SAFETY PRECAUTIONS

Follow these suggestions to keep your **GREAT WALDO SEARCH™** Game Pak in perfect operating condition.

1. DO NOT subject your Game Pak to extreme temperatures, either hot or cold. Always store it at room temperature.
2. DO NOT touch the terminal connectors on your Game Pak. Keep it clean and dust-free by always storing it in its protective plastic sleeve.
3. DO NOT try to disassemble your Game Pak.
4. DO NOT let your Game Pak come in contact with thinners, solvents, benzene, alcohol, or any other strong cleaning agents that can damage it.

WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV!

Do not use a front or rear projection television with your Nintendo Entertainment System (NES) and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

A D V I S O R Y

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: a tired vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and convulsions.

A FRIEND IN NEED...

It seems that Waldo's good friend, the wizard Whitebeard, has lost five magic scrolls in the Realms of Enchantment. He asks Waldo if he can locate the scrolls for him before it's too late!

Well, our globetrotting hero can't resist a challenge, so he takes his trusty canine companion Wool along on their new adventure! Now it's up to YOU to spot Waldo and the missing scrolls as well as bonus points and much more! So keep a sharp lookout for fun in this colorful fantasy for the whole family!

LET THE QUEST BEGIN...

Insert the **Great Waldo Search™** cartridge into your Nintendo Entertainment System and turn the machine on. Press **Start** to begin the game. You are given a choice between Normal and Expert levels.

The Normal mode is for beginners. The objects are easier to find because you see more of them. The Expert mode has the same objects, but you see less of them (actual size), on the screen because they are hidden better.

LET THE QUEST BEGIN...

If you have chosen either the Normal or Expert difficulty level, you can choose which of the 4 areas to begin your search. The areas are:

- Land of the Gargantuas
- Kingdom of the Carpet Flyers
- Water Monks vs. Fire Druids
- The Enchanted Underground

You can choose any of them in any order you wish by using the control pad to move left or right and then pressing the A Button when the picture from the realm you wish to visit appears in Whitebeard's crystal ball. The clock starts running when you arrive at each level, so search quickly!

CONTROLLER #1

Start and **Select** - Reset the game to the very beginning!

A Button - Press to collect items and people from the screen. Also use to make selections from Whitebeard's crystal ball.

B Button - Press to cancel a previous selection.

Control Pad - Moves magnifying glass up, down, left and right across the screen. Also is used to toggle between choices on the crystal ball.

CONTROLLER #2

***Special Parent Feature!** For those of you who wish to assist young players on their search for Waldo and the magic scrolls, we offer these helpful tactics. Make sure both controllers are inserted into the NES before beginning the game. If the person you are playing with needs assistance, take controller #2 and use as follows:

A Button : Forces the movement to the screen containing Waldo, then the screen containing the magic scroll then the screen containing Woolf. This happens only when the A Button is being held.

B Button: If the player just needs a little extra time to complete the search, press the B Button to turn off the time function.

**However, by activating the Parent Feature the Game will require that Woolf be found in order to complete the level.*

Scrolls - You need to find a scroll in each level in order to complete your search.

Clocks - Get bonus time and points for every clock you obtain! Look for special clocks in the expert level (See Notes Section)

Point Markers - Small plates with scores on them will add to your total point score by collecting them.

Woof - When you find Waldo's dog you will be taken to a bonus round. You'll see him flying a magic carpet over a fantastic cityscape. Grab all the bonus points you can by maneuvering the carpet with the Control Pad. You'll return to the level you were searching after the bonus round is completed.

Waldo - Well, what would this game be called if you weren't looking for you-know-who? You need to find Waldo (and the scroll) in each level to graduate to the next one.

- The **Expert** mode also features a bonus challenge! When you find two clocks in a row, the time stops and a clue comes at the top of the screen for an item or person that you need to find with the magnifying glass. Once you find it, you'll be awarded bonus points!

- When playing in either the Normal or Expert games, you will return to the Selection Stage after successfully completing each search. You can choose which level to try next. After completing the first four searches, you automatically go to the Super Waldo Challenge! This is the last (and most difficult) puzzle! In the Land of the Waldos, you start by looking for the Waldo that is missing a shoe . . . Try to complete the challenge five times for a "quick game" score. Do this if you don't have the time to play a complete game.

- **TIME.** Because time is of the essence, you must complete the search in each level before the clock runs out. Collecting hidden clocks throughout each level buys you some extra searching time. If you run out of time, you will see a lose screen and your points will be tallied up. If you wish to keep playing a continue feature returns you to a new game.
- If you return to play after a loss, an extra clock will be awarded to you (to give you just a little more time). Once again, good luck on your search for the magic scrolls!

90 DAY LIMITED WARRANTY:

T+HQ, Inc. (Toy Headquarters) warrants to the original consumer purchaser that this Game Pak ("PAK") (not including Game Pak Accessories or Robot Accessories) shall be free from defects in material and workmanship for a period of 90 days from date of purchase.
