EPILEPSY WARNING

Please read the relevant and particularly this paragraph, before using the video game system or allowing your children to use it. A computer-like adult should go through with any parents, the operator instructions of the Dreamcast set before allowing play to take place. Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life. Such people may have a seizure while watching certain television images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had an epileptic seizure. Certain conditions may include uncontrolled epileptic symptoms even in persons who have no history of seizures or epilepsy. If you or anyone in your family have ever had symptoms related to epileptic seizures or loss of consciousness, when exposed to flashing lights, consult your doctor prior to playing.

We advise that parents should monitor the use of video games by their children. If you or your child experiences any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, HEADSHOTS, or abnormal ear and contact your doctor.

For your health

- Sit away from the television screen, as far as the length of the Controller cable allows. We advise that you sit a minimum of 6 ft (1.8m) (about 2 meters) away from the television screen.
- Preferably, the game should be played on a small television screen.
- Avoid playing if you are tired or have not had enough sleep.
- Make sure that the room in which you are playing is well lit.
- Rest for at least 15 minutes per hour while playing any video game.

Virtua Tennis 2 is a memory card (and optionally, controller) game. The minimum system requirements of four memory spaces are required to use game file.

To go back to the title screen, press the START button while holding down the SELECT button (I, II).

Vibration Pack™

When using a Vibration Pack (sold separately), make sure to
connect it to Expansion Socket 2 of the Dreamcast Controller.
A Vibration Pack cannot be used with an Arcade Stick.

After pressing that button and before hitting the ball back to the opponent, press **▲ ▼ ◀ ▶** to select the direction to hit the ball. Use **◀ ▶** to aim left or right, and use **▲ ▼** to aim to the front or back.

Shot Strength

You can hit the ball harder (faster) if you run to the ball fast enough to get ready for the shot. On the other hand, if you barely reach the ball and are not ready for the shot, you will not hit it hard. The strength of the shot changes with the height you hit the ball at (shot point). It is difficult to hit the ball back hard if the ball has a low shot point, for example right after it bounced. The higher the shot point, the harder the shot becomes.

Shot Type

A regular shot (○) is a regular shot with a forward spin (vertical spin). The ball moves fast, but its trajectory is high and bounces high. A slice shot (◐) has backspin. The ball moves slowly in a floating in the air. Its trajectory is low and it bounces low. A lob shot (○ ○ ○) has a high trajectory and goes over the opponent's head. It is used to hit the ball behind the opponent when the opponent is at the net.

Smash

.....
Aim for a high trajectory ball to come down, and press
[X] to hit a smash. Press [Left/Right] to control the ball path
in the same way as regular shots.

Drop Shot

.....
Press [Left/Right] after pressing [X] to aim at an angle near the net.
You can make a drop shot that falls near the net. It is
effective when the opponent is at the baseline.

Instruction to COM partner

.....
Give a position instruction to your COM partner in doubles
matches. Press [Y] to switch instructions between the
BASELINE / NORMAL / NET PLAY displayed at the top
of the screen.

BASELINE	Back of the court (defensive)
NORMAL	Regular position

About tiebreak in "Virtua Tennis 2"

An extra game will be added if no player wins by 2 or more games within the set number of games. After the players have won the same number of games, the last game will be a tiebreak. In the tiebreak, points will be counted as numbers (e.g. 5-4), and the first player to win by 2 or more points is the winner. Each player serves twice in a row. This rule is slightly different from rules of actual tennis.
