Goten's Ray of Judgement

Press Back, Back+Under, Under, Under+Towards, Towards, A

The move of the name I just maked that up. Goten will do something like a Masenko and with one palm, a ray of golden aura wave appears. He said "Yahh!" This is Goten's weaker Super Move

Super Move: Kamehameha

Press Under, Under+Towards, Towards, A

Every Goku Family has this move (except for Chi Chi). Goten will do something familiar as Gohan does but the aura wave is not too big like Gohan and Goku. But, deals a decent amount of damage.

He is the King of the planet of Neptune. He and a red skin guy joins the martial arts tournament and saw the part where Gohan's energy was stolen. So, Shin asks Goku and Vegita to come along. They do. Krillin and Piccolo joins them.

There, the Z fighters meet with Majin and the M letter. Shin also was suprice to see that Goku, Vegita and Gohan are more powerful than himself. He was the strongest Kaio that ever lived.

Kaio Kicks

Press Back, Back+Under, Under, Under+Towards, Towards, B

Shin will look at his opponent and attacks him/her with a series of kicks. This move reminds me about Chun Li in the Street Fighters series.

Kaio Wind of "Get Away!"

Press Towards, Back, Towards, Y

Shin will shake his hands around and making the round sphere and his body is inside the sphere shaped circle. It looks like wind. Whoever that was close to him will be attacked by this move. This move will only takes a split second.

Ground Aura Wave

Press Back, Back+Under, Under, A

Shin will throw an aura wave to the ground. It will continue on until it hits or misses the opponent. Can be use from far way. A very fast move.

Super Move: Kaio Beam

Press Back, Back+Under, Under, Under+Towards, Towards, A

Shin will gather his Ki to his finger and points it to the opponent. He say something in Japanese and a beam of aura emerged.

Super Move: Kaio Wave of Destructive Aura

Press Under, Under+Towards, Towards, A
Shin will lay a powerful aura to his enemy. He charges first and let go

\\\ Buu ///

Buu was created by Majin's father. He was callede Mighty Buu that time. He was been sealed in an "egg". He will also once a friend with Mr. Satan.

Buu and the thin Buu was enemies. I just don't seen that part. Man!

Upper Two-Hand Strike

Press Down, Down+Towards, Towards, Y

of a large (not huge) wave of aura.

Buu will put his hands together and punches up like the Street Fighter Dragon Punch. Buu don't jump like Ryu or Ken, though.

Buu's Playground

Press Back, Back+Down, Down, Down+Towards, Towards, B

Buu will jump and crashes to the ground. He will then bounces with his head and backside. Easily stopped by a Ki Blast.

Three Rows of Ki Blasts

Press Down, Down+Towards, Towards, A

Buu will release a Ki Blast that has 3 rows. Each row has 1 Ki Blast.

Arrow of Buu

Press Back, Towards, A

This is not actually an arrow. But will use a fast and long ranged Ki Blast to knock down the opponent. Nice to engage the enemy from far.

Super Move: I hate YOU!!!!!

Press Back, Back+Down, Down, Down+Towards, Towards+A

Buu will say in Japanese and like he is a factory. Then, he will release a large ball of Ki towards his enemy.

Super Move: Ball of Defeat

Press Down, Down+Back, Back, Towards, A

Buu will put both of his arms in front. Then, he charges the ball. Then, he will chunk it to his enemy.

He is the first and last son of Vegita and Bulma. Just like Goten, he can change himself into a SSJ easily. He also won his first martial art tournament in the kids level. Eventually, only Goten and Trunks was in the final. Trunks defeated Goten when he changed into a SSJ.

After the match, he taught than this was boring so he and Goten disguise themself as Mighty Mask. When Goku, Gohan, Vegita, Shin, the red skin guy, Piccolo and Krillin went to follow the guy that stole Gohan's energy, Mr. Satan created a match where all five contenders that are there will fight among themself.

He, like Vegita got the M sign on their foreheads.

Backward Ki Flip

Press Under, Under+Towards, Towards

Trunks will do a backflip with aura on the tip of his feet. Good to be used to escape.

Decoy dash kick

Press Towards, Back, Towards, B

Trunks will dash towards his opponent. It looks like he want to attack his opponent but he just dash through him/her and quickly gives his opponent a quick turning kick from behind

Kick and Downwards punch

Press Under+Back, Up+Towards, B

Trunks will kick his opponent and punching his opponent to the ground. This will make him/her fell down and injuring him/herself.

Punches of Terror

Press Back, Back+Under, Under, Under+Towards, Towards, Y

Trunks will dash forward a little bit. Then, he released a fury of stationary punches. It almost the same like "Rage of Gohan" but Trunks punches in a stationary stance.

Three Row of Ki Blasts

Press Under, Under+Towards, Towards, A

Trunks will put his arms together. Then, he release a three row of Ki Blasts. Each row has one Ki Blast. They move together and rushes to the direction Trunks facing.

Super Move: Trunks Saiyan-Prince Cannon

Press Back, Back+Under, Under, Under+Towards, Towards, A

Trunks will do the similiar Ki Wave as Vegita does. The wave is a little bit more smaller that Vegita's Ki Wave.

Super Move: Energy Ball of Destruction

Press Under, Under+Towards, Towards, A

Trunks will put his hands behind him. Then, he will charge a electric energy ball and throws in towards his enemy.

Dabura is the Prince of the Underworld. He likes to destroy towns and kill people. Majin knew this and make him as his servent. Nothing else to say about him.

Dabura's Woosh Dash

Press Under, Under+Towards, Towards, Y

Dabura will dash towards his opponent and if it hits, the opponent will be thrown back.

Three Ki Blasts

Press Under, Under+Towards, Towards, A

Dabura will attack with 3 fast Ki Blasts.

Spit of Death

Press Back, Towards, A

Dabura will spit at his opponent. It looks like the weapon Spiderman uses. In the saga, this move will turn anyone into stone but the game those not use that kind of result. In the manga, he turned Piccolo and Krillin into stone.

Blast of the Blade

In the air, press Back, Back+Under, Under, A

Dabura (in the air) will deposit his sword. Then, he make a quick slash and a energy ray comes out and attacks anyone around 45 degree. Can easily make you tired.

When Cell sucked up No. 18 and No. 17, he became perfect. He then throws back No. 18 but leaves No. 17 in his body. Gohan killed Cell. Now, No. 18 was married with Krillin and had a cute daughter.

After a few matches between Goku and Vegita in Namek and Earth, they become allies for the first time. After Vegita was married with Bulma and had a son called Trunks, Vegita trained hard to turn himself into an SSJ and waited for a rematch. Both Vegita and Trunks got the M symbol on their forehead. On GT, Vegita can't turn into an SSJ 4 like Goku, so Bulma helps him with some modern tech. Saiyan Prince combo -----
